Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of Lafarge North America Inc. Retirement Plan (the "Plan"), which comprise the statements of net assets available for benefits as of December 31, 2013 and 2012, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Plan management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the *Basis for Disclaimer of Opinion* paragraph, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's ("DOL") Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 ("ERISA"), the Plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 5, which was certified by The Northern Trust Company, the trustee of the Plan, except for comparing such information with the related information included in the financial statements. We have been informed by the Plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The Plan administrator has obtained a certification from the trustee as of December 31, 2013 and 2012, and for the years then ended, that the information provided to the Plan administrator by the trustee is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the *Basis for Disclaimer of Opinion* paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Report on Form and Content in Compliance With DOL Rules and Regulations

The form and content of the information included in the financial statements other than that derived from the information certified by the trustee have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

LAFARGE NORTH AMERICA INC. RETIREMENT PLAN

NOTES TO THE FINANCIAL STATEMENTS

AS OF AND FOR THE YEARS ENDED DECEMBER 31, 2013 AND 2012

Note 1 – Description of plan

The following description of the Lafarge North America Inc. Retirement Plan (the "Plan") is provided for general information purposes only. Participants should refer to the Plan document, as amended and restated, for a more complete description of the Plan's provisions.

General – The Plan was adopted by Lafarge North America Inc. (the "Company") on January 1, 1998, and was most recently amended effective June 30, 2014 to allow certain deferred vested participants the opportunity to elect a lump-sum payment for special early retirements from June 1, 2014 to August 15, 2014. The Plan is a noncontributory defined benefit plan that provides for pension and disability benefits to salaried and certain hourly employees age 21 and older who have at least one year of eligible service. Effective January 1, 2009, benefits under the Plan were frozen. Employees who accept an offer of employment and first complete an hour of service with the Company on or after January 1, 2009 are not eligible. The Plan provides for normal retirement at age 65 or early retirement after age 55. The Plan also provides for disability benefits and special death benefits before or after retirement. The Plan is intended to qualify under Section 401(a) of the Internal Revenue Code ("IRC") and is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

The Plan is administered by the Company's Investment Committee and Benefit Administration Committee (collectively the "Committees"). The Committees have overall responsibility for the operation and administration of the Plan. The Committees determine the appropriateness of the Plan's investment offerings and monitors Plan investment performance.

The assets of the Plan and certain other pension plans of the Company are held in the Lafarge North America Inc. Master Trust ("Master Trust"). During the years ended December 31, 2013 and 2012, assets in the Master Trust were held by The Northern Trust Company ("the trustee"). Upon the order of the Company, the trustee pays amounts to specified Plan beneficiaries. SEI Investments Company ("SEI") currently acts as investment manager and has authority to invest and reinvest the Master Trust assets.

Plan Termination – Although it has not expressed any intention to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA.

In the event of termination, all accrued benefits become 100% vested, and the net assets of the Plan are set aside for payment of such vested benefits as prescribed by ERISA. Whether a particular participant's accumulated plan benefits will be paid depends on both the priority of those benefits and the level of benefits guaranteed by the Pension Benefit Guaranty Corporation ("PBGC") at the time of termination. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivor's benefits. Some benefits may be fully or partially provided for by the then-existing assets and the PBGC guaranty, while other benefits may not, as described in the articles of the Plan.

Pension Benefits – Plan participants are eligible for their Plan benefit after retiring or terminating employment with vested rights. Participants become vested in the Plan upon completion of five years of vesting service or attainment of the normal retirement age (65). If employees terminate before rendering 5 years of service, they forfeit the right to receive the portion of their accumulated plan benefits.

LAFARGE NORTH AMERICA INC. RETIREMENT PLAN

NOTES TO THE FINANCIAL STATEMENTS

AS OF AND FOR THE YEARS ENDED DECEMBER 31, 2013 AND 2012

Note 1 – Description of plan (continued)

Upon retirement or termination, participants have the option of receiving their vested benefit in the form of a one-time lump sum payment or a monthly annuity payable for their lifetime. If the value of the employee's vested benefit is \$1,000 or less, the benefit automatically will be paid out in the form of a lump sum. The Plan does not pay lump sums greater than \$7,500. The monthly annuity payables have a variety of payment options.

