To the Participants and Administrator of the
USA Retirement Savings Plan

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of the USA Retirement Savings Plan (the "Plan"), which comprise the statements of net assets available for plan benefits as of December 31, 2013 and 2012 and the related statement of changes in net assets available for plan benefits for the year ended December 31, 2013, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on the financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 4, which was certified by Vanguard Fiduciary Trust Company, the trustee of the Plan, except for comparing such information with the related information included in the financial statements. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the trustee as of December 31, 2013 and 2012 and for the year ended December 31, 2013, that the information provided to the plan administrator by the trustee is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on the financial statements.

Other Matter

The supplemental Schedule H, Line 4i - Schedule of Assets (Held at End of Year) as of December 31, 2013 is required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 and is presented for the purpose of additional analysis and is not a required part of the financial statements. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we do not express an opinion on this supplemental schedule.

Report on Form and Content in Compliance with DOL Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

1. Description of the Plan

The following brief description of the USA Retirement Savings Plan (the "Plan"), sponsored by United Space Alliance, LLC ("USA" or the "Company"), is provided for general informational purposes only. Participants should refer to the plan document for more complete information.

General

The Plan is a defined contribution savings plan sponsored by USA. The Plan is extended to cover all employees of USA who are eligible to participate upon commencement of employment. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended ("ERISA").

Administration

The Benefits Plan Administrator of the Company is responsible for the operation and administration of the Plan and is authorized to delegate such responsibilities to the Benefits Administrative Committee of the Company (the "Committee") as the administrator may deem necessary and appropriate.

Eligibility

The Plan covers all salaried or hourly employees employed by the Company or a wholly owned subsidiary of the Company. This includes part-time employees who are employed on a regular basis by the Company or subsidiary and employees reported as common law employees on USA payroll records. An employee is eligible to participate the first payroll period beginning after the date of hire. Employees are not eligible to participate if:

- Compensated by special fees or under a special contract or arrangement, or on a commission basis;

- Covered by a bargaining agreement that does not specifically call for participation.

Contributions

The Plan provides that eligible employees electing to become participants may make basic contributions to the Plan through payroll deductions or salary deferrals at a specified percentage ranging from 1% to 50%, including a basic and supplemental contribution, of their base compensation as defined in the Plan unless otherwise specified for participants covered by a collective bargaining agreement. The Plan also provides that certain limitations may be imposed on salary deferral contributions in order to comply with certain statutory limitations.

In 2010 and previous years, USA provided matching contributions to the Plan in an amount equal to 60% of a participant's basic contribution up to a maximum of 8% of a participant's base compensation as defined in the plan document, unless otherwise specified for participants covered by a collective bargaining agreement.

The Plan was amended, effective January 1, 2011, to provide for matching contributions in an amount equal to 100% of a participant's basic contributions up to 1% of base compensation, plus 50% of contributions above 1 % and up to 6% of a participant's base compensation as defined in the plan document and subsequent amendments. As a result of this amendment, individually specific matching contribution formulas for participants covered by a collective bargaining agreement were discontinued.

Participants may also elect to roll over distributions from a former employer's qualified retirement plan.

Vesting of Contributions
Participants' contributions are fully vested at all times. Amounts contributed through after-tax contributions (payroll deductions) may be distributed at any time. However, amounts contributed through pre-tax contributions (salary deferrals) may be distributed to participants only upon meeting certain conditions as defined in the plan document. USA's matching contributions and related earnings or losses become 100% vested upon completion of five years of employment with USA or an affiliated company, as defined by the plan document, for participants' below age 65, as follows:

Years of Vesting Service	Vested Interest
Less than two years	0 %
Two but less than three years	25 %
Three but less than four years	50 %
Four but less than five years	75 %
Five or more years	100 %

USA's matching contributions also become fully vested upon a participant's attainment of the age of 65, at termination for participants who are laid off and certain other conditions as defined in the plan document.

Forfeitures
When certain terminations of participation in the Plan occur, the nonvested portion of the participant's account, as defined by the Plan, represents a forfeiture. Forfeitures are utilized to reduce USA's contributions to the Plan. However, if the participant is reemployed within five years of their termination date and fulfills certain requirements, as defined in the Plan, the participant's account will be restored.

At December 31, 2013 and 2012, remaining forfeited accounts totaled $92,381 and $340,695, respectively. These accounts may be used to reduce future employer contributions. During 2013, the Plan Sponsor did not use any forfeitures to reduce employer contributions.

