Alliance Consulting 401(k) Plan

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of Alliance Consulting 401(k) Plan (the Plan), which comprise the statement of net assets available for benefits as of December 31, 2013, and the related statement of changes in net assets available for benefits for the year ended December 31, 2013, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the United States Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan Administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Notes 3, which was certified or provided by Delaware Charter Guarantee & Trust Company d/b/a Principal Trust Company, the trustee of the Plan, except for comparing this information with the related information included in the financial statements. We have been informed by the Plan Administrator that the trustee holds the Plan's assets and executes transactions. The Plan Administrator has obtained a certification from the trustee as of December 31, 2013 and 2012, and for the year ended December 31, 2013, that the information provided to the Plan Administrator by the trustee is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Other Matter

The supplemental schedule of assets (held at end of year) as of December 31, 2013, is required by the United States Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 and is presented for the purposes of additional analysis and is not a required part of the financial statements. The supplemental schedule is the responsibility of the Plan's management. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we do not express an opinion on the supplemental schedule.

Other Matter - 2012 Financial Statements

The financial statements of the Plan as of and for the year ended December 31, 2012, were audited by other auditors. As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 (ERISA), the plan administrator instructed the predecessor auditors not to perform and they did not perform, any auditing procedures with respect to the information certified by the trustee. Their report, dated October 9, 2013, indicated that (a) because of the significance of the information that they did not audit, they were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion and accordingly, they did not express an opinion on the financial statements; and (b) the form and content of the information included in the financial statements other than that derived from the information certified by the trustee, were presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

Report on Form and Content in Compliance with DOL Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified or provided by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the United States Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Alliance Consulting 401(k) Plan

Notes to Financial Statements

Note 1. Description of Plan

The following description of Alliance Consulting 401(k) Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General: The Plan is a defined contribution plan covering substantially all employees of Alliance Consulting Holdings, Inc. and its affiliated companies, Alliance Life Sciences Consulting Group, Inc., Adjility Consulting LLC, and Alliance Global Services LLC (collectively, the Company or Plan Sponsor). Employees are generally eligible to participate in the Plan upon the first day of the month following their date of hire. The Plan Administrator is responsible for oversight of the Plan. The Plan Administrator determines the appropriateness of the Plan's investment offerings, monitors investment performance and reports to the Plan Sponsor's Board of Directors. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions: Participants are permitted to make pretax contributions and/or after tax (Roth) contributions in an amount up to 75% of their annual eligible compensation (salary deferrals), as defined in the Plan document, subject to Internal Revenue Code (IRC) limitations. Participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified plans. The Company may make a discretionary matching contribution determined at year-end by management. In addition, discretionary nonelective contributions are permitted on behalf of participants who are employed on the last day of the Plan year; however, the year of service and the last day rule shall not apply in the case of retirement, disability, or death. The Company did not make discretionary matching or non-elective contributions for 2013.

Participant accounts: Each participant's account is credited with the participant's contributions and allocations of the Company's discretionary matching or nonelective contributions, if any, and Plan earnings/losses, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting: Participants are immediately vested in their salary deferral and rollover contributions plus actual earnings thereon. Vesting in the Company's contribution portion of their accounts plus actual earnings thereon is based on years of service, as follows:

Years of Service*	Vested
At least 1 years, but less than 2	20%
At least 2 years, but less than 3	40%
At least 3 years, but less than 4	60%
At least 4 years, but less than 5	80%
5 years or more	100%

* Participants are credited 1 year of service for each service period (one-year period ending on December 31) in which they have 1,000 or more hours of service.

Investment options: Upon enrollment in the Plan, a participant may direct all contributions into various investment options offered by the Plan and may change their investment options daily, subject to the terms of the funding vehicles. Plan investment earnings/(losses) are allocated to participants' accounts on a daily basis according to the type of funding vehicle in which balances are invested.

Alliance Consulting 401(k) Plan

Notes to Financial Statements

Note 1. Description of Plan (Continued)

Forfeitures: At December 31, 2013 and 2012, forfeited non-vested accounts totaled \$160,227 and \$130,117, respectively. Forfeitures may be used to pay administrative expenses or reduce employer contributions. The amount of non-vested forfeited amounts shall be restored to a terminating participant's account upon resuming employment with the Company, as defined by the Plan. During 2013, no forfeitures were used to pay administrative expenses.

