Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Independent Auditor's Report

To the Participants and the Plan Committee of the Retirement Plan for Employees of Babcock & Wilcox Government Operations

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of the Retirement Plan for Employees of Babcock & Wilcox Government Operations (the Plan), which comprise the statements of net assets available for benefits as of December 31, 2013 and 2012, and the related statements of changes in net assets available for benefits for the years ended December 31, 2013 and 2012, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the *Basis for Disclaimer of Opinion* paragraph, however, we were not able to obtain sufficient appropriate evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 7, which was certified by Northern Trust Company and The Bank of New York Mellon, the trustees of the Plan, except for comparing such information with the related information included in the financial statements. We have been informed by the Plan administrator that the trustees held the Plan's investment assets and execute investment transactions. The Plan administrator has obtained a certification from the trustees as of December 31, 2013 and 2012 and for the years then ended that the information provided to the Plan administrator by the trustees is complete and accurate.

LJ Mosby, P.C.

Disclaimer of Opinion

Because of the significance of the matter described in the *Basis for Disclaimer of Opinion* paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Other Matter

The supplemental Schedule of Assets Held at Year End as of December 31, 2013 is required by the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 and is presented for the purpose of additional analysis and is not a required part of the financial statements. Because of the significance of the matter described in the *Basis for Disclaimer of Opinion* paragraph, we do not express an opinion on the supplemental schedule.

Report on Form and Content In Compliance With DOL Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the trustees, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

**NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2013 AND 2012**

NOTE 1 – BASIS OF FINANCIAL STATEMENTS

Babcock & Wilcox Investment Company (“BWICO”), is a subsidiary of The Babcock & Wilcox Company (“B&W”). B&W was a wholly owned subsidiary of McDermott International, Inc. (“MII”) until July 30, 2010 when shares of B&W common stock were distributed by MII in connection with the completion of the spin-off of B&W. B&W became a separate publicly traded company, and MII did not retain any ownership interest in B&W. In June 2010 in anticipation of the spin-off of B&W, BWICO established The Babcock & Wilcox Company Master Trust (the “Master Trust”).

The Retirement Plan for Employees of Babcock & Wilcox Governmental Operations (the “Plan”), participates with certain other retirement plans of affiliates of B&W in The Babcock & Wilcox Company Master Trust (the “Master Trust”). All contributions made to the Plan are invested in the Master Trust. Trust investment transactions are directed by the Investment Committee, a committee appointed by the Directors of BWICO. The Investment Committee may delegate authority to investment managers as to the management and control of assets. The Plan’s interest in the net assets of the Master Trust is based on the Plan’s beginning share plus employer contributions and allocated investment income, less allocated expenses and benefits paid directly to participants. Investment income of the Master Trust is allocated by the Trustee among the participating retirement plans each month based on the relative fair values of each plan’s investment in the Master Trust.

Effective October 31, 2008, the plan was amended to include the assets and accumulated plan benefits of participants in the plans of Marine Mechanical Corporation (“MMC”). MMC was acquired by the Company in May, 2007 and sponsored a salaried and an hourly pension plan. Assets related to the merger totaling \$13,868,636 were transferred to the Plan, primarily in 2008.

During 1987, the Trust purchased a non-participating single premium annuity contract from Metropolitan Life Insurance Company (Metropolitan) covering substantially all pre-January 1, 1987 retirees, including retirees of certain predecessor plans (the “1987 Annuity Contract”). Under the contract, Metropolitan is obligated to pay the pension benefits to said retirees or their beneficiaries. The contract with Metropolitan is excluded from Plan assets, and benefits to be provided by the contract are excluded from the actuarial data provided in these financial statements.

In December 2011, the Trust purchased a non-participating single premium annuity contract from Metropolitan covering substantially all retirees covered by the 1987 Annuity Contract. Under the contract, Metropolitan is obligated to pay the ad hoc pension increase granted in 1998 to said retirees or their beneficiaries. The contract with Metropolitan is excluded from Plan assets, and benefits to be provided by the contract beginning January 1, 2012 are excluded from the actuarial data and benefits paid amounts provided in the Plan’s financial statements.

NOTE 2 – DESCRIPTION OF PLAN

The following brief description of the Plan is provided for general information purposes only. Participants should refer to the Summary Plan Description for more detailed information or to the official plan documents for complete information.

