Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

INDEPENDENT AUDITORS' REPORT

To the Plan Sponsor and Participants
KS Kolbenschmidt US, Inc. Retirement Plan
Marinette, Wisconsin

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of KS Kolbenschmidt US, Inc. Retirement Plan (the "plan") which comprise the statements of net assets available for benefits as of December 31, 2013 and 2012 and the related statements of changes in net assets available for benefits for the years then ended, the statements of accumulated plan benefits as of January 1, 2013 and 2012, and the statements of changes in accumulated plan benefits for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Plan management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audits in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis of Disclaimer of Opinion paragraph, we were not able to obtain appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's ("DOL") Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 ("ERISA"), plan management instructed us not to perform, and we did not perform, any auditing procedures with respect to the investment information summarized in Note 3, which was certified by Wells Fargo Bank, N.A., the trustee of the plan, except for comparing such information with the related information included in the financial statements. We have been informed by plan management that the trustee holds the plan's investment assets and executes investment transactions. Plan management has obtained certifications from the trustee, as of December 31, 2013 and 2012 and for the years then ended, that the information provided to plan management by the trustee is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Report on Form and Content in Compliance with DOL Rules and Regulations

The form and content of the information included in the financial statements, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

KS KOLBENSCHMIDT US, INC. RETIREMENT PLAN

NOTES TO FINANCIAL STATEMENTS

As of and for the Years Ended December 31, 2013 and 2012

NOTE 1 - Description of the Plan

The following description of the KS Kolbenschmidt US, Inc. Retirement Plan (the "plan"), formerly known as Karl Schmidt Unisia, Inc. Retirement Plan, provides only general information. Participants should refer to the plan document for a more complete description of the plan's provisions.

General

The plan is a non-contributory defined benefit pension plan established for certain employees of KS Kolbenschmidt US, Inc. (the "company"). The plan was established in 1994 as the Karl Schmidt Unisia, Zollner Division, Inc. Retirement Plan ("Zollner Salary"). The Zollner Salary amended its name to Karl Schmidt Unisia, Inc. Retirement Plan and subsequently amended its name to KS Kolbenschmidt US, Inc. Retirement Plan.

The following plans merged into the plan on various years to form the plan in its current state: KSG Pistons, Inc. Salaried Employees Replacement Plan ("KSG Salary"), KSG Pistons, Inc. Hourly Bargaining Defined Benefit Pension Plan ("KSG Hourly"), Karl Schmidt Unisia, Inc. Zollner Division Pension Plan ("Zollner Hourly").

The plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended ("ERISA"). The plan is administered by the Retirement Plans Committee (the "committee"), which is appointed by the Board of Directors.

Effective July 1, 2002, the plan was frozen to entry by new participants. As such, no employees whose original date of hire with the company is on or after July 1, 2002, shall be eligible to participate in the plan.

Effective December 31, 2003, the plan was also frozen to accruing future benefits.

Funding Policy

No contributions are required or permitted from participants. The company's contributions are the actuarially computed amounts, using the projected unit cost method, necessary to meet ERISA minimum funding requirements. The company intends to continue the plan and continue contributions in such amounts as are necessary to provide for all employees' benefits upon retirement. Minimum contribution requirements have been met for the years ended December 31, 2013 and 2012.

Pension Benefits

Former Zollner Salary, KSG Salary, and KSG Hourly participants are entitled to monthly pension benefits upon retirement if the employee completes one year and 1,000 hours of service with the company. Former Zollner Hourly participants covered by a collective bargaining unit are entitled to monthly pension benefits upon retirement if the employee completes one year and 1,000 hours of service with the company.

There are three types of retirement under the plan: normal, late, and early retirement. Early retirement benefits are reduced. Former Zollner Hourly and Zollner Salary participants are eligible for early retirement at age 60 with 10 years of vested service or at age 55 with 30 years of vested service. Former KSG Salary and KSG Hourly participants are eligible for early retirement at age 55 and 10 years of service. Former Zollner Hourly and Zollner Salary participants normal retirement age is 65. Former KSG Salary and KSG Hourly participant normal retirement age is 62. Late retirement for all participants is any time after normal retirement age.

NOTES TO FINANCIAL STATEMENTS As of and for the Years Ended December 31, 2013 and 2012

NOTE 1 - Description of the Plan (cont.)

Pension Benefits (cont.)

Employees may elect to receive their pension benefits in the form of a single life annuity, qualified joint and survivor annuity, certain and life annuity, contingent annuitant, or lump sum. Pension benefits are based on average covered earnings and years of benefit service, and are fully vested after 5 years of service or reaching normal retirement age while still employed. Participants who were former KSG Salary and KSG Hourly participants became fully vested after one year of service.

