1. Description of Plan

The following description of the Matagrano Inc. (Company) 401(k) Plan (Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General – The Plan is a 401(k) defined contribution plan covering employees who have completed three months of service and have also attained age 18. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Plan Administration – The Company is the administrator of the Plan and, as such, carries out the duties imposed by ERISA. The Company has delegated certain responsibilities for the operation and administration of the Plan. Trustee and recordkeeping services are provided by American Trust & Savings Bank. Certain administrative expenses of the Plan were paid by the Company for the year ended December 31, 2013. Investment fees, which may vary according to the individual funds selected, are paid out of the assets of the Plan. Participants should refer to the prospectus of the individual investment funds for further details on individual investment fees.

Contributions – Each year, participants may contribute up to 100% of pretax annual compensation, as defined in the Plan. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan currently offers various mutual funds and an insurance investment contract as investment options for participants. The Company contributes an amount equal to 100% of each participant's elective deferrals not exceeding 3% of the participant's compensation plus 50% of deferrals between 3% and 5% of the participant's compensation. Additionally, the Company makes a discretionary contribution for the plan year which is allocated based on assigned Allocation Groups as of the last day of the plan year.

Participant Accounts – Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contribution and (b) Plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

1. **Description of Plan (continued)**

Vesting – Participants are immediately vested in their contributions and in the Company's safe harbor match plus actual earnings thereon. Vesting in the Company's discretionary contribution, plus actual earnings thereon, is 100% vested after four years of credited service.

Notes Receivable from Participants – Participants may borrow from their accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. The loans are secured by the balance in the participant's account and bear interest at rates ranging from 5.25% to 10.50%, as determined by the Plan administrator. Principal and interest is paid ratably through weekly payroll deductions.

Payment of Benefits – On termination of service due to death, disability or retirement, a participant may elect to receive a lump-sum amount equal to the value of the participant's vested interest in his or her account. These benefits shall be paid as soon as administratively feasible following the date on which a distribution is requested or is otherwise payable.

Forfeited Accounts – At December 31, 2013 and 2012, forfeited nonvested accounts totaled $2,689 and $4,576 respectively. These accounts will be used to reduce future employer contributions. During 2013, forfeitures from nonvested accounts were used to reduce employer contributions by $3,850.

2. Summary of Significant Accounting Policies

Basis of Accounting – The financial statements of the Plan are presented on the accrual basis of accounting.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Statements of Net Assets Available for Benefits present the fair value of the investment contract as well as the adjustment of the fully benefit-responsive investment contract from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

Use of Estimates – The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan administrator to make estimates and assumptions that affect reported amounts of assets and liabilities and changes therein, and disclosures of contingent assets and liabilities. Accordingly, actual results may differ from those estimates.

Investments Valuation and Income Recognition – Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Investment Committee determines the Plan's valuation policies utilizing information provided by the investment advisers, custodians and insurance company.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

2. Summary of Significant Accounting Policies (continued)

Notes Receivable from Participants – Notes Receivable from Participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. No allowance for credit losses has been recorded as of December 31, 2013 or 2012. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Excess Contributions Payable – Amounts payable to participants for contributions in excess of amounts allowed by the IRS are recorded as a liability with a corresponding reduction to contributions. The Plan had no excess contributions for the years ended December 31, 2013 and 2012.

Payment of Benefits – Benefits are recorded when paid.

Operating Expenses – All expenses of maintaining the Plan are paid by the Company and are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account. Investment related expenses are included in net appreciation of fair value of investments.

Reclassifications – Certain accounts in the prior-year financial statements have been reclassified for comparative purposes to conform with the presentation in the current-year financial statements.

3. Fair Value Measurements

The Plan's investments are reported at fair value in the accompanying Statements of Net Assets Available for Benefits. The methods used to measure fair value may produce an amount that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to measure the fair value of certain financial instruments could result in a different fair value at the reporting date.

3. **Fair Value Measurements (continued)**

The fair value measurement accounting literature establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority, Level 2 inputs consist of observable inputs other than quoted prices for identical assets, and Level 3 inputs are unobservable and have the lowest priority. The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. Level 3 inputs were used only when Level 1 or Level 2 inputs were not available. The Plan has no Level 3 investments.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2013 and 2012.

Level 1 Fair Value Measurements

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Level 2 Fair Value Measurements

Common Collective Trust Funds: Valued at the NAV of units of a bank collective trust. The NAV, as provided by the trustee, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Participant transactions (purchases and sales) may occur daily. Were the Plan to initiate a full redemption of the collective trust, the investment adviser reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner.