General

The Plan is a non-contributory defined benefit plan administered by a Retirement Committee (the Committee) appointed by the Board of Directors of BWICO. The Plan covers substantially all hourly-paid employees of B&W and certain of its subsidiaries and affiliates and salaried employees of B&W and certain of its subsidiaries who were employed prior to April 1, 2001, except non-resident alien employees who do not earn income in the United States, employees under certain collective bargaining agreements, and leased employees. Eligible employees became participants when they attained age 21 and completed one year of service. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Pension Benefits and Vesting

An employee who has participated in the Plan for five years (including participation in a predecessor plan) is entitled to receive pension benefits at his normal retirement age, but based on age and years of service, a participant may elect early retirement. Benefits are also payable upon the death or disability of a participant. Participants become fully vested in the Plan benefits after five years of service. Benefits under the Plan are based on years of service and a flat benefit rate for substantially all hourly employees and on years of service and the highest consecutive five-year average of compensation during the last ten years of service for all other employees. Supplemental payments are also made to certain participants affected by changes in other postretirement benefit plans.

Benefit payments have historically been made in the form of equal recurring monthly payments. The Plan was amended in 2012 to provide a one-time opportunity for certain terminated vested participants who had not begun to receive benefits to elect to receive a single lump sum payment in the amount actuarially equivalent to the expected monthly annuity the participant would have otherwise received in full satisfaction of their benefits under the Plan. These elections were made and payments finalized in 2012. Benefits paid to participants for the year ended December 31, 2012 include approximately \$22,000,000 for these lump sum payouts. See Note 6 for further information regarding accumulated plan benefits.

Effective April 1, 2006, the Plan was closed to new salaried participants and was amended for salaried employees hired on or since April 1, 2001. For these employees, benefits accrued as of March 31, 2006 became fully vested and future benefit accruals ceased, other than certain cost of living increases. Any pension benefits earned to that date will remain payable pursuant to the Plan upon retirement.

Effective April 1, 2007, the Plan was amended for salaried employees with five to ten years of service as of January 1, 2007. These employees were offered a one-time option of continuing to earn benefits under the Plan or receiving an on-going service-based cash contribution to the predecessor plan of The Babcock and Wilcox Company Thrift Plan. These contributions are now made to The Babcock & Wilcox Company Thrift Plan (the "Thrift Plan"), which was established on June 18, 2010.

On October 4, 2012, employees were notified that, effective December 31, 2015, benefit accruals for salaried employees covered under the Plan will cease. Though accrued benefits will be frozen as of that date, service beyond this date will continue to count toward eligibility for early retirement, disability retirement and early commencement of deferred vested benefits. Furthermore, effective January 1, 2016, the employer of each affected participant will make cash contributions to the Thrift Plan for those employees impacted by the Plan freeze. The amount of these contributions will be determined based on years of service in accordance with a schedule set forth in the Thrift Plan. Those participants currently receiving service-based contributions in the Thrift Plan and for whom benefit accruals have already been frozen will no longer receive annual cost of living adjustments to their

accrued benefit after December 31, 2015.

Federal Income Tax Status

By letter dated February 16, 2011 the Internal Revenue Service informed the Plan that it made a favorable determination with respect to the tax qualified status of the Plan and its related trust. The Plan has been amended since receiving the determination letter, however, the Committee and the Plan's tax counsel believe the Plan is designed and currently being operated in compliance with the requirements of the Internal Revenue Code that apply to tax qualified plans.

Accounting principles generally accepted in the United States of America require the Plan administrators to evaluate tax positions taken by the Plan and recognize a tax liability if the organization has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan administrators have analyzed the tax positions taken by the Plan and have concluded that as of December 31, 2013 there are no uncertain positions taken, or expected to be taken, that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress, and tax periods prior to 2010 are believed to be no longer subject to potential audit.

Change in Trustee

Effective April 1, 2013, The Northern Trust Company replaced The Bank of New York Mellon as trustee of the Master Trust. Concurrent with the change in trustee, the Trust is now a single pool of assets in which each of the participating plans hold master trust units representing its proportionate interest in the pool. During calendar year 2012 and the first quarter of calendar year 2013 the Master Trust was comprised of six pools of funds, each representing a distinct asset class.

Evaluation of Subsequent Events

The plan administrator has evaluated subsequent events through October 3, 2014, which is the date the financial statements were available to be issued, for their impact on amounts recorded and related disclosures, and have incorporated the related effects as appropriate.

NOTE 3 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The accompanying financial statements are prepared on the accrual basis of accounting. Benefit payments to participants are recorded upon distribution.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Among the most significant estimates in the financial statements are the fair value of certain investments without actively quoted market prices and the assumptions underlying the actuarial present value of accumulated plan benefits. Actual results could differ from those estimates and those differences could be material.