Death and Disability Benefits

If an active employee dies pre-retirement and has a vested pension from the plan on the date of death, 50% of the normal death benefit is paid to the surviving spouse in the form of a lifetime monthly pension beginning on the expected retirement date of the deceased. If an employee dies after retirement, a death benefit equal to \$3,000 will be paid to the beneficiary upon death. This is paid in addition to any retirement benefit that was being paid at the date of death and is only for employees who retire from active service.

Active employees who become disabled while working for the company but before the normal retirement date, have 10 years of vesting service and qualify for the Short-term Disability Program will be eligible for disability retirement benefits. Benefits will begin on the first day of the month after the benefits from Short-term Disability Program end, and are paid until the employee is no longer disabled, elects to start early retirement benefits, or reaches the normal retirement date.

Administrative Expenses

The company pays a portion of the plan's administrative expenses. The majority of the administrative expenses are paid by the plan. Some of these fees were netted against investment income in the financial statements.

Termination of Plan

Although it has not expressed any intent to do so, the company has the right under the plan to terminate the plan at any time subject to the provisions of ERISA. In the event of plan termination, the net assets of the plan will be distributed to the participants in an order of priority determined in accordance with ERISA and its applicable provisions.

Certain benefits under the plan are insured by the Pension Benefit Guaranty Corporation ("PBGC") if the plan terminates. Generally, the PBGC guarantees most vested, normal-age retirement benefits, early retirement benefits, and certain disability and survivor's benefits. However, the PBGC does not guarantee all types of benefits under the plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the plan are guaranteed at the level in effect on the date of the plan's termination, subject to a statutory ceiling on the amount of an individual's monthly benefit.

Whether all participants receive the benefits should the plan be terminated at some future time will depend on the sufficiency, at that time, of the plan's net assets to provide those benefits, the priority of those benefits to be paid, and the level and type of benefits guaranteed by the PBGC at that time. Some benefits may be fully or partially provided for by the existing assets and the PBGC guarantee, while other benefits may not be provided for at all.

NOTES TO FINANCIAL STATEMENTS

As of and for the Years Ended December 31, 2013 and 2012

NOTE 1 - Description of the Plan (cont.)

Termination of Plan (cont.)

Any value remaining after administration expenses of the plan shall be allocated for purposes of paying monthly retirement income, disability payments and death benefits in the order of precedence indicated and in the amounts indicated in Section 4044 of ERISA. In the event that the plan's assets on or after the date of termination are sufficient to fund all monthly retirement income, disability benefits and death benefits, the remainder of the assets shall be used to fund supplemental retirement benefits for all members retired or eligible to retire on a supplemental retirement date, without reference to the order in which they first qualified for such benefits. Any funds remaining after all the benefits payments are made shall be returned to the employer after satisfaction of all the expenses associated with the termination of the plan.

NOTE 2 - Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the plan are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of the financial statements in conformity with accounting principles generally accepted in the United States of America ("U.S. GAAP") requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

The plan's allocated share of the KS Kolbenschmidt US, Inc. Master Trust's ("Master Trust") net assets is reflected in the accompanying statements of net assets available for benefits. The fair value of the plan's interest in the Master Trust is based on the fair value of assets held in the Master Trust, plus actual contributions and allocated investment income or loss, less actual distributions. Investment income or loss and administrative expenses are allocated to the plan based on the plan's pro rata share of each of the underlying assets of the Master Trust on a monthly basis. The plan presents in the accompanying statements of changes in net assets available for benefits its interest in the net investment income or loss of the Master Trust, which consists of the realized gains or losses, unrealized appreciation or depreciation, interest, and dividends of the Master Trust's investments.

Investments of the Master Trust are carried at fair value, which is determined as described in Note 4. Investment transactions are recorded on the trade date. Dividend income is recorded on the ex-dividend date. Interest income is recorded on the accrual basis.

The Master Trust invests in real estate investment trusts and venture capital investments that determine their fair value using the net asset value ("NAV") of the funds. The NAV is determined by each fund's trustee using the fair value of the underlying securities within the fund at year end.

Payment of Benefits

Benefits are recorded when paid.

NOTE 2 - Summary of Significant Accounting Policies (cont.)

Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits are those future periodic payments, including lump-sum distributions, that are attributable under the plan's provisions to the service employees have rendered to the valuation date. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died and (c) present employees or their beneficiaries. Benefits payable under all circumstances (retirement, death, disability and termination of employment) are included, to the extent they are deemed attributable to employee service rendered to the valuation date.

