NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2013**

NOTE 1 – DESCRIPTION OF PLAN:

The following brief description of the AUSA Employer Funded Union Savings Plan (Plan) is provided for general information purposes only. Participants should refer to the Plan agreement for more complete information.

General – The Plan is a defined contribution profit sharing plan adopted January 1, 2011 covering all full-time employees, and part-time employees (except non-resident aliens, leased employees, and employees of a controlled group Employer that does not adopt this Plan, independent contractors, and members of the Quality Control Council of the United States). An employee may become a participant on the first day of the payroll period coinciding with or next following his/her date of hire or as soon as administratively feasible thereafter. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions –The Company may choose to make a non-elective contribution. The amount credited to a participant's account will be in the same ratio that his/her salary bears to the total salary of all participants in the Plan. The amount of non-elective contribution, if any, will be determined each plan year and announced to all participants.

Participant Accounts – Each participant's account is credited with the employer contribution and Plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earning or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participants vested account.

Vesting – Participants become invested vested in their account when the participant has reached three completed periods of service.

Investment Options – Upon enrollment in the Plan, a participant may provide the plan administrator with an investment designation stating the percentage of his or her contributions to be invested in any of the several investment options, including:

- Transamerica Multi Managed Balanced I
- American Funds Europacific Growth R6
- American Funds Small Cap World R6
- American Fundamental Investor R6
- Diversified Stable Pooled Fund

The following are the significant accounting policies followed by the Plan:

Basis of Accounting – The accompanying financial statements are prepared on the accrual basis of accounting.

Investment Valuation and Income Recognition – Investments are stated at fair value as provided by the trustee. Mutual funds are valued at NAV and are traded at quoted prices through National Securities Clearing Corporation, level 1 inputs. Common Collective Trust Funds are valued at a daily calculated unit value which is an observable input, a level 2 input. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Payment of Benefits – Benefits are recorded when paid.

Estimates – The preparation of financial statements in conformity with generally accepted accounting principles requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

NOTE 3 – PLAN TERMINATION:

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, all amounts credited to the accounts of participants shall vest and become non-forfeitable.

NOTE 8 – DATE OF MANAGEMENT’S REVIEW:

In preparing the financial statements, the Plan has evaluated events and transactions for potential recognition or disclosure through October 09, 2014 the date that the financial statements were available to be issued.

NOTE 9 – FAIR VALUE MEASUREMENTS:

The Plan’s investments are reported at fair value in the accompanying statement of net assets available for benefits. The methods used to measure fair value may produce an amount that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at reporting date.

The fair value measurement accounting literature establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority, Level 2 inputs consist of observable inputs other than quoted prices for identical assets, and Level 3 inputs are unobservable and have the lowest priority. The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. Level 3 inputs were used only when Level 1 or Level 2 inputs were not available.

Level 1 Fair Value Measurements

The fair values of mutual funds are based on quoted net assets values of the shares held by the Plan at year end.

Level 2 Fair Value Measurements

The fair value of common collective trusts are valued by discounting the related cash flow based on current yields of similar instruments with comparable durations.

Level 3 Fair Value Measurements

The Plan had no investments valued using Level 3 inputs.