Investments of the Trust

Investments in securities are valued at fair value. Fair value determinations are made by reference to available quoted market prices on national exchanges when available, by reference to quoted prices for similar securities when available, or by using a range of techniques appropriate to the nature of the investment. See Note 8 for further discussion of valuation methodologies used with respect to the investments of the Master Trust. Realized gains and losses on the sale of investments and unrealized gains and losses in the fair value of investments held by the Master Trust are presented as net appreciation (depreciation) in the fair value of investments in the Master Trust.

Purchases and sales of investments are recorded on the trade dates. Interest income is accrued as earned; dividends are recorded as income on the ex-dividend date.

Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate risk, market risk and credit risk. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

Contributions Receivable

Contributions receivable at December 31, 2013 and 2012 are comprised of contributions funded during 2014 and 2013, respectively, which have been designated as being attributable to the 2013 and 2012 plan years, respectively.

Transfers With Affiliated and Unaffiliated Plans

Transfers to or from an affiliated plan may be recognized from time to time to move actuarially determined asset values associated with the liabilities of participants who may transfer between affiliated retirement plans as a result of a transfer between the Company and another business unit of B&W.

In connection with the spin-off and transfer of certain Plan participants, certain assets and benefit obligations of the McDermott U.S. Retirement Plan (the "McDermott Plan") were transferred into the Plan. A total of \$15,720,665 was transferred into the Plan from the McDermott Plan prior to 2011. The associated actuarial present value of accumulated plan benefits transferred into the Plan has been reflected in accumulated plan benefits. See Note 6 for further information regarding accumulated plan benefits.

Administrative Expenses

Administrative expenses paid from the Master Trust, including Trustee fees, are deducted from investment income. The Plan's portion of these fees was approximately \$4,790,194 and \$4,110,000 for the years ended December 31, 2013 and 2012, respectively.

NOTE 4 – FUNDING POLICY

The Plan is funded based on actuarial recommendations and to at least meet the minimum funding requirements of ERISA. During the years ended December 31, 2013 and 2012, the Plan met these minimum funding requirements.

NOTE 5 – PLAN TERMINATION

In the event of Plan termination, benefits accrued under the Plan would become nonforfeitable to the extent then funded and the net assets of the Plan would be allocated as prescribed by ERISA and its related regulations. The Committee would determine the date and method of distribution of the net assets and would distribute such assets in accordance with the provisions of the Plan.

Certain benefits under the Plan are insured by the Pension Benefit Guaranty Corporation (PBGC) (a U.S. governmental agency) if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain dollar amount and type limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination. Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide those benefits and may also depend on the level of benefits guaranteed by the PBGC. Some benefits may be fully or partially provided for by the then existing assets and the PBGC guaranty while others benefits may not be provided for at all.

Although it has not expressed any intention to do so, the Company has the right under the Plan to terminate it subject to the provisions set forth in ERISA.

NOTE 6 – ACTUARIAL PRESENT VALUE OF ACCUMULATED PLAN BENEFITS

Accumulated plan benefits are those future periodic payments, including lump-sum distributions, that are attributable under the Plan's provisions to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries. The actuarial present value of accumulated plan benefits, as calculated by the Plan's actuary, is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment. The foregoing actuarial assumptions are based on the presumption that the Plan will continue. If the Plan were to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

For accounting purposes life expectancy of participants and disabled participants was determined using the tables mandated by the Pension Protection Act, projected 7 years for annuitants and 15 years for non-annuitants. The expected rate of return on plan assets used in the valuations was 7.2% at January 1, 2013 and 2012. The discount rate used in the valuations was 4.1% and 4.8% at January 1, 2013 and 2012, respectively. The retirement rates have been updated to better reflect plan experience and the frequency of optional payment forms assumption was revised in the January 1, 2012 valuation to reflect an assumed participation rate of 65% for the one-time lump sum offering in 2012 to deferred vested participants. The actuarial cost method is the Unit Credit Method. The Plan's actuary has used the Alternative Premium Funding Target for funding purposes. In developing the Plan's funding requirements, the Plan's actuary has used the Segment Rates with adjustments under MAP-21, mortality rates mandated by IRS regulations and expected administrative expenses of \$2,200,000 loaded into the target normal cost.

