Contributions

Participants may contribute up to 60% of their annual compensation as defined by the Plan, not to exceed the maximum allowable contributions under the Internal Revenue Code (the Code). The maximum allowable pre-tax contributions totaled \$17,500 for the year ended December 31, 2013 and \$17,000 for the year ended December 31, 2012. Participants may also contribute after-tax amounts to the Plan. Participants who have attained age 50 before the end of the Plan year may make additional catch-up contributions, subject to limitations imposed by the Code. Participants are permitted to make rollover contributions to the Plan. Roth rollovers are not permitted.

The Company may provide matching contributions to eligible participants. Participants are eligible for a match if they contribute to the Plan. Prior to January 15, 2012, Baltimore hourly participants hired before January 1, 2008, received a match equal to 50% of the participant contributions up to 6% of base earnings and Baltimore hourly participants hired on or after January 1, 2008, the Company matching contributions equaled 100% of the participant contributions, up to 4% of base earnings. Effective January 15, 2012, the Company match for all Baltimore hourly employees is 100% of the participant contributions up to 6% of base earnings.

The Company matching contributions for all New Johnsonville hourly participants equaled 100% of the participant contributions up to 4% of base earnings.

Prior to October 1, 2012, for salaried employees hired on or after July 19, 2005, the Company matching contributions equaled 100% of the participant contributions up to 4% of base earnings. Effective October 1, 2012, the Company match for all salaried employees is 100% of the participant contributions up to 6% of base earnings.

There is no Company match on overtime or other special pay. The Company also elected to match participant catch-up contributions at the same rates as regular participant contributions. For the years ended December 31, 2013 and 2012, the Company's matching contributions totaled \$485,497 and \$367,748, respectively.

Note 1: Plan Description and Significant Accounting Policies (Continued)

Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contribution and (b) plan earnings (losses), and charged with an allocation of administrative expenses. Allocations are based on participant earnings (losses) or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately 100% vested in their salary deferral contributions plus earnings thereon. Vesting in the Company's contribution is based upon years of service. After three years of service, participants become vested at 100%.

Notes Receivable from Participants

Participants may borrow from their accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. Only one loan per participant may be outstanding at a given time and loan terms range from one to five years, except for loans used to purchase a principal residence, which extend over ten years. The loans are secured by the balance in the participant's vested account and bear interest at a reasonable interest rate similar to a bank's rate for a comparable personal loan. The rate is fixed throughout the duration of the loan. Interest rates on outstanding loans range from 3.75% to 5.75%. Principal and interest are paid ratably through payroll deductions. The outstanding loan balances as of December 31, 2013 and 2012, were \$312,361 and \$356,055, respectively.

Payment of Benefits

Upon termination of service due to death, disability, retirement (age 65), early retirement (55 years of age and 10 years of service) or attainment of age 59 1/2 by a participant or their beneficiary, in the event of death, is entitled to a distribution of their vested account balance. Distributions from the Plan are payable in the form of a lump sum payment or installment payments. Upon proof, to the satisfaction of the plan administrator, of an immediate and heavy financial need, amounts contributed by the employee may be withdrawn for a hardship purpose. Distributions are subject to the applicable provisions of the plan agreement. Certain income taxes and penalties may apply to withdrawals or distributions prior to age 59 1/2.

Forfeited Accounts

Forfeitures of Company contributions can be applied to pay administrative expenses or reduce Company contributions. Forfeitures available to reduce future Company contributions or pay administrative expenses totaled \$49,406 and \$21,902 as of December 31, 2013 and 2012, respectively. For both years ended December 31, 2013 and 2012, no forfeitures were used to reduce Company contributions or pay administrative expenses.

Note 1: Plan Description and Significant Accounting Policies (Continued)

A summary of the Plan's significant accounting policies follows:

Basis of Accounting

The Plan's financial statements are prepared under the modified cash basis of accounting, which is a comprehensive basis of accounting other than accounting principles generally accepted in the United States of America. Accordingly, certain additions are not recorded until the cash is collected and certain deductions are not recorded until the obligation is disbursed.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Plan invests in investment contracts through a collective trust. Contract value for this collective trust is based on the net asset value of the fund as reported by the investment advisor. The statements of net assets available for benefits - modified cash basis present the fair value of the investment in the collective trust as well as the adjustment of the investment in the collective trust from fair value to contract value relating to the investment contracts. The statements of changes in net assets available for benefits - modified cash basis is prepared on a contract value basis.

