Notes to Financial Statements

December 31, 2013

Note 1 - Description of plan (continued):

Employee contributions - Through December 30, 2013, participants may elect to contribute up to 100% of their compensation subject to the maximum allowed under section 401(k) of the Internal Revenue Code ("IRC"). Effective December 31, 2013, participants can contribute up to 90% of pretax annual compensation as defined by the Plan and subject to the maximum allowed under section 401(k) of the IRC. Participants are also permitted to deposit into the Plan distributions received from other plans (rollovers). Participants direct the investment of their account balances into various investment options offered by the Plan. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. A participant may elect to increase or decrease the percentage contribution, each pay period.

Employer contributions - The Company and participating affiliates may, at its sole discretion, make annual employer matching contributions at the option of the Company's Board of Directors, subject to limitations imposed by applicable provisions of the IRC. The Company made an employer matching contribution for the year ended December 31, 2013 of approximately $8,000.

Participant accounts - Each participant's account is credited with the participant's contribution and allocations of Plan earnings. Allocations are based on participant compensation or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Investment options - The Plan provides for investments to be directed by participants into a number of investment options held by the custodian. Participant investment options include a variety of mutual funds. Participants may change their elections at any time.

Vesting - Participants are immediately vested in their contributions plus actual earnings thereon. Employer contributions vest based upon completed years of service over a six year period at 20% per year from year two through year six.

Note 1 - Description of plan (continued):

Notes receivable from participants - Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested balance. The loans are secured by the balance in the participant's account and bear interest at market financing rates. Loan terms range from one to five years, but may not exceed five years, except for loans used for a purchase of a primary residence, which may be repaid over a longer period. Principal and interest are paid ratably through payroll deductions.

Payment of benefits - On termination of service due to death, disability, retirement or separation from service, participants may receive benefits in a lump sum, in accordance with the Plan. In certain other circumstances, participants may receive in-service distributions in a lump sum. The Plan allows for automatic lump sum distributions of participant vested account balances that do not exceed $5,000.

Forfeited accounts - The non-vested portion of a terminated participant's account balance is forfeited. Forfeitures are used to pay expenses related to the Plan and supplement employer contributions.

Investment management fees and operating expenses - The Company pays the cost of administering the Plan such as recordkeeping, accounting, legal and trustee services. Investment fees are generally assessed as a percentage of assets invested, and are deducted directly from investment returns. Transaction-based fees that are associated with optional services offered under the Plan are charged directly to the account of the participant, who takes advantage of such a feature, like a participant note.

Administrative expenses - Substantially all administrative expenses of the Plan are paid by the Plan. Separate fees for loan processing and certain investments as specified in the service agreement, are charged to individual participant's accounts.

Note 2 - Summary of significant accounting policies:

Basis of accounting - The accompanying financial statements of the Plan have been prepared using the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America ("GAAP"). Contributions from participants are recorded when withheld from the participant. Benefit payments to participants are recorded when paid.

Use of estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates that affect the amounts reported in the financial statements and accompanying notes and schedule. Actual results could differ from those estimates.

Note 2 - Summary of significant accounting policies (continued):

Investment valuation and income recognition - The investments in all of the funds are presented at fair value, based on the quoted market prices of the underlying securities within each fund as of December 31, 2013 and 2012. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants and the measurement date.

Purchases and sales of securities are recorded on a trade-date basis. Interest is recorded on the accrual basis and dividends are recorded on the ex-dividend date. Net appreciation or depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Fair value measurements - The Plan performs fair value measurements in accordance with Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") 820, *Fair Value Measurements and Disclosures*. Refer to Note 3 for the fair value measurement disclosures associated with the Plan's investments.

Net appreciation in fair value of investments - The earnings, expenses, realized gains and losses, and unrealized appreciation (depreciation) in registered investment companies and other investments are recorded in the accompanying financial statements as net appreciation in fair value of investments.

Subsequent events - The Plan has evaluated subsequent events through the date that the financial statements are available to be issued which is the date of the independent auditors' report.

