Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

We have been informed by the plan administrator that the Trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained certifications from the Trustee as of December 31, 2013 and 2012, and for the years then ended, that the information provided to the plan administrator by the Trustee is complete and accurate.

HEALTHCOMP, INC. 401(k) PLAN

NOTES TO FINANCIAL STATEMENTS

Note A. Description of Plan

The following is a summary of certain provisions of the HealthComp, Inc. 401(k) Plan (the "Plan"). Participants should refer to the Plan document for a more complete description of the Plan's provisions.

The Plan is a defined contribution plan that covers substantially all employees of HealthComp, Inc. (the "Company") as described by the Plan. There is a minimum age requirement of 18. The Plan became effective January 1, 1998. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"), as amended.

Contributions:

Participants may elect to contribute on a pre-tax basis from 1% up to 100% of their compensation subject to certain limitations of the Plan and the Internal Revenue Code. The Company has elected to make annual "safe harbor" contributions to the Plan equal to 3% of each participant's compensation for the plan year. Effective March 1, 2014, the Plan was amended to allow for Roth 401(k) contributions.

The Plan allows the Company to make annual elective profit sharing contributions using a formula as defined by the Plan. The profit sharing contribution was \$22,218 and \$10,838 for 2013 and 2012, respectively.

Participant Accounts/Vesting:

Participant and employer contributions are invested in various investment funds in proportions selected by each participant. Dividends, interest, and other income earned are reinvested by the fund managers in the fund for which such income was received. Each participant's account is credited with the participant's contributions, employer contributions, and an allocation of Plan earnings and expenses based on account balances maintained. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. Participants are at all times 100% vested in their accounts.

Notes Receivable From Participants:

Participants may borrow from their accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50 percent of their account balance. Participants may have no more than two loans outstanding at any time. The loans are secured by the balance in the participant's account and bear interest at rates that range from 4.25% to 6.00%. Principal and interest is paid ratably through monthly payroll deductions.

Payment of Benefits:

Participants who terminate under the Plan may elect to receive the current value of their account balance. All distributions are in the form of lump-sum cash payments.

Termination Provisions:

Although it has not expressed any intent to do so, the Company has the right, by action of the Board of Directors, to discontinue its contributions at any time and to terminate the Plan at any time, subject to provisions set forth in ERISA. In the event of termination of the Plan, any unallocated assets of the Plan should be allocated to participant accounts and distributed in such a manner as the Company may determine.

NOTES TO FINANCIAL STATEMENTS (CONTINUED)

Note B. Summary of Significant Accounting Policies

Basis of Accounting:

The Plan uses the modified cash basis of accounting, which is a comprehensive basis of accounting other than accounting principles generally accepted in the United States of America. Investment assets are presented at fair value. Notes receivable from participants are measured at their unpaid principal balance plus accrued interest. All other transactions are recorded using the cash method of accounting.

Contributions:

The Company's funding policy is to make the contributions to the Plan within the time frame required by the Department of Labor.

Benefit Payments:

Benefit payments are recorded when paid.

Investment Valuation and Income Recognition:

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note D for discussion of fair value measurements.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Plan invests in investment contracts through Unified Trust Stable Value Group Trust. The statements of net assets available for benefits present the fair value of the investment contracts, as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The statements of changes in net assets available for benefits are prepared on a contract value basis.

Purchases and sales of securities are recorded on a trade-date basis. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Use of Estimates:

The preparation of financial statements in conformity with the modified cash basis of accounting requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

HEALTHCOMP, INC. 401(k) PLAN

NOTES TO FINANCIAL STATEMENTS (CONTINUED)

Note B. Summary of Significant Accounting Policies (Continued)

Risks and Uncertainties:

The Plan holds various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Administrative Expenses:

Expenses of the Plan are paid by the Company or the Plan at the Company's discretion.

Notes Receivable From Participants:

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent notes receivable from participants are recorded as a distribution based upon the terms of the plan document.

Subsequent Events:

The Plan has evaluated subsequent events and transactions for potential recognition and presentation through the date the financial statements were available to be issued, October 13, 2014. Included in Note A and Note H are details of these events.