The actuarial present value of accumulated plan benefits was as follows:

	January 1,	
	2013	2012
Vested and nonvested benefits:		
Participants currently receiving payments	\$ 669,572,566	\$ 591,501,111
Other participants.....	480,578,169	476,373,594
Total vested	1,150,150,735	1,067,874,705
Nonvested benefits.....	19,722,942	19,322,738
	<u>\$ 1,169,873,677</u>	<u>\$ 1,087,197,443</u>

The changes in the actuarial present value of accumulated plan benefits that occurred during the years ended January 1, 2013 and 2012 were as follows:

	January 1,	
	2013	2012
Increase (decrease) during the year attributable to:		
Benefits accumulated.....	\$ 18,753,385	\$ 19,330,480
Plan amendments.....	-	6,702,810
Change in assumptions	91,205,354	37,738,675
Increase due to passage of time	50,344,270	55,732,805
Transfer from McDermott Plan	-	-
Benefits paid.....	<u>(77,626,775)</u>	<u>(54,331,921)</u>
Net increase	82,676,234	65,172,849
Actuarial present value of accumulated plan benefits:		
Beginning of period.....	1,087,197,443	1,022,024,594
End of period.....	<u>\$ 1,169,873,677</u>	<u>\$ 1,087,197,443</u>

The increases in the 2013 and 2012 actuarial present value due to changes in assumptions were primarily due to decreases in the discount rate used to determine the present value of the obligations.

The increases in the 2012 actuarial present value due to plan amendments was attributable to increases in benefit levels for certain hourly employees, some of which provide for increases in benefit levels for certain hourly employees in active service on specified dates subsequent to January 1, 2003. The increase in the 2012 actuarial present value due to plan amendments also includes the impact of the lump sum offering as described in Note 2.

During the period from April 1, 2012 to September 28, 2012, based generally upon the ratio of adjusted actuarial value of Plan assets to an actuarially determined funding target, as certified by the Plan actuary for the 2011 plan year, restrictions could have applied on certain forms of benefit payments. However, the Plan does not offer those forms of payment. No restrictions applied to other periods in 2012 or during any period in 2013.

NOTE 7 – FINANCIAL INFORMATION OF THE MASTER TRUST (Certified by Trustees) (Unaudited)

Pursuant to the provisions of 29CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan's independent auditors did not perform any auditing procedures with respect to the information certified by the Trustees, except for comparing such information to the related financial statements. All financial data included in the financial statements and their accompanying notes relating to investments, income (loss) from investments, and net appreciation (depreciation) in fair value of

investments was obtained from the information certified by the Trustees. The Trustees, on a combined basis, have certified the Plan's interest in net assets of the Master Trust of \$945,960,064 and \$919,593,290 at December 31, 2013 and 2012, respectively, and the Plan's interest in investment income of the Master Trust, before related expenses, of \$68,440,355 and \$96,351,949 for the years ended December 31, 2013 and 2012, respectively. At December 31, 2013 and 2012, the Plan had a proportionate undivided interest in the net assets held by the Master Trust of 49%.

The following is a summary of the Master Trust's financial information and data certified by the Trustee as complete and accurate in accordance with 29CFR2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

At December 31, 2013, the Master Trust held the following investments representing 5% or more of the Master Trust's net assets:

Commingled Trust Funds:

NT Collective S&P 500 Index Fund	\$ 420,239,279
LSV Int'l AC Value Equity Fund	\$ 137,113,606
American Century Non-US Growth Equity Trust II	\$ 135,897,149

At December 31, 2012, the Master Trust held the following investments representing 5% or more of the Master Trust's net assets:

Commingled Trust Funds:

NT Collective S&P 500 Index Fund	\$ 404,876,280
American Century Non-US Growth Equity Trust II	\$ 120,197,172
LSV Int'l AC Value Equity Fund	\$ 116,491,346

These investments representing 5% or more of the Master Trust's net assets are commingled trust funds, whose value has been determined by the funds' managers based upon the national exchange quoted fair value of the underlying securities owned by the funds. The investment strategy of these funds closely mirrors the securities that comprise the indices referenced in the name of the fund. There are no restrictions on the ability of the Master Trust or the Plan to sell or redeem these investments, and there are no future funding commitments by the Master Trust or the Plan related to these investments.

A substantial portion of the Master Trust's investments consist of interest bearing securities. At December 31, 2013 the Master Trust held several fixed income futures contracts maturing in March 2014 to provide interest rate risk reduction for approximately a quarter of its U.S. Government securities portfolio. The Master Trust maintained no other significant positions in futures or forward contracts at December 31, 2013 and 2012.

Prior to changing trustees in 2013, the Master Trust participated in a securities lending program with the prior trustee (BoNY), authorizing the prior trustee to lend securities held in the Master Trust account to third parties. The prior trustee obtained collateral from the borrower in the form of cash, letters of credit issued by an entity other than the borrower, or acceptable securities. The cash received as collateral for the securities lent to third parties was invested in units of a fund managed by the prior trustee ("the "Collateral Fund") for the benefit of various trusts participating in a similar program. The fair value of securities loaned by the Master Trust was \$0 and \$216,750,000 at December 31, 2013 and 2012, respectively. The Master Trust, the borrowers and the prior trustee each receive a percentage of the net income derived from securities lending activities. Income earned by the Master Trust during 2013 and 2012 was approximately \$35,000 and \$167,000 respectively, net of bank fees.

