CRANE CO. PENSION PLAN FOR ALL ELIGIBLE EMPLOYEES

NOTES TO FINANCIAL STATEMENTS

AS OF AND FOR THE YEARS ENDED DECEMBER 31, 2013 AND 2012

1. DESCRIPTION OF THE PLAN

The following description of the Crane Co. Pension Plan for all Eligible Employees (the “Plan”) is provided for general information purposes only. Participants should refer to the plan document for a more complete description of the Plan’s information.

General — The Plan is a defined benefit pension plan covering eligible employees of Crane Co. and its subsidiaries (the “Company” or “Plan Sponsor”). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). A Trust Agreement dated October 1, 1976, between the Company and Chemical Bank Corporation established the Crane Co. Master Pension Trust (the “Master Trust”) which is maintained for the benefit of the Plan. The Trust Agreement provides for receiving and investing contributions and disbursing benefits. Effective January 1, 1995, the Company changed its trustee to The Bank of New York (the “Trustee” or “BONY”).

Eligibility — Employees of Covered Units of the Company as set forth in Exhibit I of the Plan document are eligible to participate in the Plan. Eligibility to participate in the Plan was frozen effective as of January 1, 2006. Any employee hired or rehired, as well as any employee who transfers to a Covered Unit, on or after January 1, 2006, will not be eligible to participate in the Plan. Effective January 1, 2013, the Plan was further amended to eliminate future pension accruals for active participants, other than union employees who are eligible to participate in the Plan pursuant to the terms of a collective bargaining agreement. All active employees whose Plan benefits were frozen as of January 1, 2013 are deemed to have a fully vested interest in their Plan benefits accrued through December 31, 2012. In addition, while active employees may not accrue additional pension benefits under the Plan, continued service with the Company after January 1, 2013 will count for purposes of determining eligibility for early retirement and other benefit options available under the Plan.

Benefits and Vesting — The Plan provides pension, survivor, and disability benefits to eligible pensioners and beneficiaries of pensioners. Benefits paid to participants are generally determined based on age, length of service, and individual average wages for a defined accrued benefit payable at age 65. Participants become 100% vested after they have completed five years of eligible service (unless a participant has a vested interest under a more favorable vesting schedule applicable to a particular Covered Unit or employee population).

Certain participants may elect to receive a lump-sum payment, subject to the provisions of the Plan. All other participants are eligible for various forms of annuities.

If employees terminate before rendering five years of continuous service, they forfeit the right to receive pension benefits upon retirement.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting — The accompanying financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America (“GAAP”).

Use of Estimates — The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities and changes therein; disclosure of contingent assets and liabilities; and the actuarial present value of accumulated plan benefits and changes therein at the date of the financial statements. Actual results could differ from those estimates.

Risks and Uncertainties — The Plan and Master Trust utilize various investment instruments, including U.S. government securities, corporate debt instruments, registered investment companies, and common stock. Investment securities, in general, are exposed to various risks, such as interest rate risk, credit risk, and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of

CRANE CO. PENSION PLAN FOR ALL ELIGIBLE EMPLOYEES

NOTES TO FINANCIAL STATEMENTS

AS OF AND FOR THE YEARS ENDED DECEMBER 31, 2013 AND 2012

investment securities will occur in the near term and that such changes could materially affect the amounts reported in the financial statements.

Investment Valuation (Master Trust Fund) — The Plan's investment in the Master Trust is presented at fair value, which has been determined based on the fair value of the underlying investments of the Master Trust.

Investment Valuation (Securities With no Quoted Market Prices) — Amounts for securities that have no quoted market price represent estimated fair value. Many factors are considered in arriving at estimated value. In general, however, corporate bonds are valued based on yields currently available on comparable securities of issuers with similar credit ratings. Commingled equity funds are valued by dividing the net assets of the fund (based on the quoted market value of the securities it holds) by the number of outstanding units at the close of the market day. Investments in certain restricted common stocks are valued at the quoted market price of the issuer's unrestricted common stock, less an appropriate discount. If a quoted market price for unrestricted common stock of the issuer is not available, restricted common stocks are valued at a multiple of current earnings, less an appropriate discount. The multiple chosen is consistent with multiples of similar companies based on current market prices.

Investment Transactions and Income Recognition — Investments are stated at fair value. Fair value of a financial instrument is the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. If available, quoted market prices are used to value investments. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net investment (loss) income include the Master Trust's gains and losses on investments bought and sold as well as held during the plan year.