Notes from participants: Participants may borrow from their accounts a minimum of \$1,000 and up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. Loan terms range from one to five years unless the loan is used for the purchase of a participant's primary residence, for which the term can be up to 30 years. Loans are secured by the balance in the participant's account and bear interest at the prime rate plus 2% at the time of the loan origination. As of December 31, 2013, interest rates on participant loans ranged from 4.25% to 5.25%. Principal and interest are paid ratably through payroll deductions. Upon termination of employment, the outstanding principal and interest balance is payable within 60 days.

Benefits paid to participants: Participants withdrawing from the Plan may receive their balance by (1) a transfer to another qualified plan, (2) a transfer to an individual retirement account or (3) a lump-sum distribution. In addition, participants may elect in-service withdrawals from their elective deferral account balances after reaching age 59-1/2. Participants are also permitted to make hardship withdrawals from their elective deferral account balances in certain cases of immediate and heavy financial need. Participants' deferral contributions must be suspended for a period of six months following hardship withdrawal. Rollover account balances may be withdrawn at any time. Minimum required distributions for participants who (1) have reached age 70-1/2 and are no longer employed by the Company, or (2) have reached age 70-1/2, are active employees and are a 5% or greater owner of the Company apply per Internal Revenue Service (IRS) regulations.

Note 2. Summary of Significant Accounting Policies

Basis of accounting: The accompanying financial statements of the Plan are prepared on the accrual basis of accounting.

Investment valuation and income recognition: Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan Administrator determines the Plan's valuation policies utilizing information provided by the trustee. See Note 5 for discussion of fair value measurements.

The Plan has funds invested in the Principal Stable Value Fund, a common collective trust fund, which is invested in investment contracts. Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Statements of Net Assets Available for Benefits present the fair value of the common collective trust contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared using the contract value basis for fully benefit-responsive investment contracts.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold, as well as held during the year.

Alliance Consulting 401(k) Plan

Notes to Financial Statements

Note 2. Summary of Significant Accounting Policies (Continued)

Notes from participants: Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Use of estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America (GAAP) requires Plan management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Contributions: Contributions from Plan participants are recorded in the year in which the participant contributions are withheld from amounts paid. Discretionary matching contributions and discretionary non-elective contributions from the Plan Sponsor, if any, are recognized upon authorization as the underlying compensation is recognized. All participant and employer contributions are participant-directed.

Benefits paid to participants: Benefits are recorded when paid.

Administrative expenses: Certain expenses of maintaining the Plan are paid directly by the Sponsor and are excluded from these financial statements. Administrative expenses include fees related to the administration of notes receivable from participants that are charged directly to the participant's account and certain recordkeeping fees paid by the Plan. Investment related expenses are included in net appreciation in fair value of investments.

Subsequent events: The Plan has evaluated subsequent events (events occurring after December 31, 2013) through October 8, 2014, the date the financial statements were available to be issued.

Income taxes: GAAP requires Plan management to evaluate tax positions taken by the Plan, and recognize a tax liability (or asset) if the Plan has taken any uncertain tax positions that more-likely-than-not would not be sustained upon examination by a tax authority. Management evaluated the Plan's tax positions and concluded that the Plan had maintained its tax-exempt status and had taken no uncertain tax positions that require adjustment to the financial statements. Therefore, no provision or liability for income taxes has been included in the financial statements. With few exceptions, the Plan is no longer subject to income tax examinations by the U.S. federal, state, or local tax authorities for years before to 2010.

Accounting pronouncement adopted: In October 2012, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) No. 2012-04, *Technical Corrections and Improvements*. The amendments in this update cover a wide range of topics in the Accounting Standards Codification, including plan accounting. These amendments include technical corrections and improvements to the Accounting Standards Codification and conforming amendments related to fair value measurements. The adoption of this ASU was not significant to these financial statements.

Note 3. Information Certified or Provided by Principal Trust Company ("Trustee")

The following is a summary of the Plan's asset information as of December 31, 2013 and 2012, and for the year ended December 31, 2013, included in the Plan's financial statements and supplemental schedule, that was prepared by or derived from information provided by the trustee and furnished to the Plan Administrator. The Plan Administrator has obtained certifications from the trustee that information provided to the Plan Administrator by the trustee related to the following assets is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the United States Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to the information that appears throughout the financial statements and supplemental schedule related to the following assets:

	December 31,	
	2013	2012
Investments:		
Registered investment companies	\$ 12,777,059	\$ 10,240,485
Common collective trust fund #	769,575	804,808
	<u>\$ 13,546,634</u>	<u>\$ 11,045,293</u>
Notes from participants	<u>\$ 51,999</u>	<u>\$ 49,753</u>

Generally investments are certified at fair value; however, the value certified by Principal Trust Company at December 31, 2013 and 2012 is contract value, which is different from fair value reported in Note 5 in accordance with GAAP.