Note 3 - Fair value measurements:

The Plan performs fair value measurement in accordance with ASC 820. ASC 820 defines fair value as the price that would be received from selling an asset in an orderly transaction between market participants at the measurement date. The accounting guidance for fair value measurement requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. The standard establishes a fair value hierarchy based on the level of independent, objective evidence surrounding the inputs used to measure fair value. A financial instrument's categorization within the fair value hierarchy is based upon the lowest level of input that is significant to the fair value measurement.

Note 3 - Fair value measurements (continued):

The fair value hierarchy is as follows:

- Level 1: quoted prices in active markets for identical assets or liabilities;
- Level 2: inputs other than Level 1 that are observable, either directly or indirectly, such as quoted prices in active markets for similar assets or liabilities, quoted prices for identical or similar assets or liabilities in markets that are not active, or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities; or
- Level 3: unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Investments measured at fair value on a recurring basis were all deemed Level 1, by the Plan Administrator, consisted of the following types of instruments as of December 31, 2013 and 2012:

	2013 (Audited)	2012 (Compiled)
Mutual Fund Accounts:		
Target date	$ 188,032	$ 2,386
Balanced	78,712	4,530
Growth	77,039	34,540
Growth and income	76,268	40,154
Cash equivalent	45,737	78,924
Equity income	41,956	27,760
Bond	8,974	29,337
Total investments measured at fair value	$ 516,718	$ 217,631

The Plan's valuation methodology used to measure the fair values of mutual funds were derived from quoted market prices as substantially all of these instruments have active markets.

Note 4 - Investments:

The Plan Administrator has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to the following information certified by American Funds, Capital Bank and Trust Company, the custodian of the Plan, as complete and accurate, except for comparing such information to information included in the Plan's financial statements and supplemental schedule.

The following information included in the financial statements and supplemental schedule was provided by and certified by the Plan's custodian as complete and accurate:

- Investments as shown in the Statement of Net Assets Available for Benefits as of December 31, 2013 and 2012.
- Notes receivable from participants as shown in the Statement of Net Assets Available for Benefits as of December 31, 2013 and 2012.
- Investment income, as shown in the Statement of Changes in Net Assets Available for Benefits for the year presented.
- Schedule H, Line 4i – Schedule of Assets (Held at End of Year) as of December 31, 2013.

Investments that represent five percent or more of the Plan's net assets are as follows:

	2013	2012
Mutual Fund Accounts:		
American Funds Money Market	$ 188,032	$ 78,924
American Funds 2025 Target Date	75,174	Less than 5%
Capital World Growth & Income	45,935	26,736
Capital Income Builder	43,014	27,760
The Growth Fund of America	$ 36,581	19,784
Capital World Bond Fund	Less than 5%	18,397
The American Investment Company of America	Less than 5%	$ 13,418

Note 4 - Investments (continued):

For the year ended December 31, 2013, the Plan's investments, including investments purchased and sold, as well as held during the year, net appreciated in fair value of $21,854 from mutual funds.

Note 5 - Party-in-interest transactions:

At December 31, 2013 and 2012, the Plan held for investments available for benefits of approximately $349,000 and $119,000, respectively, in American Funds' mutual funds. American Funds had custodial responsibility for investments held in investment accounts at December 31, 2013 and 2012.

Note 6 - Plan termination:

Although it has not expressed any intent to do so, the Company has the right under the Plan to terminate the Plan subject to provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

Note 7 - Income tax status:

The Plan has not obtained a determination letter, in which the Internal Revenue Service states whether the Plan is in compliance with the applicable requirements of the IRC. A notification letter has been issued on the nonstandardized prototype plan in March 2010. The Plan has been amended since receiving the notification letter. However, the Plan Administrator believes that the Plan is currently designed and being operated in compliance with applicable requirements of the IRC. The Plan Administrator believes it is no longer subject to income tax examinations for the years prior to 2010.

Note 8 - Risks and uncertainties:

The Plan provides for investments in various investment securities which, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility risks. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statement of net assets available for benefits and participant account balances.

Note 9 – Subsequent events:

Subsequent to the end of the Plan year, amendments to the Plan were made to add the Roth 401(k) contribution option and eligibility is immediate, upon hire. These changes are effective January 1, 2014.
