# Vinson Process Controls 401(k) Plan

## Notes to Financial Statements

## December 31, 2013 and 2012

## Note 1: Description of the Plan

The following description of Vinson Process Controls 401(k) Plan (Plan) provides only general information. Participants should refer to the plan document and *Summary Plan Description* for a more complete description of the Plan's provisions, which are available from the plan administrator.

### *General*

The Plan is a defined contribution plan sponsored by Vinson Process Controls Company, L.P. (Partnership) for the benefit of its employees. Eligible employees may begin to participate in the Plan on the first pay date following the date of employment. The Plan is subject to the provisions of the *Employee Retirement Income Security Act of 1974* (ERISA). Wells Fargo Bank, N.A. (Wells Fargo) is the trustee of the Plan.

### *Contributions*

The Plan permits eligible employees through a salary deferral election to have the Partnership make contributions of up to the maximum allowable by the Internal Revenue Code (IRC). Employee rollover contributions are also permitted. As a safe harbor plan, the Partnership fully matches participant contributions up to the first 4% of the participant's compensation on a pay-period basis. Partnership profit-sharing contributions are discretionary as determined by management. Contributions are subject to certain limitations. Forfeitures are used to reduce Partnership contributions. For the years ended December 31, 2013 and 2012, the Partnership accrued discretionary contributions to the Plan of $1,186,535 and $961,209, respectively.

### *Participant Investment Account Options*

Investment account options available include various funds. Participants have the option of directing their contributions into any of the separate investment accounts and may change the allocation daily.

### *Participant Accounts*

Each participant's account is credited with the participant's contributions and the Partnership's matching contribution as well as an allocation of plan earnings and the Partnership's discretionary contribution. Allocations are based on the participant's earnings or account balances, as defined. The benefits to which a participant is entitled is the benefit that can be provided from the participant's vested account.

### *Vesting*

Participants are immediately vested in their contributions and the Partnership match contribution plus actual earnings thereon. Vesting in the Partnership's discretionary contribution portion of their accounts plus actual earnings is based on years of continuous service. Vesting of the Partnership's discretionary contributions occurs at a rate of 20% per year of employment. A participant is 100% vested after five years of credited service.

### *Payment of Benefits*

Upon termination of service due to death, disability, retirement or other reasons, a participant may receive a lump-sum distribution equal to the value of the participant's vested interest in his or her account.

### *Forfeited Accounts*

At December 31, 2013 and 2012, forfeited nonvested accounts totaled $92 and $23,736, respectively. These accounts will be used to reduce future employer contributions or offset plan expenses.

### *Participants Loans*

The plan document includes provisions authorizing loans from the Plan to active eligible participants. The minimum amount of a loan shall be $1,000. The maximum amount of a participant's loans is determined by the available loan balance restricted to the lesser of $50,000 or 50% of the participant's vested account balance. All loans are covered by demand notes and are repayable over a period not to exceed five years (except for loans for the purchase of a principal residence) through payroll withholdings unless the participant is paying the loan in full. Interest on the loans is based on local prevailing rates as determined by the plan administrator. A participant may have two loans outstanding at one time.

### *Plan Termination*

Although it has not expressed an intention to do so, the Partnership has the right under the Plan to discontinue its contributions at any time and to terminate the Plan, subject to the provisions of the ERISA. In the event of plan termination, participants will become 100% vested in their accounts.

## Notes to Financial Statements

## December 31, 2013 and 2012

## Note 2: Summary of Significant Accounting Policies

### *Basis of Accounting*

The accompanying financial statements are prepared on the accrual basis of accounting.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts, because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Plan invests in investment contracts through a common collective trust. The accompanying statements of net assets available for benefits presents the fair value of the investment in the common collective trust, as well as the adjustment of the investment in the common collective trust from fair value to contract value. The accompanying statements of changes in net assets available for benefits is prepared on a contract value basis.

### *Use of Estimates*

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America require management to make estimates and assumptions that affect the reported amounts of net assets and changes in net assets and disclosures of contingent assets and liabilities at the date of the financial statements. Actual results may differ from those estimates.