Death and Disability Benefits – If an employee dies, the vested benefits may be paid to the surviving qualified spouse. No benefits are paid to a beneficiary of a participant who does not have a surviving qualified spouse when the employee dies. Active employees who become totally disabled and are vested in their benefits may elect to receive annual disability benefits that are equal to the equivalent normal retirement benefit they have accumulated as of the time they become disabled.

Disability benefits are paid until normal retirement age, at which time disabled participants will receive the normal retirement benefit computed as though they had been employed to normal retirement age, based on their final average earnings as of the date they became permanently disabled.

Note 2 – Significant accounting policies

Basis of Accounting – The financial statements of the Plan are prepared on the accrual method of accounting in accordance with accounting principles generally accepted in the United States of America ("GAAP").

Cash and Cash Equivalents – For purposes of the disclosure of investments in the Master Trust (see Note 5), the Plan considers all highly liquid debt instruments purchased with an original maturity of three months or less to be cash equivalents. Cash and cash equivalents held in the Master Trust may include short-term investments held by institutions that are not covered by the Federal Deposit Insurance Corporation.

Investment Valuation and Income Recognition – Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's net interest in the Master Trust is stated at the fair value of the underlying net assets of the Master Trust as estimated by the trustee.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation in fair value of investments includes the Plan's gains and losses on investments bought and sold as well as held during the year. Under the Master Trust, investment transactions, income on investments, and realized and unrealized appreciation and depreciation have been prorated by the trustee among the plans based on each plan's proportionate share of the market value of the Master Trust on a monthly basis.

Funding Policy – The Plan's funding policy is for the Company to contribute an amount which will meet or exceed the annual ERISA minimum funding requirements. During 2013 and 2012, the Company made contributions of \$30,271,031 and \$28,100,000, respectively. The Company's contributions for 2013 and 2012 exceeded the minimum funding requirements of ERISA.

Benefits Paid to Participants – Benefits paid to participants are recorded when paid.

Estimates – The preparation of financial statements in accordance with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein; disclosure of contingent assets and liabilities; and the actuarial present value of accumulated plan benefits at the date of the financial statements, and changes therein. Actual results could differ from those estimates.

NOTES TO THE FINANCIAL STATEMENTS

AS OF AND FOR THE YEARS ENDED DECEMBER 31, 2013 AND 2012

Note 2 – Significant accounting policies (continued)

Risks and Uncertainties – The Master Trust makes investments in various securities, which are exposed to various risks such as interest rate, credit, and market risks. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in risks in the near term could materially affect the amount reported in the statements of net assets available for benefits and the statement of changes in net assets available for benefits.

Master Trust contributions are made, and the actuarial present value of accumulated plan benefits is reported based on certain assumptions pertaining to interest rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimation and assumption processes, it is at least reasonably possible that changes in these estimates and assumptions in the near term could materially affect the amounts reported and disclosed in the financial statements.

Administrative Expenses – Administrative expenses include Plan-specific expenses as well as expenses incurred by the Master Trust. Expenses related specifically to the Master Trust are allocated to the respective plan based on the ending market value of assets held in each plan as a percentage of total assets in the Master Trust.

Fair Value Measurement – GAAP provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets and liabilities (level 1 measurement) and the lowest priority to unobservable inputs (level 3 measurements).

The three levels of the fair value hierarchy are described as follows:

Level 1 – Inputs to the valuation methodology are quoted prices available in active markets for identical investments as of the reporting date;

Level 2 – Inputs to the valuation methodology are other than quoted prices in active markets, which are either directly or indirectly observable as of the reporting date, and fair value can be determined through the use of models or other valuation methodologies; and

Level 3 – Inputs to the valuation methodology are unobservable inputs in situations where there is little or no market activity for the asset or liability and the reporting entity makes estimates and assumptions related to the pricing of the asset or liability including assumptions regarding risk.

