Notes to Financial Statements December 31, 2013 and 2012

Note 1 - Plan Description

The following description of Jack Doheny Companies, Inc. 401(k) Plan and Trust (the "Plan") provides only general information regarding the Plan. Participants should refer to the plan document for a more complete description of the Plan's provisions.

General - The Plan, established August 1, 1995, is a defined contribution plan covering all full-time employees of Jack Doheny Supplies, Inc. (JDS MI), Jack Doheny Supplies Ohio, Inc. (JDS OH), Jet-Vac, Inc. (JV), and Orange Industrial Services, Inc. (through May 2012). Effective June 30, 2013, JDS OH and JV were merged with and into JDS MI. JDS MI is the surviving corporation and is now known as Jack Doheny Companies, Inc. As such, the Plan was amended effective June 30, 2013 and Jack Doheny Supplies, Inc. 401(k) Plan and Trust is now known as Jack Doheny Companies, Inc. 401(k) Plan and Trust and covers all full-time employees of Jack Doheny Companies, Inc. (the "Company"). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Additionally in May 2012, the Company sold Orange Industrial Services, Inc. and the Plan was subsequently amended to cease Orange Industrial Services, Inc.'s participation in the Plan. As a result, a partial plan termination occurred and affected participants became 100 percent vested in their account balances. All assets associated with the participants of Orange Industrial Services, Inc. were distributed by December 31, 2012. All other participants remain subject to the Plan's vesting requirements.

Eligibility - Employees who have attained the age of 21 and have completed at least six months of service are eligible to participate in the Plan.

Contributions - Contributions to the Plan are invested as directed by the participant in any one or more investment alternatives. The amount of each participant's deferred compensation is treated as an employee elective contribution and allocated to that participant's elective account. Total deferrals may not exceed the dollar limit set by law.

The Company's matching contribution is 25 percent on the first 3 percent of compensation that a participant contributes. There is an additional match of 50 percent on the next 3 percent of compensation that is contributed.

The Company may also make a discretionary contribution in an amount as determined by the Company's board of directors. There were no discretionary contributions made during 2013.

Participant Accounts - Each participant's account is credited with the participant's contribution, the Company's matching and discretionary contributions, an allocation of the Plan's earnings, and administrative expenses. Allocations are based on participants' compensation or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's account.

Notes to Financial Statements December 31, 2013 and 2012

Note 1 - Plan Description (Continued)

Vesting - Participants are immediately vested in their contribution plus actual earnings thereon. Vesting in the Company's contribution portion of their accounts, plus actual earnings thereon, is based on years of service. Participants vest in Company contributions at a rate of 50 percent after two years of service, 75 percent after the third year of service, and 100 percent after the fourth year of service.

Participant Notes Receivable - Participants may borrow from their accounts subject to certain maximum and minimum amounts as prescribed in the plan document and in the Internal Revenue Code. Notes receivable are collateralized by the participant's account balance and bear interest at a market rate.

Payment of Benefits - Distributions are payable upon retirement, death, disability, or termination of employment in the form of a lump-sum amount equal to the vested balance of a participant's account.

Hardship Withdrawals - Participants may request that all or a portion of their accounts constituting elective contributions be distributed in the case of severe financial hardship, as defined in the plan document. The Company must approve any such hardship withdrawals.

Termination - While it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in the Plan and by ERISA. Upon termination of the Plan, participants become 100 percent vested in their account balances.

Forfeitures - Forfeitures are made available in accordance with the Plan, including reinstating previously forfeited account balances of former participants as outlined in the Plan, satisfying any Company contribution that may be required, or using to pay any administrative expenses of the Plan.