### *Valuation of Investments and Income Recognition*

Quoted market prices, if available, are used to value investments. Mutual funds are valued at the net asset value (NAV) of shares held by the Plan at year-end. The Plan's interest in the common collective trust fund is valued based on information reported by the investment advisor using the audited financial statements of the common collective trust at year-end.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

### *Notes Receivable from Participants*

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans may be reclassified as distributions based upon the terms of the plan document.

### *Plan Tax Status*

The Plan operates under a standardized adoption agreement in connection with a prototype 401(k) profit-sharing plan and trust sponsored by Wells Fargo. This prototype plan document has been filed with the appropriate agency and has obtained a determination letter from the Internal Revenue Service stating that the prototype constitutes a qualified plan under Section 401 of the IRC and that the related trust was tax-exempt as of the financial statement date. The Plan has been amended since receiving the determination letter. However, the plan administrator believes that the plan and related trust are currently designed and being operated in compliance with applicable requirements of the IRC.

With a few exceptions, the Plan is no longer subject to U.S. federal, state and local or non-U.S. income tax examinations by tax authorities for years before 2010.

### *Payment of Benefits*

Benefit payments to participants are recorded upon distribution.

### *Administrative Expenses*

The Plan's administrative expenses may be paid by the Partnership or the Plan at the Partnership's discretion.

### *Transfers Between Fair Value Hierarchy Levels*

Transfers in and out of Level 1 (quoted market prices), Level 2 (other significant observable inputs) and Level 3 (significant unobservable inputs) are recognized on the actual transfer date.

## Note 4: Disclosures About Fair Value of Plan Assets and Liabilities

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Fair value measurements must maximize the use of observable inputs and minimize the use of unobservable inputs. There is a hierarchy of three levels of inputs that may be used to measure fair value:

**Level 1** Quoted prices in active markets for identical assets or liabilities

**Level 2** Observable inputs other than Level 1 prices, such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities

**Level 3** Unobservable inputs supported by little or no market activity and are significant to the fair value of the assets or liabilities

### *Recurring Measurements*

The following tables present the fair value measurements of assets recognized in the accompanying statements of net assets available for benefits measured at fair value on a recurring basis and the level within the fair value hierarchy in which the fair value measurements fall at December 31, 2013 and 2012:

| | | Fair Value Measurements Using | | |
|---|---|---|---|---|
| | Fair Value | Quoted Prices in Active Markets for Identical Assets (Level 1) | Significant Other Observable Inputs (Level 2) | Significant Unobservable Inputs (Level 3) |

| | Fair Value | Quoted Prices in Active Markets for Identical Assets (Level 1) | Significant Other Observable Inputs (Level 2) | Significant Unobservable Inputs (Level 3) |
| **December 31, 2012** | | | | |

| Other | 845,582 | 845,582 | - | - |
| Common collective trust | 1,783,636 | - | 1,783,636 | - |

Following is a description of the valuation methodologies and inputs used for assets measured at fair value on a recurring basis and recognized in the accompanying statements of net assets available for benefits, as well as the general classification of such assets pursuant to the valuation hierarchy. There have been no significant changes in the valuation techniques during the year ended December 31, 2013. The Plan had no liabilities measured at fair value on a recurring basis. In addition, the Plan had no assets or liabilities measured at fair value on a nonrecurring basis.

***Investments***

Where quoted market prices are available in an active market, securities are classified within Level 1 of the valuation hierarchy. If quoted market prices are not available, then fair values are estimated by using quoted prices of securities with similar characteristics or independent asset pricing services and pricing models, the inputs of which are market-based or independently sourced market parameters, including, but not limited to, yield curves, interest rates, volatilities, prepayments, defaults, cumulative loss projections and cash flows. Such securities are classified in Level 2 of the valuation hierarchy. In certain cases where Level 1 or Level 2 inputs are not available, securities are classified within Level 3 of the hierarchy.