Substantially all of cash and cash equivalent balances held by the Master Trust are in excess of federally insured limits.

NOTE 8 – FAIR VALUE OF INVESTMENTS

Financial Accounting Standards Board Accounting Standards Codification 820, *Fair Value Measurements and Disclosures* (“ASC 820”), defines fair value as the price that would be received to sell an asset or paid to transfer a liability (an exit price) in an orderly transaction between market participants at the measurement date. ASC 820 also expands the disclosure requirements around fair value and establishes a hierarchy for valuation inputs that emphasizes the use of observable inputs when measuring fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). Categorization of instruments within the fair level hierarchy is based upon the lowest level of input that is significant to the fair value measurement. The three levels of the fair value hierarchy under ASC 820 are described below:

Level 1	Inputs are based on unadjusted quoted prices for identical instruments traded in active markets.
Level 2	Inputs are based on unadjusted quoted prices for similar instruments in active markets or identical instruments in inactive markets and model-based valuation techniques for which all significant assumptions are observable in the market or can be corroborated by observable market data for substantially the full term of the asset or liability.
Level 3	Inputs are generally unobservable and typically reflect estimates of assumptions that market participants would use in pricing the asset or liability. The fair values are usually determined using model-based techniques that include option pricing models, discounted cash flow models and similar valuation techniques.

Following is a description of the primary valuation methodologies used to measure the fair value of each class of Plan assets at December 31, 2013 and 2012.

Common stocks: Valued at the quoted market price of shares held as evidenced on listed trading exchanges.

Preferred stocks: Valued at the quoted market price of shares held as evidenced on listed trading exchanges when available, or by comparison of the security to the quoted market price of similar securities and of similar credit ratings.

Convertible securities: Valued based on comparison of the security to similar securities and of similar credit ratings.

Fixed income securities: Valued based on comparisons with the quoted market price of similar securities with similar credit ratings (market approach) or by performing discounted cash flow analysis considering market conditions, credit terms and comparative credit ratings of the issuers (income approach). Observable inputs include quoted market prices for similar securities, interest rates on securities and credit ratings of various issuers.

U. S. Government securities: Valued using quoted market prices of the securities held as evidenced on listed trading exchanges.

Futures contracts: Valued using quoted market prices of the securities held as evidenced on listed trading exchanges.

Cash and cash equivalents: Valued at the notional monetary amount, adjusted for currency exchange rates when applicable.

Commingled trust funds: Valued by the trust manager at redemption prices established by the trustee based on the value of the underlying securities held in trust, which include securities having quoted market prices, securities similar to securities having quoted market prices (market approach) and securities for which discounted cash flow analysis and other subjective factors are necessary for valuation (income approach).

Partnerships with security holdings: Valued by the manager of the partnership or investment entity based upon the value of the underlying securities held, including those having a quoted market price and those valued in comparison to similar securities having a quoted market price (market approach). Other investments valued using a number of subjective factors regarding market and economic conditions, business performance expectations and formal appraisals (income approach).

Real estate: Valued using the value of the underlying interest in the properties held by the investment manager using independent appraisals or internally by portfolio managers using subjective techniques by comparison with similar investments, discounted cash flows and expected market conditions (income approach). Valued at cost if believed to be the only indicator of value.

The significant unobservable inputs for partnerships with security holdings and the real estate investments, both of which are Level 3 investments, are future income generated by these investments and related interest rates. The values are positively impacted by increases in operating cash flows of the underlying investments and are negatively impacted by increases in actual or expected interest rates. These values may also be influenced by growth rates, general market, economic and competitive conditions.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Fair Value Measurements

The following table sets forth by level, within the fair value hierarchy, the Master Trust's assets at fair value as of December 31, 2013:

	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	<u>Total</u>
Common stocks	\$144,430,637	\$ -	\$ -	\$ 144,430,637

The following table sets forth by level, within the fair value hierarchy, the Master Trust's assets at fair value as of December 31, 2012:

	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	<u>Total</u>
Common stocks	\$106,877,401	\$ -	\$ 2,640	\$ 106,880,041
Preferred stocks	1	-	-	1
Fixed income securities	1,030,722	547,175,509	-	548,206,231

Total	\$565,771,935	\$1,188,748,052	\$125,778,650	\$1,880,298,637

Direct investments by the Master Trust did not exceed 10% of total investments of the Master Trust for any individual market sector at December 31, 2013 and 2012. Level 2 investments were valued at December 31, 2013 and 2012 using the market approach, with the exception of certain U. S. Government agency securities which were valued using the income approach. Level 3 investments at December 31, 2013 and 2012 were primarily valued using the income approach. There were no transfers of securities between levels in 2013 or 2012.

