Acument Global Technologies, Inc. Savings Plan

Notes to Financial Statements December 31, 2013 and 2012

Note 1 - Plan Description

The following description of Acument Global Technologies, Inc. Savings Plan (the "Plan") provides only general information. Participants should refer to the plan document for a more complete description of the Plan's provisions.

General - The Plan is a defined contribution plan covering substantially all full time employees of Acument Global Technologies, Inc. (the "Company"). The Plan does not cover leased employees, nonresident aliens and employees covered by a collective bargaining agreement, unless provided for under the provisions of the Plan. Employees who have completed 45 days of service are eligible to participate in the Plan. Eligible employees are automatically enrolled in the Plan once they have completed 45 days of service unless they affirmatively decline to participate. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions - Participants may elect to make 401(k) deferral contributions up to a maximum of 40 percent of the annual compensation (as defined) subject to certain Internal Revenue Service (IRS) limitations. Participants who have attained age 50 are eligible to make catch up contributions which are also subject to IRS limitations. If automatically enrolled, a participant's deferral is set at 3 percent of eligible compensation and increases annually by 1 percent until 6 percent or changed by the participant. Participants have the option to designate all or a portion of their contributions as Roth 401(k) or voluntary after-tax contributions. Participants may also make contributions to the Plan in the form of a rollover of funds from another qualified plan.

The Company contributes 100 percent of the first 1 percent of compensation that a participant contributes to the Plan, then 50 percent of the next 8 percent up to a total contribution of 5 percent of the employee's compensation. Discretionary matching contributions may be contributed as determined by the Company's board of directors. No such amounts were contributed in 2013.

Participant Accounts - Each participant's account is credited with the participant's contribution and allocations of the Company's contributions and plan earnings and charged with an allocation of administrative expenses. Allocations are based on participants' compensation or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. Participants may direct the investments of their account balances into various investment options offered by the Plan. Contributions of automatically enrolled participants are invested in the applicable life cycle fund based on a participant's age until the participant elects otherwise.

Acument Global Technologies, Inc. Savings Plan

Notes to Financial Statements December 31, 2013 and 2012

Note 1 - Plan Description (Continued)

Vesting - Participants are immediately 100 percent vested in all employee contributions and actual earnings thereon. Vesting in the employer contribution portion of their accounts plus actual earnings thereon, is based on years of service. Employer contributions after July 1, 2010, will fully vest after two years for nonbargained employees. Employer contributions after July 1, 2011, will fully vest after two years for bargained participants. Any prior matching contributions vest as follows: 25 percent at two years, 50 percent at three years, 75 percent at four years, and 100 percent at five years.

Forfeitures - If a participant is not fully vested on his or her termination date, the nonvested amount of the account is forfeited. Forfeitures may be used to offset plan expenses or reduce future employer contributions.

Benefit Payments - Distributions are payable upon the retirement, death, disability, or termination of employment in the form of a lump-sum amount equal to the vested balance of a participant's account.

In-service withdrawals are available in certain limited circumstances, as defined by the Plan. Hardship withdrawals are allowed for participants incurring an immediate and heavy financial need, as defined by the Plan. Hardship withdrawals are strictly regulated by the IRS, and a participant must exhaust all available loan options and available distributions prior to requesting a hardship withdrawal.

Participant Notes Receivable - Participants may borrow from their accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 reduced by the highest outstanding loan balance during the preceding 12-month period or 50 percent of their vested account balance. Loan terms range from one to five years. The loans are secured by the balance in the participant's vested account and bear interest at a reasonable fixed rate, which is commensurate with local prevailing rates as determined by the plan administrator at the date of issuance. Principal and interest is paid ratably through payroll deductions.

Party-in-interest Transactions - Certain plan assets are in investment funds managed by Diversified Investment Advisors. Diversified Investment Advisors is an affiliate of Transamerica Retirement Solutions Corporation, the Plan's record-keeper. Therefore, these transactions qualify as party-in-interest transactions as defined under ERISA guidelines.

Termination - While it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in the plan agreement and ERISA. Upon termination of the Plan, participants become 100 percent vested in their account balances.

Acument Global Technologies, Inc. Savings Plan

Notes to Financial Statements December 31, 2013 and 2012

Note 2 - Summary of Significant Accounting Policies

Investment Valuation and Income Recognition - Investments held by the Plan are stated at fair value, except for the Diversified Investment Advisors Stable Pooled Fund, a common collective trust fund that is stated at fair value with an adjustment to contract value. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for further discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded as earned. Dividends are recorded on the ex-dividend date.

Participant Notes Receivable - Participant notes receivable are recorded at their unpaid principal balances plus any accrued interest. Participant notes receivable are written off when deemed uncollectible.