### Note 5: Fully Benefit-responsive Investment Contract

The Plan participates in a common collective trust fund that invests in an investment contract that is fully benefit-responsive.

As described in the basis of accounting disclosure, because the collective investment fund is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against the contract value for credit risk of the contract issuer or otherwise. The crediting interest rate is based on a formula agreed upon with the issuer, but may not be less than 0%. Such interest rates are reviewed on a quarterly basis for resetting.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the plan documents (including complete or partial plan termination or merger with another plan), (2) changes to Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the plan sponsor or other plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The plan administrator does not believe the occurrence of any such value event, which would limit the Plan's ability to transact at contract value with participants, is probable.

### Note 6: Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements at December 31, 2013 and 2012, to Form 5500:

| Net increase per Form 5500 | $ 6,073,040 | $ 2,369,018 |

## Note 7: Party-in-Interest Transactions

Party-in-interest transactions include those with fiduciaries or employees of the Plan, any person who provides services to the Plan, an employer whose employees are covered by the Plan, an employee organization whose members are covered by the Plan, a person who owns 50% or more of such an employer or employee association, or relatives of such persons. Certain plan investments are funds managed by the plan trustee and; therefore, these transactions qualify as party-in-interest transactions. The Partnership provides certain administrative services at no cost to the Plan.

## Note 8: Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the participants' account balances and the amounts reported in the accompanying statements of net assets available for benefits.

## Note 9: Subsequent Events

Subsequent events have been evaluated through October 13, 2014, which is the date the financial statements were available to be issued.

# Vinson Process Controls 401(k) Plan

## Notes to Financial Statements

## December 31, 2013 and 2012

## Note 1: Description of the Plan

The following description of Vinson Process Controls 401(k) Plan (Plan) provides only general information. Participants should refer to the plan document and *Summary Plan Description* for a more complete description of the Plan's provisions, which are available from the plan administrator.

### *General*

The Plan is a defined contribution plan sponsored by Vinson Process Controls Company, L.P. (Partnership) for the benefit of its employees. Eligible employees may begin to participate in the Plan on the first pay date following the date of employment. The Plan is subject to the provisions of the *Employee Retirement Income Security Act of 1974* (ERISA). Wells Fargo Bank, N.A. (Wells Fargo) is the trustee of the Plan.

### *Contributions*

The Plan permits eligible employees through a salary deferral election to have the Partnership make contributions of up to the maximum allowable by the Internal Revenue Code (IRC). Employee rollover contributions are also permitted. As a safe harbor plan, the Partnership fully matches participant contributions up to the first 4% of the participant's compensation on a pay-period basis. Partnership profit-sharing contributions are discretionary as determined by management. Contributions are subject to certain limitations. Forfeitures are used to reduce Partnership contributions. For the years ended December 31, 2013 and 2012, the Partnership accrued discretionary contributions to the Plan of $1,186,535 and $961,209, respectively.

### *Participant Investment Account Options*

Investment account options available include various funds. Participants have the option of directing their contributions into any of the separate investment accounts and may change the allocation daily.

### *Participant Accounts*

Each participant's account is credited with the participant's contributions and the Partnership's matching contribution as well as an allocation of plan earnings and the Partnership's discretionary contribution. Allocations are based on the participant's earnings or account balances, as defined. The benefits to which a participant is entitled is the benefit that can be provided from the participant's vested account.

### *Vesting*

Participants are immediately vested in their contributions and the Partnership match contribution plus actual earnings thereon. Vesting in the Partnership's discretionary contribution portion of their accounts plus actual earnings is based on years of continuous service. Vesting of the Partnership's discretionary contributions occurs at a rate of 20% per year of employment. A participant is 100% vested after five years of credited service.

### *Payment of Benefits*

Upon termination of service due to death, disability, retirement or other reasons, a participant may receive a lump-sum distribution equal to the value of the participant's vested interest in his or her account.

### *Forfeited Accounts*

At December 31, 2013 and 2012, forfeited nonvested accounts totaled $92 and $23,736, respectively. These accounts will be used to reduce future employer contributions or offset plan expenses.

