Independent Auditor's Report

To the Participants and Administrator of the
USA Money Purchase Plan

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of the USA Money Purchase Plan (the "Plan"), which comprise the statements of net assets available for plan benefits as of December 31, 2013 and 2012 and the related statement of changes in net assets available for plan benefits for the year ended December 31, 2013, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on the financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 5, which was certified by Vanguard Fiduciary Trust Company, the trustee of the Plan, except for comparing such information with the related information included in the financial statements. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the trustee as of December 31, 2013 and 2012 and for the year ended December 31, 2013, that the information provided to the plan administrator by the trustee is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on the financial statements.

Other Matter

The supplemental Schedule H, Line 4i - Schedule of Assets (Held at End of Year) as of December 31, 2013 is required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 and is presented for the purpose of additional analysis and is not a required part of the financial statements. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we do not express an opinion on this supplemental schedule.

Report on Form and Content in Compliance with DOL Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

1. Description of the Plan

The following brief description of the USA Money Purchase Plan (the "Plan"), sponsored by United Space Alliance, LLC ("USA" or the "Company"), is provided for general informational purposes only. Participants should refer to the plan document for more complete information.

General

The Plan is a money purchase pension plan sponsored by USA.

Effective August 2005, the Plan was established with similar provisions to the Capital Accumulation Plan ("CAP"), an account within the USA Retirement Savings Plan. Effective September 2005, nonrepresented participants with CAP balances were given the option to transfer the CAP balance into the Plan or the USA Retirement Savings Plan. Effective August 2007, the remaining CAP participants (covered by collective bargaining agreements) began participation in the Plan and had their CAP contributions discontinued. Effective March 2008, any participants with a remaining CAP balance were given the option to transfer the CAP balance into the Plan or the USA Retirement Savings Plan. The USA Retirement Savings Plan is held in a separate plan. Therefore, the balances in the USA Retirement Savings Plan are not included in these financial statements or footnote disclosures.

The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended ("ERISA").

Administration

The Benefits Plan Administrator of the Company is responsible for the operation and administration of the Plan and is authorized to delegate such responsibilities to the Benefits Administrative Committee of the Company (the "Committee") as the administrator may deem necessary and appropriate.

Eligibility

The Plan covers all salaried or hourly employees that work in one of USA's Florida locations. This includes part-time employees who are employed on a regular basis by the Company and employees reported as common law employees on USA payroll records. An employee is eligible to participate the first payroll period beginning after the date of hire on or after August 1, 2005. Employees are not eligible to participate if:

- Compensated as an executive, or by special fees or under a special contract or arrangement, on a commission basis, or a leased employee within the meaning of Internal Revenue Code ("IRC") 414(n)(2), or an employee of a subsidiary of the Company;

- Covered by a bargaining agreement not specifically provided for participation under the Plan; or

- Covered by another retirement plan, other than the USA Retirement Savings Plan.

In September 2006, USA executed a resolution to discontinue participation in the Plan for employees hired after October 1, 2006. Eligible employees prior to October 1, 2006 will continue to receive contributions until their retirement date.

The Plan was amended, effective January 1, 2011, to cover only those active participants who are assigned to the Integrated Mission Operations Contract organization, were hired before October 1, 2006, and were participating, as of December 31, 2010, in a defined benefit pension plan maintained by the Company or the Plan.

Contributions
The Company will contribute to the Plan in an amount equal to 5% of base compensation for eligible participants, as defined in the plan document and subsequent amendments. USA's contributions are fully vested at all times.

Contributions under the Plan may not exceed the lesser of (i) $49,000, as adjusted under section 415(d) of the IRC or (ii) 100% of the participant's compensation. The compensation limit excludes contributions for medical benefits after separation from service (See Note 2).

