Management's Responsibility for the Financial Statements

Plan management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Plan's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for plan benefits of Double Diamond-Delaware, Inc. Employee Stock Ownership Plan as of December 31, 2013 and 2012, and the statement of changes in net assets available for plan benefits for the year ended December 31, 2013 in accordance with accounting principles generally accepted in the United States of America.

NOTE A—PLAN DESCRIPTION

The following brief description of the Double Diamond-Delaware, Inc. Employee Stock Ownership Plan (the "Plan") is provided for general information purposes only. Participants should refer to the Plan Agreement for complete information.

Double Diamond-Delaware, Inc. ("Company") established the Double Diamond-Delaware, Inc. Employee Stock Ownership Plan ("Plan") effective as of January 1, 2006. As of January 1, 2010, the Plan was restated and operates, in relevant part, as a leveraged employee stock ownership plan ("ESOP"), and is designed to comply with Section 4975(e)(7) and the regulations thereunder of the Internal Revenue Code of 1986, as amended ("Code") and is subject to the applicable provisions of the Employee Retirement Income Security Act of 1974, as amended ("ERISA"). The Plan is administered by an ESOP Committee composed of up to three persons appointed by the Sponsor Company's Board of Directors. The ESOP committee has retained Principal Financial Group as the third party administrator. Robert D. Roten - Lubbock National Bank of Texas is the Plan's Trustee.

The Plan intends to purchase Company common shares using seller financing guaranteed by the Company, and intends to hold the stock in a trust established under the Plan. The borrowing is to be repaid over a period of ten years by fully deductible Company contributions to the trust fund. As the Plan makes each payment of principal, an appropriate percentage of stock will be allocated to eligible employees' accounts in accordance with applicable regulations under the Code.

The borrowing is collateralized by the unallocated shares of stock and is guaranteed by the Company. The lender has no rights against shares once they are allocated under the ESOP. Accordingly, the financial statements of the Plan as of December 31, 2013 and 2012 and for the year ended December 31, 2013 present separately the assets and liabilities and changes therein pertaining to:

1) the accounts of employees with vested rights in allocated stock (Allocated), and

2) stock not yet allocated to employees (Unallocated).

Eligibility

Employees of the Company are generally eligible to participate in the Plan after one year of service providing they worked at least 1,000 hours during such plan year and are 21 years of age. Participants who do not have at least 1,000 hours of service during such plan year or are not employed on the last working day of a plan year are not eligible for an allocation of Company contributions for such year. During the Plan's inception year an eligible participant had to be employed 12 months regardless of hours of service before participation in the Plan.

NOTE A—PLAN DESCRIPTION (continued)

Payment of Benefits

No distributions from the Plan will be made until a participant retires, becomes permanently disabled, dies (in which case, payment shall be made to his or her beneficiary or, if none, his or her legal representatives), or otherwise terminates employment with the Company and its participating subsidiaries. Distributions are made in cash or, if a participant elects, in the form of Company common shares plus cash for any fractional share.

Under the provisions of the Plan, the Company is obligated to repurchase participant shares which have been distributed under the terms of the Plan as long as the shares are not publicly traded or if the shares are subject to trading limitations. During 2013, the Company repurchased participants shares at prices determined from the independent appraisal.

Voting Rights

Each participant is entitled to exercise voting rights attributable to the shares allocated to his or her account with respect to the Company Stock and is notified by the Trustee prior to the time that such rights are to be exercised. The Trustee is not permitted to vote any allocated share for which instructions have not been given by a participant. The Trustee is required, however, to vote any unallocated shares on behalf of the collective best interest of plan participants and beneficiaries.

Plan Termination

The Company reserves the right to terminate the Plan at any time, subject to Plan provisions. Upon such termination of the Plan, the interest of each participant in the trust fund will be distributed to such participant or his or her beneficiary at the time prescribed by the Plan terms and the Code. Upon termination of the Plan, the ESOP Committee shall direct the Trustee to pay all liabilities and expenses of the trust fund and to sell shares of financed stock held in the loan suspense account to the extent it determines such sale to be necessary in order to repay the loan.