3. **Fair Value Measurements (continued)**

4. **Unaudited Information Certified by the Plan Trustee**

The December 31, 2013 and 2012 Statements of Net Assets Available for Benefits, the investment activities included on the Statement of Changes in Net Assets Available for Benefits for the year ended December 31, 2013 and the accompanying notes to the financial statements were prepared in part or entirely from information certified by the Trustee in accordance with 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. The information certified includes total Investments and Notes Receivable from Participants of $12,742,895 and $9,763,338, as of December 31, 2013 and 2012, respectively, and related income of $1,952,289 for the year ended December 31, 2013.

In accordance with 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA, information certified by American Trust & Savings Bank, regarding the current value of assets held at December 31, 2013 and 2012, and transactions entered into for the year ended December 31, 2013, was used in the preparation of the accompanying financial statements and supplemental schedule. The following table includes the fair values of investments that represent 5% or more of the Plan's net assets at December 31, 2013 and 2012.

	2013	2012

4. Unaudited Information Certified by the Plan Trustee (continued)

During 2013, the Plan's investments (including gains and losses on investments bought, sold, and held during the year) appreciated in value by $1,952,289 as follows:

Mutual Funds	$ 1,617,845
Dividends and Interest	124,703
Interest	199,465
Interest on Notes Receivable from Participants	10,276
	$ 1,952,289

5. Guaranteed Investment Contract with Invesco National Trust Company

The Plan has a benefit responsive investment contract with Invesco Stable Value Trust (Invesco). Invesco maintains the contributions in a common collective trust. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administration expenses. The guaranteed investment contract is included in the financial statements at contract value as reported to the Plan by Invesco. Contract value represents contributions made under the contract, plus earning, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

As described in Note 2, because the guaranteed investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. Contract value, as reported to the Plan by Invesco, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

5. **Guaranteed Investment Contract with Invesco National Trust Company (continued)**

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The fair value of the investment contract at December 31, 2013 and 2012 was $874,530 and $658,361, respectively. The crediting interest rate is based on agreed upon formula with the issuer, but it may not be less than 0%. Such interest rates are reviewed on a quarterly basis for resetting.

Certain events limit the Plan's ability to transact at contract value with Invesco. Such events include the following: (a) amendments to the plan documents (including complete or partial plan termination or merger with another plan); (b) changes to the plan's prohibition on competing investment options or deletion of equity wash provisions, (c) bankruptcy of the plan sponsor or other plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the plan, or (d) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under Employee Retirement Income Security Act of 1974. The Plan administrator does not believe that the occurrence of any such value event, which would limit the plan's ability to transact at contract value with plan participants, is probable.

The guaranteed investment contract does not permit the trust to terminate the agreement prior to the scheduled maturity date.

	2013	2012
Average Yields:		
Based on Actual Earnings	1.29%	1.61%
Based on Interest Rate credited to participants	1.47%	1.89%

6. **Related Party Transactions**

Certain Plan investments were managed by the trustees, custodian and record-keepers of the Plan. Such transactions, while considered party-in-interest transactions under ERISA regulations, are permitted under the provisions of the Plan and are specifically exempt from the prohibition of the party-in-interest transactions under ERISA. Fees paid by the Plan for the investment management services amounted to $135 for the year ended December 31, 2013.

7. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their employer contributions.

8. Tax Status

Effective March 31, 2008, the Plan adopted the American Trust and Savings Bank Volume Submitter Profit Sharing 401(k) Plan. The Company believes the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability (or asset) if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. Management evaluated the Plan's tax positions and concluded that the Plan had maintained its exempt status and had taken no uncertain tax positions that require adjustment to the financial statements. Therefore, no provision or liability for income taxes has been included in the financial statements. The plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2010.

9. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statement of Net Assets Available for Benefits.

10. Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of Statement of Changes in Net Assets Available for Benefits per the financial statements at December 31, 2013:

Net Increase in Assets per the financial statements	$ 3,022,151
Adjustment from Contract Value to Fair Value for Fully Benefit-Responsive Investment Contract	10,738
Net Increase in Assets per the Form 5500	$ 3,032,889

11. Subsequent Events

The Plan has evaluated subsequent events through September 18, 2014, the date which the financial statements were available to be issued, and determined there were no reportable events.
