NOTES TO FINANCIAL STATEMENTS

1. Description of Plan

The following description of The Linc Group, LLC Savings Plan (the "Plan") provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan was formed and adopted by the board of directors of The Linc Group, LLC, effective January 1, 2004, as a defined contribution plan covering substantially all employees who have attained the age of twenty-one. During the year ended December 31, 2011, The Linc Group, LLC was acquired by ABM Industries Incorporated ("ABM") and was renamed ABM Facility Solutions Group, LLC (the "Company"). Accordingly, effective January 1, 2012, the Plan was amended and restated to change the Plan sponsor to ABM Facility Solutions Group, LLC.

The Plan was amended, effective January 1, 2012, to increase the level of compensation available for employee contributions to the Plan from 10% to 50% for both pre-tax and after-tax employee contributions, and to incorporate all previous amendments. Effective January 1, 2013, the Plan was amended to allow certain highly compensated employees of the Company to participate in the Plan and to prohibit highly compensated employees from making after-tax contributions. The Plan, as amended, is subject to the Employee Retirement Income Security Act of 1974 ("ERISA") and the Internal Revenue Code of 1986 ("IRC").

Administration

The Plan is administered by the Company. ING National Trust Company (the "Trustee") serves as the Plan trustee and record-keeper.

Contributions

Effective January 1, 2012, each year participants may contribute from 1% to 50% of their pre-tax annual compensation, not to exceed the limitation set forth in Section 402(g) (\$17,500 in 2013 and \$17,000 in 2012) of the IRC. Participants may also make after-tax contributions from 1% to 50% of their annual compensation.

Participants can make catch-up contributions that exceed the annual elective deferral limit during any calendar year ending on or after the participant's 50th birthday. Participants' total catch-up contributions during 2013 and 2012 could not exceed \$5,500 in either year. Participants may also make rollover contributions from other qualified plans.

Under the terms of the Plan, the Company makes matching contributions to the Plan of 100% of a participant's pre-tax and/or after-tax contributions that do not exceed 3% of the participant's compensation and 50% of a participant's pre-tax and/or after-tax contributions that exceed 3% but do not exceed 5% of compensation.

Participant Accounts

Each participant's account is credited with the participant's voluntary contributions and the Company's matching contributions and an allocation of Plan earnings. Allocations are based on the participant's account balance as defined in the Plan. Upon the occurrence of a distribution event, the benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account balance.

Vesting

Participants immediately 100% vest in their account balances.

Participant Notes Receivable

Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of the participant's vested account balance. Loan interest is based on a fixed rate established monthly by the Plan administrator, which approximates the rate that would be charged by a commercial lender for a similar loan. Participant loans outstanding at December 31, 2013 and 2012 totaled \$1,770,022 and \$1,817,812, respectively, and bore interest at rates ranging from 4.25% to 6.00% and 4.25% to 9.25% per year during the years ended December 31, 2013 and 2012, respectively. Each participant is allowed only two outstanding loans at a time. Loan principal and interest are paid ratably over periods not to exceed five years (up to thirty years for loans used in the purchase of a principal residence) through payroll deductions in the same frequency as regular pay. The loans are secured by the vested balance in the participants' accounts.

Payment of Benefits

Upon termination of employment, a participant (or his or her designated beneficiary in the event of death) will receive a single lump-sum amount equal to the value of the participant's vested interest in his or her account. Hardship withdrawals are permitted, subject to certain limitations. Additionally, if certain conditions are met, a participant may withdraw all or part of the value of his or her vested account balance upon written request to the Company.

Forfeited Accounts

Forfeitures result from the settlement proceeds related to the ING Fixed Account and past mergers into the Plan. Forfeitures as of December 31, 2013 and 2012 were \$13,952 and \$3,251, respectively. Forfeitures may be used to offset Plan expenses or to offset Company matching contributions. Forfeitures of \$2,125 and \$950 were used to pay administrative expenses for the years ended December 31, 2013 and 2012, respectively.

Administrative Expenses

Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Expenses paid by the Company on behalf of the Plan during the years ended December 31, 2013 and 2012 were \$15,145 and \$34,125 for the years ended December 31, 2013 and 2012, respectively.

Fees related to the administration of notes receivable from participants are charged directly to the participants' accounts and are included in administrative fees.

Expense Offset Arrangements

Fees incurred by the Plan for the investment management or recordkeeping services are included in the net appreciation in fair value of investments, as they are paid through revenue sharing, rather than a direct payment.

2. Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared under the accrual method of accounting in accordance with accounting principles generally accepted in the United States of America.

2. Summary of Significant Accounting Policies, continued

Fully Benefit-Responsive Investment Contract

As described in the Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") Topic 962, *Defined Contribution Pension Plans*, investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. Investments in the accompanying Statements of Net Assets Available for Benefits as of December 31, 2013 and 2012, include a guaranteed investment contract, i.e., ING Fixed Account, which is a fully benefit-responsive investment contract. As required, the Statements of Net Assets Available for Benefits present the fair value of the investment contract, as well as the adjustment of the fully benefit-responsive investment contract from fair value to contract value. The Statements of Changes in Net Assets Available for Benefits are prepared on a contract value basis.

Use of Estimates

The preparation of the financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein. Actual results may differ from these estimates.

Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to risks, such as interest rate risk, market risk, and credit risk. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in their values will occur in the near term and that such changes could materially affect the amounts reported in the Statements of Net Assets Available for Benefits and the Statements of Changes in Net Assets Available for Benefits.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Net appreciation in fair value of investments includes realized gains and losses on investments sold during the year, as well as unrealized appreciation (depreciation) of investments held at the end of the year. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Participant Notes Receivable

Participant notes receivable are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income on notes receivable from participants is recognized on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. Delinquent participant notes are reclassified as distributions based upon the terms of the Plan document.