Participant Accounts
Each participant's account is credited with the participant's contribution and USA's matching contribution, if applicable, and an allocation of Plan earnings or losses; net of administrative expenses. Allocations are based upon the participant's account balance as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Benefit Payments
Upon termination of employment, retirement, death, or disability, as qualified under the Plan, a participant may elect to have his or her vested account balance paid in one of the following ways:

- Lump sum payment;
- Rollover to other qualified retirement plan;

- Five or fewer annual installment payments with such installment payments to be equal to the value of the participant's vested account balance as of the valuation date immediately preceding distribution, divided by the number of installments remaining at the time of each payment; or

- Periodic withdrawal(s) of any amount after date of termination.

Notwithstanding the above, if the aggregate amount of the participant's accounts does not exceed $5,000, the payment shall automatically be made to the participant in a lump sum.

Any outstanding loan balances at the time of withdrawal will be paid first out of the distributed funds.

Notes Receivable from Participants
Participants may borrow up to 50% of the vested balance of their accounts, not in excess of $50,000. The loans are nonparticipant directed and are made for terms not to exceed 10 years for primary residence loans and five years for other loans and bear interest at the rate of prime plus 1%. Loans transferred to the Plan as a result of plan transfers or mergers retain the original loan terms. Included in Other deductions within the Statement of Changes in Net Assets Available for Plan Benefits is $408,162 related to loans that were defaulted during the year ended December 31, 2013 due to employees that have been terminated in prior year.

2. Summary of Significant Accounting Policies

Basis of Accounting
The accompanying financial statements have been prepared using the accrual method of accounting in accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP").

Valuation of Investments
The Plan's investment in registered investment companies and Lockheed Martin Corporation ("LMC") common stock is stated at fair value at December 31, 2013 and 2012. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for discussion of fair value measurements. Shares of registered investment companies are valued at quoted market prices which represent the net asset value of shares held by the Plan at year-end. Units of the Vanguard Retirement Savings Trust IV ("VRST IV") are valued at net asset value ("NAV") at year-end. The Company's stock funds and LMC common stock are valued at the year-end market unit closing price.

The common collective trust was valued by Vanguard Fiduciary Trust Company based upon the quoted market price, where available, of the underlying assets. The Statement of Changes in Net Assets Available for Plan Benefits is prepared on a contract value basis. The Plan invests in investment contracts through the common collective trust which is operated and maintained by Vanguard Fiduciary Trust Company as a pool of investment contracts that are issued by insurance companies and commercial banks and in contracts that are backed by high-quality bonds, bond trusts, and bond mutual funds that are selected by Vanguard Fiduciary Trust Company. As described in the Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") 962, *Plan Accounting - Defined Contribution Pension Plans*, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because

contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. As required by the guidance, the Statement of Net Assets Available for Plan Benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value.

Investment Income
Interest is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Purchases and sales are recorded on the trade-date basis. Net appreciation (depreciation) in fair value of investments includes net unrealized gain (loss) in the fair value of investments and net realized gain (loss) on the sale of such investments.

Notes Receivable from Participants
Borrowings on a participant's vested account balance are carried as notes receivable from participants, which are segregated from plan investments and measured at their unpaid principal balance plus any accrued but unpaid interest, on the Statements of Net Assets Available for Plan Benefits.

Payment of Benefits
Benefits are recorded when paid.

Expenses
The Plan's trustee and investment management expenses are paid from the Plan's assets, as provided by the plan document, unless specifically directed by the Committee to be paid by USA.

Use of Estimates
The preparation of financial statements in conformity with U.S. GAAP requires the Plan's management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Recent Accounting Pronouncements
In December 2011, the FASB issued ASU No. 2011-11 Balance Sheet (Topic 210): *Disclosures about Offsetting Assets and Liabilities* that requires additional information regarding financial instruments and derivatives instruments that are offset or subject to an enforceable master netting arrangement or similar agreement. The update is effective for the Plan on January 1, 2013. The adoption of this update did not have a material impact on the Plan's financial statements.

In April 2013, The FASB issued ASU No. 2013-07, Presentation of Financial Statements (Topic 205): *Liquidation Basis of Accounting*. This standard is effective for entities that determine liquidation is imminent during annual reporting periods beginning on or after December 15, 2013, with early adoption permitted. Entities should apply the requirements prospectively from the day that liquidation becomes imminent. Plan management does not anticipate that the adoption of the amendment will have a material effect on the Plan's financial statements.

In July 2013, the FASB issued ASU No. 2013-09, Fair Value (Topic 820), *Deferral of the Effective Date of Certain Disclosures for Nonpublic Employee Benefit Plans* in Update No. 2011-04. This final standard provides an indefinite deferral for certain quantitative fair value disclosures for nonpublic employee benefit plans. Plan management does not anticipate that the adoption of the amendment will have a material effect on the Plan's financial statements.

