1. Description of the Plan

The following description of the Gibson, Dunn & Crutcher LLP (the "Firm") Retirement Plan (the "Plan") provides only general information. Participants should refer to the Plan Document or Summary Plan Description for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan that provides eligible employees and partners of the Firm with retirement benefits. The Plan consists of a salary deferral 401(k) component, a Roth 401(k) component, and a profit-sharing component. With respect to the 401(k) component, the Plan was amended in 1999 and granted eligibility to employees and partners for participation in the Plan upon hire with the possibility to enroll at any time. Attorneys and other highly compensated employees (basic salary in excess of $115,000 in 2013) must enroll within 30 days of their respective hire date or wait until the January 1st Plan entry date. With respect to the profit-sharing component, partners and nonattorney employees are eligible to participate in this portion of the Plan after completing two years of service without an intervening break in service at the next Plan entry date (January 1 and July 1). Associate attorneys, Of Counsel attorneys, and staff attorneys earning over $75,000 are not eligible for the profit-sharing portion of the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

The Plan is administered by the Firm. The Plan's Trustee is ING National Trust and the Plan's Record Keeper is ING Institutional Plan Services, LLC ("ING").

Participant Contributions

Participants may contribute up to 20% of their annual wages. Contributions are subject to certain limitations.

Profit-Sharing Contributions

Contributions to the Plan by the Firm are based upon a percentage of participant compensation determined based on the greater of the following:

- 5% of compensation up to the Social Security wage base (6% for employees with 10 or more years of Profit Sharing Plan participation) plus 10% of compensation in excess of the Social Security wage base up to the annual compensation limit of $255,000 for the 2013 Plan year; or,

- 7.5% of compensation up to the $255,000 annual compensation limit for the 2013 Plan year.

Contributions to the Plan by partners for the Plan year ended December 31, 2013, are limited to $33,500.

Contributions to the Plan by Professional Corporation Shareholders ("PC Shareholders") are limited as follows:

- PC Shareholders will contribute $33,500 for the Plan year.

Contributions for nonpartners were limited to $19,815 per participant with less than 10 years of active participation and $20,952 per participant with more than 10 years of active participation in the Plan for the year ended December 31, 2013.

Participant Accounts
Separate accounts are maintained for each participant. Each participant's account is credited with the participant's contribution, an allocation of the Firm's contributions, plan earnings and charged with any relevant administrative expenses. These amounts are invested in any of the available investment funds, as directed by the participant. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Payment of Benefits
A participant's Plan benefits become distributable at retirement, death, disability or termination of employment. Such benefits generally will be paid in a lump sum.

Notes Receivable from Participants
Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50 percent of their account balance, whichever is less. These loans are secured by the balance in the participant's account and bear interest at a rate of Prime Rate as published in the Wall Street Journal on the last business day of the month plus two percent. Five loans may be outstanding at any time and no more than one loan may be taken within a six month period. Principal and interest is paid ratably through semi-monthly payroll deductions for nonpartners and monthly dividend deductions for partners.

Plan Expenses
Administrative Plan expenses are paid with Revenue Sharing funds to the extent they are made available to the Firm through funds received by the record keeper, ING. Any unused portion of the excess revenue made available to the Firm for any calendar year, may be made available in future years and used in accordance with the Firm's direction to cover eligible Plan expenses. If sufficient revenue sharing funds are not available to cover Plan expenses for active partners, then the Plan expenses are deducted from the partners' dividend distribution on a pro-rata basis based on their respective account values. The Firm pays for the Plan expense of active nonpartners if sufficient revenue sharing funds are not available to cover Plan expenses. Administrative Plan expenses for terminated participants' accounts are paid from the respective individual participants' accounts. Participants pay their own fees for self-directed investment transactions and broker fees.

Vesting
Participant and employer contributions and income thereon are fully vested at all times.

2. Summary of Significant Accounting Policies

Basis of Accounting
The accompanying financial statements are prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

Use of Estimates
The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition
Investments are reported at fair value using information provided by the Plan's trustee. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 6 for discussion of fair value measurements. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants
Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses have been recorded as of December 31, 2013 or 2012. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Benefit Payments
Benefits payments are recorded when paid.

Administrative Expenses
Certain expenses of maintaining the Plan are paid directly by the Plan Sponsor and are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation of fair value of investments.

3. Plan Termination

Although it has not expressed any intention to do so, the Firm has the right under the Plan, in certain circumstances, to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA. In the event that the Plan is terminated, each participant will receive a distribution in the amount of assets allocated to his or her account, in accordance with ERISA, applicable regulations there under and the Plan document.

4. Investments

The following presents investments that represent five percent or more of the Plan's net assets.