Use of Estimates

The preparation of financial statements in conformity with the modified cash basis of accounting, a comprehensive basis of accounting other than accounting principles generally accepted in the United States of America, requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balances plus any accrued but unpaid interest. No allowance for credit losses has been recorded as of December 31, 2013 and 2012. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Investments

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income and dividends are recorded when received. Net appreciation includes the Plan's gains and losses on investments bought and sold, as well as held during the year.

Note 1: Plan Description and Significant Accounting Policies (Continued)

Investments (Continued)

Investment securities, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the value of investment securities will occur in the near term and such changes could materially affect the amounts reported in the statements of net assets available for benefits - modified cash basis.

Payment of Benefits

Benefits are recorded when paid.

Administrative Expenses

Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative fees. Investment related expenses are included in net appreciation of fair value of investments.

Recent Pronouncements

In March 2014, the FASB issued ASU 2014-06, *Technical Corrections and Improvements Related to Glossary Terms*. The amendments in this Update relate to glossary terms and cover a wide range of Topics in the Accounting Standards Codification, including plan accounting. These amendments represent changes to clarify the master glossary of FASB ASC, consolidate multiple instances of the same term into a single definition, or make minor improvements to the master glossary that are not expected to result in substantive changes to the application of existing guidance or create a significant administrative cost to most plans. The amendments in this update do not have transition guidance and will be effective upon issuance. The adoption of ASU 2014-06 is not expected to have a material impact on subsequent periods.

Note 2: Information Certified and Provided by Fidelity Management Company

The following is a summary of the Plan's asset information as of December 31, 2013 and 2012, and for the years then ended, included throughout the Plan's financial statements and supplemental schedules that were prepared by or derived from information provided by Fidelity Management Trust Company (Fidelity), the trustee, and furnished to the plan administrator. The plan administrator has obtained certifications from the trustee that information provided to the plan administrator by the trustee related to the following assets is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the United States Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA, the Plan administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to information which appears throughout the financial statements and supplemental schedules related to the assets indicated in the table below.

Note 3: Fair Value of Financial Instruments

FASB ASC 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

ERACHEM COMILOG, INC. EMPLOYEES' SAVINGS PLAN AND TRUST
NOTES TO FINANCIAL STATEMENTS – MODIFIED CASH BASIS

December 31, 2013 and 2012

Note 3: Fair Value of Financial Instruments (Continued)

Level 1: Inputs to the valuation methodology are unadjusted quoted prices in active markets for identical assets or liabilities that the reporting entity has the ability to access at the measurement date.

Level 2: Inputs to the valuation methodology include (a) quoted prices for similar assets or liabilities in active markets; (b) quoted prices for identical or similar assets or liabilities in inactive markets; (c) inputs other than quoted prices that are observable for the asset or liability; and (d) inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable for the asset or liability, significant to the fair value measurement, and include situations where there is little, if any, market activity for the asset or liability. The inputs into the determination of fair value are based upon the best information in the circumstances and may require significant management judgment or estimation.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2013 and 2012.

Mutual Funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-ended mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Common Collective Trust: Valued based on the fair value of the collective trust's underlying investments. Investments can be redeemed at net asset value per share based on the fair value of the underlying assets. This category invests primarily in a broadly diversified portfolio of fixed income securities necessary to achieve the investment objective of capital preservation.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Note 4: Tax Status

The Plan adopted a nonstandardized form of a prototype plan sponsored by Fidelity. The prototype plan has received an opinion letter dated March 31, 2008, from the Internal Revenue Service (IRS) as to the prototype plan's qualified status. The prototype plan opinion letter has been relied upon by this Plan. The Plan has been amended since the date of this opinion letter. The plan administrator believes the Plan is designed and is being operated in compliance with the applicable provisions of the Internal Revenue Code (IRC).

Management has evaluated the Plan's tax positions and concluded that the Plan has maintained its tax-exempt status and has taken no uncertain tax positions that require adjustment to the financial statements. Therefore, no provision or liability for income taxes has been included in the financial statements. With few exceptions, the Plan is no longer subject to income tax examination by the federal, state or local tax authorities for years before 2009.

Note 5: Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan, to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants would become 100% vested in their Company contributions.

Note 6: Related Party Transactions

Certain plan investments are shares of mutual funds and common trusts managed by Fidelity. Fidelity is the trustee as defined by the Plan, and therefore, these transactions qualify as party-in-interest transactions.
