GOLD STANDARD ENTERPRISES, INC. 401(K) PLAN

NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2013 AND 2012

A. DESCRIPTION OF PLAN

The following description of the Gold Standard Enterprises, Inc. 401(k) Plan ("Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

1. General. The Plan is a defined contribution plan covering all employees of Gold Standard Enterprises, Inc. (the "Company") who have completed six months of service, and are age twenty-one or older. The Plan is subject to the provisions of the Employee Retirement Income Security Act ("ERISA"). The custodian of the plan assets is Great-West Life & Annuity Insurance Company ("Great-West").

2. Investments. All investments are participant-directed. The Plan offers twenty-nine mutual funds and one guaranteed portfolio fund (an unallocated investment contract) as investment options for participants. A participant may maintain their entire account in one of the investment options or may elect to split their account among the investment funds in accordance with the terms of the Plan.

3. Contributions. Each year, participants may contribute any amount of pretax annual compensation, subject to certain Internal Revenue Code ("IRC") limitations, as defined in the Plan. Participants may also make Roth contributions. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also rollover amounts from other qualified defined-benefit or defined-contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan. For the year ended December 31, 2013, the Company made a matching discretionary contribution of 50 percent of the first six percent of eligible compensation that participants contributed to the Plan, including catch-up contributions. Additional profit sharing amounts may be contributed at the option of the Company's Board of Directors. The matching and any additional profit sharing contributions are invested in the same investments chosen by the participant for their contributions. Discretionary contributions are subject to certain IRC limitations. No additional discretionary contributions were made by the Company for the year ended December 31, 2013.

4. Participant Accounts. Each participant's account is credited with the participant's contributions and allocations of the Company's discretionary contributions and credited or charged with the Plan earnings/losses and plan expenses. Allocations are based on participant earnings, account balances or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

A. DESCRIPTION OF PLAN (Continued)

5. Vesting. Participants are vested immediately in their contributions plus actual earnings thereon. Vesting in the Company's contribution portion of their accounts plus actual earnings thereon is based on years of continuous service. A participant is 100 percent vested after six years of credited service as follows:

Years of Service	Vesting %
0-1	0%
2	20%
3	40%

6. Payment of Benefits. On termination of service, a participant or his/her beneficiary may receive a lump sum distribution of his/her entire vested account balance or a single sum distribution of a portion of his/her vested account balance. Benefits will also be paid to a participant or beneficiary who is required to receive lifetime required minimum distributions (RMD) and may receive the distributions payable in monthly, quarterly, semi-annual or annual installments equal to or exceeding the annual RMD amount.

7. Forfeited Accounts. At December 31, 2013 and 2012, forfeited non-vested accounts totaled $8,690 and $7,301, respectively. These accounts will be used to pay reasonable Plan expenses (i.e. not participant specific expenses), if any, then will be used to reduce the Company's future match contribution. All of the allocable forfeitures of $7,478 and $6,641 in 2013 and 2012, respectively, were used to reduce the Company's matching contribution.

B. SUMMARY OF ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America ("U.S. GAAP") requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

B. SUMMARY OF ACCOUNTING POLICIES (Continued)

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (i.e., an exit price). See Note D for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation or depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits

Benefits are recorded when paid.

Plan Expenses

Plan expenses (i.e., not participant specific expenses) are paid by the Plan, with the exception of the audit fee. The audit fee is paid directly by the Plan's sponsor and is excluded from these financial statements. Investment related expenses are included in the net appreciation or depreciation of fair value of investments.

C. INVESTMENTS

The following presents investments that represent five percent or more of the Plan's net assets at December 31, 2013 and 2012:

	December 31	
	2013	2012
Mutual Funds at Fair Value:		
Columbia Dividend Opportunity A	$ 496,491	$ *

2045 Inv.	618,804	458,998
Unallocated Investment Contracts at Fair Value:		
Great-West - Guaranteed Portfolio Fund	1,275,784	1,126,440

*Investment does not represent 5% or more of the Plan's net assets for the respective year.

