Note 1 – Description of Plan

The following brief description of the Saucon Valley Country Club Retirement Plan (the “Plan”) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan’s provisions.

The Plan is a defined contribution pension plan established on October 1, 1994. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). All employees of Saucon Valley Country Club (the “Club”) who have been employed for one year during which they worked at least 1,000 hours, and are age eighteen or older, are eligible to participate in the Plan.

Participants’ accounts

Each participant’s account is credited with the participant’s contribution, allocations of the Club’s contribution, and any investment earnings, and charged for applicable administrative expenses. The benefit to which a participant is entitled is the benefit that can be provided from the participant’s vested account.

Contributions

Participants may contribute a percentage of their compensation subject to certain limitations set by the Internal Revenue Code. At its discretion, the Club contributes 3.5% of each eligible participant’s compensation to the Plan.

The Plan allows for rollover contributions from other qualified plans.

Vesting

Participants are immediately vested in all contributions plus actual earnings thereon.

Investment options

Each participant may direct the investment of his/her account in various investment options. The assets of the Plan, both employee and employer, are allocated to the applicable funds at the direction of the participant.

Participant loans

Under the terms of the Plan, participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum of the lower of \$50,000 or 50% of their vested account balance. The loans are secured by the balance in the participant’s account and bear interest at the prime rate (3.25% at December 31, 2013).

RETIREMENT PLAN**

**Notes to Financial Statements (continued)
December 31, 2013**

Note 1 – Description of Plan (continued)

Payment of benefits

On termination of service due to death, disability, or retirement, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account or periodic payments as further outlined in the Plan document. For termination of services due to other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution.

Note 2 – Summary of significant accounting policies

Basis of accounting

The Plan's financial statements are prepared using the accrual basis of accounting, except for the cash basis recording of benefits paid.

Investment valuation and income recognition

The Plan's investments are stated at fair value. Registered investment companies are valued at quoted market prices, which are based on the net asset value of shares held by the Plan.

The Plan's investments in Pooled Separate Accounts are stated at fair value for each fund, which is determined by a third-party service organization that values the underlying investments held by the Trustee on a daily basis. The investments in the Guaranteed Interest Account have been determined to be not fully benefit-responsive contracts as defined by *Financial Accounting Standards* and as a result are reflected at fair value, which is calculated as the value when discounting the contract less the contractually defined discontinuance charges.

Realized and unrealized gains and losses from the assets in each account are credited to or charged against each account.

Purchases and sales of securities are recorded on a trade-date basis. Interest and dividends are recorded when received.

Management fees and operating expenses charged to the Plan for investments in the mutual funds are deducted from income earned on a daily basis and are not reflected separately. Consequently, management fees and operating expenses are reflected as a reduction of return for such investments.

**SAUCON VALLEY COUNTRY CLUB
RETIREMENT PLAN**

**Notes to Financial Statements (continued)
December 31, 2013**

Note 2 – Summary of significant accounting policies (continued)

Concentrations of credit risk

The Plan investments consist of various Pooled Separate Accounts, mutual funds, and a Guaranteed Interest Account. These investments are exposed to various risks such as interest rate, market, credit, and liquidity. Due to the level of risk associated with these investments, it is reasonably possible that changes in the values of these investments will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits. Any default on a note receivable from a participant would be treated as a taxable distribution to the participant. The Plan's investments are not insured or protected by the Pension Benefit Guaranty Corporation or any other governmental agency; accordingly, the Plan is subject to the normal investment risks associated with money market funds, mutual funds, stocks, bonds, and similar type investments.

Use of estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires Plan management to make estimates and assumptions that affect the amounts reported in the financial statements. Actual results may differ from these estimates.

Subsequent events

The Plan has evaluated events and transactions for potential recognition or disclosure through September 29, 2014, which is the date the financial statements were available to be issued.

The Club recently decided to merge the Plan into a one that is sponsored by the Club Managers Association of America and managed by Great West Financial Retirement Services ("Great West"). Plan assets are expected to be transferred to Great West in December 2014.

For assets measured at fair value on a recurring basis, Accounting Standards Codified Topic *Fair Value Measurements* require quantitative disclosures about the fair value measurement separately for each major category of assets. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets and the lowest priority to unobservable inputs. The three levels of the fair value hierarchy are as follows:

Level 1 – Unadjusted quoted prices in active markets for identical assets.

Level 2 – Quoted prices for identical assets in markets that are not active, quoted prices for similar assets in active markets, inputs other than quoted market prices, and inputs derived principally from observable market data.

Level 3 – Prices or valuations that require inputs that are both significant to the fair value measurement and unobservable.