Notes to Financial Statements December 31, 2013 and 2012

Note 2 - Summary of Significant Accounting Policies

Investment Valuation - The Plan's investments are stated at fair value, based on quoted market values except as noted below. The common collective trust fund investment is valued at contract value. Contract value represents investments at cost, plus accrued interest income, less amounts withdrawn to pay benefits. The fair value of the common collective trust fund is based on the fair value of the underlying net assets at the measurement date by the issuer of the fund. The Plan's interest in the common collective trust fund is based on its proportionate ownership interest in the fair value of the common collective trust fund. The common collective trust fund primarily holds guaranteed investment contracts, fixed-income securities, and derivatives. The fair value of the guaranteed investment contracts is based on current yields of similar instruments with comparable durations taking into account the contract terms, including interest reset intervals and the credit rating of the issuer. The fair value of the fixed-income securities is valued using quoted market prices and/or other market data for the same or comparable instruments and transactions in establishing the prices, discounted cash flow models, and other pricing models. These models are primarily industry-standard models that consider various assumptions, including time value and yield curve, as well as other relevant economic measures. The fair value of a wrapper contract provided by the contract issuer is based on the replacement cost methodology which is the present value of the difference between the replacement wrapper fee and the contracted wrapper fee.

See Note 5 for additional information.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Participant Notes Receivable - Participant notes receivable are recorded at their unpaid principal balances plus any accrued interest. Participant notes receivable are written off when deemed uncollectible.

Administrative Expenses - Various administrative costs of the Plan are paid by the Company, which qualify as party-in-interest transactions.

Benefit Payments - Benefits are recorded when paid.

Use of Estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Jack Doheny Companies, Inc. 401(k) Plan and Trust

Notes to Financial Statements December 31, 2013 and 2012

Note 2 - Summary of Significant Accounting Policies (Continued)

Risks and Uncertainties - The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Subsequent Events - The financial statements and related disclosures include evaluation of events up through and including October 1, 2014, which is the date the financial statements were available to be issued.

Note 3 - Tax Status

The Plan has received a determination letter from the Internal Revenue Service indicating that the Plan, as designed, is qualified for tax-exempt treatment under the applicable section of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, management believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

In accordance with guidance on accounting for uncertainty in income taxes, management evaluated the Plan's tax position and does not believe the Plan has any uncertain tax positions that require disclosure or adjustment to the financial statements. The plan administrator believes the Plan is no longer subject to tax examinations for years prior to 2010.

Note 4 - Unaudited Information

Charles Schwab Bank (the "Custodian") holds the Plan's investments and executes all investment transactions. The investment balances and related investment income and losses included in the accompanying financial statements and supplemental schedule of assets held at end of year are based solely on information provided by the Custodian.

Notes to Financial Statements December 31, 2013 and 2012

Note 5 - Fair Value Measurements

Accounting standards require certain assets and liabilities be reported at fair value in the financial statements and provide a framework for establishing that fair value. The framework for determining fair value is based on a hierarchy that prioritizes the inputs and valuation techniques used to measure fair value.

The following tables present information about the Plan's assets measured at fair value on a recurring basis at December 31, 2013 and 2012.

Level 1 - Fair values determined by Level 1 inputs use quoted prices in active markets for identical assets that the Plan has the ability to access.

Level 2 - Fair values determined by Level 2 inputs use other inputs that are observable, either directly or indirectly. These Level 2 inputs include quoted prices for similar assets in active markets, quoted prices for identical or similar assets in markets that are not active, and inputs other than quoted prices that are observable for the asset.

Level 3 - Level 3 inputs are unobservable inputs, including inputs that are available in situations where there is little, if any, market activity for the related asset. These Level 3 fair value measurements are based primarily on management's own estimates using pricing models, discounted cash flow methodologies, or similar techniques taking into account the characteristics of the asset.

In instances whereby inputs used to measure fair value fall into different levels in the above fair value hierarchy, fair value measurements in their entirety are categorized based on the lowest level input that is significant to the valuation. The Plan's assessment of the significance of particular inputs to these fair value measurements requires judgment and considers factors specific to each asset.

There were no unfunded commitments or redemption restrictions related to the investment.

The Plan's policy is to recognize transfers between levels of the fair value hierarchy as of the actual date of the event of change in circumstances that caused the transfer. There were no significant transfers between levels of the fair value hierarchy during the 2013 and 2012 plan years.

Note 6 - Reconciliation to Form 5500

The net assets on the financial statements differ from the net assets on Form 5500 due to a common collective trust fund being recorded at contract value on the financial statements and at fair value on Form 5500. The net assets on the financial statements were lower than those on Form 5500 by \$2,915 and \$5,751 at December 31, 2013 and 2012, respectively. Additionally, the net income on Form 5500 for the year ended December 31, 2013 is lower than the increase on the financial statements by \$2,836.