### *Participants Loans*

The plan document includes provisions authorizing loans from the Plan to active eligible participants. The minimum amount of a loan shall be $1,000. The maximum amount of a participant's loans is determined by the available loan balance restricted to the lesser of $50,000 or 50% of the participant's vested account balance. All loans are covered by demand notes and are repayable over a period not to exceed five years (except for loans for the purchase of a principal residence) through payroll withholdings unless the participant is paying the loan in full. Interest on the loans is based on local prevailing rates as determined by the plan administrator. A participant may have two loans outstanding at one time.

### *Plan Termination*

Although it has not expressed an intention to do so, the Partnership has the right under the Plan to discontinue its contributions at any time and to terminate the Plan, subject to the provisions of the ERISA. In the event of plan termination, participants will become 100% vested in their accounts.

## Notes to Financial Statements

## December 31, 2013 and 2012

## Note 2: Summary of Significant Accounting Policies

### *Basis of Accounting*

The accompanying financial statements are prepared on the accrual basis of accounting.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts, because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Plan invests in investment contracts through a common collective trust. The accompanying statements of net assets available for benefits presents the fair value of the investment in the common collective trust, as well as the adjustment of the investment in the common collective trust from fair value to contract value. The accompanying statements of changes in net assets available for benefits is prepared on a contract value basis.

### *Use of Estimates*

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America require management to make estimates and assumptions that affect the reported amounts of net assets and changes in net assets and disclosures of contingent assets and liabilities at the date of the financial statements. Actual results may differ from those estimates.

### *Valuation of Investments and Income Recognition*

Quoted market prices, if available, are used to value investments. Mutual funds are valued at the net asset value (NAV) of shares held by the Plan at year-end. The Plan's interest in the common collective trust fund is valued based on information reported by the investment advisor using the audited financial statements of the common collective trust at year-end.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

### *Notes Receivable from Participants*

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans may be reclassified as distributions based upon the terms of the plan document.

### *Plan Tax Status*

The Plan operates under a standardized adoption agreement in connection with a prototype 401(k) profit-sharing plan and trust sponsored by Wells Fargo. This prototype plan document has been filed with the appropriate agency and has obtained a determination letter from the Internal Revenue Service stating that the prototype constitutes a qualified plan under Section 401 of the IRC and that the related trust was tax-exempt as of the financial statement date. The Plan has been amended since receiving the determination letter. However, the plan administrator believes that the plan and related trust are currently designed and being operated in compliance with applicable requirements of the IRC.

With a few exceptions, the Plan is no longer subject to U.S. federal, state and local or non-U.S. income tax examinations by tax authorities for years before 2010.

### *Payment of Benefits*

Benefit payments to participants are recorded upon distribution.

### *Administrative Expenses*

The Plan's administrative expenses may be paid by the Partnership or the Plan at the Partnership's discretion.

### *Transfers Between Fair Value Hierarchy Levels*

Transfers in and out of Level 1 (quoted market prices), Level 2 (other significant observable inputs) and Level 3 (significant unobservable inputs) are recognized on the actual transfer date.

## Note 4: Disclosures About Fair Value of Plan Assets and Liabilities

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Fair value measurements must maximize the use of observable inputs and minimize the use of unobservable inputs. There is a hierarchy of three levels of inputs that may be used to measure fair value:

**Level 1** Quoted prices in active markets for identical assets or liabilities

**Level 2** Observable inputs other than Level 1 prices, such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities

**Level 3** Unobservable inputs supported by little or no market activity and are significant to the fair value of the assets or liabilities