Change in Level 3 Investments

The following table sets forth a summary of changes in the Level 3 investments for the years ended December 31, 2013 and 2012:

	For the year ended December 31,	
	<u>2013</u>	<u>2012</u>
Balance at beginning of period	\$ 125,778,650	\$ 185,936,184
Issuances and acquisitions	6,015,928	12,587,305
Dispositions	(31,252,693)	(74,018,928)
Realized gain	17,936,316	467,168
Unrealized gain	2,598,919	806,921
Balance at end of period	\$ 121,077,120	\$ 125,778,650

All realized and unrealized gains and losses are included in the Plan's interest in investment income of the Trusts in the accompanying statement of changes in net assets.

The Master Trust invests in a variety of partnerships which in turn hold investments in the securities of private companies or real estate entities. These investments are long-term in nature and are less liquid than investments that are publicly traded or provided through other investment arrangements. These investments constitute 6% and 7%, respectively, of total investments held by the Master Trust at December 31, 2013 and 2012.

These investments are valued by the investment manager or general partner (the Fund Manager) using the practical expedient of a reported Net Asset Value (NAV) for the funds, based upon estimates developed by the Fund Manager for each of the underlying investments held by the fund. Generally these investment funds have a stated life, with the Fund Manager having the option to extend that life for one or more years to enhance the possible return of the fund. Distributions from these funds are based upon interim cash flows and eventual liquidation of the underlying investments over the limited life of the fund. Early liquidation by the Trust of its participation in these investments is through negotiated, secondary market sales and is subject to the consent of the respective Fund Manager,

which may not be provided. Readily accessible active secondary markets do not necessarily exist for these funds and their investees and unfavorable market, economic or financing conditions may limit or preclude opportunities for the Master Trust to liquidate its investments. Early liquidations may not be possible when requested, and may not occur at values equivalent to the previously estimated NAV for the fund. NAVs are also subject to significant changes over the length of the fund's life dependent upon economic and market conditions. In addition, participation in these investment vehicles often include a commitment to make additional future cash contributions to the fund upon a capital call by the Fund Manager (characterized as Future Commitments in the following table).

Following is additional information for the Plan's investments for which fair value is estimated using the practical expedient of reporting NAV:

Fund investment strategies – the fund seeks to primarily invest in:

- (a) a diversified portfolio of private equity partnerships
- (b) a diversified portfolio of private equity partnerships
- (c) a range of private debt and equity to public securities, from late stage venture capital and early stage growth companies to bank loan participations, and in distressed securities
- (d) a diversified pool of newly raised private equity partnerships
- (e) secondary positions in venture capital transactions and in private equity funds
- (f) private equity limited partnerships investing in leveraged buyouts and mature businesses
- (g) global real estate through joint venture, loan portfolios and operating companies
- (h) real estate investment trusts and real estate operating companies, targeting office, industrial, residential retail and specialty sectors where increases in occupancies and rates are expected to grow, or where development, renovation or repositioning strategies are warranted
- (i) a range of investment opportunities from buyout transactions and domestic real estate to European operating companies and real estate

NOTE 9 – RELATED PARTY TRANSACTIONS

The Company, the Trustees and the affiliates of both are parties-in-interest to the Plan. B&W provides administrative services to and on behalf of the Plan with no compensation or reimbursement from the Plan. Fees paid by the Master Trust to the Trustees for custodial and recordkeeping services provided to all plans in the Master Trust were approximately \$553,181 and \$405,000 for the years ended December 31, 2013 and 2012, respectively.

NOTE 10 – RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500

Part V- Statement of Actuarial Assumptions and Methods

Prescribed Funding Assumptions and Methods

The following assumptions and methods are prescribed by ERISA, as amended by PPA 2006, MAP-21 and HATFA.

