ATCO INDUSTRIES, INC. 401(K) PROFIT SHARING PLAN
NOTES TO FINANCIAL STATEMENTS
December 31, 2013

NOTE A - DESCRIPTION OF THE PLAN

The following description of the ATCO Industries, Inc. (the "Company") 401(k) Profit Sharing Plan (the "Plan") provides only general information. Participants should refer to the Plan summary plan description for a more complete description of the Plan's provisions.

General. The Plan is a defined contribution plan covering all full-time employees of the Company who have one year of service and are age twenty-one or older. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions. Each year, participants may contribute up to 100% of pre-tax annual compensation (salary reduction contributions), as defined by the Plan, subject to Internal Revenue Service (IRS) limitations. Participants who have attained the age of 50 before the end of the plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan. The Company may make matching contributions equal to a discretionary percentage, to be determined by the Company, of employee salary reductions. Matching contributions will be determined based on each payroll period. The Company may also make a profit sharing contribution which is allocated to the participants accounts based on a formula as defined in the Plan. No matching contributions were made for the year ending December 31, 2013. No profit sharing contributions were made for the year ending December 31, 2013.

Participant Accounts. Each participant's account is credited with the participant's salary reduction contributions and an allocation of the Company's contribution and Plan earnings (net of administrative expenses). Allocations are based on the participant's eligible compensation or account balances, as defined in the Plan. The benefit to which a participant is entitled is the benefit that can be provided from the participants vested account.

Vesting. Participants are immediately vested in their contributions plus actual earnings thereon. Employer matching contributions, profit sharing contributions, and earnings thereon, become fully vested ratably after six years:

Less than 2 years	0%
2 but less than 3	20%
3 but less than 4	40%
4 but less than 5	60%
5 but less than 6	80%
6 or more years	100%

Note Receivable from Participant. Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. The loan is secured by the balance in the participant's account and bears interest at 4.25%, which is commensurate with local prevailing rates as determined quarterly by the Plan administrator. Principal and interest is paid ratably, at least quarterly, and must be repaid within five years unless it is used for the purchase of a principal residence.

NOTE A - DESCRIPTION OF THE PLAN (Continued)

Payment of Benefits. On termination of service due to death, disability or retirement, a participant may elect to receive either a lump-sum payment equal to the value of the participant's vested interest in his or her account, or installments over a period not to exceed the participant's expected future lifetime, or the joint expected future lifetime (based on actuarial tables) of the participant and their spouse.

Forfeited Accounts. At December 31, 2013 and 2012, forfeited nonvested accounts totaled \$7,425. These accounts will be used to reduce future employer contributions under the plan. No amounts from the forfeited nonvested accounts were used to reduce the employer contributions in 2013 or 2012.

Administrative Expenses. As provided in the Plan agreement, administrative expenses may be paid either by the Plan or by the Company. The Company has historically paid the operating expenses of the Plan.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting. The accompanying financial statements have been prepared on the accrual basis of accounting.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts (guaranteed fixed account) because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. At December 31, 2013 and 2012, the contract value approximated the fair value, therefore there is no adjustment from fair value to contract value on the Statements of Net Assets Available for Benefits. The Statement of Changes in Net Assets Available for Benefits is presented on a contract value basis.

Estimates. The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosures of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition. The Plan's investments are reported at fair value. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Net appreciation in fair value of investments included in the accompanying Statement of Changes in Net Assets Available for Benefits includes realized gains and losses from the sale of investments and unrealized appreciation or depreciation in the fair value of investments held. Net unrealized appreciation or depreciation in the face value of investments represents the net change in the fair value of the investments held during the period. The net realized gains or losses on the sale of investments represents the difference between the sale proceeds and the fair value of the investments as of the beginning of the period or the cost of the investment if purchased during the plan year.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Notes Receivable from Participants. Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed as they are incurred. No allowance for credit losses has been recorded at December 31, 2013. If a participant ceases to make loan repayments and the administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Excess Contributions Payable. Amounts payable to participants for contributions in excess of amounts allowed by the IRS are recorded as a liability with a corresponding reduction to contributions. The Plan distributed the 2012 excess contributions to the applicable participants prior to March 15, 2013.