Valuation techniques

The Plan's level 3 investment in the Guaranteed Interest Contract is valued by the Custodian using an internal method based by calculating the difference between the applicable U.S. Treasury rate, adjusted according to the contract, and the actual interest rate being earned by the account. This difference is multiplied by the remaining term of maturity of the fixed interest account, resulting in a market value adjustment factor. The fixed interest account contract value is then multiplied by the market value adjustment factor to determine the market value of the fixed interest account. An adjustment to the contract value of the fixed interest account for market value is only recorded if the resulting market value is less than the contract value, as Principal Life Insurance Company is contractually obligated to pay only the fixed contract value when a fixed interest account contract terminates as a result of a non-benefit-related withdrawal. The contract is included in the financial statement at contract value, which approximates fair value as reported to the Plan. In addition, the Plan's management reviews valuations for reasonableness based upon changes in interest rates.

The Plan's level 3 investment in Pooled Separate Accounts is the Principal U.S. Property Separate Account, which invests in United States real estate. Each owned property is appraised by a qualified external appraisal company once annually, with appraisals on various properties spread throughout the year. Principal Real Estate Investors uses a valuation consultant to coordinate the annual appraisal process; however, all appraisals are ultimately reviewed and approved by Principal Real Estate Investor's chief appraiser.

Principal Global Investors LLC, through its wholly owned subsidiary Principal Real Estate Investors, LLC, is the valuation agent for the Principal U.S. Property Separate Account.

Valuation adjustments to the value of the underlying real estate assets that are processed through the Valuation Update (VU) system as material events to the properties take place. Examples include: changes to the macroeconomic outlook for the national or local economy, changes to the property's competitive position in the market/submarket, changes to leasing status, changes to the property's income stream, changes to the property's physical condition of projected capital expenditures, changes to the property's operating expense outlook, and external appraisal. As these events occur, the asset manager or analyst logs the event (along with any capital expenditures related to the event) into VU. After the event is logged, the valuation consultant updates the model and inputs the gross value change related to the event. The event must be approved by Principal Real Estate Investors' asset manager or analyst and appraisal services before the update to the Net Asset Value (NAV) is applied.

**SAUCON VALLEY COUNTRY CLUB
RETIREMENT PLAN**

**Notes to Financial Statements (continued)
December 31, 2013**

Note 3 – Investments (continued)

Valuation techniques (continued)

The daily adjustment to the fund NAV is composed of the daily recognition of the projected net income plus the day's finalized events from VU. The changes to NAV are recapped in a spreadsheet called the trend factor. The income section of the trend factor is updated on the first day of the month with the income projections provided by the property managers and the appreciation section is updated daily for the finalized VU events.

On a monthly basis, real estate property values are updated and are reconciled and reviewed by Principal Real Estate Investors' controller and chief appraiser for the Principal U.S. Property Separate Account against the monthly valuation appraisal reports received from the valuation consultant. On a quarterly basis, activity is reconciled to the general ledger by the Principal Real Estate Investors' controller. On an annual basis, the Principal U.S. Property Separate Account has a financial statement audit performed by a public accounting firm.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

There have been no changes in the methodologies used at December 31, 2013 and 2012.

Note 4 – Plan termination

Although it has not expressed any intent to do so, the Club has the right under the Plan to discontinue its contributions at any time and terminate the Plan subject to the provisions of ERISA.

Note 5 – Related party transactions

Certain Plan investments are shares of funds managed by Principal Life Insurance Company. Principal Life Insurance Company is the Custodian as defined by the Plan, and therefore, these transactions qualify as party-in-interest.

**SAUCON VALLEY COUNTRY CLUB
RETIREMENT PLAN**

**Notes to Financial Statements (continued)
December 31, 2013**

Note 6 – Tax status

The Internal Revenue Service has determined that the Plan, as designed, is in compliance with applicable sections of the Internal Revenue Code (“IRC”). The Plan has been amended and restated since receiving the determination letter. However, the Plan Administrator believes that the Plan is designed, and is currently being operated, in compliance with the applicable provisions of the IRC. Accordingly, the accompanying financial statements do not include a provision for income tax. The Plan’s Form 5500 for 2010 and forward is subject to review by the appropriate regulatory authorities.

Note 7 – Administration of Plan Assets

Delaware Charter Guarantee & Trust Company (d/b/a Principal Trust Company) and Principal Life Insurance Company (collectively referred to as the “Custodians”) hold the Plan’s investments assets and execute investment transactions. They also disburse periodic benefit payments to eligible participants or their beneficiaries. The Custodians have certified to the Plan Administrator the following information with respect to the Plan year ended December 31, 2013 to be complete and accurate to the best of their knowledge:

- a) Schedule of Assets Held for Investment Purposes.
- b) Statement of Changes in Net Assets.
- c) Transaction Detail.

As permitted by Section 2520.103-8 of the Department of Labor Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator requested that no audit procedures be performed with respect to the information so certified.
