(the "Company" or "AIG") and the Plan Administrator is the AIG Retirement Board (the "Board") of the Company. The Plan is a defined contribution plan subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA") and is offered to eligible agents and managers ("employees") of the American General Life and Accident Insurance Company ("AGLA"). Effective December 31, 2012, AGLA merged with and into American General Life Insurance Company (the "Company"), an indirectly owned subsidiary of AIG. The Plan was restated as of January 1, 2013.

The custodian, recordkeeper, and trustee of the Plan is Mercer Trust Company ("Mercer").

Employees are eligible to participate in the Plan upon their employment commencement date, following a 90-day probationary period. The Plan provides for participant elective salary deferrals (participant pre-tax contributions) in accordance with Section 401(k) of the Internal Revenue Code of 1986, as amended (the "Code"). Effective January 1, 2013, the Plan was amended to permit Roth after-tax contributions.

Participant Accounts

Each participant's Plan account is credited with his/her employee contributions, the Company matching contributions, plus an allocation of the investment income (loss), and administrative and investment expenses, where applicable. The benefit to which a participant is entitled is the amount of the participant's vested Plan account balance.

Contributions and Vesting

Participants may contribute, on a pre-tax basis and/or Roth after-tax basis, a basic contribution amount up to three percent of their eligible annual compensation. Participants may also make additional pre-tax and/or Roth after-tax contributions in an amount ranging from one to forty-seven percent of their eligible annual compensation. All contributions are subject to the contribution limitations discussed below. Employee contributions and earnings vest immediately. The Company makes matching contributions equal to 33.333% of the participant's basic contribution (the first three percent of eligible compensation contributed). After three years of service, employees are fully vested in the Company's matching contributions and earnings.

The Plan permits acceptance of lump-sum rollover contributions from a qualified plan of a prior employer or from other Plans, as deemed acceptable under the terms of the Plan. There is no Company match provided on rollover contributions.

American General Agents' and Managers' Thrift Plan

Notes to Financial Statements

December 31, 2013 and 2012

For 2013, pursuant to Internal Revenue Service ("IRS") rules, the total amount of a participant's pre-tax contributions and/or Roth after-tax contributions was limited to \$17,500. In addition to these amounts, participants who attain the age of fifty by the end of the year are provided an opportunity to contribute an additional \$5,500 in pre-tax and/or Roth after-tax catch up contributions. These additional age 50 catch up contributions are not eligible for Company matching contributions.

Participants may change their contribution rate and investment election for future contributions at any time. The Plan document has a complete description of any restrictions to the Plan. All changes, except transfers, are effective as soon as administratively feasible. Transfers are effective on the business day the request is received.

Investment Options

Plan assets are invested in the investment options offered under the Plan at the direction of Plan participants, and in accordance with the Plan document.

Except as specified below, participants may make transfers between existing funds or change the allocation of their current contributions on a daily basis. Transfers and exchanges directly from the AIG Stable Value Fund ("Stable Value") to the Vanguard Prime Money Market Fund (a competing fund) are not allowed. Instead, transfers from the Stable Value must be invested in a non-competing fund for a minimum of ninety days before being exchanged to the Vanguard Prime Money Market Fund.

Prior to May 4, 2009, only employer matching contributions could be invested in the AIG Stock Fund ("Stock Fund"), a fund that is invested in AIG common stock. As of May 4, 2009, no new contributions could be invested in the Stock Fund. However, contributions invested in the Stock Fund prior to May 4, 2009 remained invested.

To reduce administrative and fund transaction costs associated with short-term trading by participants which can impact all shareholders in a particular fund, restrictions are placed on frequent or short-term trading. Mercer limits participant exchange activity. If a participant exchanges out of a fund, he or she cannot exchange back into that fund for sixty days. This restriction applies to all funds except the Vanguard Prime Money Market Fund.

Warrants

On January 14, 2011, as part of AIG's recapitalization plan (which resulted in the U.S. Treasury Department holding approximately 92% of AIG's outstanding common stock), AIG declared a "warrant dividend" on shares of AIG common stock outstanding on January 13, 2011 (the "record date"). Holders of AIG common stock on the record date received .533933 warrants per share of AIG common stock. Each warrant entitled the holder to purchase one share of AIG common stock at a price of \$45 per share. The AIG warrants were distributed at the close of business on January 19, 2011 to AIG's common shareholders of record as of January 13, 2011, including to participants in the Plan who had a portion of their account invested in the Stock Fund prior to when the Fund was frozen to new contributions in May 2009.