Payment of Benefits. Benefits are recorded when paid.

Administrative Expenses. Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Investment related expenses are included in net appreciation of fair value of investments.

Date of Management Evaluation. The Plan has evaluated subsequent events through September 25, 2014, the date the financial statements were available to be issued.

NOTE C - INFORMATION PREPARED AND CERTIFIED BY THE TRUSTEE (UNAUDITED)

The Plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, John Hancock Life Insurance Company, the trustee of the plan at December 31, 2013 and 2012, has certified to the completeness and accuracy of all investments reflected in the accompanying Statement of Net Assets Available for Benefits as of December 31, 2013 and 2012, as well as the investment information disclosed in this note and the accompanying December 31, 2013 supplemental Schedule of Assets (Held at End of Year), and the related investment activity reflected in the Statement of Changes in Net Assets Available for Benefits for the year ended December 31, 2013. The Plan's independent certified public accountants did not perform auditing procedures with respect to the information except for comparing such information to the related information included in the accompanying financial statements.

NOTE D - FAIR VALUE MEASUREMENTS

FASB ASC 820 Fair Value Measurements establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

Level 2 - Inputs to the valuation methodology include:

- * quoted prices for similar assets or liabilities in active markets;
- * quoted prices for identical or similar assets or liabilities in inactive markets;
- * inputs other than quoted prices that are observable for the asset or liability;
- * inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

NOTES TO FINANCIAL STATEMENTS
December 31, 2013

NOTE D - FAIR VALUE MEASUREMENTS (Continued)

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used for December 31, 2013 and 2012.

Insurance company pooled separate accounts - Valued at fair value based on the net asset value (NAV) of similar shares held by the plan at year end. They are similar to mutual funds but are only available to group annuity contract holders.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2013 and 2012:

Fair Value Measurements at December 31, 2013				
<u>John Hancock</u>	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level3)	Total

ATCO INDUSTRIES, INC. 401(K) PROFIT SHARING PLAN
NOTES TO FINANCIAL STATEMENTS
December 31, 2013

NOTE E - INVESTMENT CONTRACT WITH INSURANCE COMPANY

The Plan has an investment contract with John Hancock Life Insurance Company. John Hancock maintained the contributions in pooled separate accounts. The investments are credited with actual earnings on the underlying investments and charged for benefit withdrawals and administrative expenses charged by John Hancock.

The fair value is equal to the contract value for the investment contract as reported to the Plan by John Hancock; therefore, there is no adjustment from fair value to contract value in the Statement of Net Assets Available for Benefits. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

Certain events, such as the premature termination of the contract by the plan or the termination of the plan, would limit the Plan's ability to transact at contract value with John Hancock. The Plan administrator believes the occurrence of such events that would also limit the plan's ability to transact at contract value with Plan participants is not probable.

NOTE F - PARTY-IN-INTEREST

Certain Plan investments are shares of common/collective trusts managed by John Hancock Life Insurance Company. John Hancock Life Insurance Company is the custodian as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan for the investment management services amounted to \$5,380 for the year ended December 31, 2013.

NOTE G - PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their employer contributions.

NOTE H - TAX STATUS

The Internal Revenue Service has determined and informed the Company by a letter dated May 5, 2008 that the Plan is designed in accordance with the applicable sections of the Internal Revenue Code (IRC). The Plan administrator believes that the Plan is designed, and is currently being operated, in compliance with the applicable provisions of the IRC.

Accounting principles generally accepted in the United States of America require the Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the various governing bodies. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2013 and 2012, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2010.

NOTE I - RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investments securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

NOTE J - SUBSEQUENT EVENTS

Subsequent to December 31, 2013, the plan was amended to include an automatic deferral election of 3% for each employee upon eligibility. This amendment is effective as of February 1, 2014.
