Note 1 - Description of Plan

The following description of the Contract Pharmacal Corporation 401(k) Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

Contract Pharmacal Corporation (the “Sponsor”) established the Plan, effective as of July 1, 2001, for the benefit of its eligible employees. The Plan was amended and restated effective January 1, 2011 and July 1, 2013.

The Plan is a defined contribution plan covering all full-time employees of the Sponsor who have completed one year of service and are at least 18 years old. Effective July 1, 2013, full-time employees who have completed 90 days of service and are at least 18 years old are eligible to participate in the Plan.

Employees are eligible to participate in the Plan beginning on the January 1st, April 1st, July 1st, or October 1st coinciding with or following the completion of one year or 90 days of service and the attainment of age 18.

The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (“ERISA”).

Contributions

The Plan allows the participants to contribute a specified percentage of their salary. Participants are allowed to contribute from 1% to 90% of their salary on a pre-tax basis, not to exceed the limitations set forth by the Internal Revenue Service (“IRS”). A participant’s total pre-tax contribution may not exceed $17,500 for the year ended December 31, 2013. Additionally, participants who attain age 50 by the end of the Plan year may make an additional pre-tax catch-up contribution of up to $5,500 for the year ended December 31, 2013. A participant may stop contributing to the Plan at any time. Participants may also contribute amounts representing distributions from other qualified plans (rollover). Participants direct the investment of their contributions into various investment options offered by the Plan. All participants upon entry to the Plan elect the type of investment fund and funds into which they are to contribute. Participants may elect to change the type of investment allocation at any time during the year. The Sponsor may also, at its discretion, make a matching contribution to eligible participants’ accounts. In 2013, the Sponsor made contributions to the Plan in an amount equal to 25% of a participant’s contribution, up to an amount equivalent to the first 4% of the participant’s base compensation contributed to the Plan. The Sponsor made matching contributions of $36,790 for the year ended December 31, 2013. The Sponsor has the power to remove and replace the Plan trustee and record keeper at any time.

Participant Accounts

Each participant’s account is credited with the participant’s contributions and Plan earnings. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant’s vested account.

Note 1 - Description of Plan (cont'd.)

Vesting

Participants are vested immediately in their contributions plus employer contributions and actual earnings thereon.

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50 percent of their account balance. The loans are secured by the balance in the participant's account. A participant with an existing loan may not apply for another loan until the existing loan is paid in full. Loans will be subject to interest charges set by the Plan.

Loans must normally be repaid within such period as agreed to between the participant and the Plan, up to a maximum of five years. However, if the loan is made for the purchase or construction of a principal place of residence, the repayment period may be up to 15 years. Repayments will normally be made through payroll deductions. Any outstanding loans must be fully repaid when employment terminates. At December 31, 2013 and 2012, interest rates range from 5.25% to 8.50% per annum, with loans having various maturity dates.

Payment of Benefits

Participants are eligible to receive benefit payments when they terminate service or reach age 59 1/2. On termination of service, a participant may elect to receive installment payments or a lump sum amount equal to the participant's account. Benefit payments are also permitted for death and disability.

Note 2 - Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan administrator to make estimates and assumptions that affect certain reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Note 2 - Summary of Significant Accounting Policies (continued)

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for a discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation or depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan document. Deemed distributions totaled $43,575 and $63,719, for the years ended December 31, 2013 and 2012, respectively.

Excess Contributions Payable

Amounts payable to participants for contributions in excess of amounts allowed by the Internal Revenue Service ("IRS") are recorded as a liability with a corresponding expense. The Plan distributed the 2013 and 2012 excess contributions to the applicable participants prior to March 15, 2014 and March 15, 2013, respectively.

Payment of Benefits

Benefit payments to participants are recorded when paid.

Administrative Expenses

The Sponsor may, at its discretion, pay all or part of the expenses of maintaining the Plan. For the year ended December 31, 2013, the Sponsor paid all except $6,554 of the expenses for maintaining the Plan.

Note 3 - Information Prepared and Certified By The Trustee

The following information included in the accompanying financial statements and supplemental schedule of assets (held at end of the year) was obtained from data that has been prepared and certified to as complete and accurate by JPMorgan Chase Bank, N.A., the trustee of the Plan, at December 31, 2013 and 2012 and for the year ended December 31, 2013. Note 5 - Fair Value Measurements

The framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under Financial Accounting Standards Board Accounting Standards Codification ("FASB ASC") Topic 820 are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in methodologies used at December 31, 2013 and 2012.

The Level 1 inputs relate to mutual funds that are valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission ("SEC"). These funds are required to publish their daily net asset value ("NAV") and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

The Level 2 inputs relate to a common collective trust whose underlying asset is a Stable Asset Income Fund which invests in conventional and synthetic guaranteed investment contracts ("GICs") issued by life insurance companies, banks and other financial institutions with excess cash invested in cash equivalents. The objective of the Stable Asset Income Fund is to provide preservation of capital and relatively stable returns regardless of the volatility of the financial markets. The common collective trust is recorded in the accompanying financial statements at fair value. Fair value represents quoted market prices for synthetic GICs, while the fair value of conventional GICs is determined using a discounted cash flow methodology where the individual contract cash flows are discounted at the prevailing interpolated yield curve rate at December 31, 2013 and 2012.

Note 5 - Fair Value Measurements (cont'd.)

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value at December 31, 2013 and 2012:

Note 6 - Party-In-Interest Transactions

Certain Plan investments are shares of mutual funds managed by JPMorgan Chase Bank, N.A., the trustee as defined by the Plan. Therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan for investment services amounted to $6,554 for the year ended December 31, 2013.

Note 7 - Plan Termination

Although it has not expressed any intent to do so, the Sponsor has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

Note 8 - Tax Status

The IRS has determined and informed the Sponsor by a letter dated March 31, 2008, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code. Although the Plan has been amended since receiving the determination letter, the Plan administrator and the Plan's tax counsel believe that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the Internal Revenue Code and, therefore, believe that the Plan is qualified, and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require Plan management to evaluate uncertain tax positions taken by the Plan and recognize a tax benefit only if it is more likely than not that the tax position would be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that at December 31, 2013, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2010.

Note 9 - Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Note 10 - Reconciliation of Financial Statements to the Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements at December 31, 2013 and 2012 to the Form 5500:

	2013	2012
Net assets available for benefits per the financial statements	$ 6,148,883	$ 5,247,971

Excess deferral contributions payable	16,260	7,093
Net assets available for benefits per the Form 5500	$ 6,165,143	$ 5,245,945

The following is a reconciliation of net increase in net assets available for benefits per the financial statements for the year ended December 31, 2013 to the Form 5500:

Net increase in net assets available for benefits per the financial statements	$ 900,912
Change in participant receivable	9,119
Change in excess deferral contributions payable	9,167
Net income per the Form 5500	$ 919,198

Note 11 - Subsequent Events

The Plan administrator has evaluated all events or transactions that occurred after December 31, 2013 through the date of these financial statements, which is the date that the financial statements were available to be issued. During this period, there were no material subsequent events requiring disclosure.