The actuarial present value of accumulated plan benefits is determined by the plan's consulting actuary and is that amount which results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal or retirement) between the valuation date and the expected date of payment. Actuarial valuations are completed as of the beginning of the plan year. The significant actuarial assumptions used in the plan's January 1, 2013 and 2012 valuation were as follows:

Long-term rate of return on assets	7.5% for 2013 and 8.5% for 2012
Mortality table	RP-2000 Mortality Table projected 17 years
Normal Retirement Age	62 for KSG Hourly and KSG Salary and 65 for Zollner Salary and Zollner Hourly
Discount rate	3.36% for 2013 and 4.35% for 2012
Withdrawal rate	Table T-5 from Pension Actuaries' Handbook.
Retirement rate	Varies from 0% at age 57 to 100% at age 65 for KSG Salary and Zollner Salary employees.
Percent married	Males 85%, Females 65%

The foregoing actuarial assumptions are based on the presumption that the plan will continue. Were the plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

The actuarial present value of accumulated benefits is reported based on certain assumptions pertaining to interest rates and employee demographics. Due to the changing nature of these assumptions, it is at least reasonably possible that changes in these assumptions will occur in the near term and, due to the uncertainties inherent in setting assumptions, the effect of such changes could be material to the value of accumulated plan benefits.

NOTE 3 - Information Prepared and Certified by Trustee - Unaudited

All of the assets of the plan are held in the Master Trust, which was established for the investment of assets of the plan and one other company sponsored defined benefit pension plan. The Master Trust currently holds the assets of the plan and the Pension Plan for Employees of KS Gleitlager North America, LLC.

The plan's allocated share of the Master Trust's net assets and investment activities is based upon the total of each accounts share of the Master Trust. The percentage of the plan's assets to the total assets of the Master Trust was approximately 95% as of December 31, 2013 and 2012.

The following table presents the net assets of the Master Trust as of December 31, 2013 and 2012. The information was obtained from data that has been prepared and certified to as complete and accurate by Wells Fargo Bank, N.A., the trustee of the plan.

NOTES TO FINANCIAL STATEMENTS

As of and for the Years Ended December 31, 2013 and 2012

NOTE 4 - Fair Value of Financial Instruments

The plan follows U.S. GAAP for measuring, reporting, and disclosing fair value. These standards apply to all assets and liabilities that are measured, reported, and/or disclosed on a fair value basis.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value hierarchy ranks the quality and reliability of the information used to determine fair values. Assets and liabilities measured, reported and/or disclosed at fair value will be classified and disclosed in one of the following three categories:

Level 1 - Inputs to the valuation methodology are unadjusted quoted market prices for identical assets in active markets that the plan has the ability to access.

Level 2 - Observable market based inputs or unobservable inputs that are corroborated by market data. Inputs to the valuation methodology include:

- > quoted prices for similar assets or liabilities in active markets;
- > quoted prices for identical or similar assets or liabilities in inactive markets;
- > inputs other than quoted prices that are observable for the asset or liability;
- > inputs that are derived principally from or corroborated by observable market data by correlation or other means.

Level 3 - Unobservable inputs that are unobservable and not corroborated by market data.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

There has been no change in the methodologies used at December 31, 2013 and 2012. The following is a description of the valuation methodologies used for assets measured at fair value.

Money Market Funds: Valued at NAV of units held by the plan at year end.

Common stocks, corporate, municipal, and U.S. government and agency debt securities: Valued at fair value based on the closing price in an active market in which the securities are traded. Fair values of securities in the Level 1 category are obtained from active exchange listings, whereas fair values of securities in the Level 2 category are obtained from the most recent estimates available from broker-dealers and on yields currently available on comparable securities of issuers with similar credit ratings.

Equity mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the plan are open end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily NAV and to transact at that price. The mutual funds held by the plan are deemed to be actively traded.

Real estate investment trusts: Valued at the independently appraised value of the underlying assets.

Venture capital investments: Valued at NAV of shares held by the plan at year end.

Asset-backed securities: Valued at fair value based on market information (cash flows, security structures or broker quotes).

NOTES TO FINANCIAL STATEMENTS As of and for the Years Ended December 31, 2013 and 2012

NOTE 4 - Fair Value of Financial Instruments (cont.)

Plan management is responsible for the determination of fair value. Accordingly, plan management performs periodic analysis on the prices received from the pricing services used to determine whether the prices are reasonable estimates of fair value. As a result of these reviews, plan management has not historically adjusted the prices obtained from the pricing services. The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The table below presents the balances of assets of the Master Trust measured at fair value on a recurring basis by level within the hierarchy.