Benefit Payments - Benefits are recorded when paid.

Administrative Expenses - Various administrative costs are paid by the Company.

Use of Estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of additions and deductions during the reporting period. Actual results could differ from those estimates.

Risks and Uncertainties - The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Subsequent Events - The financial statements and related disclosures include evaluation of events up through and including October 10, 2014, which is the date the financial statements were available to be issued.

Note 3 - Unaudited Information

State Street Bank and Trust Company (the "Trustee") holds the Plan's investments and executes all investment transactions. The investment balances and related investment income and losses included in the accompanying financial statements and supplemental schedule of assets held at end of year are based solely on information provided by Transamerica Retirement Solutions Corporation, on behalf of the Trustee.

* Investment stated at contract value. Fair value was \$6,301,815 and \$5,627,774 at December 31, 2013 and 2012, respectively (see Note 4).

Note 4 - Fair Value Measurements

Accounting standards require certain assets and liabilities be reported at fair value in the financial statements and provide a framework for establishing that fair value. The framework for determining fair value is based on a hierarchy that prioritizes the inputs and valuation techniques used to measure fair value.

The following tables present information about the Plan's assets measured at fair value on a recurring basis at December 31, 2013 and 2012.

Level 1 - Fair values determined by Level 1 inputs use quoted prices in active markets for identical assets that the Plan has the ability to access.

Level 2 - Fair values determined by Level 2 inputs use other inputs that are observable, either directly or indirectly. These Level 2 inputs include quoted prices for similar assets in active markets, quoted prices for identical or similar assets in markets that are not active, and inputs other than quoted prices that are observable for the asset.

Level 3 - Level 3 inputs are unobservable inputs, including inputs that are available in situations where there is little, if any, market activity for the related asset. These Level 3 fair value measurements are based primarily on management's own estimates using pricing models, discounted cash flow methodologies, or similar techniques taking into account the characteristics of the asset.

Acument Global Technologies, Inc. Savings Plan

Notes to Financial Statements December 31, 2013 and 2012

Note 4 - Fair Value Measurements (Continued)

In instances whereby inputs used to measure fair value fall into different levels in the above fair value hierarchy, fair value measurements in their entirety are categorized based on the lowest level input that is significant to the valuation. The Plan's assessment of the significance of particular inputs to these fair value measurements requires judgment and considers factors specific to each asset.

The following valuation methodologies have been used to value the Plan's investments:

Mutual Funds - Mutual funds are valued at closing quoted prices reported in active markets.

Common Collective Trust Fund - The common collective trust fund investment is valued at contract value. Contract value represents investments at cost plus accrued interest income less amounts withdrawn to pay benefits. The fair value of the common collective trust fund is based on the fair value of the underlying net assets at the measurement date by the issuer of the fund. The Plan's interest in the common collective trust fund is based on its proportionate ownership interest in the fair value of the common collective trust fund.

The common collective trust fund invests in the Wells Fargo Stable Return Fund G, a common collective trust which primarily holds guaranteed investment contracts and synthetic investment contracts. The fair value of the guaranteed investment contracts is based on current yields of similar instruments with comparable durations taking into account the contract terms including interest reset intervals and the credit rating of the issuer. The fair value of fixed-income securities included in the synthetic investment contracts is determined by quoted market prices and/or using market data for similar instruments and transactions in establishing prices, discounted cash flow models, and other pricing models. These models are primarily industry-standard models that consider various assumptions, including time value and yield curve as well as other relevant economic measures. The fair value of a wrapper contract provided by a security-backed contract issuer is based on the replacement wrapper fee and the contracted wrapper fee. Participants may transfer in and out of the fund on a daily basis without prohibitive restrictions. There are no unfunded commitments to the fund.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The Plan's policy is to recognize transfers between levels of the fair value hierarchy as of the actual date of the event of change in circumstances that caused the transfer. There were no transfers between levels of the fair value hierarchy during 2013.

Note 5 - Tax Status

The Plan has received a determination letter from the Internal Revenue Service indicating that the Plan, as designed, is qualified for tax-exempt treatment under the applicable section of the Internal Revenue Code. Accordingly, no provision for income taxes has been made in the accompanying statements.

Acument Global Technologies, Inc. Savings Plan

Notes to Financial Statements December 31, 2013 and 2012

Note 5 - Tax Status (Continued)

In accordance with guidance on accounting for uncertainty in income taxes, management evaluated the Plan's tax positions and does not believe the Plan has any uncertain tax positions that require disclosure or adjustment to the financial statements. The plan administrator believes the Plan is no longer subject to tax examinations for years prior to 2010.