Participant Accounts
Each participant's account is credited with USA's contribution, and an allocation of Plan earnings or losses; net of administrative expenses. Allocations are based upon the participant's account balance as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Benefit Payments
Upon termination of employment, retirement, death, or disability, as qualified under the Plan, a participant's account shall be distributed in accordance with the normal form of distribution or his elected optional form of distribution, as applicable. The normal form of distribution is as a life annuity, but participants may instead elect to receive their benefits in the form of:

- lump sum payment; or

- five or fewer annual installment payments with such installment payments to be equal to the value of the Participant's account as of the valuation date immediately preceding distribution, divided by the number of installments remaining at the time of each payment.

Notwithstanding the above, if the aggregate amount of the participant's accounts does not exceed $5,000, then payment shall automatically be made to the participant in a lump sum.

2. 401(h) Account

The Plan includes a medical-benefit component in addition to normal retirement benefits to fund a portion of the postretirement obligations for retirees, spouse and/or eligible dependent(s) of the retiree in accordance with Section 401(h) of the IRC. A separate account has been established and maintained for such contributions. In accordance with IRC Section 401(h), the Plan's investments in the 401(h) account may not be used for, or diverted to, any purpose other than providing health benefits for retirees, spouse and/or eligible dependent(s) of the retiree. The related obligations for health benefits are reported as obligations in the financial statements of the USA Retirement Plan for Certain Former Lockheed Martin Space Operations ("LMSO") Employees and Florida Operations Represented Employees.

On March 15, 2013, pursuant to the Closing Agreement on Final Determinations Covering Specific Matters between USA and the Commissioner of Internal Revenue signed by the respective parties on February 20 and 25, 2013, the retiree health accounts relating to the United Space Alliance Retirement Plan and the United Space Alliance FEPC Retirement Plan were transferred into the

Plan. Participants and beneficiaries eligible to receive benefits under the transferred 401(h) accounts would be considered participants in the Plan, but only with respect to their rights to receive benefits under their respective transferred 401(h) accounts, and until such accounts are entirely depleted. As of December 31, 2013, net assets held in the transferred 401(h) accounts amounted to $44,313,043 for the USA Retiree Medical 401(h) and $599,703 for the USA FEPC Retiree Medical 401(h), and is reported in the Statement of Net Assets Available for Plan Benefits at balance sheet date.

3. Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements have been prepared using the accrual method of accounting in accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP").

Valuation of Investments

The Plan's investment in registered investment companies is stated at fair value at December 31, 2013 and 2012. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 6 for discussion of fair value measurements. Shares of registered investment companies are valued at quoted market prices which represent the net asset value ("NAV") of shares held by the Plan at year-end. Units of the Vanguard Retirement Savings Trust IV ("VRST IV") are valued at NAV at year-end.

The common collective trust was valued by Vanguard Fiduciary Trust Company based upon the quoted market price, where available, of the underlying assets. The Statement of Changes in Net Assets Available for Plan Benefits is prepared on a contract value basis. The Plan invests in investment contracts through the common collective trust which is operated and maintained by Vanguard Fiduciary Trust Company as a pool of investment contracts that are issued by insurance companies and commercial banks and in contracts that are backed by high-quality bonds, bond trusts, and bond mutual funds that are selected by Vanguard Fiduciary Trust Company. As described in the Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") 962, *Plan Accounting - Defined Contribution Pension Plans*, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. As required by the guidance, the Statement of Net Assets Available for Plan Benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value.

Investment Income

Interest is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Purchases and sales are recorded on the trade-date basis. Net appreciation (depreciation) in fair value of investments includes net unrealized gain (loss) in the fair value of investments and net realized gain (loss) on the sale of such investments.

Expenses

The Plan's trustee and investment management expenses are paid from the Plan's assets, as provided by the plan document, and unless specifically directed by the Committee to be paid by USA.

Use of Estimates
The preparation of financial statements in conformity with U.S. GAAP requires the Plan's management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Recent Accounting Pronouncements
In December 2011, the FASB issued ASU No. 2011-11 Balance Sheet (Topic 210): *Disclosures about Offsetting Assets and Liabilities* that requires additional information regarding financial instruments and derivatives instruments that are offset or subject to an enforceable master netting arrangement or similar agreement. The update is effective for the Plan on January 1, 2013. The adoption of this update did not have a material impact on the Plan's financial statements.

