CLEVELAND CLINIC INVESTMENT PENSION PLAN

NOTES TO FINANCIAL STATEMENTS

(1) Description of plan

The following description of the Cleveland Clinic Investment Pension Plan (Plan) provides only general information. Participants should refer to the Plan document or Summary Plan Description for a more complete description of the Plan's provisions. Copies of these documents are available from the Total Rewards Department at The Cleveland Clinic Foundation (Foundation).

General - The Plan is a defined contribution plan sponsored by the Foundation and certain of its affiliated entities (System) that was established January 1, 2010 for the benefit of the System's employees who were active as of or hired on or after January 1, 2010, excluding substantially all staff and senior/selected key exempt management employees (as defined). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

The Foundation is the plan administrator (Plan Administrator) and, by action of its Board, has established a Retirement Committee to act on its behalf as the Plan Administrator. The Retirement Committee has overall responsibility for the operation and administration of the Plan, including actions with respect to contracts, trusts, evaluation and engagement of investment fund managers and other Plan matters as required.

Contributions - Contributions made by the System to each participant's account represent a percentage (up to 5.5%) of the participant's annual salary and are based on the participant's years of service with the System. The System also makes supplemental contributions to certain participants (up to 4.0% of the participant's annual salary) based on the sum of their age and years of service. Years of service are based on a participant's total period of employment with the System, including service prior to establishment of the Plan. Contributions are subject to certain Internal Revenue Code (IRC) limitations.

Participant investment account options - All contributions to the Plan are made to Fidelity Management Trust Company (Fidelity). All contributions and earnings are to be invested as directed by the participants in any of the various mutual funds or guaranteed interest accounts held by Fidelity. Additionally, self-directed brokerage account investments are available through Fidelity Brokeragelink. Separate accounts are maintained for each participant.

Participant accounts - Each participant's account is credited with an allocation of the System's contribution, plan earnings, and charged with administrative expenses. Allocations are based on participant compensation or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. Any nonvested participant accounts are forfeited upon termination.

Vesting - Benefits are fully vested after three years of service.

NOTES TO FINANCIAL STATEMENTS

(1) Description of plan (continued)

Payment of benefits - On termination of service due to death, disability or retirement, or other reasons, a participant may elect to receive either a lump sum amount equal to the value of the participant's vested interest in his or her account, or annual installments over a period not to exceed the life of the participant or their beneficiary. Benefit payments are subject to certain restrictions as defined in the Plan document.

Forfeited accounts - At December 31, 2013 and 2012, forfeited non-vested accounts totaled \$67,723 and \$999,760, respectively. These accounts will be used to reduce future employer contributions. For the years ended December 31, 2013 and 2012, employer contributions were reduced by \$3,030,926 and \$1,339,078, respectively, from forfeited nonvested accounts.

(2) Summary of significant accounting policies

Basis of accounting - The financial statements of the Plan are prepared under the accrual method of accounting.

Use of estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect reported amounts of assets and liabilities and changes therein, and disclosures of contingent assets and liabilities. Accordingly, actual results may differ from those estimates.

Payment of benefits - Benefits are recorded when paid.

Administrative expenses - Certain expenses of the Plan are paid by the System and are not included in the statements of changes in net assets available for benefits. Investment related expenses are included in net appreciation of fair value of investments.

In 2012, the trust agreement was amended to provide for a Revenue Credit Account at Fidelity which is funded quarterly based on revenue sharing on covered investments, as defined, in excess of a quarterly participant fee. The Revenue Credit Account may be used to reimburse the System for fees and expenses or pay such vendors directly for services provided to the Plan. Amounts not used to pay expenses of the Plan may be allocated to Plan participants. Amounts allocated to participants are reported in the financial statements as other income. The Plan allocated \$57,450 and \$133,791 in revenue credits to participants in 2013 and 2012, respectively.

Investment valuation and income recognition - Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan Administrator determines the Plan's valuation policies utilizing information provided by the investment custodian. See Note 5 for discussion of fair value measurements.

NOTES TO FINANCIAL STATEMENTS

(2) Summary of significant accounting policies (continued)

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold, as well as held during the year.

Fully-benefit responsive investment contracts are reflected at contract value, since it represents the amount at which participants can execute transactions in the Plan. The Plan invests in investment contracts through guaranteed interest accounts (GICs) through MetLife and Prudential, which are fully benefit-responsive. The statements of net assets available for benefits presents the contract value of the GICs. However, no adjustment of the investment in the GICs from fair value to contract value relating to the investment contracts is required, as contract value approximates fair value.

(3) Investments

The following table presents investments that represent 5% or more of the Plan's net assets at year-end:

	December 31,	
	2013	2012
Vanguard Balance Index	\$ 77,219,806	\$ 67,045,023

NOTES TO FINANCIAL STATEMENTS

(4) **Information prepared and certified by the trustee**

The Plan Administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Fidelity, the trustee of the Plan, has certified that the following data included in the accompanying financial statements and supplemental schedule is complete and accurate with respect to investments:

- Investments at fair value
- Net appreciation in fair value of investments
- Dividends and interest
- Schedule of assets (held at end of year)

The Plan's independent public accountants did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedule.

(5) **Fair value measurements**

Authoritative guidance provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described below:

- Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
- Level 2 - Inputs to the valuation methodology include quoted prices for similar assets and liabilities in active markets; quoted prices for identical or similar assets and liabilities in inactive markets; inputs other than quoted market prices that are observable for the asset or liability; and inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.
- Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

CLEVELAND CLINIC INVESTMENT PENSION PLAN

NOTES TO FINANCIAL STATEMENTS

(5) Fair value measurements (continued)

The financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2013 and 2012.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily Net Asset Value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Guaranteed interest accounts: The Plan holds GIC accounts under which insurance companies promise to pay interest at crediting rates which are announced in advance and guaranteed for a specified period of time as outlined in the GICs. The fair value of each GIC account is determined by the insurance companies by multiplying the contractual market value adjustment by the contract value as of the Plan year-end date (see Note 6). In determining the reasonableness of the methodology, the Plan Administrator evaluates a variety of factors including review of existing contracts, economic conditions, industry and market developments, and overall credit ratings.

