SELECT INTERNATIONAL CORP. 401(K) RETIREMENT SAVINGS PLAN

NOTES TO FINANCIAL STATEMENTS

A. DESCRIPTION OF PLAN:

The following description of the Select International Corporation 401(k) Retirement Savings Plan provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

1. *General.* The Plan is a defined contribution plan covering substantially all full-time employees of the Company. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).
2. *Contributions.* Participants may contribute up to 100% of pretax annual compensation, as defined in the Plan, limited to the statutory maximum contribution (\$17,500 for participants under the age of 50 and \$23,000 for participants ages 50 and over). Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. The Company has a discretionary matching provision which is determined annually by the Board of Directors. Additional profit sharing amounts may be contributed at the option of the Company's Board of Directors. Participants direct the investment of their contributions into various investment options offered by the Plan.
3. *Participant Accounts.* Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contribution, (b) Plan earnings, and (c) charged with an allocation of administrative expenses if applicable. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.
4. *Vesting.* Participants are immediately vested in their voluntary contributions plus actual earnings thereon. Vesting in the Company's contribution portion of their accounts is based on years of continuous service. A participant is 100% vested after three years of credited service.
5. *Forfeitures.* Forfeitures of non-vested money shall first be used to pay plan administrative expense. To the extent any forfeitures remain, they will then be used to reduce any Employer contributions for the plan year in which the forfeiture occurred. Unallocated forfeitures at December 31, 2013 and 2012 were \$3,793 and \$1,847, respectively.
6. *Notes Receivable from Participants.* Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their account balance. The loans are secured by the balance in the participant's account and bear interest at rates that range from 4.25% to 7.00%, which are determined by the Plan administrator. Principal and interest is paid ratably through weekly and bi-weekly payroll deductions.
7. *Payment of Benefits.* On termination of service, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account or annual installment payments. The Plan allows in-service distributions, subject to the provisions stated above.
8. *Plan Expenses.* Administrative expenses are absorbed by the plan sponsor or paid through forfeitures.

SELECT INTERNATIONAL CORP. 401(K) RETIREMENT SAVINGS PLAN

NOTES TO FINANCIAL STATEMENTS

B. SUMMARY OF ACCOUNTING POLICIES:

1. *Basis of Presentation.* The accompanying financial statements have been prepared on the accrual basis of accounting.
2. *Investment Valuation and Income Recognition.* Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note F for discussion of fair value measurements.

Net appreciation (depreciation) in fair value of investments is reflected in the statements of changes in net assets available for benefits and includes realized gains and losses on investments bought and sold and the change in appreciation from one period to the next. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Acquisition costs are included in the cost of investments purchased and sales are recorded net of selling expenses.

3. *Payment of Benefits.* Benefits are recorded when paid.
4. *Use of Estimates.* The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein and disclosure of contingent assets and liabilities at the date of the financial statements. Actual results could differ from these estimates.

Certain Plan investments are shares of mutual funds managed by JPMorgan Chase Bank, N.A. JPMorgan Chase Bank, N.A. is the trustee as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions.

F. FAIR VALUE MEASUREMENTS:

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access. Inputs to the valuation methodology include -- quoted prices for similar assets or liabilities in active markets.

SELECT INTERNATIONAL CORP. 401(K) RETIREMENT SAVINGS PLAN

NOTES TO FINANCIAL STATEMENTS

F. FAIR VALUE MEASUREMENTS (Continued):

Level 2 – Inputs other than quoted prices that are observable for the asset or liability; inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2013 and 2012:

Mutual funds: Valued at the net asset value (NAV) of shares held by the plan at year-end.

Common/Collective Trusts: Valued at quoted market price, closing price or net asset value of the underlying readily marketable securities.

Notes receivable from participants: Valued at amortized cost, which approximates fair value.

The following tables present the plan's fair value hierarchy for those assets and liabilities measured at fair value on a recurring basis as of December 31, 2013 and 2012.

G. COMMON/COLLECTIVE TRUSTS:

The plan invests in the JPMorgan Stable Asset Income Fund (the fund), a common/collective fund that invests in a high diversified fixed income strategy combined with investment contracts called “benefit responsive wraps,” issued by American General (A+), ING (A-), Metlife (AA-), Prudential (AA-), and Transamerica (AA-). The fixed income strategy consists of investment in other collective trust funds and a separate account which may include U.S. treasury and agency securities, mortgage backed securities, asset-backed securities, private mortgages, corporate debt and short-term investments.

The plan’s interest in the Fund is calculated by applying the Plan’s ownership percentage in the Fund to the total fair value of the Fund. The underlying assets owned by the Fund consist primarily of readily marketable fixed income securities with quoted market prices.

The interest crediting rate is determined quarterly and is calculated based upon many factors including current economic and market conditions, the general interest rate environment, and purchases and redemptions by unit holders. There is no relationship between future crediting rates and the adjustment to contract value reported in the statement of net assets available for benefits.

The average market yield of the Fund for the years ended December 31, 2013 and 2012 was 1.77% and 1.78%, respectively.

NOTES TO FINANCIAL STATEMENTS

H. TAX STATUS:

The plan is a prototype plan designed by their third party administrator. The Internal Revenue Service has determined and informed the third party administrator by a letter dated August 30, 2001, that the prototype plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC).

I. PLAN TERMINATION:

Although it has not expressed any intent to do so, the Company has the right under the plan to discontinue its contributions at any time and to terminate the plan subject to the provisions of ERISA. In the event of plan termination, participants will become 100 percent vested in their accounts.

J. RISKS AND UNCERTAINTIES:

The plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

K. SUBSEQUENT EVENTS:

Subsequent events have been evaluated through October 3, 2014, which is the date the financial statements were available to be issued.