In April 2013, The FASB issued ASU No. 2013-07, Presentation of Financial Statements (Topic 205): *Liquidation Basis of Accounting*. This standard is effective for entities that determine liquidation is imminent during annual reporting periods beginning on or after December 15, 2013, with early adoption permitted. Entities should apply the requirements prospectively from the day that liquidation becomes imminent. Plan management does not anticipate that the adoption of the amendment will have a material effect on the Plan's financial statements.

In July 2013, the FASB issued ASU No. 2013-09, Fair Value (Topic 820), *Deferral of the Effective Date of Certain Disclosures for Nonpublic Employee Benefit Plans* in Update No. 2011-04. This final standard provides an indefinite deferral for certain quantitative fair value disclosures for nonpublic employee benefit plans. Plan management does not anticipate that the adoption of the amendment will have a material effect on the Plan's financial statements.

Subsequent Events
For the year ended December 31, 2013, the Company evaluated subsequent events from January 1, 2014 through October 13, 2014, the date these financial statements were made available to be issued.

4. Investments

Investment Funds
The Plan provides for twenty-six registered investment companies and one collective trust offered by The Vanguard Group as well as registered investment companies offered by Fidelity Investments and Wells Fargo as investment funds to which contributions to the Plan may be invested. The registered investment companies are invested in mutual funds valued at the NAV of each fund. USA's contributions will follow the investment elections made by the participant.

The Plan invests in the VRST IV, which is fully invested in the Vanguard Master Trust (the "Trust"), a collective trust relating to fully benefit responsive investment contracts. The underlying investments are primarily in a pool of investment contracts that are issued by insurance companies and commercial banks and in contracts that are backed by high-quality bonds, bond trusts, and bond mutual funds. The Trust holds both traditional and synthetic investment contracts. Traditional investment contracts issued by insurance companies and banks are nontransferable, but provide for benefit-responsive withdrawals by plan participants at contract value. For traditional investment contracts, fair value comprises the expected future cash flows for each contract discounted to present value. Contract value represents contributions made plus interest accrued at the contract rate, less withdrawals. The crediting rate on traditional contracts is typically fixed for the life of the investment. Synthetic investment contracts consist of investments together with

contracts under which a bank or other institution provides for benefit-responsive withdrawals by plan participants at contract value. For synthetic investment contracts, the fair value comprises the aggregate market values of the underlying investments in bond trusts, and the value of the wrap contracts, if any. The difference between valuation at contract value and fair value is reflected over time through the crediting rate formula provided for in the Trust's synthetic contracts. The crediting rate of the contract resets every quarter based on the performance of the underlying investment portfolio. To the extent that the Trust has unrealized gains and losses, the interest crediting rate may differ from the then-current market rates. An investor currently redeeming Trust units may forgo a benefit, or avoid a loss, related to a future crediting rate different from then-current market rates. The issuers' ability to meet these obligations may be affected by economic developments in their respective companies and industries. The VRST IV had an average interest crediting rate of 2.06% and 2.37% at December 31, 2013 and 2012, respectively. The average yield earned by the trust is 1.98% and 2.22% at December 31, 2013 and 2012, respectively. The average yield earned by the trust with an adjustment to reflect the actual interest rate credited to participants in the trust is 1.56% and 1.82% as of December 31, 2013 and 2012, respectively. The interest crediting rates for any period of time will be determined by Vanguard and may be changed periodically. The net average yield on the investment contract for 2013 and 2012 was 1.37% and 0.97%, respectively. The existence of certain conditions can limit the Trust's ability to transact at contract value with issuers of its investment contracts. Specifically, any event outside the normal operation of the Trust that causes a withdrawal from an investment contract may result in a negative market value adjustment with respect to the withdrawal. Examples of such events include, but are not limited to, partial or complete legal termination of the Trust or a unit holder, tax disqualification of the Trust or unit holder, and certain Trust amendments if issuers' consent is not obtained. As of December 31, 2013, the occurrence of an event outside the normal operations of the Trust that would cause a withdrawal from an investment contract is not considered probable.

