NOTES TO FINANCIAL STATEMENTS

Soft-Lite Windows 401(k) Plan

1 Description of Plan

The following description of the Soft-Lite Windows 401(k) Plan ("Plan") provides only general information. Participants should refer to the Plan document for a complete description of the Plan's provisions.

General:

The Plan, which began October 1, 2002, is a defined contribution plan covering all employees of Soft-Lite, LLC who meet the hour and age requirements. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Eligibility:

All employees of the Company age 21 and older are eligible. After six months of service, employees are allowed to make participant contributions in the Plan. All eligible participants who are employed for one year (1,000 hours) are eligible for matching contributions to the Plan.

Contributions:

Cash or Deferred Option [401(k)] - Participants may elect up to 85% of their compensation to be contributed to the Plan by the Company. Catch up contributions are allowed in accordance with Internal Revenue Service guidelines.

Employer Matching Contributions - The Company may make contributions to each eligible participant's account by matching a percentage of the participant's elective deferral for the Plan year.

The Company may also make additional employer discretionary contributions. Such additional contributions, if any, shall be allocated to each participant in proportion to his or her compensation for the calendar year.

Contributions are subject to limitations on annual additions and other limitations imposed by the Internal Revenue Code as defined in the Plan agreement.

Participants' Accounts:

401(k) Accounts - Each participant's account is credited with the participant's elective contributions, employer matching contributions, employer discretionary contributions, earnings and losses thereon.

Rollover contributions from other Plans are also accepted, providing certain specified conditions are met.

NOTES TO FINANCIAL STATEMENTS

Soft-Lite Windows 401(k) Plan

1 Description of Plan, Continued

Vesting:

All participants are 100% vested in elective deferrals and rollover contributions made to the Plan. Participants are vested as follows in employer matching and discretionary contributions.

Years of Service	Percentage Vested
1	0%
2	25%
3	50%
4	75%
5	100%

Forfeitures:

Forfeitures due to termination from the Plan before a participant is 100% vested shall be added to discretionary contributions and allocated as an additional match. Total forfeitures allocated amounted to \$0 (2013) and \$125 (2012).

Notes Receivable from Participants:

Loans are permitted under certain circumstances and are subject to limitations. Participants may borrow from their fund accounts up to a maximum equal to the lesser of \$50,000 or 50% of their account balance. Loans are repaid over a period not to exceed five years, with exceptions for the purchase of a primary residence.

Loans are measured at their unpaid principal balance plus any accrued, but unpaid interest. The loans are secured by the balance in the participant's account and bear interest at 2% above prime established by the Plan Administrator. Principal and interest are paid ratably through payroll deductions.

Other Plan Provisions:

Normal retirement age is 65; however, a participant may elect early retirement on or after age 55. The Plan also provides for early payment of benefits after reaching age 59-1/2.

Payment of Benefits:

1 Description of Plan, Continued

Hardship Withdrawals:

Hardship withdrawals are permitted in accordance with Internal Revenue Service guidelines.

Investment Options:

Upon enrollment in the Plan, a participant may direct his or her contributions in any or all of the Plan's investment options.

2 Summary of Significant Accounting Policies

Basis of Accounting:

The Plan's transactions are reported on the accrual basis of accounting.

Valuation of Investments:

Investments held in mutual funds are stated at fair value. Marketable securities are reported at fair market value as of the balance sheet date. Fair market values represent quoted market prices or, if quoted market prices are not available, estimated fair values as determined by the Plan's investment broker. The fair value of the guaranteed investment contract is calculated by discounting the related cash flows based on current yields of similar instruments with comparable durations.

Under current accounting guidance, investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan.

Use of Estimates:

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.

NOTES TO FINANCIAL STATEMENTS

Soft-Lite Windows 401(k) Plan

2 **Summary of Significant Accounting Policies, Continued**

Administrative Fees:

Substantially all administrative fees are paid by Soft-Lite, LLC.

Plan Termination:

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

Risks and Uncertainties:

The Plan's investment include investments in mutual funds and collective funds holding investment contracts with varying degrees of risk such as interest rate, credit and overall market volatility risks. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and such changes could materially affect the amounts reported in the Statement of Net Assets Available for Plan Benefits.

Subsequent Events:

Management evaluates events occurring subsequent to the date of the financial statements in determining the accounting for and disclosure of transactions and events that affect the financial statements.

Effective January 1, 2014, the Plan assets were transferred to ING Life Insurance and Annuity Company.

Subsequent events have been evaluated through September 10, 2014, which is the date the financial statements were available to be issued.