Sensitivity to Changes in Significant Unobservable Inputs

The Master Trust's investments in real estate investment trusts consist of residential mortgaged-backed securities. The significant unobservable inputs used in the fair value measurement of these investments include: prepayment rates, probability of default, and loss severity in the event of default. Significant increases (decreases) in any of those inputs in isolation would result in a significantly lower (higher) fair value measurement. Generally, a change in the assumption used for the probability of default is accompanied by a directionally similar change in the assumption used for the loss severity and a directionally opposite change in the assumption used for prepayment rates.

The following table sets forth additional disclosures for the fair value measurement of investments that calculate fair value based on NAV as of December 31:

2013				
	<u>Fair Value</u>	<u>Unfunded Commitments</u>	<u>Redemption Frequency (If Currently Eligible)</u>	<u>Redemption Notice Period</u>
Real estate investment trusts (a)	<u>\$ 3,500,224</u>	<u>\$ 209,194</u>	Quarterly	60 days

Total	<u>\$ 5,242,975</u>	<u>\$ 141,690</u>		

(a) The Level 3 investments consist of a real estate investment trust fund. The valuations of real estate investments in the fund are generally appraised every quarter starting with the first full quarter after the investment is made. An independent appraisal of the underlying real estate for each investment is performed at least annually. This annual appraisal includes a complete property inspection and market analysis. In the interim quarters, the valuation is updated by the independent appraiser through a restricted use appraisal report. In these appraisals, the prior cash flow assumptions for the real estate investment are updated for factual changes and changes in market conditions are evaluated. All appraisals are certified by members of the Appraisal Institute who hold the MAI designation. Appraisals and appraisal reports are required to comply with the Uniform Standards of Professional Appraisal Practice, as promulgated by the Appraisal Foundation.

(b) The objective of the Graham Alternative Investment Fund II, LLC is to pursue, but not limited to, the following investment categories: (1) diverse mix of financial futures (2) and currency and commodity markets.

As of and for the Years Ended December 31, 2013 and 2012

NOTE 5 - Party-in-Interest Transactions

Certain Master Trust investments are shares of mutual funds managed by the trustee, as defined by the plan, and therefore, these transactions qualify as party-in-interest transactions. These transactions are not, however, considered prohibited transactions under 29 CFR 408(b) of the ERISA regulations.

NOTE 6 - Tax Status

The plan obtained its latest determination letter on February 13, 2004, in which the Internal Revenue Service ("IRS") stated that the plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code ("IRC"). The plan has been amended since receiving the determination letter. Plan management believes the plan, as amended, is designed and being operated in compliance with the applicable requirements of the IRC. Therefore, plan management believes that the plan was qualified and the related trust was tax-exempt at the financial statement date.

Plan management evaluates tax positions taken by the plan. The financial statements effects of a tax position are recognized when the position is more likely than not, based on the technical merits, to be sustained upon examination by the IRS. Plan management has analyzed the tax positions taken by the plan, and has concluded that as of December 31, 2013 and 2012, there were no uncertain positions taken or expected to be taken. The plan has recognized no interest or penalties related to uncertain tax positions. The plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. Plan management believes the plan is no longer subject to income tax examinations for tax returns filed in years prior to 2010.

NOTE 7 - Subsequent Events

The plan has evaluated subsequent events through October 13, 2014, which is the date that the financial statements were approved and available to be issued, for events requiring recording or disclosure in the plan's financial statements.

Effective June 30, 2014, the plan was amended to provide for single-sum cash settlements of future annuity payments. This amendment allows certain terminated employees with a deferred vested benefit the option to receive a single-sum cash settlement. This amendment covers terminated participants who, among other things, are eligible for a deferred vested benefit and have not commenced receiving a deferred vested benefit. Eligible participants may elect this option during the election period beginning July 1, 2014 and ending August 29, 2014. Benefit payments under this option shall be made by October 1, 2014 and shall be in lieu of all benefits to which the participant is entitled under the plan.

Schedule SB, Part V — Statement of Actuarial Assumptions/Methods**Actuarial Methods*****Asset Methods***

The asset valuation method is an average of the adjusted market value for each year during the last 2 years preceding the valuation date. The adjusted market value is the market value at each determination date adjusted to the valuation date based on actual cash flows and expected interest at the lesser of the expected rate of return and the third segment rate. This amount is adjusted to be no greater than 110 percent and no less than 90 percent of the fair market value, as defined in IRC Section 430.

A characteristic of this asset method is that, over time, it is slightly more likely to produce an actuarial value of assets that is less than the market value of assets than an actuarial value that is greater than the market value.