Participant Accounts

The Plan is a defined contribution plan under which a separate individual account is established for each participant. Each participant's account is credited as of the last day of each plan year with an allocation of shares of the Company's common stock released by the Trustee from the unallocated account and forfeitures of terminated participants' non vested accounts. Only those participants who are eligible employees of the Company as of the last day of the plan year will receive an allocation. Allocations are based on a participant's eligible compensation, relative to total eligible compensation.

NOTE A—PLAN DESCRIPTION (continued)

Vesting

If a participant's employment with the Company ends for any reason other than retirement, permanent disability or death, he or she will vest in the balances in his or her account based on total years of service with the Company. Participants vest 20% per year of service beginning in year two and are 100% vested after six years of service.

Put Option

Under Federal income tax regulations, the employer stock that is held by the Plan and its participants and is not readily tradable on an established market, or is subject to trading limitations, includes a put option. The put option is a right to demand that the Company buy any shares of its stock distributed to participants for which there is no market. The put price is representative of the fair market value of the stock. The Company can pay for the purchase with interest over a period of five years. The purpose of the put option is to ensure that the participant has the ability to ultimately obtain cash.

Diversification

Diversification is offered to participants close to retirement so that they may have the opportunity to move part of the value of their investment in Company stock into investments which are more diversified. Participants who are at least age 55 with at least 10 years of participation in the Plan may elect to diversify a portion of their account. Diversification is offered to each eligible participant over a six-year period. In each of the first five years, a participant may diversify up to 25% of the number of post-1986 shares allocated to his or her account, less any shares previously diversified. In the sixth year, the percentage changes to 50%. Participants who elect to diversify may either receive a lump sum distribution, or if the Company maintains another qualified plan, may direct the Trustee to make a direct transfer of a portion of their account to that qualified plan.

Participant Accounts and Forfeitures

Employer contributions and Plan forfeitures are allocated to each participant's account based upon the relation of the participant's compensation to total compensation for the Plan year. At December 31, 2013 and 2012, forfeited amounts allocated were $7 and $14, respectively. Plan S-Corporation distributions for shares not held in suspense are allocated to each participant's account based on the ratio of the participant's beginning of the year employer securities account balance to all participants' beginning of the year employer securities account balances. S-distribution earnings for shares that are in suspense, cash contributions, and reallocated forfeitures are allocated based on employee earnings to Plan total employee earnings. Earnings on cash assets are allocated using the basis of beginning balance per Participant in proportion to total Plan balance.

NOTE B—SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared using the accrual method of accounting.

Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Investment Valuation and Income Recognition

The common shares of the Company are valued at fair value as of the end of each plan year. Fair value is determined by annual independent appraisals.

Dividend income is accrued on the ex-dividend date.

Purchases and sales of securities are recorded on a trade-date basis. Realized gains and losses from security transactions are reported on the average cost method.

Operating Expenses

The Company may direct the Trustee to pay from the Trust all fees and expenses reasonably incurred by the Plan (to the extent such fees and expenses are for the ordinary and necessary administration and operation of the Plan), unless the Employer pays all fees and expenses.

NOTE C—FAIR VALUE MEASUREMENTS

The Plan's investments are reported at fair value in the accompanying statement of net assets available for benefit.

		Fair Value Measurements Using:	
December 31, 2013	Fair Value	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Unobservable Inputs (Level 3)

FASB ASC 820-10 (formerly SFAS No. 157, *Fair Value Measurements*), establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority, and Level 3 inputs have the lowest priority. The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. There were no Level 2 inputs used by the Plan, and Level 3 inputs were only used when Level 1 or Level 2 inputs were not available.

Level 1 Fair Value Measurements

The fair values of U.S. Government Securities are based on quoted market prices.

Level 3 Fair Value Measurements

Management's Responsibility for the Financial Statements

Plan management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Plan's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for plan benefits of Double Diamond-Delaware, Inc. Employee Stock Ownership Plan as of December 31, 2013 and 2012, and the statement of changes in net assets available for plan benefits for the year ended December 31, 2013 in accordance with accounting principles generally accepted in the United States of America.

NOTE A—PLAN DESCRIPTION

The following brief description of the Double Diamond-Delaware, Inc. Employee Stock Ownership Plan (the "Plan") is provided for general information purposes only. Participants should refer to the Plan Agreement for complete information.