3 Fair Value Measurements

As defined in FASB ASC 820, "Fair Value Measurements", fair value is the price that would be received to sell an asset, or paid to transfer a liability, in an orderly transaction between market participants at the measurement date. In determining fair value, the Company utilizes certain assumptions that market participants would use in pricing the asset or liability, including assumptions about risk and/or the risks inherent in the inputs to the valuation technique. These inputs can be readily observable, market corroborated or generally unobservable firm inputs. The Company utilizes valuation techniques that maximize the use of observable inputs and minimize the use of unobservable inputs. Based on the examination of the inputs used in the valuation techniques, the Company is required to provide the following information according to the fair value hierarchy. The fair value hierarchy ranks the quality and reliability of the information used to determine fair values. Financial assets and liabilities carried at fair value will be classified and disclosed in one of the following three categories:

- * Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
- * Level 2: Inputs to the valuation methodology include:
 - * Quoted prices for similar assets or liabilities in active markets;
 - * Quoted prices for identical or similar assets or liabilities in inactive markets;
 - * Inputs other than quoted prices that are observable for the asset or liability;
 - * Inputs that are derived principally from or corroborated by observable market data by correlation or other means.
- * Level 3: Inputs to the valuation methodology that are unobservable and significant to the fair value measurement.

A financial instrument's categorization within the valuation hierarchy is based upon the lowest level of input that is significant to the fair value measurement.

The following is a description of the valuation methodologies used for instruments measured at fair value, including the general classification of such instruments pursuant to the valuation hierarchy.

Guaranteed Interest Account:

The fair value of the guaranteed interest account ("GIA") is based on the underlying assets of the contract. The fair value is expressed in units. The GIA is classified in the Level 3 category of the valuation hierarchy.

4 Tax Status

On March 31, 2008, the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. The Plan has been amended; however, the Plan Administrator and the Plan's tax counsel believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, they believe that the Plan was qualified and the related trust was tax-exempt as of the financial statement date.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability, if the Plan has taken uncertain tax positions that more-likely-than-not would not be sustained upon examination by applicable taxing authorities. The Plan Administrator has analyzed tax positions taken by the Plan and has concluded that, as of December 31, 2013, there are no uncertain tax positions taken, or expected to be taken, that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions. However, currently no audits for any tax periods are in progress. The Plan Administrator believes that the Plan is no longer subject to income tax examinations for years prior to December 31, 2010.

5 Investments

The Plan's funds are invested in the various stock, bond and cash investments through American United Life Insurance Company. Investments which constitute more than 5% of the Plan's net assets are:

	<u>2013</u>	<u>2012</u>
AUL Fixed Fund	\$ 627,891	\$ 544,848
AmCent Small Cap Value	\$ 160,015	\$ 155,851

SSgA S&P 500 Flagship Fund	\$ 240,655	\$ 159,254

During 2013 and 2012, the net appreciation in the fair value of investments was as follows:

	<u>2013</u>	<u>2012</u>
Mutual Funds	\$ 347,943	\$ 167,528

6 Information Prepared and Certified by Trustee

The following information included in the accompanying financial statements and supplemental schedule was obtained from data that has been prepared and certified as complete and accurate by the Trustee:

	<u>2013</u>	<u>2012</u>
Notes receivable from participants	\$ 46,373	\$ 42,404
Investments - at fair value	\$ 2,289,714	\$ 1,954,103
Employer receivables	\$ -	\$ 24,632
Interest and dividend income	\$ 19,184	\$ 17,491
Investment income	\$ 345,823	\$ 165,462

7 Party-in-Interest Transactions

Certain Plan investments are shares of mutual funds managed by American United Life Insurance Company ("AUL"), the Trustee as defined by the Plan and, therefore, these transactions qualify as party-in-interest. Usual and customary fees were paid by the mutual fund for the investment management services.

8 Benefit-Responsive Contract

In 2002, the Plan entered into a benefit-responsive investment contract with AUL. AUL maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

As described in Note 2, because the guaranteed investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. Contract value, as reported to the Plan by AUL, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The crediting interest rate is based on a formula agreed upon with the issuer, but it may not be less than zero percent. Such interest rates are reviewed on a quarterly basis for resetting.

NOTES TO FINANCIAL STATEMENTS

Soft-Lite Windows 401(k) Plan

8 Benefit-Responsive Contract, Continued

Per the annuity contract, contract value is equal to fair value. There are no specific securities in the general account that back the liabilities of the annuity contract, and it would be inappropriate to look at the market value of the securities within the insurer's general account to determine fair value. The Plan owns a promise to pay interest at crediting interest rates, which are announced in advance and guaranteed for a specified period of time as outlined in the group annuity contract. This product is not a traditional guaranteed investment contract and, therefore, there are not any known cash flows that could be discounted.

The average yield based on actual earnings of the contract was 3.40% (2013) and 3.05% (2012). The crediting interest rate was 3.00% (2013) and 3.05% (2012).

9 Subsequent Event

Effective January 1, 2014, the previous benefit-responsive investment contract with AUL was terminated and the Plan entered into a contract with ING Life Insurance and Annuity Company.

Revenue Sharing Formula:

The investment options of the Plan include various portfolios within an AUL separate account. The separate account in turn invests in investment portfolios of certain open-end management investment companies. AUL receives indirect compensation from these investment companies for the services provided by AUL.

The compensation received by AUL is computed by each investment company by multiplying the daily account balance of the AUL separate account's interest in a particular portfolio by a predetermined percentage rate negotiated with the investment company. This indirect compensation is not charged to the plan or participants accounts but is paid directly by the investment company.
