United Water Resources Inc.
Collectively Bargained 401(k) Plan

Notes to Financial Statements (continued)

1. Description of the Plan

The following brief description of the United Water Resources Inc. Collectively Bargained 401(k) Plan (the “Plan”) is provided for general information purposes only. Participants should refer to the plan document for a more complete description of the Plan’s provisions.

General

The Plan is a defined contribution plan that covers the eligible employees of United Water Resources Inc. and its subsidiaries and certain affiliates (the “Company”) who are covered by a collective bargaining agreement. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (“ERISA”).

Eligibility

All employees of the Company who are covered by a collective bargaining agreement that provides for participation in the Plan automatically become eligible to participate in the Plan upon hire.

Contributions

The Plan permits participants to make pre-tax contributions of between 1% and 50% of their compensation for the year, provided such contributions do not exceed the dollar limitation in effect under the Internal Revenue Code (the “Code”). The Plan also permits participants to make post-tax contributions between 1% and 50% of their compensation for the year, provided such contributions do not exceed the allowable amount under the Code. The total of the participants’ pre-tax contributions and post-tax contributions may not exceed 50% of their compensation for the year and may not exceed the allowable amount under the Code. Participants are also allowed to make rollover contributions of amounts received from other tax-qualified retirement plans. Currently, twenty-one union locals participate in the Plan, and the Company contributions for each union are defined in the plan document.

The Company provides an enhanced 401(k) Company match and contribution for new hires and certain other employees not eligible for a defined benefit plan. The enhancement increases the Company match to 50% of the first 8% of the participant’s contribution, with an additional employer contribution ranging from 1% to 4% of the employee’s compensation, which increases during the employee’s career based on age. Employees do not have to contribute to the Plan in order to receive the additional employer contribution but must have an account with Vanguard Fiduciary Trust Company (“VFTC” or the “Trustee”). This enhancement allows an employee to receive up to 8% in employer match/contribution.

Participants are fully vested in their contributions and earnings thereon immediately, and become fully vested in the Company’s contributions and earnings thereon after one year of credited service. Full vesting also occurs upon attaining age 65, permanent disability or death, regardless of the participant’s length of service.

Collectively Bargained 401(k) Plan

Notes to Financial Statements (continued)

1. Description of the Plan (continued)

Investment Options

All of the Plan's investment options are participant-directed into various investment options offered by the Plan.

Participant Accounts

Each participant's account is credited with his or her contribution, the Company's matching contribution, if any, and Plan earnings or losses.

Forfeitures

Forfeitures of terminated, non-vested participants' accounts are first applied to restore any participant accounts of employees who are reemployed and any remaining amounts are used to reduce the Company's matching contributions. During 2013 and 2012, there were no material forfeitures that reduced employer contributions.

Payment of Benefits

Benefits may be paid upon death, disability, termination, normal retirement or attainment of age 59½ to the participants or their beneficiaries. These benefits are generally paid in lump-sum amounts equal to the value of the participant's vested interest in his or her account. The Plan also permits installment distributions not to exceed a ten-year period.

Participant Loans

Participants may borrow from their accounts in amounts ranging from \$1,000 to \$50,000, provided the loan is not more than 50% of their vested account balances. The term of the loans range from one to five years, with longer terms permitted for the purchase of a primary residence. The loans are secured by the balance in the participant's account and bear interest at a fixed interest rate, which is determined when the loan is made by reference to market and non-market interest rates. Interest is fixed for the term of the loan. Principal and interest are paid through payroll deductions.

Administrative Expenses

Substantially all of the Plan's administrative expenses are paid for by the Company.

Transfers

Transfers in during 2013 and 2012 were \$11,776 and \$18,347, respectively, and represent assets transferred from the United Water Resources Inc. 401(k) Plan as a result of a change in the status of participants from non-bargained employees to bargained employees of the Company. Transfers out during 2013 and 2012 were \$142,062 and \$48,064, respectively, and represent assets transferred to the United Water Resources Inc. 401(k) Plan as a result of a change in the status of participants from bargained to non-bargained employees of the Company.

Notes to Financial Statements (continued)

1. Description of the Plan (continued)

Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their accounts.

2. Summary of Significant Accounting Policies

Basis of Presentation

The Plan's financial statements have been prepared on the accrual basis of accounting and in accordance with accounting principles generally accepted in the United States of America ("US GAAP").