Distributions

An employee can withdraw the vested portion of his or her Plan account upon termination, retirement, death, or if in need of the funds due to a case of hardship, as defined by the Plan document. In addition, while actively employed, participants with five or more years of service may withdraw eligible after-tax contributions, rollover funds and Company matched contributions at any time; participants with less than five years of service have this same withdrawal option, with the exception that only Company matched contributions credited for a period of 24 months is eligible for withdrawal. Once an employee reaches age 59-1/2, he or she may make unlimited withdrawals of vested amounts, at any time, while actively employed. Participants who retire, leave the Company or become disabled and terminate employment can elect to receive a lump sum distribution equal to the entire value of their vested account or defer the funds in the Plan until age 70-1/2 if the account balance is more than \$1,000. Distributions are mandatory for account balances of \$1,000 or less and \$5,000 or less for spousal beneficiaries or alternate payees pursuant to a qualified domestic relations order.

Accounts of participants who retire on or after age 65, become disabled or die, vest immediately in all funds. A spousal beneficiary is eligible to receive a lump sum distribution equal to the full value of an account held by the Plan participant who dies, and amounts must be distributed by the later of (a) December 31 of the calendar year that contains the fifth anniversary of the participant's date of death or (b) December 31 of the calendar year in which such participant would have attained age seventy and one-half, unless such surviving spouse dies before the payment is commenced, in which case commencement may not be deferred beyond December 31 of the calendar year following the calendar year in which such surviving spouse dies. A non-spousal beneficiary is eligible to receive a lump sum distribution equal to the full value of an account held by the Plan participant who dies, and if such amounts are rolled over, they may only be rolled over to an inherited individual retirement account or an individual retirement annuity; in either event, amounts must be distributed by December 31 of the calendar year that contains the fifth anniversary of the participant's date of death. Funds taken out of the Plan, and not reinvested into another qualified plan or an individual retirement account, subject the employee to income tax and potential penalties. Pre-tax employee contributions, catch-up contributions, rollover contributions, Company matching contributions, and all investment earnings are subject to regular income taxes at the time of withdrawal. Withdrawals of any taxable amounts (including earnings on after-tax contributions) before age 59-1/2 may also be subject to an additional 10% penalty tax. Participants requesting distributions from amounts invested in the Stock Fund or the Warrants may elect to receive the total in cash, in shares of AIG common stock or in some combination of cash and shares. Fractional shares will be distributed in cash.

Participant Loans

The Plan has a general loan provision which enables employees who have an account balance of at least \$2,000 to borrow up to fifty percent of the value of their vested accounts, up to a maximum of \$50,000. General purpose loans are granted for a period not to exceed five years. A second loan option is also available for the purchase of a primary residence. Primary residence loans are granted for a period not to exceed fifteen years. Additionally, no more than one general purpose loan may be taken at one time. The rate of interest on any loan to a participant under the Plan shall be determined by the Plan Administrator and shall be equal to the prime rate of interest at the beginning of the quarter in which the loan originates. Loans outstanding at December 31, 2013 have been issued at an interest rate of 3.25%. Loan repayments by participants, including principal and interest, are generally paid ratably through payroll deductions.

American General Agents' and Managers' Thrift Plan

Notes to Financial Statements

December 31, 2013 and 2012

Each loan is secured through the vested balance in the participant's Plan account. If a participant defaults on his or her loan by failing to make timely repayments, the outstanding principal and interest due on the loan is treated as a deemed distribution and reported as a taxable distribution to the participant in the year of default. If the participant has an outstanding loan and takes a distribution of his or her Plan benefit, the outstanding principal and interest due on the loan is deducted from the amount distributed to the participant.

Redemption Fees

The Vanguard PRIMECAP Fund charges a redemption fee of 1% on shares that are exchanged out of the fund within one year after being exchanged into the fund. This fee is generally imposed by a fund to discourage short-term trading and protect the interests of long-term fund investors.

Forfeitures

Participants terminating employment forfeit their non-vested Company contributions on the earlier of (1) the distribution of the entire non-forfeitable portion of their account or (2) upon incurring a period equal to five consecutive one-year breaks in service. Forfeitures are available to reduce future Company contributions and administrative expenses. Participants who terminate and are re-employed with a participating company before incurring five consecutive one-year breaks in service are entitled to the reinstatement of their non-vested or forfeited amounts, subject to certain provisions as stated in the Plan document. Amounts in the Plan's forfeiture account were \$55,963 and \$31,495 at December 31, 2013 and 2012, respectively. In 2013, forfeited contributions of \$16,873 were used to pay administrative expenses of the Plan.

2. Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements have been prepared on the accrual basis of accounting in accordance with generally accepted accounting principles in the United States of America ("U.S. GAAP").

Use of Estimates

The preparation of financial statements in conformity with U.S. GAAP requires Plan management to make significant estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein; and disclosures including those for contingent assets and liabilities, at the date of the financial statements. Actual results could differ from those estimates and those differences could be material.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See note 5 for a discussion of fair value measurements.

The net appreciation (depreciation) in the fair value of investments, including realized gains or losses and net change in unrealized gains or losses, is reflected in the Statement of Changes in Net Assets

American General Agents' and Managers' Thrift Plan

Notes to Financial Statements

Available for Benefits. Realized gains or losses on the disposal of investments are determined by specific identification and recognized on the trade date basis. Interest income is recorded on an accrual basis. Dividend income is recognized on the ex-dividend date. Purchases and sales are recorded on a trade date basis.

Loans Receivable from Participants

Participant loans are classified as Loans receivable from participants in the Statements of Net Assets Available for Benefits and are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan document.

Distributions

Distributions paid to participants are recorded when paid.

Subsequent Events

The Plan's management evaluated subsequent events through October 9, 2014, the date on which the financial statements were available to be issued and no additional disclosures were required.

* This investment does not meet the 5% threshold for disclosure purposes in the applicable year.

5. Fair Value Measurements

The Plan carries its investments at fair value which for disclosure purposes are classified in accordance with a fair value hierarchy that prioritizes inputs to valuation techniques based on whether those inputs are observable or unobservable. Observable inputs, which reflect market data obtained from independent sources, and unobservable inputs, which reflect the Plan's market assumptions, create the following hierarchy:

- Level 1 – Fair value measurements based on quoted prices for identical instruments in active markets.
- Level 2 – Fair value measurements based on quoted prices for similar instruments in active markets; quoted prices for identical or similar instruments in markets that are not active; and significant inputs and significant value drivers that are observable in active markets.
- Level 3 – Fair value measurements based on valuation techniques using one or more significant inputs or significant value drivers that are unobservable.

This hierarchy requires the Plan to use observable market data, when available, and to minimize the use of unobservable inputs when determining fair value. The Plan's investments are classified in their entirety based on the lowest level of input that is significant to the fair value measurement.

The inputs or methodologies used for valuing securities are not necessarily an indication of the risk associated with investing in those securities. Based on the Plan's investment strategy, Plan management believes it has no significant concentrations of risk.

Following are descriptions of the valuation methodologies used for instruments carried at fair value in the Plan; the methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other entities, the use of different methodologies or

American General Agents' and Managers' Thrift Plan

Notes to Financial Statements

December 31, 2013 and 2012

assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Mutual Funds

Shares of mutual funds are valued at the net asset value ("NAV") of the shares held by the Plan at year end. The NAV per share is calculated daily by each fund based on observable market values of the underlying securities within each fund.

AIG Warrants

The fair value of the AIG warrants are determined by obtaining quoted prices in active markets. Market price data generally is obtained from the New York Stock Exchange.

Stable Value and Stock Fund

The Plan invests in the Stable Value and Stock Fund through the AIG Master Trust. The Plan's interests in those funds are stated at fair value. The Plan's interest is based on the beginning of the year value of the Plan's interest in the funds plus contributions and allocated investment income less withdrawals and allocated expenses.

Investment contracts in the Stable Value are reported at fair value. However, contract value is the relevant financial statement measurement attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Statements of Net Assets Available for Benefits present the fair value of the investment contracts in the Stable Value, as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

Plan management determines the fair value of a wrapper contract provided by a security-backed contract issuer as the present value of the difference between the current wrapper fee and the contract wrapper fee. Galliard Capital Management, Inc. ("Galliard"), the investment manager of the Stable Value, normally obtains fair values from private markets that are not active, using the discount rate and fees as direct observable inputs.

The fair value of a security-backed contract includes the value of the wrapper contract and the value of the underlying portfolio securities. For the underlying portfolio securities, Galliard obtains the pricing for the securities through independent pricing services or independent brokers. These prices are based on observable market data for the same or similar securities as the inputs. There are circumstances where Galliard may rely on internal pricing using a combination of observable or unobservable market data due to unavailable information from the pricing service or broker.

The fair value of common collective trusts held by the Stable Value is valued at the net asset value of the shares held by the Plan at year-end. The NAV per share is calculated daily by each fund based on the market value of the underlying securities within each fund.