Principal Trust Company also certified to the completeness and accuracy of \$2,224,792 of net appreciation in fair value of investments, \$309,174 of dividends related to the aforementioned plan assets, and \$2,739 of interest related to notes from participants for the year ended December 31, 2013.

During 2013, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value as follows:

Registered investment companies	\$ 2,220,111
Common collective trust fund	4,681
	<u>\$ 2,224,792</u>

Note 5. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described below:

- Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
- Level 2 Inputs to the valuation methodology include:
- Quoted prices for similar assets or liabilities in active markets.
 - Quoted prices for identical or similar assets or liabilities in inactive markets.
 - Inputs other than quoted prices that are observable for the asset or liability.
 - Inputs that are derived principally from or corroborated by observable market data by correlation or other means.
- If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.
- Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Note 5. Fair Value Measurements (Continued)

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2013 and 2012.

Registered investment companies (mutual funds): Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Common collective trust fund: Value based on the NAV of units of the common collective trust. The NAV, as provided by the trustee, is used as a practical expedient to estimating fair value. The NAV is based upon the fair value of the underlying investments comprising the trust less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2013 and 2012.

Note 5. Fair Value Measurements (Continued)

The following table sets forth the additional disclosures of the Plan's investment whose fair value is estimated using net asset value per share (or its equivalent) as of December 31, 2013 and 2012.

Investment	Fair Value Estimated Using NAV Per Share				
	Fair Value at December 31, 2013	Fair Value at December 31, 2012	Unfunded Commitment	Redemption Frequency	Redemption Notice Period
Common collective trust					
Principal Stable Value Fund (a)	\$ 774,262	\$ 823,724	\$ -	Daily	None

- (a) The objective of the stable value fund is to provide preservation of capital, relatively stable returns with its comparatively low risk profile, and liquidity for benefit-responsive payments by investing primarily in high quality stable value investment contracts as well as cash and cash equivalents with the intent of maintaining a minimum weighted average credit quality rating of A or better.

To assess the appropriate classification of investments within the fair value hierarchy, the availability of market data is monitored. Changes in economic conditions or valuation techniques may require the transfer of investments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period.

The Plan evaluates the significance of transfers between levels based upon the nature of the investment and size of the transfer relative to total net assets available for benefits. For the year ended December 31, 2013, there were no significant transfers in or out of Levels 1, 2, or 3.

Note 6. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become fully vested in their accounts.

Note 7. Income Tax Status

Effective July 13, 2012, the Plan adopted a non-standardized form of a prototype plan sponsored by Principal Financial Group. The prototype plan has received an opinion letter from the Internal Revenue Service dated March 31, 2008 as to the prototype plan's qualified status. The prototype plan opinion letter has been relied upon by this Plan. The Plan Administrator believes the Plan is designed and is being operated in compliance with the applicable provisions of the Internal Revenue Code. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Note 8. Party-In-Interest Transactions

Principal Trust Company is the trustee of the Plan; therefore, transactions with the trustee qualify as party-in-interest transactions. Certain Plan investments are invested in funds managed by Principal Financial Group, an affiliate of the Plan's trustee. Fees paid by the Plan to the trustee totaled \$3,306 for the year ended December 31, 2013. In addition, the Plan permits notes receivable from participants, which are secured by the participant's account balances. These transactions qualify as party-in interest transactions which are exempt from the prohibited transaction rules.

Notes to Financial Statements

Note 9. Excess Contributions Refundable

For the Plan year ended December 31, 2013, the Plan failed its annual IRS required compliance (discrimination) testing. To correct the failure, excess contributions, adjusted for earnings and losses, were refunded to certain participants in the subsequent year as corrective distributions. At December 31, 2013, the excess contributions refundable totaling \$22,231 were accrued.

Note 10. Risks and Uncertainties

Investment securities are exposed to various risks such as credit, interest rate, and market risks.

Credit risk arises from the potential for an issuer or other counterparty to default on its contractual obligations to the Plan. Investments are recorded at fair value. This represents the maximum credit risk exposure of the Plan.

Interest rate risk refers to the impact of interest rate changes on the Plan's financial position. Interest rate changes impact the fair value of fixed income securities held in the Plan. Interest rate changes will also have an indirect impact on the other investments of the Plan.

Market risk is the risk that the market value of an investment will fluctuate as a result of changes in the market price. Due to the level of risk associated with certain investment transactions, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and those changes could materially affect the amounts reported in the statement of net assets available for benefits.