In general, issuers may terminate the contract and settle at other than contract value if there is a change in the qualification status of participant, employer, or plan; a breach of material obligations under the contract and misrepresentation by the contract holder; or failure of the underlying portfolio to conform to the pre-established investment guidelines.

The Plan also invests in the Vanguard Prime Money Market Fund, which is a commingled fund that invests in short-term debt instruments of companies primarily operating in specific industries, particularly financial services. The fund offers two classes of shares, Investor Shares and Institutional Shares, and is valued using the NAV of the investment.

5. Information Certified by the Plan's Trustee

The Plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the Plan's trustee, Vanguard Fiduciary Trust Company, has certified that the following data included in the accompanying financial statements is complete and accurate:

- Investments, as shown in the statements of net assets available for plan benefits and Notes 4 and 6.

- Net appreciation in fair value of investments, and interest and dividend income, as shown in the statement of changes in net assets available for plan benefits and in Note 4.

- The "Schedule of Assets (Held at End of Year)" as of December 31, 2013, as shown in the supplemental schedule.

The Plan's independent accountants did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and accordingly, such information is unaudited.

6. Fair Value Measurements

ASC 820, *Fair Value Measurements and Disclosures*, defines fair value as the exchange price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants. ASC 820 also specifies a fair value hierarchy based upon the observability of inputs used in valuation techniques. Observable inputs (highest level) reflect market data obtained from independent sources, while unobservable inputs (lowest level) reflect internally-developed market assumptions. In accordance with ASC 820, fair value measurements are classified using the following hierarchy:

Level 1 Valuation based on quoted prices in active markets for identical assets.

Level 2 Valuation based on observable inputs that do not meet the criteria for Level 1, including quoted prices in inactive markets and quoted prices in active markets for similar but not identical instruments; and

Level 3 Valuations based on unobservable inputs.

Valuation methodologies used for major investment types measured at fair value include:

- *Mutual funds*: open-ended mutual funds are valued at the NAV of each fund determined as of the close of the New York Stock Exchange on the valuation date.

- *Common collective trusts/commingled fund*: valued at their NAV based on the market values of their underlying investments and liabilities on the valuation date. The difference between valuation at contract value and fair value is reflected over time through the crediting rate formulas provided for trust. The crediting rates of the contracts reset every quarter based on the performance of the underlying investments. To the extent, the underlying investments have unrealized gains and losses, the interest crediting rate may differ from then-current market rates.

(1) These categories represent investments in the Common Collective Trust and Commingled Fund investing in debt securities as noted. Its investments are valued at NAV. All the funds have daily liquidity and are not subject to any redemption restrictions at the measurement date. The funds have different trading terms varying from one to three days.

7. Related-Party Transactions

The Plan owns shares of certain registered investment companies, a commingled fund and a collective trust fund that are managed by Vanguard. As Vanguard is the trustee of the Plan, these transactions qualify as party-in-interest transactions. These transactions are exempt as defined in ERISA Section 408 and the regulations thereunder.

8. Tax Status

U.S.GAAP requires plan management to evaluate tax positions taken by the plan and recognize a tax liability if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service ("IRS"). The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2013, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2009.

The IRS has determined and informed the Company by a letter dated May 5, 2014 that the Plan is designed in accordance with applicable sections of the IRC.

9. Plan Termination

USA has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA. In the event the Plan is terminated, or upon complete discontinuance of contributions, the accounts of each affected participant shall become fully vested.

10. Risks and Uncertainties

The Plan provides for investments in registered investment companies, a commingled fund and a collective trust fund. Investment securities, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility risks. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term.

11. Reconciliation of Financial Statements to Form 5500