The preceding methods described may produce a fair value calculation that may not be indicative of the net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

(5) Fair value measurements (continued)

The table below sets forth a summary of changes in the fair value of the Plan's Level 3 investments for the years ended December 31, 2013 and 2012.

	Guaranteed Interest Accounts
January 1, 2012	\$ 9,505,664
Purchases	4,779,711
Sales and redemptions	(1,091,002)
Interest income	<u>328,418</u>
December 31, 2012	13,522,791
Purchases	6,316,796
Sales and redemptions	(2,219,173)
Interest income	<u>445,670</u>
December 31, 2013	<u><u>\$ 18,066,084</u></u>

No gains or losses relating to the guaranteed interest accounts are reported in the accompanying statements of changes in net assets available for benefits as a result of the accounts being reported at contract value which approximates fair value, as more fully described in Note 6. Contract value is the aggregation of contributions, plus interest, less withdrawals, if any. Rates are reset quarterly or annually using a portfolio rate approach where a single interest crediting rate is applied to all contributions made regardless of the timing of those contributions. The contracts are evergreen and do not have maturity dates.

NOTES TO FINANCIAL STATEMENTS

(5) Fair value measurements (continued)

The following table represents the Plan's Level 3 financial instruments, the valuation techniques used to measure the fair value of those financial instruments, and the significant unobservable inputs and the ranges of values for those inputs as of December 31, 2013.

<u>Description</u>	<u>Fair Value</u>	<u>Principal Valuation Techniques</u>	<u>Unobservable Inputs</u>	<u>Range of Significant Input Values</u>	<u>Weighted Average</u>
Guaranteed Interest Accounts	\$ 16,064,633	Contract value with market value adjustment	Contractual definitions of market value adjustments Declared interest rate	Market value adjustment: 0% 3.0%	N/A N/A
Guaranteed Interest Accounts	\$ 2,001,451	Contract value without market value adjustment	Declared interest rate	1.9%	N/A

(6) Fully benefit-responsive investment contracts

The Plan has benefit-responsive investment contracts with MetLife and Prudential. The MetLife and Prudential contracts are held by Fidelity. Contributions are maintained in the general accounts of the contract issuers. Each account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The contracts are included in the statements of net assets available for benefits at contract value as estimated by Fidelity. The Plan Administrator believes that the contract values approximate fair value. Therefore, no adjustment from fair value to contract value is included in the accompanying statements of net assets available for benefits.

There are no reserves against contract value for credit risk of the contract issuers or otherwise. The crediting interest rate is based on a formula agreed upon with the issuers, but may not be less than 1.5%, and 3.0% for the MetLife and Prudential investment contracts, respectively. Such interest rates are reviewed on a quarterly or annual basis for resetting.

Ranges for average yields and crediting interest rates related to the fully benefit-responsive investment contracts held by the Plan are as follows:

	<u>December 31,</u>	
	<u>2013</u>	<u>2012</u>
Average yield	1.9% - 3.0%	2.3% - 3.0%
Crediting interest rate	1.9% - 3.0%	2.3% - 3.0%

CLEVELAND CLINIC INVESTMENT PENSION PLAN

NOTES TO FINANCIAL STATEMENTS

(6) Fully benefit-responsive investment contracts (continued)

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events could include the following: (1) amendment to the Plan document (including complete or partial termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the plan sponsor or other plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. These events could cause contract value to be reduced subject to the application of market value adjustments, as defined in the contracts. The Plan Administrator does not believe that any events which would limit the Plan's ability to transact at contract value with Plan participants are probable of occurring.

There are no events that permit the issuer to terminate the contract which would require the Plan to transact at amounts different than contract value.

(7) Related party transactions and party-in-interest transactions

Fees for legal, accounting, trustee, and other services are paid for by the System. Administrative fees, including penalties for withdrawals, charged by Fidelity are deducted from the individual accounts of applicable participants. Other party-in-interest transactions include the purchase and sale of investments through Fidelity, the trustee of the Plan. Such transactions are exempt from being prohibited transactions. Fees incurred by the Plan for the investment management services are included in net appreciation in fair value of the investments, as they are deducted from the NAV of the respective mutual fund, rather than a direct payment.

(8) Plan termination

Although it has not expressed any intent to do so, the System has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In addition, each participating affiliate reserves the right to terminate the Plan as applicable to itself. In the event of plan termination, participants would become 100% vested in the benefits accrued to the date of termination.

(9) Tax status

The Internal Revenue Service has determined and informed the System by a letter dated May 17, 2012, that the Plan and the related trust are designed in accordance with the applicable sections of the IRC. The Plan has been amended since receiving the determination letter. However, the Plan Administrator believes that the Plan and related trust are currently designed and being operated in compliance with the applicable requirements of the IRC.

CLEVELAND CLINIC INVESTMENT PENSION PLAN

NOTES TO FINANCIAL STATEMENTS

(9) **Tax status (continued)**

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain tax position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan Administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2013, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan Administrator believes it is no longer subject to income tax examinations for years prior to 2010.

(10) **Risks and uncertainties**

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risk. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

(11) **Subsequent events**

The Plan has evaluated events that have occurred subsequent to the year ended December 31, 2013 through September 25, 2014, which is the date the financial statements were available to be issued. No significant matters were identified for disclosure during this evaluation.