Administrative Expenses — Certain administrative expenses are paid directly by the Master Trust and allocated to the Plan to the extent expenses are not paid directly by the Company. Other administrative expenses, such as trustee fees and investment advisor fees, are allocated on the basis of the Plan's proportionate share of the Master Trust's assets stated at fair value. The Company provides accounting and other administrative services to the Plan at no charge.

Payment of Benefits — Benefit payments to participants are recorded upon distribution.

Subsequent Events — Subsequent events were evaluated through October 15, 2014, the date the financial statements were available to be issued.

3. FUNDING POLICY

Contributions to provide benefits under the Plan are made in cash by the Company in amounts sufficient to satisfy the minimum-funding requirements of ERISA. Contributions are based on normal (current service) cost and amortization of the unfunded actuarial liability as determined by the Plan's independent actuary. The Company met the minimum funding requirements of ERISA for the years ended December 31, 2013 and 2012.

4. ACCUMULATED PLAN BENEFITS

Accumulated plan benefits are those future periodic payments, including lump-sum distributions that are attributable under the Plan's provisions to the services employees have rendered as of the valuation date. Accumulated plan benefits include benefits expected to be paid to (i) retired or terminated employees or their beneficiaries, (ii) beneficiaries of employees who have died, and (iii) present employees or their beneficiaries. The actuarial present value of accumulated plan benefits is determined by an independent actuary. The amount results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements, such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment.

CRANE CO. PENSION PLAN FOR ALL ELIGIBLE EMPLOYEES

NOTES TO FINANCIAL STATEMENTS

AS OF AND FOR THE YEARS ENDED DECEMBER 31, 2013 AND 2012

The effect of Plan amendments on accumulated plan benefits is recognized during the year in which such amendments become effective.

The actuarial present value of accumulated plan benefits as of January 1, 2013, is as follows:

	2013
Vested benefits:	
Active employees	\$ 127,728,032
Retired participants and beneficiaries receiving payments	211,073,397
Terminated vested employees	<u>158,557,889</u>
Total vested benefits	497,359,318
Nonvested Benefits	<u>6,978,546</u>
Actuarial present value of accumulated plan benefits - January 1, 2013	<u><u>\$ 504,337,864</u></u>

The changes in the actuarial present value of the Plan's accumulated plan benefits for the year ended January 1, 2013, are as follows:

Actuarial present value of accumulated plan benefits — January 1, 2012	\$ 438,620,696
Increase (decrease) during the year attributable to:	
Benefits accumulated	13,078,535
Benefits paid	(19,402,341)
Interest due to the decrease in the discount period	21,451,893
Changes in actuarial assumptions	<u>50,589,081</u>
Actuarial present value of accumulated plan benefits — at January 1, 2013	<u><u>\$ 504,337,864</u></u>

The significant actuarial assumptions used in the January 1, 2013 and 2012, valuations were:

- Mortality: RP-2000 table projected to 2019 with scale AA with a 5%load factor applied to the mortality rates in 2013 and RP 2000 table on a generational basis with a 10% load in 2012
- Retirement age: Average retirement age of 65
- Investment return: 7.75% and 8.25% per annum, respectively
- Discount Rate: 4.2% and 5.0%, respectively

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. If the Plan were to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

5. FAIR VALUE MEASUREMENT

ASC 820, *Fair Value Measurements and Disclosures*, provides a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value, as follows: Level 1, which refers to securities valued using unadjusted quoted prices from active markets for identical assets; Level 2, which refers to securities not traded on an active market but for which observable market inputs are readily available; and Level 3, which refers to securities valued based on significant unobservable inputs. Assets are classified in their entirety based on the lowest level of input that is significant to the fair value measurement.

The Plan's policy is to recognize significant transfers between levels at the end of the reporting period.

Asset Valuation Techniques — Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs. The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2013 and 2012.

The Plan's investment in the Master Trust is presented at fair value, which has been determined based on the fair value of the underlying investments of the Master Trust.

Short-term investments are categorized as Level 1. They are stated at amortized cost, which approximates fair value.

Common stocks and U.S. government securities are categorized as Level 1 and are valued at the closing price reported in the active market in which the individual security is traded.