### *Recurring Measurements*

The following tables present the fair value measurements of assets recognized in the accompanying statements of net assets available for benefits measured at fair value on a recurring basis and the level within the fair value hierarchy in which the fair value measurements fall at December 31, 2013 and 2012:

| | | Fair Value Measurements Using | | |
|---|---|---|---|---|
| | Fair Value | Quoted Prices in Active Markets for Identical Assets (Level 1) | Significant Other Observable Inputs (Level 2) | Significant Unobservable Inputs (Level 3) |

| | Fair Value | Quoted Prices in Active Markets for Identical Assets (Level 1) | Significant Other Observable Inputs (Level 2) | Significant Unobservable Inputs (Level 3) |
| **December 31, 2012** | | | | |
| Mutual funds | | | | |
| Target | $ 2,163,202 | $ 2,163,202 | $ - | $ - |

| Bond | 1,987,844 | 1,987,844 | | |
| Other | 845,582 | 845,582 | - | - |
| Common collective trust | 1,783,636 | - | 1,783,636 | - |

Following is a description of the valuation methodologies and inputs used for assets measured at fair value on a recurring basis and recognized in the accompanying statements of net assets available for benefits, as well as the general classification of such assets pursuant to the valuation hierarchy. There have been no significant changes in the valuation techniques during the year ended December 31, 2013. The Plan had no liabilities measured at fair value on a recurring basis. In addition, the Plan had no assets or liabilities measured at fair value on a nonrecurring basis.

***Investments***

Where quoted market prices are available in an active market, securities are classified within Level 1 of the valuation hierarchy. If quoted market prices are not available, then fair values are estimated by using quoted prices of securities with similar characteristics or independent asset pricing services and pricing models, the inputs of which are market-based or independently sourced market parameters, including, but not limited to, yield curves, interest rates, volatilities, prepayments, defaults, cumulative loss projections and cash flows. Such securities are classified in Level 2 of the valuation hierarchy. In certain cases where Level 1 or Level 2 inputs are not available, securities are classified within Level 3 of the hierarchy.

### Note 5: Fully Benefit-responsive Investment Contract

The Plan participates in a common collective trust fund that invests in an investment contract that is fully benefit-responsive.

As described in the basis of accounting disclosure, because the collective investment fund is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against the contract value for credit risk of the contract issuer or otherwise. The crediting interest rate is based on a formula agreed upon with the issuer, but may not be less than 0%. Such interest rates are reviewed on a quarterly basis for resetting.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the plan documents (including complete or partial plan termination or merger with another plan), (2) changes to Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the plan sponsor or other plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The plan administrator does not believe the occurrence of any such value event, which would limit the Plan's ability to transact at contract value with participants, is probable.

### Note 6: Reconciliation of Financial Statements to Form 5500

## Note 7: Party-in-Interest Transactions

Party-in-interest transactions include those with fiduciaries or employees of the Plan, any person who provides services to the Plan, an employer whose employees are covered by the Plan, an employee organization whose members are covered by the Plan, a person who owns 50% or more of such an employer or employee association, or relatives of such persons. Certain plan investments are funds managed by the plan trustee and; therefore, these transactions qualify as party-in-interest transactions. The Partnership provides certain administrative services at no cost to the Plan.

## Note 8: Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the participants' account balances and the amounts reported in the accompanying statements of net assets available for benefits.

## Note 9: Subsequent Events

Subsequent events have been evaluated through October 13, 2014, which is the date the financial statements were available to be issued.

## December 31, 2013 and 2012

## Note 1: Description of the Plan

The following description of Vinson Process Controls 401(k) Plan (Plan) provides only general information. Participants should refer to the plan document and *Summary Plan Description* for a more complete description of the Plan's provisions, which are available from the plan administrator.

### *General*

The Plan is a defined contribution plan sponsored by Vinson Process Controls Company, L.P. (Partnership) for the benefit of its employees. Eligible employees may begin to participate in the Plan on the first pay date following the date of employment. The Plan is subject to the provisions of the *Employee Retirement Income Security Act of 1974* (ERISA). Wells Fargo Bank, N.A. (Wells Fargo) is the trustee of the Plan.

### *Contributions*

The Plan permits eligible employees through a salary deferral election to have the Partnership make contributions of up to the maximum allowable by the Internal Revenue Code (IRC). Employee rollover contributions are also permitted. As a safe harbor plan, the Partnership fully matches participant contributions up to the first 4% of the participant's compensation on a pay-period basis. Partnership profit-sharing contributions are discretionary as determined by management. Contributions are subject to certain limitations. Forfeitures are used to reduce Partnership contributions. For the years ended December 31, 2013 and 2012, the Partnership accrued discretionary contributions to the Plan of $1,186,535 and $961,209, respectively.