C. INVESTMENTS (Continued)

Certain events limit the Plan's ability to transact at contract value with Great-West. Such events include the following: (a) amendments to the plan documents (including complete or partial plan termination or merger with another plan), (b) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (c) bankruptcy of the plan sponsor or other plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (d) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The Plan administrator is exploring investment options similar to the unallocated investment contracts with Great-West. It is probable that a change in investment options will occur, which may impact the Plan's ability to transact at contract value.

D. FAIR VALUE MEASUREMENTS

FASB ASC Topic 820, *Fair Value Measurements,* provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC Topic 820 are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include:
- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability; and
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

D. FAIR VALUE MEASUREMENTS (Continued)

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2013 and 2012:

Mutual Funds: Valued at the daily closing price of shares held by the Plan as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the SEC. These funds are required to publish their daily net asset value and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Unallocated Investment Contracts: Valued by Great-West at fair value which approximates contract value based on the valuation formula of similar annuity contracts with comparable durations considering the credit-worthiness of the issuer.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's fair value measurements at December 31, 2013 and 2012:

	2013		
	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Total

Total Assets at Fair Value	$6,374,318	$1,126,440	$7,500,758

The Plan did not have any investments valued using Level 3 inputs at December 31, 2013 and 2012.

During 2013, the Plan's investments (including investments bought, sold, and held during the year) appreciated in value by $892,583 as follows:

Mutual fund accounts	$892,583

E. PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100 percent vested in the Company contribution portion of their account.

F. INFORMATION PREPARED AND CERTIFIED BY CUSTODIAN

The following information included in the accompanying financial statements and supplemental schedules was obtained from data that has been prepared and certified to as complete and accurate by the custodian, Great-West:

	2013	2012
Investments	$9,334,722	$7,500,758
Investment Income -		
Net appreciation in fair value of investments	892,583	521,131
Interest/Dividends	453,048	188,133
Administrative expenses	17,455	7,527

G. TAX STATUS

The Internal Revenue Service ("IRS") has determined and informed the Company by a letter dated March 31, 2008, that the Prototype Plan and related trust are designed in accordance with applicable sections of the IRC. Although the Plan has been amended since receiving the determination letter, the Plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and, therefore, believe that the Plan is qualified and the related trust is tax-exempt.

U.S. GAAP requires plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the U.S. Department of Labor and/or IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2011.

H. RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

I. RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500

The following is a reconciliation of net assets available for benefits per the financial statements at December 31, 2013 and 2012 to the Form 5500:

	December 31, 2013	December 31, 2012
Net assets available for benefits per the financial statements	$9,608,765	$7,764,975
Less:		
Employer contributions accrued - current year	(274,043)	(264,217)
Net assets available for benefits per the Form 5500	$9,334,722	$7,500,758

I. RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500 (Continued)

The following is a reconciliation of contributions per the financial statements to the Form 5500 for the year 2013:

	Participant	Employer
Contributions per financial statements	$771,367	$274,043
Add: Contributions accrued - prior year	-0-	264,217
Less: Contributions accrued - current year	-0-	(274,043)
Contributions per the Form 5500	$771,367	$264,217

These differences relate to the fact that the financial statements were prepared using the accrual method and the Form 5500 was prepared using the cash method.

J. RELATED-PARTY TRANSACTIONS

Certain Plan investments are shares of mutual funds managed by Great-West. In addition, the Plan holds unallocated contracts with Great-West. Great-West is the custodian of the Plan's assets and, therefore, these transactions qualify as party-in-interest transactions. Contract administrator fees paid by the Plan to Great-West were $17,455 for the year ended December 31, 2013.

All of these party-in-interest transactions are exempt from the prohibited transaction rules of ERISA.

K. SUBSEQUENT EVENTS

The Plan has evaluated subsequent events through October 10, 2014, the date the financial statements were available to be issued.