A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. The following is a description of the valuation methodologies used for instruments measured at fair value, including the general classification of such instruments pursuant to the valuation hierarchy. There have been no changes in the methodologies used at December 31, 2013 and 2012.

Mutual funds – These investments are public investment vehicles valued using the Net Asset Value ("NAV") provided by the administrator of the fund. The NAV is based on the value of the underlying assets owned by the fund, minus its liabilities, and then divided by the number of shares outstanding. The NAV is a quoted price in an active market and is classified within level 1 of the valuation hierarchy.

Cash and cash equivalents – These investments are public investment vehicles valued using \$1 for the NAV, and are classified within level 1 of the valuation hierarchy.

NOTES TO THE FINANCIAL STATEMENTS

AS OF AND FOR THE YEARS ENDED DECEMBER 31, 2013 AND 2012

Note 2 – Significant accounting policies (continued)

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Note 3 – Actuarial present value of accumulated plan benefits

Accumulated plan benefits are those future periodic payments, including lump sum distributions that are attributable under the Plan's provisions to the services rendered by employees to the valuation date. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries and (b) surviving spouse of employees who have died, and (c) present employees or their beneficiaries.

Benefits for retired or terminated employees (or their beneficiaries) are based on the employee's credited service and compensation during the highest 60 consecutive months out of the last 120 months of employment prior to January 1, 2009. The accumulated plan benefits for active employees are based on credited service and average compensation during the 120 months preceding the valuation date. Benefits payable under all circumstances (retirement, death, disability, and termination of employment) are included to the extent they are deemed attributable to employee service rendered to the valuation date.

The actuarial information is based on reports prepared by the Plan's actuary, Towers Watson, as of January 1, 2013. The actuarial calculations are based on participants becoming fully vested after five years of continuous service. The actuarial calculations are also based on the participants covered under the Plan as of January 1, 2013.

The actuarial present value of accumulated plan benefits was calculated using the present value of accrued benefits method as required by the Pension Protection Act of 2006 ("PPA"). As of January 1, 2013, significant assumptions underlying the actuarial computations include an effective interest rate of 6.71%, a decrease from 7.07% as of January 1, 2012, the use of the RP-2000 Employees and RP-2000 Healthy Annuitants mortality tables used for the calculation of the current liability, and the assumption that retirement takes place at various ages, ranging from 55 to 65 and over. The actuarial value of assets was determined using the average of the fair market value of assets on the valuation date and the two immediately preceding valuation dates, with certain adjustments made for contributions, benefits, administrative expenses and expected earnings, whereas the actuarial value of assets was determined using the market value of assets including contributions receivable in the prior year. Additionally, the funding interest rate changed from Internal Revenue Service ("IRS") prescribed one-month average yield-curve based on bond yields during the October preceding the valuation date to the IRS prescribed segment rates without 3-year transition based on bond yields through the August preceding the valuation date. In accordance with the Preservation of Access to Care for Medicare Beneficiaries and Pension Relief Act, the Company elected to extend the amortization of the funding shortfall base established January 1, 2009 from 7 to 15 years.

NOTES TO THE FINANCIAL STATEMENTS

AS OF AND FOR THE YEARS ENDED DECEMBER 31, 2013 AND 2012

Note 3 – Actuarial present value of accumulated plan benefits (continued)

The actuarial present value of accumulated plan benefits as of January 1, 2013 is as follows:

Vested benefits	
Participants currently receiving payments	\$ 333,050,569
Other participants	<u>232,540,179</u>
Total vested benefits	565,590,748
Non-vested benefits	<u>1,779,483</u>
Total actuarial present value of accumulated plan benefits	<u>\$ 567,370,231</u>

The following is a summary of the changes in the actuarial present value of accumulated plan benefits for the year ended January 1, 2013:

Actuarial present value of accumulated plan benefits, beginning of year	\$ 553,795,309
Increase (decrease) during the year attributable to:	
Benefits accumulated & non-investment experience	38,102,358
Increase for interest due to decrease in discount period	36,357,643
Benefits paid	(106,484,244)
Assumption changes	45,492,843
Plan amendments	<u>106,322</u>
Actuarial present value of accumulated plan benefits, end of year	<u>\$ 567,370,231</u>

Certain actuarial assumptions changed during 2013; the segment interest rates used to calculate the funding target and target normal cost, the required mortality table, and administrative expense assumptions were updated. During 2012, the Plan offered certain deferred vested participants opportunities to elect a lump-sum (or partial lump sum) payment for special early retirements from March 1, 2012 to January 1, 2013. This lump sum assumption was no longer applicable for the January 1, 2013 valuation. Further, the assumptions took into consideration the vesting for all affected participants that were terminated as part of the Eagle Materials divestiture effective November 30, 2012. The assumptions also took into consideration the Gypsum transaction that occurred in August 2013 as well as other smaller divestitures that closed since January 1, 2013 through the unpredictable contingent event assumptions. See Note 7 for further information.

Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

Note 4 – Income tax status

The Plan has received its latest determination letter from the IRS dated May 24, 2014 stating that the Plan, as then designed, is qualified under Section 401(a) of the IRC and, therefore, the related trust is exempt from taxation. Once qualified, the Plan is required to operate in conformity with the IRC to maintain its qualification. The Plan administrator believes the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and has no income subject to unrelated business income and that the Plan and trust continue to be tax exempt.

LAFARGE NORTH AMERICA INC. RETIREMENT PLAN

NOTES TO THE FINANCIAL STATEMENTS

AS OF AND FOR THE YEARS ENDED DECEMBER 31, 2013 AND 2012

Note 4 – Income tax status (continued)

GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. Plan management has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2013 and 2012, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to audit by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. Plan management believes it is no longer subject to income tax examinations for years prior to December 31, 2010.

Note 5 – Interest in the Master Trust (unaudited)

The Plan's investments are held in the Master Trust, which was established for the investment of assets of the Plan and several other Company sponsored retirement plans. Each participating retirement plan has an undivided interest in the Master Trust. The assets of the Master Trust are held by the trustee.

The value of the Plan's interest in the Master Trust is based on the beginning of year value of the Plan's interest in the Master Trust plus actual contributions and allocated investment income less actual distributions and allocated administrative expenses. At December 31, 2013 and 2012, the Plan's interest in the investments of the Master Trust was approximately 80.42% and 80.14%, respectively. Investment income and administrative expenses relating to the Master Trust are allocated to the individual plans based on each Plan's interest.

All investment information disclosed in the accompanying financials, including investments held at December 31, 2013 and 2012 and net investment income in the Master Trust for the years then ended, was obtained or derived from information supplied to the Plan administrator and certified as complete and accurate by the trustee. The trustee has also certified the Plan's proportionate share of such items to be complete and accurate.

The fair values of investments in the Master Trust are as follows:

	December 31,	
	2013	2012
Investments at fair value:		
Mutual funds	\$ 623,072,626	\$ 575,057,588
Cash and cash equivalents	3,562,161	5,502,180
	<u>\$ 626,634,787</u>	<u>\$ 580,559,768</u>

Investment income for the Master Trust is as follows:

	Year ended December 31,	
	2013	2012
Net appreciation in fair value of investments	\$ 61,421,464	\$ 64,032,942
Interest and dividends	15,242,817	15,047,090
	<u>\$ 76,664,281</u>	<u>\$ 79,080,032</u>

During the years ended December 31, 2013 and 2012, substantially all of the net appreciation in fair value of investments is attributable to mutual funds.

NOTES TO THE FINANCIAL STATEMENTS

AS OF AND FOR THE YEARS ENDED DECEMBER 31, 2013 AND 2012

Note 7 – Significant Plan transactions

During 2013, the Company entered into seven significant transactions that resulted in the sale or exchange of divisions and their eligible Plan participants.

Gypsum transaction – The Company entered into an asset purchase agreement with Lone Star U.S. Acquisitions dated August 28, 2013 to sell certain assets.

Wichita transaction – The Company entered into an asset purchase agreement with Summit Materials Companies I, LLC and Corenjo & Sons, L.L.C. dated February 19, 2013 to sell certain assets.

Colorado transaction – The Company entered into an asset purchase agreement with the Oldcastle SW Group, Inc., and Lafarge West, Inc. dated July 19, 2013 to sell certain rights, properties and assets.

Georgia Vulcan transaction – The Company entered into an asset purchase agreement with Vulcan Construction Materials, LP, Vulcan Lands, Inc. and Lafarge Building Materials, Inc. dated January 9, 2013 to sell certain rights, properties and assets.

Georgia Bluegrass transaction – The Company entered into an asset purchase agreement with Bluegrass Materials Company, LLC and Lafarge Building Materials, Inc. dated January 9, 2013 to sell certain rights, properties and assets.

Georgia MMM transaction – The Company entered into an asset purchase agreement with Martin Marietta Materials, Inc. and Lafarge Building Materials, Inc. dated February 19, 2013 to sell certain rights, properties and assets.

Georgia FLQ transaction – The Company entered into an asset purchase agreement with Fall Line Quarry, LLC and Lafarge Building Materials, Inc. dated April 5, 2013 to sell certain rights, properties and assets.

Accordingly, the Plan has been amended to fully vest the benefits of affected participants deemed to be eligible employees as of the closing date of the agreements. Affected participants became eligible for distribution of their fully vested balance upon the agreement execution date.

Note 8 – Party-in-interest transactions

Certain investments of the Master Trust are shares of SEI. The Plan paid certain expenses related to Plan operations and investment activity to various service providers. These fees were based on customary and reasonable rates for such services, and are party-in-interest transactions for which a statutory exemption exists under ERISA.

Note 9 – Subsequent events

The Plan has evaluated events through October 13, 2014 in connection with the preparation of these financial statements, which is the date the financial statements were available to be issued.

Methods

Valuation date	First day of plan year
Funding target	Present value of accrued benefits
Target normal cost	Present value of benefits expected to accrue during plan year plus plan-related expenses expected to be paid from plan assets during plan year
Actuarial value of assets	<p>Average of the fair market value of assets on the valuation date and the two immediately preceding valuation dates, adjusted for contributions, benefits, administrative expenses and expected earnings of 7.25% during the 12 month period preceding the valuation date (with such expected earnings limited as described in IRS Notice 2009-22). The average asset value must be within 10% of fair value, including discounted contributions receivable (discounted using the effective interest rate for the 2012 plan year).</p> <p>The method of computing the actuarial value of assets complies with rules governing the calculation of such values under the Pension Protection Act of 2006 (PPA). These rules produce smoothed values that reflect the underlying market value of plan assets but fluctuate less than the market value. As a result, the actuarial value of assets will be lower than the market value in some years and greater in other years. However, over the long term under PPA's smoothing rules, the method has a significant bias to produce an actuarial value of assets that is below the market value of assets.</p>
Benefits not valued	All significant benefits described in the Plan Provisions section of this report were valued except (1) plant shutdown and other "unpredictable contingent event benefits" which are not valued until and unless the triggering event occurs (unless otherwise noted) and (2) automatic cashouts in the case that the present value of benefits is no more than \$1,000. Towers Watson has reviewed the plan provisions and, based on that review, is not aware of any significant benefits required to be valued that were not.
Change in assumptions and methods since prior valuation	<p>The segment interest rates used to calculate the funding target and target normal cost were updated from an applicable month of September 2011 to September 2012.</p> <p>The required mortality table used to calculate the funding target and target normal cost was updated to include one additional year of projected mortality improvements.</p> <p>The administrative expense assumption was updated.</p>
Data sources	Towers Watson used asset data and retiree data supplied by the trustees. Lafarge North America Inc. furnished other participant data, the dates and amounts of the contributions that were paid in 2013 for the 2012 plan year, and funding balance elections. Data were reviewed for reasonableness and consistency, but no audit was performed. Assumptions or estimates were made by the Towers Watson actuaries when data were not available. We are not aware of any errors or omissions in the data that would have a significant effect on the results of our calculations.

Attachment to 2013 Schedule SB Part V – Statement of Actuarial Assumptions/Methods

Percent married	75% of males; 75% of females
Spouse age	Wife three years younger than husband
Valuation pay	Base pay for the prior year increased by salary scale plus estimated bonus (bonus is estimated based on pay grade bonus percentage multiplied by prior year base pay)
Unpredictable contingent event assumptions	15% rate of active participants assumed to be terminated during 2013 through divestitures or restructuring. Participants meeting eligibility will receive special early retirement and are assumed to elect a partial lump sum.
Administrative expense	\$4,926,000
At-risk assumptions	For at-risk calculations, all participants eligible to elect benefits during the current and subsequent 10 plan years are assumed to commence benefits at the earliest possible date under the plan, but not before the end of the current plan year, except in accordance with the regular valuation assumptions. In addition, all participants eligible for special early retirement lump sum benefits elect immediate lump sums; in other cases all participants (not just those eligible to begin benefits within the next 11 years) are assumed to elect the most valuable form of benefit payment under the plan.
Other	<p>January 1, 2013 assets reported by the trustee were reduced by \$62,000 as an estimate of benefits allocable to this plan.</p> <p>The results for LNARP reflect Lafarge's election of funding relief under the PRA for the 2009 and 2011 plan years using the 15-year amortization method. The minimum required contribution reflects the total amount of employee compensation (including funding nonqualified deferred compensation) in excess of \$1 million, and any extraordinary dividends or stock redemptions, which triggered Installment Acceleration Amounts under the "cash flow rule." The total amount of employee compensation in excess of \$1 million and extraordinary dividends or stock redemptions was determined by Lafarge and is \$530,709 for 2012 and \$393,752 for 2013, to be applied for each of the 2009 and 2011 plan year elections.</p>

Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Attachment to 2013 Form 5500, Schedule SB, Line 22: Weighted Average Retirement Age

Each Employee is assumed to retire in accordance with the table of retirement rates. The weighted average retirement age is derived by applying these rates to an employee with the characteristics at plan entry of an average current plan participant. The average participant entered the plan at age 34. The average participant age is 47 and the average participant service is 13. The number of employees expected to retire at each potential age is shown below. The weighted average retirement age is 59. The weighted average retirement age is computed as follows:

Monthly pension benefit

- (i) A participant who reaches normal retirement is entitled to a benefit which is the greatest of:
- 1.33% of final average earnings for each year of credited service
- The amount the Employee would have received under the largest pension factor then in effect for retirements under Article 1 Section 1 of the Lafarge North America Inc. Pension Plan for Multi-Plant or under the Fredonia or Paulding Supplement to the Lafarge North America Inc. Hourly Pension Plan (Cement-Boilermakers) counting all years of continuous service.
- Minimum accrued benefit as of December 31, 2001:
- The benefit defined above cannot be less than the life annuity actuarial equivalent of the December 31, 2001 accrued benefit calculated under the prior benefit formula.
- In general the benefit formula prior to January 1, 2002 is:
- 1½% of final average earnings for each year of credited service (35 year maximum) less 1½% of the primary social security benefit for each year of credited service (33 1/3 year maximum)
- (ii) For participants of the Lafarge North America Inc. Pension Plan for Hourly Compensation Employees (Non-Bargaining Unit Sites) as of December 31, 2006, the monthly benefit is the sum of (a) \$15.50 multiplied by credited service to December 31, 2006 plus (b) the formula in (i) above but reflecting only post-2000 earnings and post-2000 credited service.
- (iii) For participants of the Lafarge North America Inc. Retirement Plan for Blue Circle Heritage Employees, the benefit payable under this plan will be reduced by the benefit payable under any offsetting plan. Offsetting plans are other defined benefit pension plans or retirement plans, including the Blue Circle Inc. Pension Plan, under which a benefit is determined, based on service with respect to which the participant is also entitled to credited service under this plan.
- Participants who elect to receive benefits from the Blue Circle Inc. Pension Plan in the form of a lump sum will not be entitled to receive credited service under this plan for periods of employment with Blue Circle prior to January 1, 2002.
- (iv) For Joppa participants who were participants in the North America Inc. Pension Plan for Hourly Compensated Employees (Multi-Plant), the benefit payable under this plan is reduced by the benefit payable under the Multi-Plant plan.

Monthly preretirement death benefit

50% of the monthly vested pension benefit as of the date of death, reduced for 50% joint and survivor election and reduced for payment as early as the participant's earliest retirement date.

Forms of payment

Monthly pension benefits are paid as a life annuity (if the participant is unmarried), an actuarially equivalent 50% joint and survivor annuity (if the participant is married), or if the participant elects and the spouse consents, another actuarially equivalent optional form offered by the plan. Optional forms are:

- ▶ 75% joint and survivor annuity (married participants only)
- ▶ 100% joint and survivor annuity (married participants only)
- ▶ Life annuity
- ▶ Five year certain and life annuity
- ▶ Ten year certain and life annuity
- ▶ Fifteen year certain and life annuity
- ▶ Lump sum if the present value of the total benefit does not exceed \$7,500

Actuarial equivalence for optional form conversion other than lump sum form of payment:

- ▶ Participant mortality: UP 1994 blended 80% males; 20% females
- ▶ Beneficiary mortality: UP 1994 blended 20% males; 80% females
- ▶ Interest rate: 6.00%

Participants who participated in the LNARP prior to January 1, 2002, or who are receiving benefits under LNARP as a result of a spinoff or transfer of liabilities and assets into LNARP, may have other benefit payment options and definitions of actuarial equivalence applicable to all or part of their benefits.

Maximum on benefits

All benefits and pay for any calendar year may not exceed the maximum limitations for that year as defined in the Internal Revenue Code. The plan provides for increasing the dollar limits automatically as such changes become effective.

Changes in Plan Provisions Since Prior Year Valuation and Other Events

Effective November 30, 2012, Lafarge divested certain operations in Kansas City, Missouri and Tulsa, Oklahoma to Eagle Materials. As a result, over 150 employees participating in the plan were terminated from Lafarge. Vesting was granted to participants who were not vested. This divestiture was reflected in the data collected as of the valuation date.

During 2012, Lafarge ceased operations at Fredonia and idled a kiln at Joppa. Also during 2012, Lafarge reorganized its U.S. operations, terminating certain plan participants. The plan permitted participants the option of a partial lump sum for special early retirements from March 1, 2012 to January 1, 2013. These events were reflected in the data collected as of the valuation date.

Lafarge offered certain deferred vested members an opportunity to elect a lump sum distribution of pension benefits. Lump sums totaling over \$67 million were distributed to 2,052 participants in December 2012. This event was reflected in the data collected as of the valuation date.

Effective August 30, 2013, Lafarge divested the U.S. Gypsum business to an affiliate of Lone Star Funds. As a result, approximately 298

employees participating in the plan were terminated from Lafarge. Vesting was granted to participants who were not vested. Other smaller divestitures have closed since January 1, 2013. These divestitures have been reflected in the valuation through unpredictable contingent event assumptions.

Effective April 1, 2013, the presumed Adjusted Funding Target Attainment Percentage (AFTAP) fell below 80%, LNARP resumed partial restrictions on accelerated forms of distributions.

On March 25, 2013, the plan was amended to freeze benefit accruals in the plan effective December 31, 2018. This plan change was not reflected in the valuation.

The plan was amended to grant vesting to participants not already vested at the time of divestitures during 2013. This amendment was reflected in the valuation by assuming all participants are vested.

Towers Watson is not aware of any other plan changes which are required to be reflected other than scheduled pension increases adopted before the valuation date: pension multiplier for minimum benefit from \$40.50 per month to \$42.00 per month effective December 16, 2013.

The valuation software used to produce the actuarial information submitted on this schedule has been changed and such modification may be considered to be a method change. The percentage changes in funding target, target normal cost and plan assets due to the refinements in the software are each less than 2% (disregarding the effects of any changes that are automatically approved under final IRC 430 regulations), and the modifications to the software were designed to produce results no less accurate than the results produced by the software prior to the change. Therefore the change in funding method due to a change in valuation software receives automatic approval under IRS Announcement 2010-3.