Funding and interest rates

On August 8, 2014, the Highway and Transportation Funding Act of 2014 (HATFA) was signed into law. This law delays the widening of the interest rate corridor established under the Moving Ahead for Progress in the 21st Century Act (MAP-21) as shown in the table below. Under MAP-21, for 2012 and later plan years, the otherwise applicable Segment Rates for determining the Funding Target and Target Normal Cost for minimum contribution and benefit restriction purposes are constrained to a corridor around an average of Segment Rates for a 25-year period. The 25-year period ends with the September 30 of the calendar year preceding the calendar year in which the plan year begins

Plan year beginning in	2012	2013	2014	2015	2016 and later
MAP-21 Corridor	90% - 110%	85% - 115%	80% - 120%	75% - 125%	70% - 130%
Plan year beginning in	2012 - 2017	2018	2019	2020	2021 and later
HATFA Corridor	90% - 110%	85% - 115%	80% - 120%	75% - 125%	70% - 130%

For the 2013 plan year, the plan sponsor can elect one of these three options: 1) not reflect HATFA, 2) reflect HATFA for minimum funding only, or 3) reflect HATFA for both minimum funding and benefit restriction purposes. For this plan option 3 was elected. As a result, for the 2013 plan year the corridor is 90%-110% for minimum funding and benefit restrictions.

Funding interest rates

For 2013 Plan Year:

Segment Rates with four-month lookback, constrained in accordance with MAP-21 and HATFA as follows:

	Unconstrained Rates	Rates Reflecting MAP-21 Corridor	Rates Reflecting HATFA Corridor*
First Segment Rate	1.75%	4.94%	5.23%
Second Segment Rate	4.62%	6.15%	6.51%
Third Segment Rate	5.72%	6.76%	7.16%

Effective Interest Rate

Based on MAP-21 rates

6.27%

Based on HATFA rates

6.62%

Prescribed Funding Assumptions and Methods (continued)

For 2012 Plan Year:

Segment Rates with four-month lookback, constrained in accordance with MAP-21 as follows:

	Unconstrained Rates	Rates Reflecting MAP-21 Corridor*
First Segment Rate	2.06%	5.54%
Second Segment Rate	5.25%	6.85%
Third Segment Rate	6.32%	7.52%

Effective Interest Rate
Based on MAP-21 rates

6.96%

*Used for minimum funding and benefit restriction purposes

Mortality

Mortality tables mandated by PPA as specified in IRS Regulation 1.430(h)(3)-1, applied on a static basis, projected 7 years from the valuation date for annuitants and 15 years for non-annuitants.

Actuarial cost method

Unit Credit Method. The Funding Target is the present value of accrued benefits and based on compensation and service to date. The Target Normal Cost is the present value of benefits expected to be accrued during the current plan year, reflecting the effect of expected compensation increases during the year and including expected expenses to be paid from plan assets during the year.

Part V- Statement of Actuarial Assumptions and Methods

Non-Prescribed Funding Assumptions and Methods

Salary increase assumption

2.50% per annum.

Social Security

Based on the Social Security Act in effect on the valuation date with assumed increases of 2.50% per annum in both the Social Security wage index and taxable wage base, and with an assumed increase of 2.00% per annum in the Consumer Price Index.

Expenses

Expected plan expenses of \$2,200,000 were added to the Target Normal Cost.

Frequency of optional payment forms

	B&W Salaried	B&W Hourly	MMC Salaried	MMC Hourly
Single Life Annuity	35.0%	30.0%	38.9%	30.0%
Joint & Survivor 50%	25.0%	60.0%	27.8%	60.0%
Joint & Survivor 75%	5.0%	10.0%	5.5%	10.0%
Joint & Survivor 100%	25.0%	---	27.8%	---
Joint & Last Survivor 66 ² / ₃ %	5.0%	---	---	---
10-year Certain & Life	5.0%	---	---	---

Marital percentage

90% of male and 50% of female participants are assumed to be married at death. Husbands are assumed to be two years older than their wives.

Mortality table

The mortality table is applied on a static basis. Separate annuitant and non-annuitant tables were used.

Cost of living increases

For participants whose accrued benefits were frozen as of March 31, 2006 or March 31, 2007, the assumed annual future cost of living increase is 2.00% through 2015 and 0% thereafter.

Part V- Statement of Actuarial Assumptions and Methods

Non-Prescribed Funding Assumptions and Methods (continued)

Asset valuation method

The Actuarial Value of Assets is determined using a method that spreads asset gains/(losses) over two years. The gain/(loss) for each period is determined as the actual return during the period less the expected return based on an assumed earnings rate chosen by the actuary but required by PPA to be not greater than the applicable third segment rate. The resulting value is constrained to be within a corridor of 90% to 110% of market value. The discounted value of accrued contributions, if any, is included in the Actuarial Value of Assets.

For 2011 and 2012 the expected return on plan assets is 8.50% and 7.20% per annum, respectively, limited by PPA to the applicable Third Segment Rate as follows:

2012 measurement period:	7.52%
2011 measurement period:	6.57%

For 2013 and later the expected return on plan assets is 7.20% per annum, limited by PPA to the applicable Third Segment Rate.

Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Form 5500 Schedule SB Attachment

Schedule SB, line 15 – Schedule SB, line 15 – Reconciliation of differences between valuation results and amounts used to determine AFTAP

The most recent 2013 AFTAP Certification used MAP-21 assumptions, was signed on 9/30/2013 and showed Adjusted Funding Target Attainment Percentage for the 2013 plan year of **94.38%**.

The following plan values as of 1/1/2013 were taken into account for purposes of this certification:

Funding Target	\$	923,890,756
Actuarial Value of Assets	\$	918,988,055
Adjusted Funding Target	\$	924,505,896
Adjusted Actuarial Value of Assets	\$	872,616,983
Prefunding Balance	\$	46,371,072
Plan Amendments Effective during the 2013 Plan Year	\$	615,140

Use of HATFA assumptions would reduce the Funding Target to 892,683,467 and increase the AFTAP to **102.94%**.

Because HATFA assumptions produce an immaterial change in the AFTAP from that shown on the AFTAP Certification, the sponsor has not requested and the Enrolled Actuary has not produced a revised AFTAP Certification using HATFA assumptions.

Part V- Summary of Plan Provisions

SUMMARY OF MAIN PLAN PROVISIONS FOR MCDERMOTT – PRE APRIL 1, 1998 HIRES

Eligibility

Completion of one year of service.

Normal retirement

Eligibility

Later of age 65 and completion of 5 years of service.

Benefit

Greatest of the following:

1. PIA Offset Formula

1-2/3% of final average monthly compensation times credited service up to 40 years, minus 1.00% of the participant's age 65 (age 62 for pilots) monthly Primary Insurance Amount under the Social Security Law in effect at retirement times credited service up to 40 years, minus the monthly profit sharing and stock bonus retirement plan offset.

2. Minimum Formula

The greater of \$125.00 or \$12.00 times credited service.

3. Frozen Grandfathered Formula

For participants in the plan on December 31, 1975, a percentage of final average monthly compensation based on credited service as of February 28, 1994 minus the same percentage of the participant's age 65 (age 62 for pilots) monthly Primary Insurance Amount under the Social Security Law in effect on July 1, 1968 minus the monthly profit sharing and stock bonus retirement offset plus the benefit determined under the above PIA offset formula for service after February 28, 1994.

Benefits under this formula will be frozen as of December 31, 2015.

Early retirement

Eligibility

Later of age 50 and completion of 10 years of service.

Benefit

Accrued pension reduced by 0.6% for each month that early retirement date precedes age 60, but not less than \$12 per month for each year of credited service. If participant completed at least 6 months service in a hardship area, one month is subtracted from age 60 for each month of hardship service (maximum 10 years) to determine reductions.

Deferred vested retirement

Eligibility

Completion of 5 years of service.

Part V- Summary of Plan Provisions

SUMMARY OF MAIN PLAN PROVISIONS FOR MCDERMOTT – PRE APRIL 1, 1998 HIRES (continued)

Benefit

Accrued pension deferred to Normal Termination Benefit Commencement Date (normal retirement date, or if participant completed 6 months service in hardship area, date determined by subtracting number of months hardship service (maximum 120) from normal retirement date). The accrued pension is 1-2/3% of final average monthly compensation at Date of Termination, times credited service at Date of Termination up to 40 years, minus 1.00% of the participant's age 65 (age 62 for pilots) monthly Primary Insurance Amount under the Social Security Law in effect at retirement, times credited service at normal retirement up to 40 years, multiplied by a fraction whose numerator is the credited service at termination and whose denominator is the credited service at normal retirement, minus the monthly profit sharing and stock bonus retirement plan offset, subject to the minimum benefits described under Normal Retirement determined based on service at date of termination. Benefits under this formula will be frozen as of December 31, 2015.

Disability retirement

Eligibility

Completion of 15 years of service and total and permanent disability prior to normal retirement date.

Benefit

Accrued pension (including minimum).

Death benefit

Eligibility

Death in active service after completion of 5 years of service.

Death prior to Normal Retirement Date while receiving a disability pension.

Death after terminating employment with eligibility for a vested, early or normal retirement pension and prior to commencing receipt of benefits.

Benefit

The amount that would have been payable to the spouse had the member terminated from service on the date of death (if termination had not already occurred), survived to age 65, begun to receive benefits under a 50% joint and survivor annuity, and then died. The benefit to the spouse shall begin on what would have been the member's normal retirement date. However, the spouse may elect to begin receiving reduced benefits as early as the date which would have been the member's early retirement date.

Normal form of benefit

Single

Life annuity.

Married

50% joint and survivor annuity (actuarial equivalent of life annuity).
