Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audits in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's ("DOL") Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 ("ERISA"), the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 10, which was certified by The Bank of New York Mellon/BNY Mellon, N.A., the trustee of the Plan, except for comparing such information with the related information included in the financial statements. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the trustee as of December 31, 2013 and 2012, and for the years then ended, that the information provided to the plan administrator by the trustee is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Report on Form and Content in Compliance With DOL Rules and Regulations

The form and content of the information included in the financial statements, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

Notes to Financial Statements
December 31, 2013 and 2012

1. Description of the Plan

The following description of the Wyman-Gordon Pennsylvania, LLC Hourly Pension Plan for Union Employees of the Mountaintop, PA Division, (the "Plan") is provided for general information purposes only. Participants should refer to the plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined benefit pension plan that was sponsored by GE Aviation Systems LLC ("GE") and provided retirement benefits to covered employees of Unison Engine Components, an affiliate of GE. On July 14, 2011, Precision Castparts Corp. ("PCC") purchased the rings operations of Unison Engine Components. On that same date, Wyman-Gordon Pennsylvania, LLC (the "Company"), a wholly-owned subsidiary of PCC, assumed sponsorship of the Plan. The assets and the accumulated liability for the Plan were transferred to the new plan sponsor. Assets are invested in the Precision Castparts Corp. Master Trust Defined Benefit Plans ("Master Trust") with the Bank of New York Mellon ("BNYM"). The Plan is subject to the provisions of the Employee Retirement Income Securities Act of 1974 ("ERISA").

Effective May 24, 2013, the Plan was amended to close participation to employees hired after May 25, 2013.

The Plan has evaluated subsequent events for recognition or disclosure through September 26, 2014, the date the financial statements were available to be issued.

Pension Benefits

The Plan was established to provide its participants with benefits for normal retirement at age 65 with between three and seven years of vesting service, or early retirement at age 55 provided the participant is fully vested. Except as noted above, all hourly employees become participants in the Plan on the later of the date they become covered by a collective bargaining agreement or upon completion of 30 days of service.

Monthly benefits paid to participants at normal retirement (65 years of age) are based upon an escalating scale of benefit rates.

The monthly benefits payable to early retirees are based on the amounts calculated as of the normal retirement date reduced by 0.5% for each month that the early retirement date precedes the normal retirement date.

Participants may elect to receive their benefits as a joint and survivor annuity or a life annuity payable upon retirement. If the actuarially equivalent present value of any retirement benefit is \$1,000 or less, it will be paid in a single sum payment.

Death and Disability Benefits

If an active participant, who was married for at least one year preceding his or her death, dies prior to the participant's benefit commencement date, the surviving spouse will be eligible for a death benefit based on the participant's vested accrued benefit. Any participant who suffers a permanent and total disability while actively employed and who is fully vested in a plan benefit will be paid an ancillary disability benefit equal to his or her accrued plan benefit. Payment commences upon disability and continues until the disability ends or the participant dies or retires.

2. Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements of the Plan are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, disclosures of contingent assets and liabilities, and the actuarial present value of accumulated plan benefits at the date of the financial statements, and changes therein. Actual results could differ from those estimates.

Payment of Benefits

Benefit payments to participants are recorded upon distribution.

Administrative Expenses

The Plan's expenses are paid either by the Plan or the Company, as provided by the plan document. Expenses that are paid directly by the Company are excluded from these financial statements. Certain expenses incurred in connection with the general administration of the Plan that are paid by the Plan are recorded as deductions in the accompanying Statement of Changes in Net Assets Available for Benefits. In addition, certain investment related expenses are included in net appreciation of fair value of investments presented in the accompanying Statement of Changes in Net Assets Available for Benefits.

Investment Valuation and Income Recognition

The Plan's interest in the Master Trust is reported at fair value based on underlying investments. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for a discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation in the value of investments is allocated by the Master Trust to the Plan based upon the Plan's daily weighted average percentage of net assets for a given month.

Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits are those future periodic payments, including lump-sum distributions, that are attributable under the Plan's provisions to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries. Benefits under the Plan are based on employees' compensation and years of credited service. Benefits payable under all circumstances such as retirement, death, disability, and termination of employment are included to the extent they are attributable to employee service rendered to the valuation date.

The actuarial present value of accumulated plan benefits presented below is determined by the Plan's actuary as of January 1, 2013. The actuarial present value of accumulated plan benefits is that amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment.

The actuarial present value of accumulated plan benefits as of January 1, 2013 is as follows:

Vested benefits:	
Participants and beneficiaries currently receiving payments	\$ 1,473,191
Other participants	<u>2,346,207</u>
Total vested benefits	3,819,398
Nonvested benefits	<u>111,850</u>
Total actuarial present value of accumulated plan benefits	<u><u>\$ 3,931,248</u></u>

Wyman-Gordon Pennsylvania, LLC Hourly Pension Plan for Union Employees of the Mountaintop, PA Division

Notes to Financial Statements
December 31, 2013 and 2012

The changes in the actuarial present value of the accumulated plan benefits for the year ended December 31, 2012 are summarized as follows:

Actuarial present value of accumulated plan benefits, at beginning of year	\$ 3,640,671
Increase (decrease) during the year attributable to:	
Benefits accumulated	129,591
Increase for interest due to decrease in discount period	285,046
Benefits paid	(158,237)
Actuarial loss	<u>34,177</u>
Actuarial present value of accumulated plan benefits, at end of year	<u>\$ 3,931,248</u>

Significant assumptions underlying the actuarial computations are as follows:

- a) Mortality - RP-2000 Combined Healthy Mortality Table projected to 2020.
- b) Retirement age - Varying percentages of 2.5% to 100% for the ages of 55 through 70 for active participants and age 65 for terminated vested participants.
- c) Investment return - 8%.

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

3. Fair Value Measurements

The Plan measures its investments at fair value on a recurring basis in accordance with accounting principles generally accepted in the United States of America. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The framework that the authoritative guidance establishes for measuring fair value includes a hierarchy used to classify the inputs used in measuring fair value. The hierarchy prioritizes the inputs used in determining valuations into three levels. The level in the fair value hierarchy within which the fair value measurement falls is determined based on the lowest level input that is significant to the fair value measurement. The levels of the fair value hierarchy are as follows:

Level 1 - Fair value is based on unadjusted quoted prices in active markets that are accessible to the Plan for identical assets. These generally provide the most reliable evidence and are used to measure fair value whenever available.

Wyman-Gordon Pennsylvania, LLC Hourly Pension Plan for Union Employees of the Mountaintop, PA Division

Notes to Financial Statements
December 31, 2013 and 2012

Level 2 - Fair value is based on significant inputs, other than Level 1 inputs, that are observable either directly or indirectly for substantially the full term of the asset through corroboration with observable market data. Level 2 inputs include quoted market prices in active markets for similar assets or liabilities, quoted market prices in inactive markets for identical or similar assets, and other observable inputs.

Level 3 - Fair value would be based on significant unobservable inputs. Examples of valuation methodologies that would result in Level 3 classification include option pricing models, discounted cash flows, and similar techniques.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2013 and 2012.

Valuation of investments held in the Master Trust with the BNYM:

The Master Trust asset allocation strategy is designed to balance the objectives of achieving the asset return assumption consistently over the long-term while minimizing the volatility of the funded status. Asset classes with differing expected rates of return, return volatility and correlations are utilized to control risk and provide diversification. The asset categories are described below, along with the valuation methodologies and investment level classifications.