Benefit Payments

Benefits payments are recorded when paid.

Reclassifications

Certain amounts in the 2013 financial statements have been reclassified to conform to the 2012 presentation, with no effect on the net assets available for benefits or changes therein.

ING T. Rowe Price Capital Appreciation Portfolio (Inst)	5,988,839	4,950,152

Total investments at fair value	<u>\$ 56,273,888</u>	<u>\$ 47,902,775</u>

* Less than 5% of net assets in the period indicated.

During the years ended December 31, 2013 and 2012, the Plan's investments in mutual funds, including realized gains and losses on investments sold during the year and unrealized appreciation (depreciation) on investments held at the end of the year, appreciated in value by \$6,966,360 and \$4,381,650, respectively.

4. Fair Value Measurements

FASB ASC Topic 820 ("ASC 820"), *Fair Value Measurements and Disclosures*, defines fair value and establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under ASC 820 are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and not corroborated by market data and are significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

In determining fair value, the Plan uses two different approaches (the market approach and the income approach) depending on the nature of assets and liabilities. The market approach uses prices and other relevant data based on market transactions involving identical or comparable assets and liabilities.

4. Fair Value Measurements, continued

The income approach uses valuation techniques to convert future amounts such as cash flows or earnings to a single present amount, with the measurement based on the value indicated by current market expectations about those future amounts.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2013 and 2012.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-ended mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded. (Market approach)

Guaranteed investment contract: Valued at fair value by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the credit-worthiness of the issuer (see Note 5). (Income approach)

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's investments measured at fair value on a recurring basis as of December 31, 2013 and 2012:

THE LINC GROUP, LLC SAVINGS PLAN
NOTES TO FINANCIAL STATEMENTS

5. Investment Contract with Insurance Company

The Plan invests in the ING Fixed Account (guaranteed investment contract), which is an open-ended group annuity investment contract with ING Life Insurance and Annuity Company ("ILIAC") effective November 21, 2003. ILIAC maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan. ILIAC can terminate the agreement or convert to another similar contract upon providing the Plan with a 90-day written notice.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The crediting interest rate is based on a formula agreed upon with the issuer, but may not be less than 3.00%. Such interest rate is reviewed on an annual basis for resetting. The average yields for the years ended December 31, 2013 and 2012 were 3.11% and 3.00%, respectively.

Certain events limit the Plan's ability to transact at contract value with the issuer. Specifically, any event outside the normal operation of the Plan that causes a withdrawal from an investment contract may result in a negative market value adjustment with respect to the withdrawal. Examples of such events include, but are not limited to, the Plan's partial or complete legal termination, tax disqualification, and certain Plan amendments if issuers' consent is not obtained.

In general, the issuer may terminate the contract and settle at other than contract value if there is a change in the qualification status of a participant, employer, or Plan; a breach of material obligations under the contract or a misrepresentation by the contract holder.

The Plan administrator believes that no events that would limit the Plan's ability to transact at contract value with participants are probable.

6. Information Certified by the Plan's Trustee (Unaudited)

The Plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, other than the fair value of the guaranteed investment contract and the related adjustment from fair value to contract value for fully benefit-responsive contracts, certain information related to investments and notes receivable from participants disclosed in the accompanying financial statements and supplemental schedule, including investments and notes receivable from participants at December 31, 2013 and 2012, net appreciation in fair value of investments, and interest and dividends for the years then ended, was obtained or derived from the information supplied to the Plan administrator and certified as complete and accurate by the Trustee of the Plan. The contract value of the guaranteed investment contract was certified by the Trustee.

The Plan's independent accountants did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedule.

7. Tax Status

The Plan received its latest determination letter on March 20, 2014, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the IRC. The Plan administrator and legal counsel believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC.

The Plan has not performed the required annual compliance testing as of the date of financial statement issuance; however, the Plan expects to complete the required testing by December 31, 2014.

THE LINC GROUP, LLC SAVINGS PLAN
NOTES TO FINANCIAL STATEMENTS

8. Plan Termination

Although it has not expressed any intent to do so, the Company has the right to terminate the Plan at any time subject to the provisions of ERISA.

9. Party-in-Interest Transactions

Certain Plan investments are in accounts managed by the Trustee, and the Plan issues participant notes receivable. These transactions qualify as party-in-interest transactions, as defined by ERISA. However, such transactions are permitted under the provisions of the Plan and are exempt from the prohibition of party-in-interest transactions under ERISA.

10. Reconciliation of Plan Financial Statements to Form 5500

The following is a reconciliation of the net assets available for benefits per the financial statements to the Form 5500 as of December 31, 2013 and 2012:

11. Subsequent Events

Effective January 1, 2014, the Plan was frozen and accordingly, contributions to the Plan are no longer accepted.

THE LINC GROUP, LLC SAVINGS PLAN
NOTES TO FINANCIAL STATEMENTS

11. Subsequent Events, continued

Effective September 30, 2014, the Plan merged into the ABM 401(k) Employee Savings Plan ("ABM 401k") transferring all of its assets to Merrill Lynch, the trustee of ABM 401k. Consequently, starting October 1, 2014, ING National Trust Company ceased to serve as the Plan's trustee, and the guaranteed investment contract was terminated.

Plan Management has evaluated subsequent events through October 10, 2014, which is the date the financial statements were issued, and has concluded that there are no other significant events to be reported.