Double Diamond-Delaware, Inc. ("Company") established the Double Diamond-Delaware, Inc. Employee Stock Ownership Plan ("Plan") effective as of January 1, 2006. As of January 1, 2010, the Plan was restated and operates, in relevant part, as a leveraged employee stock ownership plan ("ESOP"), and is designed to comply with Section 4975(e)(7) and the regulations thereunder of the Internal Revenue Code of 1986, as amended ("Code") and is subject to the applicable provisions of the Employee Retirement Income Security Act of 1974, as amended ("ERISA"). The Plan is administered by an ESOP Committee composed of up to three persons appointed by the Sponsor Company's Board of Directors. The ESOP committee has retained Principal Financial Group as the third party administrator. Robert D. Roten - Lubbock National Bank of Texas is the Plan's Trustee.

The Plan intends to purchase Company common shares using seller financing guaranteed by the Company, and intends to hold the stock in a trust established under the Plan. The borrowing is to be repaid over a period of ten years by fully deductible Company contributions to the trust fund. As the Plan makes each payment of principal, an appropriate percentage of stock will be allocated to eligible employees' accounts in accordance with applicable regulations under the Code.

The borrowing is collateralized by the unallocated shares of stock and is guaranteed by the Company. The lender has no rights against shares once they are allocated under the ESOP. Accordingly, the financial statements of the Plan as of December 31, 2013 and 2012 and for the year ended December 31, 2013 present separately the assets and liabilities and changes therein pertaining to:

1) the accounts of employees with vested rights in allocated stock (Allocated), and

2) stock not yet allocated to employees (Unallocated).

Eligibility

Employees of the Company are generally eligible to participate in the Plan after one year of service providing they worked at least 1,000 hours during such plan year and are 21 years of age. Participants who do not have at least 1,000 hours of service during such plan year or are not employed on the last working day of a plan year are not eligible for an allocation of Company contributions for such year. During the Plan's inception year an eligible participant had to be employed 12 months regardless of hours of service before participation in the Plan.

NOTE A—PLAN DESCRIPTION (continued)

Payment of Benefits

No distributions from the Plan will be made until a participant retires, becomes permanently disabled, dies (in which case, payment shall be made to his or her beneficiary or, if none, his or her legal representatives), or otherwise terminates employment with the Company and its participating subsidiaries. Distributions are made in cash or, if a participant elects, in the form of Company common shares plus cash for any fractional share.

Under the provisions of the Plan, the Company is obligated to repurchase participant shares which have been distributed under the terms of the Plan as long as the shares are not publicly traded or if the shares are subject to trading limitations. During 2013, the Company repurchased participants shares at prices determined from the independent appraisal.

Voting Rights

Each participant is entitled to exercise voting rights attributable to the shares allocated to his or her account with respect to the Company Stock and is notified by the Trustee prior to the time that such rights are to be exercised. The Trustee is not permitted to vote any allocated share for which instructions have not been given by a participant. The Trustee is required, however, to vote any unallocated shares on behalf of the collective best interest of plan participants and beneficiaries.

Plan Termination

The Company reserves the right to terminate the Plan at any time, subject to Plan provisions. Upon such termination of the Plan, the interest of each participant in the trust fund will be distributed to such participant or his or her beneficiary at the time prescribed by the Plan terms and the Code. Upon termination of the Plan, the ESOP Committee shall direct the Trustee to pay all liabilities and expenses of the trust fund and to sell shares of financed stock held in the loan suspense account to the extent it determines such sale to be necessary in order to repay the loan.

Participant Accounts

The Plan is a defined contribution plan under which a separate individual account is established for each participant. Each participant's account is credited as of the last day of each plan year with an allocation of shares of the Company's common stock released by the Trustee from the unallocated account and forfeitures of terminated participants' non vested accounts. Only those participants who are eligible employees of the Company as of the last day of the plan year will receive an allocation. Allocations are based on a participant's eligible compensation, relative to total eligible compensation.

NOTE A—PLAN DESCRIPTION (continued)

Vesting

If a participant's employment with the Company ends for any reason other than retirement, permanent disability or death, he or she will vest in the balances in his or her account based on total years of service with the Company. Participants vest 20% per year of service beginning in year two and are 100% vested after six years of service.