- Public Equity Securities (Long/Hedged) - Long equity investments consist of publicly traded equity securities that are well diversified across managers, styles, sectors and countries. Hedged equity investments typically add short positions in equities or equity futures in order to generate absolute returns regardless of equity market direction. Public equity investments made directly through managed (separate) account structures and valued based upon closing prices reported in the active trading markets are classified as level 1. Equity investments made indirectly via liquid pooled funds valued at the net asset value (NAV) of the fund are classified as level 2 and are typically valued at the most recently published NAV of the fund, which may be derived from underlying investment values one quarter earlier, unless management believes an adjustment to NAV is warranted based on changes in observable inputs or an expectation that an investment will be sold at a value other than NAV.
- Private Equity - Private equity investments consist of investments in limited partnerships or commingled vehicles with managers who purchase interests in non-public companies. These may be described as venture capital, early stage, special situations or restructuring funds. Private equity funds typically have low liquidity, a 10 year or longer investment commitment, and valuation methodologies that require the use of significant unobservable inputs. Private equity investments are classified as level 3 and are typically valued at the most recently published NAV of the fund, unless management believes an adjustment is warranted as described above. For the years ended December 31, 2013 and December 31, 2012, no material adjustments were made to fund NAVs. As of December 31, 2013, unfunded capital commitments to private equity investments were approximately \$15 million.

Wyman-Gordon Pennsylvania, LLC Hourly Pension Plan for Union Employees of the Mountaintop, PA Division

Notes to Financial Statements
December 31, 2013 and 2012

- **Absolute Return (Market Sectors/Arbitrage)** - Absolute return strategies are investments with managers who seek specified levels of absolute returns with minimal correlation to market movements. Absolute return managers typically invest in futures, forwards or options on a variety of asset classes. Market sector strategies seek to capitalize on movements in commodity, currency, interest rate and/or other traditional markets while arbitrage strategies focus on credit, volatility or other alternative asset classes. Investments are typically made in limited partnerships and classified as level 2 when funds offer regular liquidity at fund NAVs and reported values are based on significant observable inputs. All other investments are classified as level 3 and are typically valued at the most recently published NAV of the fund, unless management believes an adjustment is warranted as described above. As of December 31, 2013, unfunded capital commitments to absolute return investments were approximately \$3 million.
- **Royalty Investments** - Royalty investments are made through investments in limited partnerships which purchase income-producing royalties derived from sales of pharmaceutical products. Valuation of the fund is determined from an independent appraisal process whereby significant observable inputs are used in determining the fund's NAV. Liquidity is typically arranged in the secondary market with trades occurring at the most recent published NAV. Royalty investments are classified as level 2 and are typically valued at the most recently published NAV of the fund, unless management believes an adjustment is warranted as described above.
- **Fixed Income (Investment/Non-Investment Grade)** - Fixed income investments consist of public and private fixed income securities of U.S. and non-U.S. government and corporate issuers and fixed income mutual funds, and interest rate derivatives intended to hedge a portion of the pension plan's sensitivity to interest changes. As of December 31, 2013, the Master Trust held approximately \$327 million of notional interest rate derivatives. Fixed income investments made directly through managed (separate) account structures and valued based upon closing prices reported in the active trading markets are classified as level 1. Over-the-counter derivatives and fixed income investments made indirectly via pooled funds offering daily to quarterly liquidity and valued at the NAV of the fund are classified as level 2. Fixed income investments with low liquidity and valuation methodologies that require the use of significant unobservable inputs are classified as level 3. As of December 31, 2013, unfunded capital commitments to fixed income investments were approximately \$24 million.
- **Cash/Other** - Cash and other investments include highly liquid money market securities, demand deposits and other cash equivalents. Cash and other investments are classified as level 1.

The preceding methods may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

4. Funding Policy

The Company's funding policy is to make annual contributions to the Plan as determined by the Plan's independent actuary in amounts necessary to provide the Plan with assets sufficient to fund participants' benefits by the time they retire. No participant contributions are permitted. The minimum funding requirements of ERISA were met for 2013 and 2012.

Although it has not expressed any intention to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA.

5. Plan Termination

In the event the Plan terminates, the net assets of the Plan will be allocated, as prescribed by ERISA and its related regulations, generally to provide the following benefits in the order indicated:

- a) Annuity benefits that former employees or their beneficiaries have been receiving for at least three years, or that employees eligible to retire for that three-year period would have been receiving if they had retired with benefits in the normal form of annuity under the Plan. The priority amount is limited to the lowest benefit that was payable (or would have been payable) during those three years. The amount is further limited to the lowest benefit that would be payable under plan provisions in effect at any time during the five years preceding plan termination.
- b) Other vested benefits insured by the Pension Benefit Guaranty Corporation ("PBGC") (a U.S. government agency) up to the applicable limitations (discussed subsequently).
- c) All other vested benefits (that is, vested benefits not insured by PBGC).
- d) All nonvested benefits.

