(1) Description of Plan

The following description of the F. Schumacher & Co. 401(k) Plan for Salaried Employees (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

(a) General

The Plan is a defined contribution plan covering all salaried employees of F. Schumacher & Co. (the Company) who have worked 500 hours during their first consecutive six months of employment. The Plan is administered by the Executive Retirement Committee of the Company and is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended, (ERISA).

At December 31, 2013 and 2012, the Plan's assets are in the custody of Bank of America, N.A. (Trustee).

(b) Contributions

Each year, participants may contribute pretax annual compensation, subject to Internal Revenue Code (IRC) limitations. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing rollovers from other qualified benefit plans. Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan currently offers various mutual funds and an insurance investment contract as investment options for participants. Effective January 1, 2009, the Company amended the Plan to eliminate its matching contribution requirement.

A participant's maximum annual pre-tax contribution was limited to the Internal Revenue Service cap of $17,500 in 2013 and $17,000 in 2012 for participants under the age of 50, and $23,000 and $22,500 for 2013 and 2012, respectively, for participants age 50 and over.

(c) Participant Accounts

Each participant's account is credited with the participant's contribution, Plan earnings and certain administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

(d) Vesting

Participants are vested immediately in their contributions plus actual earnings thereon. A participant is 100% vested after three years of credited service.

(e) Notes Receivable from Participants

Participants may borrow from their participant accounts up to a maximum amount equal to the lesser of $50,000 or 50% of their account balance. The loans are secured by the balance in the participant's account and bear interest at rates ranging from 3.25% to 9.00%. Principal and interest are paid through monthly payroll deductions.

(f) Payment of Benefits

On termination of service due to death, disability, or retirement, a participant receives a lump-sum amount equal to the value of the participant's vested interest in his or her account. Participants continuing employment subsequent to obtaining the age of 70½ may elect to receive installment payments over their remaining life expectancy.

(g) Forfeitures

As of December 31, 2013 and 2012, forfeited nonvested accounts totaled approximately $976 and $2,729, respectively.

(2) Summary of Accounting Policies

(a) Basis of Accounting

The financial statements of the Plan are prepared using the accrual basis of accounting.

(b) Use of Estimates

The preparation of the financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities and changes therein and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

(c) Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See note 4 for discussion on fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation and depreciation in the fair value of investments are recognized in the financial statements in the periods in which such changes occur and includes gains and losses on investments bought and sold during the year as well as held during the year.

Investments, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility. Due to the level of risk associated with these investments, it is reasonable that changes in the values of investment securities could occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

(d) Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid balance plus any accrued but unpaid interest. Delinquent notes receivable, if any, are recorded as a distribution based upon the terms of the plan document.

(e) Benefit Payments

Benefits are recorded when paid.

(f) Administrative Costs

Substantially all administrative costs of the Plan are paid by the Company.

(3) Investment Information Certified by Trustee

The Plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the Plan administrator has obtained certifications from the Trustee that all information relating to the Plan's cash, investments, and notes receivable from participants and related investment income is complete and accurate as of and for the years ended December 31, 2013 and 2012. Information as to the value of the cash, investments, investment income, and all information in the supplemental schedule is presented in reliance solely upon those certifications. Investments that represent 5% or more of the Plan's net assets as of December 31, 2013 and 2012 are separately identified.

(4) Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; and inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset of liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

Following is a description of the valuation methodologies used for assets measure at fair value. There have been no changes in the methodologies used as of December 31, 2013 and 2012.

Mutual funds: Valued at the net asset value (NAV) of shares held by the Plan based upon unadjusted quoted market prices.

Common collective trust funds: Valued at NAV based upon units held by the Plan. Investments are redeemable at NAV daily, with no redemption notification period. The Plan has no unfunded commitments.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2013 and 2012.

(5) Related-Party Transactions

Certain Plan investments in mutual funds and common collective trust funds are managed by the Plan's Trustee. Therefore, transactions related to these investments qualify as party-in-interest transactions. Fees paid by the Plan relate to record keeping services and amounts to $2,365 and $12,248 for the years ended December 31, 2013 and 2012, respectively.

The Company pays substantially all of the Plan's administrative expenses.

(6) Plan Termination

Although it has not expressed an intent to do so, the Company has the right under the Plan to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

(7) Tax Status

The Internal Revenue Service has determined and informed the Company by a letter dated June 9, 2012, that the Plan and related trust are designed in accordance with applicable sections of the IRC. The Plan has been amended since receiving the determination letter; however, the Plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC. The Plan administrator has analyzed the tax positions taken by the Plan and has concluded there are no uncertain tax positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability (or asset) if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2013 and 2012, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2013.

(8) Subsequent Events

The Plan evaluated subsequent events through October 13, 2014 and determined no adjustment or disclosure was required to the financial statements.