5. Summary of Information Certified by the Trustee

The following Plan investment information and data included in the financial statements, footnotes, and supplemental schedule was prepared by the Trustee of the Plan. ING National Trust held the Plan's investment assets and executed investment transactions as of December 31, 2013 and 2012 and for the year ended December 31, 2013. The Trustee has certified that such information is complete and accurate in accordance with Section 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosures under ERISA. Accordingly, as permitted under such election, the following information, notes, and the information in the supplemental schedule was certified as complete and accurate by the Trustees and was not subjected to any full scope auditing procedures performed by the independent auditors.

6. Fair Value Measurements

Accounting Standard Codification ("ASC") No. 820, Fair Value Measurements and Disclosures ("ASC 820") defines fair value as the price that would be received from selling an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. When determining fair value, the Plan uses prices and other relevant information generated by market transactions involving identical or comparable assets ("market approach").

ASC 820 established a three-level hierarchy for fair value measurements that prioritizes the inputs to valuation techniques used to measure fair value, distinguishing between market participant assumptions developed based on market data obtained from sources independent of the reporting entity ("observable inputs") and the reporting entity's own assumptions about market participant assumptions developed based on the best information available in the circumstances ("unobservable inputs"). The hierarchy level assigned to each investment is based on an assessment of the transparency and reliability of the inputs used in the valuation of each instrument at the measurement date. The highest priority is given to unadjusted quoted prices in active markets for identical assets (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). Valuation techniques need to recognize the use of observable inputs and minimize the use of unobservable inputs. Investments are classified in their entirety based on the lowest level of input that is significant to the fair value measurement. The three hierarchy levels are defined as follows:

Level 1 Valuations based on unadjusted quoted market prices in active markets for identical securities.

Level 2 Valuations based on observable inputs (other than Level 1 prices), such as quoted prices for similar assets at the measurement date; quoted prices in markets that are not active; or other inputs that are observable, either directly or indirectly.

Level 3 Valuations based on inputs that are unobservable and significant to the overall fair value measurement, and involve management judgment.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2013 and 2012.

Common Stocks, Preferred Stock, and Government Treasuries
Valued at the closing price reported on the active market on which the individual securities are traded.

Money Market Funds
Valued at a net asset value ("NAV") of $1 per unit.

Exchange Traded Funds ("ETF")
Valued at the closing price reported on the active market on which the securities are traded.

Investments in Registered Investment Companies (i.e. Open Ended Mutual Funds)
Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-ended mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily NAV and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Certificate of Deposit
Valued at the present value of estimated future cash flow based on yields currently available.

Common Collective Trust Funds
Valued at net unit value, as determined by the fund's record keeper based on the underlying securities in the trust. The NAV, as provided by the trustee, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Participant transactions (purchased and sales) may occur daily. Were the Plan to initiate a full redemption, the investment advisor reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner. Otherwise there are no unfunded commitments, participants can redeem their units daily and there is no redemption notice period.

Corporate Bonds and Government Agencies and Notes
Valued at the present value of estimated future cash flow based on yields currently available on comparable securities of issuers with similar credit ratings.

Limited Partnerships
Initially valued at the cost required to acquire the asset and adjusted for current year financial data, which approximates fair value.

Insurance Contracts
Valued at cash surrender value, which approximates fair value.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. In determining the reasonableness of the methodologies used, Plan management evaluates a variety of factors including review of existing contracts, economic conditions, industry and market developments, and overall credit ratings. Certain unobservable inputs are assessed through review of contract terms while others are substantiated utilizing available market data. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth, by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2013:

7. Related Parties

Plan assets include investments in mutual funds or common collective trusts that were managed by State Street Global Advisors (“SSgA”), the investment management division of State Street Corporation. These transactions qualify as parties-in-interest transactions under ERISA. The Firm is the Plan Administrator and provides certain administrative services at no charge to the Plan. Participant loans also qualify as party-in-interest transactions.

8. Income Tax Status

The Internal Revenue Service has determined and informed the Firm by a letter dated April 10, 2013, that the Plan and related trust were designed in accordance with the applicable regulations of the Internal Revenue Code (“IRC”). The Plan has been amended since receiving the determination letter. However, the Plan administrator and the Plan’s tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan’s financial statements.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The tax positions taken by the Plan have been analyzed, and it has been concluded that as of December 31, 2013 and 2012, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2010.

9. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statements of Net Assets Available for Benefits.

Market values of investments may decline for a number of reasons, including changes in prevailing market and interest rates, increases in defaults, and credit rating downgrades.

10. Subsequent Events

The Plan management has evaluated subsequent events through September 30, 2014, the date the financial statements were available to be issued and determined that no subsequent events required disclosure.