Note C. Unaudited Information

The plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Unified Trust Company (the "Trustee") has certified to the completeness and accuracy of all investments reflected in the statements of net assets available for benefits (modified cash basis) at December 31, 2013 and 2012, the supplemental schedule at December 31, 2013, the related investment activity reflected in the statements of changes in net assets available for benefits (modified cash basis) for the years ended December 31, 2013 and 2012, and investment related information in the accompanying notes to the financial statements. NOTES TO FINANCIAL STATEMENTS (CONTINUED)

Note D. Fair Value Measurements

The Plan estimates the fair value of financial instruments using available market information and other generally accepted valuation methodologies. The inputs used to measure fair value are classified into three levels:

Level 1 – Quoted market prices in active markets for identical assets and liabilities.

Level 2 – Observable market-based inputs or unobservable inputs that are corroborated by market data.

Level 3 – Unobservable inputs in which little or no market data exists.

The following is a description of the valuation methodologies used for assets of the Plan measured at fair value at December 31, 2013 and 2012:

- Guaranteed investment contract ("GIC") within the Stable Value Fund: The fair value for the GIC is calculated by separately valuing the securities and wrap contract held by the fund. The securities within the synthetic GICs are valued based on their quoted market prices. The value of the wrap contract is valued by the Trustee by discounting the difference between current market level rates for wrap fees and the contracted rates being charged. Traditional and synthetic GICs are classified as Level 3, as there are no quoted prices or other observable inputs for pricing. Accordingly, the Plan does not use separate quantitative information to value the contract. In determining the reasonableness of the methodology, the plan administrator evaluates a variety of factors including review of existing contracts, economic conditions, industry and market developments and overall credit ratings.
- Mutual funds: Valued at quoted closing market price reported in active markets for identical investments, and are classified as Level 1.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. There have been no changes in the methodologies used from 2012 to 2013. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine fair value of certain financial instruments could result in a different fair value measurement at the report date.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2013 and 2012:

Assets at Fair Value as of December 31, 2013				
	Level 1	Level 2	Level 3	Total

Balance, end of year	<u>\$ 1,288,001</u>	<u>\$ 1,514,790</u>

Note E. Guaranteed Investment Contract

The Plan has an investment contract with Unified Trust Company. Through this contract, both traditional and synthetic GICs are purchased through the Trust's Stable Value Fund as underlying investments. All contracts are fully benefit-responsive. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The GIC issuer is contractually obligated to repay the principal and a specified interest rate which is guaranteed to the Plan. There are no reserves against contract value for credit risk of the contract issuer or otherwise. The fair value of the investment contract at December 31, 2013 and 2012 was \$1,288,001 and \$1,514,790, respectively.

Because the guaranteed investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. The guaranteed investment contract is presented on the face of the statement of net assets available for benefits at fair value with an adjustment to contract value in arriving at net assets available for benefits. Contract value, as reported to the Plan by Unified Trust Company, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

HEALTHCOMP, INC. 401(k) PLAN

NOTES TO FINANCIAL STATEMENTS (CONTINUED)

Note E. Guaranteed Investment Contract (Continued)

The average yield of the Stable Value Fund during 2013 and 2012 based on actual earnings was (1.65)% and 4.66%, respectively. The average yield of the fund during 2013 and 2012 based on the interest rate credited to participants was 2.30% and 2.53%, respectively.

The guaranteed investment contract does not permit the trust company to terminate the agreement prior to the scheduled maturity date. Certain events limit the ability of the Plan to transact at contract value with the issuer. The plan administrator does not believe that any events which would limit the Plan's ability to transact at contract value with the participants are probable of occurring.

Note F. Party-in-Interest Transactions

Certain Plan investments are held in a guaranteed investment contract fund of Unified Trust Company. Unified Trust Company is the Trustee as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. Fees paid to Unified Trust Company for the years ended 2013 and 2012 were \$1,100 and \$1,600, respectively.

Note G. Tax Status

The Plan obtained its latest determination letter on March 31, 2005, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. The Plan has been amended since receiving the determination letter. However, the plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, no provision for income taxes has been included in the Plan's financial statements.

The plan administrator has analyzed the tax positions taken by the Plan and has concluded that, as of December 31, 2013, there are no uncertain positions taken or expected to be taken that would require such recognition or disclosure in the financial statements. As of December 31, 2013, the Plan's tax years from 2010 and thereafter remain subject to examination by the Internal Revenue Service, as well as various other taxing authorities.

Note H. Subsequent Events

In April of 2014, the Plan was amended to appoint TransAmerica Retirement Services ("TransAmerica") as the Third Party Administrator of the Plan. The investment assets of the Plan were liquidated and transferred to TransAmerica at that time.