Use of Estimates

The preparation of financial statements in conformity with US GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

The Plan's investments in registered investment companies are stated at fair value generally by reference to published market prices valued at the daily closing price as reported by the fund. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded. Notes receivable from participants are valued at their outstanding principal balances, plus unpaid accrued interest, which approximate fair value.

Purchases and sales of investments are recorded on a trade date basis (the day the order to buy or sell is executed). Interest income is accrued when earned. Dividend income is recorded on the ex-dividend date. Capital gain distributions are included in dividend income.

The Plan holds an investment in the Vanguard Retirement Savings Trust, a common and commingled trust (the "Trust") that invests solely in the Vanguard Retirement Savings Trust ("VRST") Master Trust. The Plan's investment in the Trust is valued at the unit value of the Trust. The Trust values its investments in the VRST Master Trust similarly. The underlying investments of the VRST Master Trust are primarily in a pool of investment contracts that are issued by insurance companies and commercial banks and in contracts that are backed by bond trusts and bond mutual funds. The contracts are comprised of: (a) traditional investment contracts issued by insurance companies and banks which are not transferable but provide for benefit-responsive withdrawals by plan participants at contract value, and (b) alternative investment contracts consisting of investments together with contracts under which a bank or other institution provides for benefit-responsive withdrawals by plan participants at contract value.

For fully benefit-responsive investment contracts included in the VRST, contract value is the relevant measurement attribute because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the underlying defined contribution plans.

2. Summary of Significant Accounting Policies (continued)

The Statement of Net Assets Available for Benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared using the contract value basis for fully benefit-responsive investment contracts.

For traditional investment contracts included in the VRST, fair value comprises the expected future cash flows for each contract discounted to present value. Contract value represents contributions made plus interest accrued at the contract rate, less withdrawals. The crediting rate on traditional contracts is typically fixed for the life of the investment.

For alternative investment contracts included in the VRST, the fair value comprises the aggregate fair values of the underlying investments in mutual funds and bond trusts, and the value of the wrap contracts, if any. The difference between valuation at contract value and fair value is reflected over time through the crediting rate formula provided for in the VRST Master Trust's synthetic contracts.

An investor currently redeeming the VRST Master Trust units may forgo a benefit, or avoid a loss, related to a future crediting rate different from then-current market rates. The issuers' ability to meet these obligations may be affected by economic developments in their respective companies and industries.

3. Fair Value Measurements

Accounting Standards Codification topic ("ASC") 820, Fair Value Measurements and Disclosures, defines fair value, and establishes a framework for measuring fair value in US GAAP and disclosing fair value measurements. It also applies under other accounting pronouncements that require or permit fair value measurements. The fair value hierarchy for disclosure of fair value measurements under ASC 820 is as follows:

- Level 1: Quoted prices (unadjusted) in active markets for identical assets or liabilities.
- Level 2: Quoted prices, other than quoted prices included in Level 1, that are observable for the assets or liabilities, either directly or indirectly.
- Level 3: Valuation inputs are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

4. Related Party Transactions

The Plan invests in shares of mutual funds managed by an affiliate of Vanguard Fiduciary Trust Company ("VFTC" or the "Trustee"). VFTC acts as trustee for only those investments as defined by the Plan. Transactions in such investments qualify as party-in-interest transactions which are exempt from the prohibited transaction rules.

5. Investments

The plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the plan administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to all investment information presented and disclosed in the accompanying financial statements certified as complete and accurate by the Trustee.

6. Income Tax Status

The Plan has received a determination letter from the Internal Revenue Service dated April 5, 2010, which superseded the previous one dated December 24, 2003, maintaining that the Plan is qualified under Section 401(a) of the Code and, therefore, the related trust is exempt from taxation. Once qualified, the Plan is required to operate in conformity with the Code to maintain its qualification. The Plan has been amended since receiving the determination letter. However, the plan administrator and the Plan's counsel believe that the Plan is currently designed and is being operated in compliance with the applicable requirements of the Internal Revenue Code and, therefore, believe that the Plan is qualified and the related trust is tax-exempt.

US GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain tax position that would not meet the more likely than

not standard and be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2013, there are no uncertain tax positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions, however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2010.

7. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the fair values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

8. Reconciliation Between Financial Statements and Form 5500

The following is a reconciliation of the net assets available for benefits at December 31, 2013 and 2012 and the changes in net assets available for benefits for the years ended December 31, 2013 and 2012 per these financial statements to the amounts on the Form 5500:
