2) Summary of Significant Accounting Policies:

The most significant accounting policies followed by the Plan are summarized below:

- A) Basis of accounting – The accompanying financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America, in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosures under the Employees Retirement Income Security Act of 1974.
- B) Use of estimates – The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein. Actual results could differ from those estimates.
- C) Fair value measurements – ASC 820, *Fair Value Measurements and Disclosures*, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements).

The three levels of the fair value hierarchy under ASC 820 are described below:

- Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
- Level 2: Inputs to the valuation methodology include:
 - Quoted prices for similar assets or liabilities in active markets;
 - Quoted prices for identical or similar assets or liabilities in inactive markets;
 - Inputs other than quoted prices that are observable for the asset or liability;
 - Inputs that are derived principally from or corroborated by observable market data by correlation or other means.
- Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

- D) Investment valuation and income recognition – Investments in mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. The net asset value (NAV) per share is calculated by each fund based on the market value of the underlying securities within each fund and is required to be published on a daily basis. The mutual funds held by the Plan are deemed to be actively traded. The reported values for fixed annuity options are reported daily based on the valuation method disclosed in the annuity contract, as calculated by the annuity provider.

4) Fair Value Measurements:

As of December 31, 2013 and 2012, the fair values of the Plan's assets are as follows:

Description	Level	2013	2012
Mutual funds:			
Intermediate – Term Bond	1	\$ 1,653,199	\$ 1,642,321

Money Market	1	1,180,147	1,236,985
		<u>\$ 7,637,306</u>	<u>\$ 6,336,660</u>

5) Tax Status:

The Plan is intended to be a tax qualified arrangement that complies with the provisions of the Employment Retirement Income Security Act of 1974, as amended, and with the Puerto Rico Internal Revenue Code (PRIRC) of 2011, as amended. A determination letter was issued by the Puerto Rico Department of the Treasury on September 8, 2003. Although the Plan has been amended since receiving the determination letter, the Plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the PRIRC.

The Plan is not a qualified plan under Section 401(a) of the US Internal Revenue Code. The Plan is a non-domiciled US profit sharing Plan with a cash or deferred arrangement (CODA), which is qualified under Section 1081 of the Puerto Rico Internal Revenue Code only. It is sponsored by a Puerto Rican employer and covers only Puerto Rican residents.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination of taxing authorities. The Plan Administrator evaluated the tax positions taken by the Plan and concluded that the Plan as of December 31, 2013 and 2012, had maintained its tax exempt status and had taken no uncertain tax positions that would require adjustments or disclosures to the financial statements. Therefore, no provision or liability for income taxes has been included in the financial statements.

6) Plan Termination:

Although it has not expressed any intent to do so, the Employer has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provision of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.