Certain corporate bonds are valued at the closing price reported in the active market in which the bond is traded and are categorized as Level 1. Other corporate bonds are valued based on yields currently available on comparable securities of issuers with similar credit ratings and are categorized as Level 2; when quoted prices are not available for identical or similar bonds, the bond is valued under a discounted cash flow approach that maximizes observable inputs, such as current yields of similar instruments, but includes adjustments for certain risks that may not be observable, such as credit and liquidity risks.

The units of common trust funds are categorized as Level 2; they are stated at net asset value as determined by the issuer of the fund based on the fair value of the underlying investments.

Certain alternative investments contain a "lock up" period upon initial investment during which the Master Trust cannot redeem its funds from the respective investments. The Archstone fund and Strategic Value fund are categorized as Level 2 because there is no "lock up" period remaining and funds are redeemable upon 90 days notice. The Evanston Capital Management fund is also categorized as Level 2 because there is no "lock up" period remaining and funds are redeemable upon 65 days notice. These funds are included under alternative investments within hedge funds below and are fund-of-fund hedge fund vehicles that are redeemable upon 65-90 days written notice at the NAV on the request date.

7. EXEMPT PARTY-IN-INTEREST TRANSACTIONS

Certain officers and employees of the Company (who may also be participants in the Plan) perform administrative services related to the operation and financial reporting of the Plan. The Company pays these individuals salaries.

Certain of the Plan's master trust investments are managed by the Plan's Trustee. The balance of these investments as of December 31, 2013 and 2012, were \$40,428,942 and \$37,307,657, respectively. These investments earned net investment income for the years ended December 31, 2013 and 2012, of \$3,121,224 and \$2,797,758, respectively.

At December 31, 2013 and 2012, the Plan held 427,558 shares of common stock of Crane Co., the sponsoring employer, with a fair value of \$28.8 million and \$19.8 million, respectively. During the years ended December 31, 2013 and 2012, the cost basis of these shares was \$0.9 million and the Plan recorded dividend income of \$0.5 million.

These transactions are not deemed prohibited party-in-interest transactions, because they are covered by statutory and administrative exemptions from the Internal Revenue Code (IRC) and ERISA's rules on prohibited transactions.

8. FEDERAL INCOME TAX STATUS

The Internal Revenue Service has determined and informed the Company by letter dated June 28, 2012, that the Plan and related trust are designed in accordance with applicable sections of the IRC. The Plan has been amended since receiving

CRANE CO. PENSION PLAN FOR ALL ELIGIBLE EMPLOYEES

NOTES TO FINANCIAL STATEMENTS

AS OF AND FOR THE YEARS ENDED DECEMBER 31, 2013 AND 2012

the determination letter; however, the Company and Plan management believe that the Plan is currently designed and operated in compliance with the applicable requirements of the IRC, and the Plan and related trust continue to be tax exempt. Therefore, no provision for income taxes has been included in the Plan's financial statements.

GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2013 and 2012, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

9. PLAN TERMINATION

Although it has not expressed any intention to do so, the Company has the right under the Plan, in certain circumstances, to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA. In the event that the Plan is terminated, the net assets of the Plan will be allocated for payment of plan benefits to the participants in an order of priority determined in accordance with ERISA, applicable regulations there under, and the Plan document.

Certain benefits under the Plan are insured by the Pension Benefit Guaranty Corporation (PBGC) if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination, subject to a statutory ceiling on the amount of an individual's monthly benefit.

Whether all participants receive their benefits should the Plan be terminated at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide those benefits, the priority of those benefits to be paid, and the level and type of benefits guaranteed by the PBGC at that time. Some benefits may be fully or partially provided for by the then existing assets and the PBGC guaranty while other benefits may not be provided for at all.

Asset valuation method

The Actuarial Value of Assets is determined using a method that spreads asset gains/(losses) over two years. The gain/(loss) for each period is determined as the actual return during the period less the expected return based on an assumed earnings rate chosen by the actuary but required by PPA to be not greater than the applicable third segment rate. The resulting value is constrained to be within a corridor of 90% to 110% of market value. The discounted value of accrued contributions, if any, is included in the Actuarial Value of Assets.

The expected return on plan assets is 8.25% per annum, limited by PPA to the applicable Third Segment Rate as follows:

2012 measurement period:	7.52%
2011 measurement period:	6.57%

For 2013 and later the expected return on plan assets was changed to 7.75% per annum to better reflect the plan's asset allocation.
