1. Plan Description

The following description of the Ozinga Bros., Inc. (the "Company") Employees' Profit Sharing Plan & Trust (the "Plan") provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan with a 401(k) feature available to employees of the Company who have attained the age of 21, and have completed one month of service with the Company.

Contributions

Each year, participants may contribute up to 90% of their eligible pre-tax compensation, as defined in the Plan. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit and defined contribution plans.

The Company currently does not match any participant deferrals contributed to the Plan, although the Board of Directors may elect to make discretionary matching contributions each year.

Additionally, the Company may elect to make a discretionary profit-sharing contribution to the Plan as determined by the Board of Directors each year. Participants must have attained the age of 21 and have completed at least one year of service with 1,000 hours in order to receive an allocation of any discretionary profit-sharing contributions. For 2013 and 2012, the Company accrued profit-sharing contributions of $1,823,131 and $1,580,563, respectively. Profit-sharing contributions are allocated based on a percentage of eligible employee compensation.

Contributions are subject to certain IRS limitations.

Participants may direct the investment of all contributions into various investment options offered by the Plan.

Participants' Accounts

Each participant's account is credited with the participant's contributions and any Company discretionary matching contributions as well as an allocation of any Company discretionary profit-sharing contributions and Plan earnings. Participant accounts are charged with an allocation of administrative expenses which are paid by the Plan. Allocations are based on participant earnings, account balances or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Notes Receivable from Participants

Participants may borrow from their accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. The loans are secured by the balance in the participant's account and bear interest at rates commensurate with local prevailing rates as determined by the plan administrator. The loans are repaid ratably through weekly payments by the participants over a period not to exceed five years unless used for the purchase of a primary residence, in which case the repayment period cannot exceed 10 years.

Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company contribution portion of their accounts occurs ratably over six years. Participants are fully vested after the earlier of six years of service or normal retirement age, as defined.

Payment of Benefits

Upon termination of service, death, disability, or retirement, a participant or his or her beneficiary may elect to receive their benefits as either a lump-sum distribution or in the form of installment payments under various options. Under certain circumstances, a participant may be able to receive a distribution for reasons of financial hardship.

Forfeitures

Forfeitures are first used to offset administrative expenses of the Plan, and any remaining can be used to reduce future Company contributions. The total amount of forfeited nonvested accounts during the year ended December 31, 2013 was minimal.

2. Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements have been prepared under the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

The Plan investments are stated at fair value. The fair value of a financial instrument is the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The life insurance policies are stated at the cash surrender value which approximates fair value. See Note 4 for discussion of fair value measurements.

Purchases and sales of investments are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. No allowance for credit losses has been recorded as of December 31,

2013 or 2012. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Benefit Payments

Benefits are recorded when paid.

Administrative Expenses

Certain administrative expenses of the Plan are paid by the Company and are excluded from these financial statements. Fees related to the administration of notes receivable from participants and certain investment related expenses are charged directly to the participant's account and are included in administrative expenses.

Subsequent Events

The plan administrator has evaluated subsequent events through October 13, 2014, the date the accompanying financial statements were available to be issued. No material subsequent events have occurred through October 13, 2014 that required recognition or disclosure in the financial statements, except as noted in Note 11 to the financial statements.

3. Investments

The following table presents investments that represent 5% or more of the Plan's net assets at December 31, 2013 and 2012:

December 31,	**2013**	2012
* FA Freedom 2015 I	**$ 7,214,515**	$ 6,392,397
* FA Freedom 2020 I	**4,641,116**	3,722,482
* FA Freedom 2010 I	**3,983,771**	3,596,803
* FA Freedom 2030 I	**3,231,202**	2,808,499
* FA Freedom 2025 I	**2,842,928**	2,311,247
* FA Freedom 2035 I	**2,150,779**	1,860,001

*A party-in-interest as defined by ERISA.

4. Fair Value Measurements

ASC 820, *"Fair Value Measurements and Disclosures,"* establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or identical liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described below:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets,
- quoted prices for identical or similar assets or liabilities in inactive markets,
- inputs other than quoted prices that are observable for the asset or liability,
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full-term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2013 and 2012.

Shares of Mutual Funds and Money Market Fund: Value at the daily closing prices as reported by the fund. Mutual funds held by the Plan are open-ended funds that are registered with the SEC. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The shares of mutual funds held by the Plan are deemed to be actively traded.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth, by level within the fair value hierarchy, the Plan investment assets at fair value, as of December 31, 2013 and 2012.

5. Information Certified by the Trustee

The plan administrator has elected the alternative method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Fidelity Management Trust Company, the Plan's trustee, has certified that the following data included in the accompanying financial statements and supplemental schedule is complete and accurate:

a. Investments at fair value and notes receivable from participants, as shown in the Statements of Net Assets Available for Benefits.

b. Investment income and interest income on notes receivable from participants, as shown in the Statements of Changes in Net Assets Available for Benefits.

c. The Schedule of Assets (Held at Year End), as shown in the supplemental schedule.

The Plan's independent auditors did not perform auditing procedures with respect to this information except for comparing such information to the related information included in the financial statements and supplemental schedule.

6. Cash Surrender Value of Life Insurance Policies

Activity related to insurance policies for the year ended December 31, 2013 was as follows: insurance premiums paid from policy dividends totaled $1,541 and the increase in cash surrender value of life insurance policies totaled $3,079.

7. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in the Company contribution portion of their accounts.

8. Income Tax Status

The plan administrator has adopted the Volume Submitter Profit Sharing Prototype Plan developed by Fidelity Management and Research Company, who obtained an opinion letter dated March 31, 2008 in which the Internal Revenue Service ("IRS") stated that the prototype plan was in compliance with applicable requirements of the Internal Revenue Code ("IRC"). The Plan has been amended since the date of this opinion letter; the plan administrator believes that the Plan is currently being operated in accordance with the applicable requirements of the IRC.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2013, there are no uncertain positions taken or expected to be taken that would require recognition of the liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2010.

9. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the value of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

10. Related-Party and Party-in-Interest Transactions

Certain Plan investments are managed by Fidelity Management Trust Company, the trustee of the Plan; therefore, these transactions qualify as party-in-interest transactions. Certain employees of the Company provide administrative services to the Plan. These employees are not paid by the Plan for their services.

11. Subsequent Events

The Plan was amended after the plan year ended December 31, 2013, to reduce the age requirement for participation in the plan from 21 to 18 and to remove the one month of service requirement to immediate entry into the plan, effective January 1, 2014. Eligibility to receive allocations of discretionary matching or profit-sharing contributions remains at the attainment of age 21 and was not impacted by this amendment.