Subsequent Events
For the year ended December 31, 2013, the Company evaluated subsequent events from January 1, 2014 through October 13, 2014, the date these financial statements were made available to be issued.

3. Investments

Investment Funds
The Plan provides for twenty-four registered investment companies, one commingled fund and one collective trust offered by the Vanguard Group as well as registered investment companies offered by Fidelity Investments and Wells Fargo as investment funds to which contributions to the Plan may be invested. The registered investment companies are invested in mutual funds valued at the NAV of each fund. USA's contributions will follow the investment elections made by the participant.

The Plan invests in the VRST IV, which is fully invested in the Vanguard Master Trust, ("the Trust"), a collective trust relating to fully benefit responsive investment contracts. The underlying investments are primarily in a pool of investment contracts that are issued by insurance companies and commercial banks and in contracts that are backed by high-quality bonds, bond trusts, and bond mutual funds. The Trust holds both traditional and synthetic investment contracts. Traditional investment contracts issued by insurance companies and banks are nontransferable, but provide for benefit-responsive withdrawals by plan participants at contract value. For traditional investment contracts, fair value comprises the expected future cash flows for each contract discounted to present value. Contract value represents contributions made plus interest accrued at the contract rate, less withdrawals. The crediting rate on traditional contracts is typically fixed for the life of the investment. Synthetic investment contracts consist of investments together with contracts under which a bank or other institution provides for benefit-responsive withdrawals by plan participants at contract value. For synthetic investment contracts, the fair value comprises the aggregate market values of the underlying investments in bond trusts, and the value of the wrap contracts, if any. The difference between valuation at contract value and fair value is reflected over time through the crediting rate formula provided for in the Trust's synthetic contracts. The crediting rate of the contract resets every quarter based on the performance of the underlying investment portfolio. To the extent that the trust has unrealized gains and losses, the interest crediting rate may differ from the then-current market rates. An investor currently redeeming Trust units may forgo a benefit, or avoid a loss, related to a future crediting rate different from then-current market rates. The issuers' ability to meet these obligations may be affected by economic developments in their respective companies and industries. The VRST IV had an average interest crediting rate of 2.06% and 2.37% at December 31, 2013 and 2012, respectively. The average yield earned by the trust is 1.98% and 2.22% at December 31, 2013 and 2012, respectively. The average yield earned by the trust with an adjustment to reflect the actual interest rate credited to participants in the trust is 1.56% and 1.82% as of December 31, 2013 and 2012, respectively. The interest crediting rates for any period of time will be determined by Vanguard and may be changed periodically. The net average yield on the investment contract for 2013 and 2012 was 1.37% and 0.97%, respectively. The existence of certain conditions can limit the Trust's ability to transact at contract value with issuers of its investment contracts. Specifically, any event outside the normal operation of the trust that causes a withdrawal from an investment contract may result in a negative market value adjustment with respect to the withdrawal. Examples of such events include, but are not limited to, partial or complete legal termination of the trust or a unit holder, tax disqualification of the trust or unit holder, and certain trust amendments if issuers' consent is not obtained. As of December 31, 2013, the occurrence of an event outside the normal operations of the Trust that would cause a withdrawal from an investment contract is not considered probable.

In general, issuers may terminate the contract and settle at other than contract value if there is a change in the qualification status of participant, employer, or plan; a breach of material obligations under the contract and misrepresentation by the contract holder; or failure of the underlying portfolio to conform to the pre-established investment guidelines.

The Plan also invests in the Vanguard Prime Money Market Fund, which is a commingled fund that invests in short-term debt instruments of companies primarily operating in specific industries, particularly financial services. The fund offers two classes of shares, Investor Shares and Institutional Shares, and is valued using the NAV of the investment.

Lockheed Martin Corporation common stock is not available for investment of future contributions nor can existing participant investment balances be reallocated to LMC common stock. Dividends from LMC common stock are not reinvested into LMC common stock; rather, they are invested in accordance with the participant's current investment allocation.

4. Information Certified by the Plan's Trustee

The Plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the Plan's trustee, Vanguard Fiduciary Trust Company, has certified that the following data included in the accompanying financial statements is complete and accurate:

- Investments and notes receivable from participants, as shown in the statements of net assets available for plan benefits and in Notes 3 and 5.

- Interest and dividend income and net appreciation (depreciation) in fair value of investments and notes receivable from participants, as shown in the statement of changes in net assets available for plan benefits and in Note 3.

