NOTE 1 - Description of the Plan

The following brief description of the Monical Pizza Corporation Employees Retirement Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a Section 401(k) profit sharing plan established by Monical Pizza Corporation (the "Company") and is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"), as amended, and the Internal Revenue Code ("IRC"). All employees, except for union and leased employees, who have completed at least one year of service with the Company, as defined in the Plan, and are age 21 or older are eligible to participate in the Plan and defer a portion of their compensation. All employees, except for union and leased employees, who have completed at least two years of service with the Company, as defined in the Plan, and are age 18 or older are eligible to participate in the profit sharing contributions. Upon enrollment in the Plan, a participant may direct employer and employee contributions to any combination of available investment options. Capital Bank & Trust serves as investment manager and trustee of the Plan.

Contributions

Each year, participants may contribute up to 100% of pretax annual compensation (salary reduction contributions), as defined in the Plan. Participants may also contribute amounts representing distributions from other qualified plans (rollover contributions). Each Plan year, the Company shall contribute to the Plan such amount as shall be determined by the Board of Directors. While management considers the operating results over the Plan year, the amount to be contributed is discretionary. Employer contributions were $203,700 for the year ended December 31, 2013. Contributions are subject to certain limitations.

Profit sharing contributions are allocated to each participant's account in the same proportion that each such participant's compensation for that year bears to the total compensation of all participants. Participant compensation also includes an amount equal to the difference between the participant's earnings over the Federal Insurance Contributions Act ("FICA") limitation for the current year and the FICA limitation amount.

Participants' Accounts

Each participant's account is credited with the participant's salary reduction contributions, rollover contributions, allocations of the Company's contributions and Plan earnings. A separate record and amount is maintained for each participant and is credited with Company contributions annually. Earnings and losses on Plan investments are allocated daily to each participant's account. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

NOTE 1 - Description of the Plan (cont.)

Vesting

Participants are immediately vested in all contributions plus earnings thereon.

Payment of Benefits

Benefits may be paid to the participant or beneficiary upon death, disability, retirement or termination of employment, as defined in the Plan agreement. The Plan provides for normal retirement at age 65 and permits early retirement at age 59 1/2. The total vested portion of a participant's account balance is distributed in the form of a single sum payment, a direct transfer, or a combination of the two. In-service withdrawals are allowed upon attaining age 59 1/2. Participants experiencing financial hardship may withdraw a portion of their account balance, as defined in the Plan.

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their account balance. These loans are secured by the balance in the participant's account. The loans oustanding at December 31, 2013 bear interest of 4.25%, and the loans outstanding at December 31, 2012 bear interest at rates that range from 4.25% to 7.00%. The rates are commensurate with local prevailing rates (prime plus 1%). Principal and interest is paid through payroll deductions. A participant may only have one outstanding loan at any time.

Administrative Expenses

In addition to its contributions, the Company may elect to pay all or a portion of the administrative expenses of the Plan as long as the Plan remains in effect. If the Company does not elect to pay such expenses, the trustee shall pay these expenses and charge the payment thereof to the Plan.

For the year ended December 31, 2013, a portion of expenses were paid for by the trustee, and charged to the Plan.

Termination of Plan

Although it has not expressed any intent to do so, the Company has the right under the Plan to terminate the Plan at any time subject to the provisions of ERISA. In the event of Plan termination, Plan assets shall be allocated among the participants in accordance with their individual account values.

NOTE 2 - Summary of Significant Accounting Policies

Basis of Accounting and Use of Estimates

The accompanying financial statements have been prepared on the accrual basis of accounting. The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America ("U.S. GAAP") requires the Plan's management to use estimates and assumptions that affect the accompanying financial statements and disclosures. Actual results could differ from these estimates.

NOTE 2 - Summary of Significant Accounting Policies (cont.)

Investment Valuation and Income Recognition

The Plan's investments in registered investment companies are valued at fair value using quoted market prices. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Refer to Note 4 for details on inputs, valuation techniques and fair value measurement level within the fair value hierarchy. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis and dividends are recorded on the ex-dividend date.

Net appreciation in fair value of investments included in the accompanying statement of changes in net assets available for benefits includes realized gains or losses from the sale of investments and unrealized appreciation or depreciation in fair value of investments. Net unrealized appreciation or depreciation in the fair value of investments represents the net change in the fair value of the investments held during the period. The net realized gains or losses on the sale of investments represents the difference between the sale proceeds and the fair value of the investment as of the beginning of the period or the cost of the investment if purchased during the year.