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination. However, a statutory ceiling exists, which is adjusted periodically, on the amount of an individual's monthly benefit that the PBGC guarantees.

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations and may also depend on the financial condition of the Company and the level of benefits guaranteed by the PBGC.

6. Investment in Master Trust

All of the Plan's investments are in the Master Trust. The Plan's interest is calculated based on the fair value at the end of the previous period, plus any contributions and income received, less benefit payments and expenses paid for each plan during the period.

At December 31, 2013 and 2012, the Plan's interest in the net assets of the Master Trust with the BNYM was .47% and .41%, respectively. Investment income and administrative expenses relating to the Master Trust are allocated to the individual plans based upon the amount of time the Plan's assets were invested in the Master Trust.

The following table presents the net assets of the Master Trust as of December 31, 2013 and 2012:

Gains and losses (realized and unrealized) included in the change in net assets for the period above are reported in net appreciation in fair value of investments in the Statement of Changes in Net Assets Available for Benefits.

Transfers Between Levels - The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in economic conditions or model-based valuation techniques may require the transfer of financial instruments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period.

We evaluate the significance of transfers between levels based upon the nature of the financial instrument and size of the transfer relative to total net assets available for benefits. For the years ended December 31, 2013 and 2012, there were no transfers between levels.

7. Related Party and Party In Interest Transactions

The Plan's investments are administered under a contract with BNYM, the trustee of the Plan. Contributions are held by and managed by BNYM, who invests cash received, interest, and dividend income and make distributions to participants. These transactions qualify as party in interest transactions which are exempt from the prohibited transactions rules of ERISA.

Certain expenses of BNYM are paid by the Plan related to plan operations and investment activity described in Note 1. Additionally, certain administrative functions of the Plan are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan.

Notes to Financial Statements
December 31, 2013 and 2012

8. Tax Status

The Internal Revenue Service ("IRS") has determined and informed the Company by a letter dated December 4, 2013, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code ("IRC"). The plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

Accounting principles generally accepted in the United States of America require management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more-likely-than-not would not be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan and has concluded that as of December 31, 2013, there are no uncertain positions taken, or expected to be taken, that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2010.

9. Risks and Uncertainties

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

In addition, the Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the Statement of Net Assets Available for Benefits.

10. Information Certified by Trustee

The plan administrator has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA for 2013 and 2012. Accordingly, The Bank of New York Mellon/BNY Mellon, N.A., the trustee of the Plan has certified to the completeness and accuracy of all investments reported in the accompanying Statement of Net Assets Available for Benefits as of December 31, 2013 and 2012, and the related investment activity reported in the Statement of Changes in Net Assets Available for Benefits for the years then ended.

Summary of Actuarial Assumptions and Methods

1. Discount Rates

As selected by the Plan Sponsor, the rates for calculating the PPA Funding Target are the September 2012 segment rates.

PPA Funding Target after application of MAP-21

– Segment 1 payments under 5 years	4.94%
– Segment 2 payments between 5 and 20 years	6.15%
– Segment 3 payments after 20 years	6.76%
– Effective Interest Rate	6.38%

2. Mortality

For calculating the Funding Target, mortality follows the RP-2000 annuitant and non-annuitant mortality tables for 2013 as prescribed by the IRS. For this purpose, disabled participants are assumed to have the same mortality as healthy participants.

3. Withdrawal

Age	Table T-7 Rates
20	.0994
30	.0930
40	.0775
50	.0422
60	.0015

4. Retirement

Age	Rate
55-59	2.5%
60-61	7.0%
62-64	15.0%
65	30.0%
66-69	20.0%
70	100.0%

5. Benefit Commencement Age for Inactive Participants with a Vested Deferred Benefit

Vested terminated participants are assumed to commence pension payments at Normal Retirement Age (age 65).