- The "Schedule of Assets (Held at End of Year)" as of December 31, 2013, as shown in the supplemental schedule.

The Plan's independent accountants did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and accordingly, such information is unaudited.

5. Fair Value Measurements

ASC 820, *Fair Value Measurements and Disclosures*, defines fair value as an exchange price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants. ASC 820 also specifies a fair value hierarchy based upon the observability of inputs used in valuation techniques. Observable inputs (highest level) reflect market data obtained from independent sources, while unobservable inputs (lowest level) reflect internally-developed market assumptions. In accordance with ASC 820, fair value measurements are classified using the following hierarchy:

Level 1 Valuation based on quoted prices in active markets for identical assets.

Level 2 Valuation based on observable inputs that do not meet the criteria for Level 1, including quoted prices in inactive markets and quoted prices in active markets for similar but not identical instruments; and

Level 3 Valuations based on unobservable inputs.

Valuation methodologies used for major investment types measured at fair value include:

- *Mutual funds or registered investment companies*: open-ended mutual funds are valued at the NAV of each fund determined as of the close of the New York Stock Exchange on the valuation date.

- *Common collective trust/commingled fund*: valued at their NAV based on the market values of their underlying investments and liabilities on the valuation date. The difference between valuation at contract value and fair value is reflected over time through the crediting rate formulas provided for trust. The crediting rates of the contracts reset every quarter based on the performance of the underlying investments. To the extent the underlying investments have unrealized gains and losses, the interest crediting rate may differ from then-current market rates.

- *Common stocks* – Valued at the quoted closing price reported on an open active market on which the individual securities are traded.

The fair value measurements at December 31, 2013 and their related inputs are as follows:

	Fair Value	Level 1 Inputs	Level 2 Inputs	Level 3 Inputs
Registered investment companies	$ 728,984,530	$ 728,984,530	$ -	$ -

	$ 1,062,694,310	$ 853,433,509	$ 209,260,801	$ -

The following table summarizes attributes of the Investments in Certain Entities that Calculate Net Asset Value per Share at December 31, 2013 and 2012:

		Fair Value at December 31, 2013	Fair Value at December 31, 2012	Unfunded Commitments	Remaining Life	Redemption Frequency (if currently eligible)	Trade to Settlement Terms	Redemption Notice Period
Common collective trust investing in mutual fund - debt securities	(1)	$ 102,604,824	$ 145,995,565	$ -	N/A	daily, pending market conditions	1 to 3 days	N/A
Commingled fund investing in debt securities	(1)	53,693,927	72,005,863	-	N/A	daily, pending market conditions	1 to 3 days	N/A
		$ 156,298,751	$ 218,001,428	$ -				

(1) These categories represent investments in the Common Collective Trust and Commingled Fund investing in debt securities as noted. Its investments are valued at NAV. All the funds have daily liquidity and are not subject to any redemption restrictions at the measurement date. The funds have different trading terms varying from one to three days.

6. Related-Party Transactions

The Plan owns shares of certain registered investment companies, a commingled fund and a collective trust fund that are managed by Vanguard Fiduciary Trust Company. As Vanguard is the trustee of the Plan, these transactions qualify as party-in-interest transactions. The Plan also owns shares of common stock of Lockheed Martin Corporation ("LMC"), a USA member company. As LMC is an affiliate of USA, the Plan's sponsor, its transactions qualify as party-in-interest transactions. Notes receivable from participants (participant loans) also qualify as party-in-interest transactions. These transactions are exempt as defined in ERISA Section 408 and the regulations thereunder.

7. Tax Status

U.S.GAAP requires plan management to evaluate tax positions taken by the plan and recognize a tax liability if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service ("IRS"). The plan administrator has analyzed the tax positions taken by the plan, and has concluded that as of December 31, 2013, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions. Tax audits for Plan year 2010 and 2011 are in progress, the result of which is currently not determinable. The plan administrator believes the plan is no longer subject to income tax examinations for years prior to 2009.

The IRS has determined and informed the Company by a letter dated March 10, 2014, that the Plan is designed in accordance with applicable sections of the Internal Revenue Code ("IRC").

8. Plan Termination

USA has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA. In addition, USA has contractual obligations pursuant to certain collective bargaining agreements that would be subject to negotiation upon proposed termination. In the event the Plan is terminated, or upon complete discontinuance of contributions, the accounts of each affected participant shall become fully vested.

9. Risks and Uncertainties

The Plan provides for investments in registered investment companies, a commingled fund, a collective trust fund, and common stock. Investment securities, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility risks. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term.

10. Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for plan benefits per the financial statements to Form 5500:

	December 31,	
	2013	**2012**