6. Master Trust Information – AIG Master Trust

Effective January 3, 2011, a Master Trust Agreement (“Agreement”) was established between Mercer Trust Company and the Plan. The Plan invests in the AIG Master Trust which is a master trust established by AIG to hold certain assets for various defined contribution plans. The AIG Master Trust holds the AIG Stable Value Master Trust and the AIG Stock Fund Master Trust, which were contributed by the participating plans to the AIG Master Trust on January 3, 2011. Through their investment in the AIG Master Trust, the participating plans held the same respective interests in the AIG Stable Value Master Trust and AIG Stock Fund Master Trust as they did immediately prior to the contribution.

Stable Value assets are allocated among the participating plans by assigning to each plan those transactions which can be specifically identified (primarily contributions and benefit payments) and by allocating net income (resulting from the collective investment of the assets of the Stable Value) in proportion to the market value of each participating plan’s assets on a daily basis.

Notes to Financial Statements

December 31, 2013 and 2012

The Stable Value invests in common collective trusts and security-backed contracts (also known as synthetic guaranteed investment contracts (GIC's)) issued by insurance companies and other financial institutions. The Plan also invests in the Wells Fargo Stable Return Fund G and the Wells Fargo Short Term Investment Fund G, which invests in highly liquid assets. All investments in the Stable Value are fully benefit-responsive. Contract value is the relevant measurement attribute for the portion of net assets available for benefits attributable to fully benefit-responsive investment contracts. Contract value represents contributions made to the investment contract plus earnings, less participant withdrawals and administrative expenses.

A synthetic GIC is composed of individual assets, usually a portfolio of high quality fixed income securities placed in a trust. The Stable Value purchased a third-party issued benefit-responsive wrapper contract that guarantees participant transactions are executed at contract value. The wrapper contract amortizes the realized and unrealized gains or losses on the underlying fixed income investments; typically over the expected duration of the investment through adjustments to the future interest crediting rate (which is the rate earned by participants in the fund which resets on a quarterly basis). The issuer of the wrapper contract provides assurance that the adjustments to the interest crediting rate do not result in a future interest crediting rate that is less than zero. An interest crediting rate less than zero would result in a loss of principal or accrued interest.

The average yield rates of the Stable Value were 1.20% and 1.52% for the years ended December 31, 2013 and 2012, respectively. The average crediting interest rates were 1.62% and 2.29% as of December 31, 2013 and 2012, respectively. The Stable Value is exposed to credit risk in the event of non-performance by counterparties to the contracts. However, the Plan sponsor does not anticipate non-performance by these counterparties.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the Plan documents (including plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity provisions, (3) bankruptcy of the Plan sponsor or other Plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. Plan management does not believe that any events which would limit the Plan's ability to transact at contract value with participants are probable of occurring. Investment information relating to the investments held in the Stable Value and related earnings for the participating plans are based on information certified by the custodian.

7. Tax Status

The Plan received a determination letter from the IRS dated May 3, 2012, stating that the Plan is qualified under the appropriate sections of the Code and, therefore, the related trust is exempt from taxation. The Plan has been amended and restated since receiving the determination letter and the Plan Administrator and legal counsel believe the Plan document remains in compliance with ERISA and the Code and the Plan is being operated in material compliance with the applicable requirements of the Code.

Tax positions taken by the Plan must be evaluated and a tax liability (or asset) recognized if the Plan Administrator deems it more-likely-than-not that the Plan has taken an uncertain position that would not

Notes to Financial Statements

be sustained upon examination by the IRS. As of December 31, 2013, it was determined that there were no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by the IRS; however, there are currently no audits in progress for any tax periods.

8. Administrative Expenses

The Plan recorded administrative expenses, including asset management, Trustee and recordkeeping fees amounting to \$21,318 for the year ended December 31, 2013. Professional fees and all other administrative expenses in excess of forfeited contributions used are paid by the Company.

9. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become one hundred percent vested in the employer contribution portion of their balance.

10. Related Party Transactions

Plan investments include units of the Stock fund, which holds AIG common stock managed by Mercer. The Company is the Plan sponsor as specified by the Plan, Mercer is the Trustee and Wells Fargo is the custodian of the Stable Value; therefore, these investments qualify as party-in-interest transactions. The Plan did not purchase units of the Stock fund during the years ended December 31, 2013 and 2012. Also, the Plan sold \$114,682 and \$618,918 of the Stock fund during the years ended December 31, 2013 and 2012, respectively. The Plan held 16,366 and 18,924 units of the Stock fund with a fair value of \$835,466 and \$668,040 at December 31, 2013 and 2012, respectively. The Plan received no dividends from the Stock fund for the year ended December 31, 2013.