6. Future Participation and Service

It was assumed that each active participant would earn one year of participation and one year of service in each future plan year prior to the year of retirement, death, or withdrawal.

7. Probability of Marriage

80% of non-retired participants are assumed to be married. Males are assumed to be three years older than their spouses.

8. Expenses

Administrative expenses paid from the Trust are assumed to be \$80,000 annually, payable at the beginning of year.

9. Actuarial Value of Assets

For funding requirements, the Plan uses the 24 month average value of assets per IRS Notice 2009-22.

10. Actuarial Cost Method

For purposes of calculating the Funding Target, we calculate the actuarial present value of benefits accrued as of the beginning of the plan year. This cost method is typically referred to as the Unit Credit method.

11. Election of Form of Payment

All non-retired participants are assumed to elect the normal form of payment of a life annuity.

- (s) \$54.00 multiplied by the Participant's years of Credited Service completed on or after January 1, 2017.

10. Normal Form of Benefit

The normal form of benefit is a single life annuity.

If a participant is married at the time of his retirement and does not elect otherwise, he will receive his monthly benefit in a 50% joint & survivor form.

11. Optional Forms of Payment

A participant at retirement may select from the following forms of payment:

- Single Life Annuity
- An actuarially equivalent Joint & Survivor Annuity (any fractional amount not exceeding 100% Joint Annuitant Continuation)
- An actuarially equivalent Life Annuity with Guaranteed Payment Period (10 years guaranteed)

Actuarial equivalent value is determined using the 1951 Group Annuity Male Table projected to 1970 by Scale C with a five-year setback and an interest rate of 6.0%.

12. Early Retirement Date

First day of any designated month after the date on which a participant attains age 55 and completes 7 years of Credited Service.

13. Amount of Early Retirement Pension

An eligible participant's monthly early retirement benefit shall be equal to the accrued benefit on the early retirement date reduced by 0.5% for each month that the early retirement date precedes the normal retirement date.

14. Pre-Retirement Death Benefits

If a participant dies prior to reaching age 55, is vested and is married throughout a one-year period preceding the date of his death, his spouse receives a monthly benefit payable on the first day of the month following the date the participant would have attained age 55. This monthly benefit shall be equal to the monthly benefit that would have been payable to the spouse if the participant had terminated on his date of death, survived to age 55, retired early at age 55, commenced receiving retirement income as of his 55th birthday in the form of a 50% joint & survivor annuity, and then died on the day after his 55th birthday.

If the participant dies after having reached age 55, the spouse benefit starts on the first of the month following the date of death, with the benefit amount equal to the amount the spouse would have received if the participant had retired on his date of death and had elected a 50% joint & survivor annuity form.

15. Vesting

A participant is vested according to the following schedule:

Years of Service	Vested Interest
Less than 3	0%
3, but less than 4	20%
4, but less than 5	40%
5, but less than 6	60%
6, but less than 7	80%
7 or more	100%

Schedule SB, Part V – Summary of Plan Provisions
Wyman-Gordon Pennsylvania, LLC Hourly Pension Plan for Union Employees of the
Mountaintop, PA Division
EIN/PN: 45-2425501/002

A participant is credited with one year of service for each plan year with at least 1,000 Hours of Service.

16. Vested Pension on Termination

The vested pension benefit on termination is equal to the normal retirement benefit accrued to the date of termination. The participant may elect to receive the benefit prior to his Normal Retirement Date. This benefit will be the benefit he would receive under the plan's early retirement provisions.

17. Plan Changes

The Plan was closed to new entrants for any employees hired on or after May 26, 2013.

The future benefit accrual multiplier was increased from \$48 per year of credited service completed on or after January 11, 2012 to the increasing schedule shown in this Appendix. This change increased the funding target normal cost shown in this valuation by approximately \$7,000. As the change was prospective only, there was no impact on the present value of accrued benefits.

No other plan changes during the year impacted the results of this valuation.
