Note A - Description of Plan

The following description of the W. S. Darley & Co. Employee's Profit Sharing 401(k) Plan (Plan) provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

1. General

   The Plan is a discretionary contribution plan with compensation deferral features covering all full time employees of W. S. Darley & Co. (Company) exclusive of employees covered by the collective bargaining agreement (union employees) and employees who are nonresident aliens and who do not receive any U.S. source income from the Company. To participate in the Plan, employees must have at least one year of service and be age eighteen or older. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

2. Contributions

   Participants may contribute up to 60% of pre-tax annual compensation (maximum limit of $17,500 in 2013), as defined in the Plan. Participants who have attained age 50 or older before the end of the Plan year are eligible to make catch-up contributions (maximum limit of $5,500 in 2013). Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans (rollover).

   The Company may, at its discretion, make matching contributions based on a participant's contribution. For the year ended December 31, 2013 the Company made a matching contribution equal to 25% of the first 5% of compensation deferrals the employee makes to the Plan, determined each pay period.

   The Company may also, at its discretion, make a profit sharing contribution to the Plan at year-end on behalf of all eligible employees. To be eligible an employee must have worked 500 hours during the Plan year. For the year ended December 31, 2013 the Company made a profit sharing contribution equal to 7.5% of eligible compensation.

3. Participant Accounts and Administration

   Under the terms of the Plan agreement, the trustee invests contributions in several investment funds as specified by the participants. The trustee maintains a separate account in the name of each participant and allocates investment income to the accounts on a daily basis. Each participant's account is credited with the participant's contribution, an allocation of the Company's matching and discretionary contributions and Plan earnings. Allocations are based on participant earnings or account balances, as defined. Forfeitures will be reallocated to remaining participants, in accordance with Plan provisions. The plan administrator authorizes all withdrawals of Plan assets and is responsible for the general administration of the Plan and compliance with its provisions. The costs of administering the Plan are borne by either the Company or the Plan. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Note A - Description of Plan (Cont'd)

4. Vesting
   Participants are immediately vested in their contributions, plus actual earnings thereon.Vesting in the Company's matching and discretionary contribution portion of their accounts plus actual earnings thereon is based on years of service, as defined. A participant is 100% vested after six years of credited service.

5. Forfeited Accounts
   At December 31, 2013 and 2012, forfeited nonvested accounts totaled $18,713 and $7,657, respectively. This amount will be allocated to plan participants. Also, in 2013 $7,657 of forfeitures was allocated to Plan participants.

6. Payment of Benefits
   On termination of service, if the amount exceeds $1,000 a participant may elect to receive either a lump-sum amount equal to the value of their vested account, or elect to have the vested amount of their account maintained under the Plan until their defined normal retirement age, at which time the Plan will automatically make a distribution. If the amount is less than $1,000 a participant must take a lump-sum distribution.

7. Notes Receivable From Participants
   Loans are available to participants for the lesser of $50,000 or 50% of their vested account balance. The minimum loan is $1,000. Loan terms range from one to five years or longer for the purchase of a primary residence. The loans bear interest at a rate commensurate with local prevailing rates as determined by the plan administrator. Principal and interest is paid ratably through monthly payroll deductions.

Note B - Summary of Accounting Policies

Basis of Accounting
The Plan's financial statements are prepared on the accrual basis of accounting.

Investment Valuation and Income Recognition
Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note C for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest and dividend income are recorded on the accrual basis. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Note B - Summary of Accounting Policies (Cont'd)

Common Collective Trusts

Under accounting principles generally accepted in the United States of America, investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan.

The Plan invests in fully benefit-responsive investment contracts held in the Morley Stable Value Fund. As required by generally accepted accounting principles (GAAP), the statement of net assets available for benefits presents the fair value of the investment contract as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The statement of changes in net assets available for benefits is prepared on a contract value basis.

Notes Receivable From Participants

Notes receivable from participants are reported at their unpaid principal balance plus any accrued but unpaid interest. No allowance for credit losses has been recorded as of December 31, 2013 or 2012. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Payment of Benefits

Benefits are recorded when paid.

Expenses

All expenses of maintaining the Plan are paid by the Plan or the Company.

Subsequent Events

The Plan has evaluated subsequent events through October 10, 2014, the date which the financial statements were available to be issued.

Estimates and Assumptions

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosures of contingent assets and liabilities. Actual results could differ from those estimates.

Note C - Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy under Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 820 are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include the following:

Quoted prices for similar assets or liabilities in active markets;

Quoted prices for identical or similar assets or liabilities in inactive markets;

Inputs other than quoted prices that are observable for the asset or liability;

Inputs that are derived principally from, or corroborated by, observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2013 and 2012.

Mutual Funds: Valued at the net asset value of the shares held by the Plan at year-end.

Common Collective Trust: Valued at the net asset value per unit as determined by the manager of the trust. Such net asset value is based on the value of the underlying assets and liabilities of the trust. The investment objective of the trust is to preserve principal and provide a stable return over the life of the investment. Participants may transfer in and out of the trust on a daily basis without any prohibitive restrictions.

Note C - Fair Value Measurements (Cont'd)

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2013 and 2012:

Benefits paid to participants per Schedule H to the Form 5500	$ 749,993

Note G - Excess Participant Contributions Payable

The Plan failed the discrimination test for the year ended December 31, 2013. Excess contributions amounting to $16,667 are recorded as a liability in the accompanying statements of net assets available for benefits and as a reduction of participant contributions for the year. The Plan expects to reimburse these excess contributions to its participants during 2014.

Note H - Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their employer contributions.

Note I - Tax Status

The Plan obtained its latest determination letter in March of 2008, in which the Internal Revenue Service (IRS) stated that the Plan is in compliance with the applicable requirements of the Internal Revenue Code (IRC). The Plan has been amended since receiving the determination letter. Plan management and Plan's tax counsel believe that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the organization has taken an uncertain tax position that more likely than not would not be sustained upon examination by the IRS. The plan administrator has analyzed tax positions taken by the Plan, and has concluded that as of December 31, 2013, there are no uncertain tax positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2010.

Note J - Party-In-Interest Transactions

Certain Plan investments are shares of mutual funds managed by Fifth Third Bank. Fifth Third Bank is the trustee as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan for the investment management services are included in net appreciation in fair value of the investments, as they are paid through revenue sharing, rather than a direct payment. In addition, the Plan made direct payments to the third party administrator of $9,405 which was not covered by revenue sharing.

Note J - Party-In-Interest Transactions (Cont'd)

Certain employees of the Company act as a fiduciary of the Plan and are responsible for the administration of the Plan. The employees are compensated by the Company and do not receive any compensation from the Plan.

Note K - Delinquent Transmittals

During 2013 and 2012, the Company erroneously failed to remit certain employee deferrals totaling $-0- and $10,047 and the corresponding discretionary match of $16 and $1,633 to the Plan, respectively. These amounts are included in the Plan's receivables at December 31, 2013 and 2012. The Company remitted the employee deferrals and discretionary match deposits to the Plan on September 30, 2014 and September 18, 2013, respectively. The Company computed lost earnings on these deposits totaling $-0- and $544, respectively, and made a contribution to the Plan for lost earnings on September 30, 2013.

Note L - Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participant's account balances and the amounts reported in the statements of net assets available for benefits.