Plan investments include units of AIG warrants, which entitled holders to AIG common stock managed by Mercer. The Plan held 8,603 and 9,963 units of AIG warrants with a fair value of \$ 174,210 and \$137,489 at December 31, 2013 and 2012, respectively.

Additionally, for the Plan year ended December 31, 2013, the Company paid fees amounting \$89,694 to Mercer. These fees are calculated quarterly using basis points.

11. Risks and Uncertainties

The Plan's investments, including those in the Master Trust, are exposed to various risks such as interest rate fluctuations, market volatility and credit risk. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in risks and changes in the value of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the Statements of Net Assets Available for Benefits and Statement of Changes in Net Assets Available for Benefits.

Plan investments include a variety of investments that may directly or indirectly invest in securities with contractual cash flows. The value, liquidity, and related income of these securities are sensitive to changes in economic conditions and may be adversely affected by shifts in the market's perception of the issuers and changes in interest rates.

Notes to Financial Statements

December 31, 2013 and 2012

At December 31, 2013 and 2012, approximately 1% of the Plan's total investments were invested in the Stock Fund. The underlying value of AIG's stock is subject to operational and market risks.

12. Litigation

Between June 25, 2008 and November 25, 2008, AIG, certain directors and officers of AIG, and members of AIG's Retirement Board and Investment Committee were named as defendants in eight purported class action complaints asserting claims on behalf of participants in the AIG Incentive Savings Plan (the "ISP Plan"), American General Agents' and Managers' Thrift Plan (the "AGLA Plan") (collectively, the "Plans"), and the CommoLoCo Thrift Plan sponsored by AIG or its subsidiaries. The Court subsequently consolidated these eight actions as *In re American International Group, Inc. ERISA Litigation II*. On March 31, 2011, the Court dismissed all claims with respect to the CommoLoco Thrift Plan. The action purports to be brought as a class action under the Employee Retirement Income Security Act of 1974, as amended (ERISA), on behalf of all participants in or beneficiaries of the Plans during the period August 7, 2007 and May 1, 2009 and whose participant accounts included investments in the AIG Stock Fund. On September 4, 2012, lead plaintiffs' counsel filed a consolidated second amended complaint. In the consolidated second amended complaint, plaintiffs allege, among other things, that the defendants breached their fiduciary responsibilities to plan participants and their beneficiaries under ERISA, by continuing to offer the AIG Stock Fund as an investment option in the plans after it allegedly became imprudent to do so. The alleged ERISA violations relate to, among other things, the defendants' purported failure to monitor and/or disclose certain matters, including the Subprime Exposure Issues.

On November 20, 2012, defendants filed motions to dismiss the consolidated second amended complaint. On June 26, 2014, the Court issued an order denying defendants' motions to dismiss in light of the U.S. Supreme Court's decision in *Fifth Third Bancorp v. Dudenhoeffer*, No. 12-751 (U.S. June 25, 2014), which rejected the presumption of prudence in favor of ERISA fiduciaries that many courts had previously applied. The Court's order requires the parties to meet and confer concerning the impact of the Fifth Third Bancorp case and the possibility of settlement, and sets a deadline of October 3, 2014 for defendants to answer or otherwise respond to the consolidated second amended complaint.

As of September 23, 2014, most factual discovery has been completed, the Court has not determined if a class action is appropriate or the size or scope of any class, and the parties have not engaged in expert discovery, including regarding alleged damages. As a result, AIG is unable to reasonably estimate the possible loss or range of losses, if any, arising from the litigation.

13. Change in Investment Fund Options

On a regular basis, the Investment Committee of AIG monitors the performance and associated expenses of the investment fund options offered through the Plan. As part of this ongoing review, several investment changes were made effective March 31, 2014.

The new funds being offered provide for lower expense ratios to participants, while maintaining similar investment structures and objectives.

The Janus Twenty Fund-Class T Share Class was replaced with the Vanguard Institutional Index Fund-Institutional Plus Share Class which is a current Plan investment option. The Perkins Small Cap Value Fund-Class N Share Class was replaced with the DFA U.S. Small Cap Value Portfolio-Institutional Share Class. Finally, the suite of Vanguard Target Retirement Mutual Funds was replaced by the Vanguard Target Retirement Trust.