Put Option

Under Federal income tax regulations, the employer stock that is held by the Plan and its participants and is not readily tradable on an established market, or is subject to trading limitations, includes a put option. The put option is a right to demand that the Company buy any shares of its stock distributed to participants for which there is no market. The put price is representative of the fair market value of the stock. The Company can pay for the purchase with interest over a period of five years. The purpose of the put option is to ensure that the participant has the ability to ultimately obtain cash.

Diversification

Diversification is offered to participants close to retirement so that they may have the opportunity to move part of the value of their investment in Company stock into investments which are more diversified. Participants who are at least age 55 with at least 10 years of participation in the Plan may elect to diversify a portion of their account. Diversification is offered to each eligible participant over a six-year period. In each of the first five years, a participant may diversify up to 25% of the number of post-1986 shares allocated to his or her account, less any shares previously diversified. In the sixth year, the percentage changes to 50%. Participants who elect to diversify may either receive a lump sum distribution, or if the Company maintains another qualified plan, may direct the Trustee to make a direct transfer of a portion of their account to that qualified plan.

Participant Accounts and Forfeitures

Employer contributions and Plan forfeitures are allocated to each participant's account based upon the relation of the participant's compensation to total compensation for the Plan year. At December 31, 2013 and 2012, forfeited amounts allocated were $7 and $14, respectively. Plan S-Corporation distributions for shares not held in suspense are allocated to each participant's account based on the ratio of the participant's beginning of the year employer securities account balance to all participants' beginning of the year employer securities account balances. S-distribution earnings for shares that are in suspense, cash contributions, and reallocated forfeitures are allocated based on employee earnings to Plan total employee earnings. Earnings on cash assets are allocated using the basis of beginning balance per Participant in proportion to total Plan balance.

NOTE B—SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared using the accrual method of accounting.

Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Investment Valuation and Income Recognition

The common shares of the Company are valued at fair value as of the end of each plan year. Fair value is determined by annual independent appraisals.

Dividend income is accrued on the ex-dividend date.

Purchases and sales of securities are recorded on a trade-date basis. Realized gains and losses from security transactions are reported on the average cost method.

Operating Expenses

The Company may direct the Trustee to pay from the Trust all fees and expenses reasonably incurred by the Plan (to the extent such fees and expenses are for the ordinary and necessary administration and operation of the Plan), unless the Employer pays all fees and expenses.

REMAINDER OF PAGE INTENTIONALLY LEFT BLANK

NOTE C—FAIR VALUE MEASUREMENTS

The Plan's investments are reported at fair value in the accompanying statement of net assets available for benefit.

		Fair Value Measurements Using:	
December 31, 2013	Fair Value	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Unobservable Inputs (Level 3)

FASB ASC 820-10 (formerly SFAS No. 157, *Fair Value Measurements*), establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority, and Level 3 inputs have the lowest priority. The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. There were no Level 2 inputs used by the Plan, and Level 3 inputs were only used when Level 1 or Level 2 inputs were not available.

Level 1 Fair Value Measurements

The fair values of U.S. Government Securities are based on quoted market prices.

Level 3 Fair Value Measurements

The Company stock is not actively traded and significant other observable inputs are not available. Thus, the fair value of the Company stock is based on annual independent appraisals. The following table provides further details of the Level 3 fair value measurements.

NOTE C—FAIR VALUE MEASUREMENTS (continued)

Gains and losses (realized and unrealized) included in changes in net assets available for benefits for the year ended December 31, 2013 are reported in net appreciation in fair value of investments.

NOTE D—ADMINISTRATION OF PLAN ASSETS

The Plan's assets, which consist principally of Double Diamond-Delaware, Inc. common shares, are held by the Trustee of the Plan.

Company contributions are held and managed by the Trustee, which invests cash received, interest, and dividend income and makes distributions to participants. The Trustee also administers the payment of interest and principal on the loan, which is reimbursed to the Trustee through contributions as determined by the Company.

Certain administrative functions are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan. Administrative expenses for the Trustee's fees may be paid by the Plan or directly by the Company.

NOTE E—TAX STATUS

The Internal Revenue Service has issued a determination letter dated March 11, 2011 that the Plan is qualified and the trust established under the Plan is tax-exempt, under the appropriate sections of the Code. The Plan administrator and the Plan's tax counsel believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the Code. Therefore, they believe that the Plan is qualified and the related trust is tax-exempt as of the financial statement date.

NOTE E—TAX STATUS (continued)