### *Participant Investment Account Options*

Investment account options available include various funds. Participants have the option of directing their contributions into any of the separate investment accounts and may change the allocation daily.

### *Participant Accounts*

Each participant's account is credited with the participant's contributions and the Partnership's matching contribution as well as an allocation of plan earnings and the Partnership's discretionary contribution. Allocations are based on the participant's earnings or account balances, as defined. The benefits to which a participant is entitled is the benefit that can be provided from the participant's vested account.

### *Vesting*

Participants are immediately vested in their contributions and the Partnership match contribution plus actual earnings thereon. Vesting in the Partnership's discretionary contribution portion of their accounts plus actual earnings is based on years of continuous service. Vesting of the Partnership's discretionary contributions occurs at a rate of 20% per year of employment. A participant is 100% vested after five years of credited service.

### *Payment of Benefits*

Upon termination of service due to death, disability, retirement or other reasons, a participant may receive a lump-sum distribution equal to the value of the participant's vested interest in his or her account.

### *Forfeited Accounts*

At December 31, 2013 and 2012, forfeited nonvested accounts totaled $92 and $23,736, respectively. These accounts will be used to reduce future employer contributions or offset plan expenses.

### *Participants Loans*

The plan document includes provisions authorizing loans from the Plan to active eligible participants. The minimum amount of a loan shall be $1,000. The maximum amount of a participant's loans is determined by the available loan balance restricted to the lesser of $50,000 or 50% of the participant's vested account balance. All loans are covered by demand notes and are repayable over a period not to exceed five years (except for loans for the purchase of a principal residence) through payroll withholdings unless the participant is paying the loan in full. Interest on the loans is based on local prevailing rates as determined by the plan administrator. A participant may have two loans outstanding at one time.

### *Plan Termination*

Although it has not expressed an intention to do so, the Partnership has the right under the Plan to discontinue its contributions at any time and to terminate the Plan, subject to the provisions of the ERISA. In the event of plan termination, participants will become 100% vested in their accounts.

## Notes to Financial Statements

## December 31, 2013 and 2012

## Note 2: Summary of Significant Accounting Policies

### *Basis of Accounting*

The accompanying financial statements are prepared on the accrual basis of accounting.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts, because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Plan invests in investment contracts through a common collective trust. The accompanying statements of net assets available for benefits presents the fair value of the investment in the common collective trust, as well as the adjustment of the investment in the common collective trust from fair value to contract value. The accompanying statements of changes in net assets available for benefits is prepared on a contract value basis.

### *Use of Estimates*

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America require management to make estimates and assumptions that affect the reported amounts of net assets and changes in net assets and disclosures of contingent assets and liabilities at the date of the financial statements. Actual results may differ from those estimates.

### *Valuation of Investments and Income Recognition*

Quoted market prices, if available, are used to value investments. Mutual funds are valued at the net asset value (NAV) of shares held by the Plan at year-end. The Plan's interest in the common collective trust fund is valued based on information reported by the investment advisor using the audited financial statements of the common collective trust at year-end.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

### *Notes Receivable from Participants*

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans may be reclassified as distributions based upon the terms of the plan document.

### *Plan Tax Status*

The Plan operates under a standardized adoption agreement in connection with a prototype 401(k) profit-sharing plan and trust sponsored by Wells Fargo. This prototype plan document has been filed with the appropriate agency and has obtained a determination letter from the Internal Revenue Service stating that the prototype constitutes a qualified plan under Section 401 of the IRC and that the related trust was tax-exempt as of the financial statement date. The Plan has been amended since receiving the determination letter. However, the plan administrator believes that the plan and related trust are currently designed and being operated in compliance with applicable requirements of the IRC.