Risks and Uncertainties

The Plan invests in various mutual funds. Investments, in general, are exposed to various risks, such as interest rate risk, credit risk, and overall market volatility. Due to the level of risk associated with certain investments, it is reasonably possible that changes in the values of certain investments will occur in the near term and that such changes could materially affect the amounts reported in the financial statements.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued interest. Delinquent participant loans are reclassified as distributions based upon the terms of the plan document. No allowance for credit losses has been recorded as of December 31, 2013 and 2012.

Payment of Benefits

Benefits are recorded when paid.

Subsequent Events

The Plan has evaluated subsequent events through October 13, 2014, which is the date that the financial statements were approved and available to be issued, for events requiring recording or disclosure in the Plan's financial statements. Management feels that no such material events occurred subsequent to year end that would require disclosure.

NOTE 3 - Information Prepared and Certified by Trustee (Unaudited) (cont.)

During the year ended December 31, 2013, the net appreciation in fair value of the Plan's investments (including gains and losses on investments bought, sold and held during the year) and the Plan's investment earnings are summarized as follows:

Registered investment companies - net appreciation	$ 586,481
Interest and dividends	138,485
Net Investment Income	$ 724,966
Interest on notes receivable from participants	$ 9,694

NOTE 4 - Fair Value of Financial Instruments

The Plan follows U.S. GAAP for measuring, reporting, and disclosing fair value. These standards apply to all assets and liabilities that are measured, reported, and/or disclosed on a fair value basis.

The fair value hierarchy ranks the quality and reliability of the information used to determine fair values. Assets and liabilities measured, reported and/or disclosed at fair value will be classified and disclosed in one of the following three categories:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets in active markets that the Plan has the ability to access.

Level 2 - Observable market based inputs or unobservable inputs that are corroborated by market data. Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability; and
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

Level 3 - Unobservable inputs that are unobservable and not corroborated by market data.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

NOTE 4 - Fair Value of Financial Instruments (cont.)

The following is a description of the valuation methodologies used for assets measured at fair value. There has been no change in the methodologies used as of December 31, 2013 and 2012.

Mutual Funds - Valued at the closing price reported on the active market in which the individual securities are traded for shares of the funds held by the Plan at year end. Classified as Level 1 as they are traded in an active market for which closing prices are readily available.

The plan sponsor is responsible for the determination of fair value. Accordingly, they perform periodic analysis on the prices received from the pricing services used to determine whether the prices are reasonable estimates of fair value. As a result of these reviews, the plan sponsor has not historically adjusted the prices obtained from the pricing services.

The table below presents the balances of investments held by the Plan measured at fair value on a recurring basis by level within the fair value hierarchy.

Money market funds	793,891	-	-	793,891
Total investments at fair value	$ 3,641,406	$ -	$ -	$ 3,641,406

NOTE 5 - Parties In Interest

Certain Plan investments are shares of registered investment companies managed by an affiliate of the trustee as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan for the investment management services amounted to $4,457 for the year ended December 31, 2013.

NOTE 6 - Tax Status

The Plan uses a prototype plan document sponsored by Capital Bank & Trust. The Plan obtained its latest determination letter on August 7, 2001, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the IRC. The Plan has been amended since receiving the determination letter. The Plan administrator believes that the Plan, as amended, is designed and being operated in compliance with the applicable requirements of the IRC. Therefore, the Plan administrator believes that the Plan was qualified and the related trust was tax-exempt at the financial statement date.

U.S. GAAP requires Plan management to evaluate tax positions taken by the Plan. The financial statements effects of a tax position are recognized when the position is more likely than not, based on the technical merits, to be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan and has concluded that as of December 31, 2013 and 2012, there are no uncertain positions taken or expected to be taken. The Plan has recognized no interest or penalties related to uncertain tax positions. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes the Plan is no longer subject to income tax examinations for tax returns filed in years prior to 2011.

NOTE 7 - Amount Owed to Participants Withdrawing From the Plan

As of December 31, 2013 and 2012, the Plan owed no benefits to participants that had terminated their employment with the Company and requested payment.