Participant Methods

Participants or former participants are included or excluded from the valuation as described below:

- *Participants included:* The plan sponsor provides us with data on all employees as of the valuation date, but only those employees who have completed the plan's eligibility requirements are included in the valuation of liabilities.
- *Participants excluded:* No actuarial liability is included for nonvested participants who terminated prior to the valuation date. For this purpose, participants with a break in service on the valuation date are treated as terminated participants.
- *Insurance contracts:* The plan does not have any insurance contracts.
- *Compensation history:* Salaried plan benefits are frozen. Accrued benefits have been calculated and are used in the valuation
- *Disabled participants:* The liabilities for participants on long-term disability have been included with the liabilities for terminated vested participants.
- *Estimated benefits:* For terminated and retired participants we have reviewed the benefits provided to us and have no reason to doubt their substantial accuracy.

Schedule SB, Part V — Statement of Actuarial Assumptions/Methods***Minimum Funding Methods***

The funding target for minimum funding calculations is computed using the traditional unit credit method of funding. The objective under this method is to fund each participant's benefits under the plan as they accrue. Thus, the total pension to which each participant is expected to become entitled at retirement is broken down into units, each associated with a year of past or future credited service.

A detailed description of the calculation follows:

- The plan's valuation date is the beginning of the plan year.
- An individual's **funding target** is the present value of future benefits based on credited service and average pay as of the beginning of the plan year, and an individual's **target normal cost** is the present value of the benefit expected to accrue in the plan year. If multiple decrements are used, the funding target and the target normal cost for an individual is the sum of the component funding targets and target normal costs associated with the various anticipated separation dates.
- The plan's **target normal cost** is the sum of the individual target normal costs, and the plan's **funding target** is the sum of the individual funding targets for all participants under the plan.

Schedule SB, Part V — Summary of Plan Provisions

Floor plan offset	The monthly benefit provided by a theoretical account balance equal to the sum of contributions equal to 3.75% of base compensation less 1.50% of total compensation made on the day that the actual 401(k) floor contributions are made. The account balance accumulates with interest each year at a rate equal to the annual rate of return as reported by the Fixed Income fund of the KSG Industries, Inc. Tax-Deferred Retirement and Incentive Plan for Salaried Employees. The account is accumulated to normal retirement date from date of termination using the PBGC rate as specified on the first day of the plan year coincident with or preceding the termination date.

Benefits Included or Excluded

Unless noted below, all benefits provided by the plan.

- **Plan amendments:** Amendments adopted after the valuation date or effective after the current plan year are excluded from the valuation.
- **Late retirement increases:**
 - *Active participants:* The plan applies late retirement actuarial increases for all participants who defer retirement beyond their normal retirement date and this valuation includes those increases.
 - *Deferred vested participants:* Current deferred vested participants over normal retirement age are valued including the late retirement actuarial increase.
- **Internal Revenue Code limitations:** The limitations of Internal Revenue Code Sections 415(b) and 401(a)(17) have been incorporated into our calculations.
- **IRC Section 416 rules for top-heavy plans:** We did not test whether this plan is top-heavy (when the present value of benefits for key employees equals or exceeds 60 percent of the present value for all participants). However, we expect that the plan is not top-heavy due to the large number of rank-and-file participants; therefore, the funding target and target normal cost do not reflect any liability for top-heavy benefit accruals.
- **IRC Section 436 benefit restrictions:**
 - *Unpredictable contingent event benefits:* This valuation excludes restricted contingent event benefits that occurred before the valuation date but includes contingent event benefits which are expected to occur on or after the valuation date regardless of anticipated funding-based limitations.
 - *Plan amendments:* None.
 - *Prohibited payments:* Limitations on prohibited benefits (if any) are reflected for annuity starting dates before the valuation date but are ignored for annuity starting dates on or after the valuation date.

Schedule SB, Part V — Summary of Plan Provisions

- *Benefit accruals:* The plan's funding target does not reflect any limitation on benefit accruals. The target normal cost does not reflect any limitation on benefit accruals.
- **Scheduled benefit increases:** Scheduled benefit increases effective after the end of the current plan year are excluded from minimum funding requirements.
- **Unpredictable contingent event benefits:** The plan does not have any unpredictable contingent event benefits.
- **Plan amendments:** Amendments adopted after the valuation date are excluded from the valuation.
- **Benefit restrictions:** Benefit restrictions (if applicable) are ignored in this valuation.
- **Termination of the plan:** We have not been notified of a decision by the plan sponsor to fully or partially terminate the plan.

Plan provision Changes since Prior Valuation

Maximum compensation amounts and maximum benefit amounts under IRS rules were updated from 2012 to 2013.

Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.
