HOUSTON ASTROS, LLC 401(K) SAVINGS PLAN & TRUST

NOTES TO THE FINANCIAL STATEMENTS

A. DESCRIPTION OF THE PLAN

The following description of the Houston Astros, LLC 401(k) Savings Plan & Trust (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

Administration

The Plan is administered by a trustee committee appointed by the Company. Charles Schwab serves as custodian of the Plan's investments. Duties of the custodian include, among others, receiving contributions, collecting income, reinvesting the trust fund and making payments from the trust fund as directed. The term "trust fund" refers to all assets of whatever kind of nature held from time to time by the custodian under the trust without distinction between contributions and income.

Participation

An eligible employee is an employee who has one year of service with at least 1,000 hours of service and is age 21 or older, other than a major league coach, a minor league player, a leased employee, a nonresident alien who has no U.S. source income, or a member of a collective bargaining unit whose contract does not provide for participation.

Contributions

Participants may contribute from 1% to 15% of their eligible compensation on a pretax basis to the Plan, subject to annual individual deferral limitations of \$17,500 for 2013 under the Internal Revenue Code ("IRC").

Each plan year, the Company, in its sole discretion, will determine whether it will make a profit sharing contribution and the amount, if any, of its contribution. The Company's contribution will be allocated among all eligible participants on a pro rata basis using a fraction calculated by dividing each participant's compensation by the total compensation for all eligible participants. The Company is not required to make a contribution for any plan year. The Company is not required to make a contribution for any plan year. The Company did not make any profit sharing contributions for 2013.

Participant's accounts

Each participant's account is credited with the participant's contribution, rollover contribution, if any, and matching contribution and allocations of Plan earnings or losses, net of administrative expenses. Allocations are based on participant account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

HOUSTON ASTROS, LLC 401(K) SAVINGS PLAN & TRUST

NOTES TO THE FINANCIAL STATEMENTS

A. DESCRIPTION OF THE PLAN - CONTINUED

Vesting

Participants are vested immediately in their contributions and rollover contributions, if any, plus actual earnings thereon. Vesting in the Company's discretionary contribution portion of their accounts is based on years of continuous service. Participants vest according to the following schedule:

Completed years of service	Vested Percentage
2 years	20%
3 years	40%
4 years	60%
5 years	80%
6 years	100%

Payment of benefits

On termination of service due to death, disability or retirement, a participant may elect to receive a benefit equal to the value of the participant's vested interest in his or her account, as defined by the Plan. The normal form of benefit is lump sum cash payment. In the event of an immediate and heavy financial need, as defined by the Plan, participants may request a hardship distribution of their elective or rollover contributions.

Notes receivable from participants

The Plan does not contain a provision allowing participants to borrow from their fund accounts.

Forfeited accounts

Forfeitures arising from any employer contributions are used to reduce future employer contributions. At December 31, 2013 and 2012, the forfeiture balance was \$-0- and \$-0- respectively. Forfeitures of \$-0- were used during 2013.

B. SUMMARY OF SIGNIFICANT ACCOUNTING AND REPORTING POLICIES

Basis of accounting

The financial statements of the Plan are prepared under the accrual method of accounting.

HOUSTON ASTROS, LLC 401(K) SAVINGS PLAN & TRUST

NOTES TO THE FINANCIAL STATEMENTS

B. SUMMARY OF SIGNIFICANT ACCOUNTING AND REPORTING POLICIES - CONTINUED

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The Statement of Net Assets Available for Benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit responsive investment contracts from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared using the contract value basis for fully benefit-responsive investment contracts.

Use of estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of contributions, benefit payments and expenses during the reporting period. Actual results could differ from those estimates.

Investment valuation and income recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note D for a discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the plan's gains and losses on investments bought and sold as well as held during the year.

Payment of benefits

Benefits are recorded when paid.

Administrative expenses

Administrative expenses of the Plan, including investment and asset management fees, are paid by the Company.

D. FAIR VALUE MEASUREMENTS

Financial Accounting Standards Board Statement (FASB) *Accounting Standards Codification (ASC) 820, Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

NOTES TO THE FINANCIAL STATEMENTS

D. FAIR VALUE MEASUREMENTS - CONTINUED

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2013 and 2012.

Common stocks, corporate bonds, and U.S. government securities: Valued at the closing price reported on the active market on which the individual securities are traded.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the plan are open-ended funds that are registered with the SEC. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Guaranteed investment contract: Valued at fair value by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the creditworthiness of the issuer.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2013 and 2012:

E. COMMON/COLLECTIVE TRUST WITH METLIFE

For the year ended December 31, 2013, the Plan was invested in a common/collective trust with MetLife. MetLife maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan. Because the guaranteed investment contract is fully benefit responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. The guaranteed investment contract is presented on the face of the statement of net assets available for benefits at fair value with an adjustment to contract value in arriving at net assets available for benefits. Contract value, as to the Plan by Schwab Bank, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The fair value of the investment contracts at December 31, 2013 and 2012 were \$690,823 and \$721,804, respectively. The crediting interest rate is based on a formula agreed upon with the issuer, but it may not be less than zero percent. Such interest rates are reset on a monthly basis.

Certain events limit the availability of the Plan to transact at contract value with the issuer. Such events include the following: (1) plan termination (2) a material adverse change to the provisions of the Plan (3) employer elects to withdraw from a contract in order to switch to a different investment provider. The Plan administrator does not believe that any events which would limit the Plan's ability to transact at contract value with participants are probable of occurring.

The guaranteed investment contract limits the circumstances under which the insurance company may terminate the contract. The insurance company may terminate the contract upon short notice upon the Plan's loss of its qualified status, uncured material breaches of responsibilities, or material and adverse changes to the provisions of the Plan. If one of these events was to occur, the insurance company could terminate the wrap contract at the market value of the underlying bonds. In all other circumstances, the contracts for the guaranteed investment contract permit the insurance company to terminate their contract responsibilities only upon 2 to 3 years notice. Either the guaranteed investment contract can use this period to find a replacement wrap contract, or it can elect to change the investment strategy of the underlying investments to provide for a winding down of the insurance company's responsibilities at contract value over time.

F. RELATED PARTY TRANSACTIONS

During 2013 and 2012, the Plan investments were shares of mutual funds managed by Charles Schwab. Charles Schwab is a custodian as defined by the Plan and, therefore, a party in interest with respect to the Plan. These transactions are covered by an exemption from the “prohibited” transaction provisions of ERISA and the IRC.

G. PLAN TERMINATION

Although it has not expressed any intent to do so, the company has the right under the plan to discontinue its contributions at any time and to terminate the plan subject to the provisions of ERISA. In the event of plan termination, participants would become 100 percent vested in their employer contributions.

H. TAX STATUS

The Internal Revenue Service (IRS) has determined and informed the Company by a letter dated December 28, 1999, that the Plan is designed in accordance with applicable sections of the Internal Revenue Code (IRC) and that the trust created there under is exempt from federal income tax. Although the plan has been amended since receiving the determination letter, the plan administrator and the plan’s tax counsel believe that the plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

U.S. generally accepted accounting principles require plan management to evaluate tax positions taken by the plan and recognize a liability (or asset) if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by taxing authorities. The plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2010.

I. RISKS AND UNCERTAINTIES

The plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants’ account balances and the amounts reported in the statement of net assets available for benefits.