With a few exceptions, the Plan is no longer subject to U.S. federal, state and local or non-U.S. income tax examinations by tax authorities for years before 2010.

### *Payment of Benefits*

Benefit payments to participants are recorded upon distribution.

### *Administrative Expenses*

The Plan's administrative expenses may be paid by the Partnership or the Plan at the Partnership's discretion.

### *Transfers Between Fair Value Hierarchy Levels*

Transfers in and out of Level 1 (quoted market prices), Level 2 (other significant observable inputs) and Level 3 (significant unobservable inputs) are recognized on the actual transfer date.

## Note 4: Disclosures About Fair Value of Plan Assets and Liabilities

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Fair value measurements must maximize the use of observable inputs and minimize the use of unobservable inputs. There is a hierarchy of three levels of inputs that may be used to measure fair value:

**Level 1** Quoted prices in active markets for identical assets or liabilities

**Level 2** Observable inputs other than Level 1 prices, such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities

**Level 3** Unobservable inputs supported by little or no market activity and are significant to the fair value of the assets or liabilities

### *Recurring Measurements*

The following tables present the fair value measurements of assets recognized in the accompanying statements of net assets available for benefits measured at fair value on a recurring basis and the level within the fair value hierarchy in which the fair value measurements fall at December 31, 2013 and 2012:

| | | Fair Value Measurements Using | | |
|---|---|---|---|---|
| | Fair Value | Quoted Prices in Active Markets for Identical Assets (Level 1) | Significant Other Observable Inputs (Level 2) | Significant Unobservable Inputs (Level 3) |

| Other | 845,582 | 845,582 | - | - |
| Common collective trust | 1,783,636 | - | 1,783,636 | - |

Following is a description of the valuation methodologies and inputs used for assets measured at fair value on a recurring basis and recognized in the accompanying statements of net assets available for benefits, as well as the general classification of such assets pursuant to the valuation hierarchy. There have been no significant changes in the valuation techniques during the year ended December 31, 2013. The Plan had no liabilities measured at fair value on a recurring basis. In addition, the Plan had no assets or liabilities measured at fair value on a nonrecurring basis.

***Investments***

Where quoted market prices are available in an active market, securities are classified within Level 1 of the valuation hierarchy. If quoted market prices are not available, then fair values are estimated by using quoted prices of securities with similar characteristics or independent asset pricing services and pricing models, the inputs of which are market-based or independently sourced market parameters, including, but not limited to, yield curves, interest rates, volatilities, prepayments, defaults, cumulative loss projections and cash flows. Such securities are classified in Level 2 of the valuation hierarchy. In certain cases where Level 1 or Level 2 inputs are not available, securities are classified within Level 3 of the hierarchy.

### Note 5: Fully Benefit-responsive Investment Contract

The Plan participates in a common collective trust fund that invests in an investment contract that is fully benefit-responsive.

As described in the basis of accounting disclosure, because the collective investment fund is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against the contract value for credit risk of the contract issuer or otherwise. The crediting interest rate is based on a formula agreed upon with the issuer, but may not be less than 0%. Such interest rates are reviewed on a quarterly basis for resetting.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the plan documents (including complete or partial plan termination or merger with another plan), (2) changes to Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the plan sponsor or other plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The plan administrator does not believe the occurrence of any such value event, which would limit the Plan's ability to transact at contract value with participants, is probable.

## Note 7: Party-in-Interest Transactions

Party-in-interest transactions include those with fiduciaries or employees of the Plan, any person who provides services to the Plan, an employer whose employees are covered by the Plan, an employee organization whose members are covered by the Plan, a person who owns 50% or more of such an employer or employee association, or relatives of such persons. Certain plan investments are funds managed by the plan trustee and; therefore, these transactions qualify as party-in-interest transactions. The Partnership provides certain administrative services at no cost to the Plan.

## Note 8: Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the participants' account balances and the amounts reported in the accompanying statements of net assets available for benefits.

## Note 9: Subsequent Events

Subsequent events have been evaluated through October 13, 2014, which is the date the financial statements were available to be issued.
