STAFFMARK/EMS 401(K) SAVINGS PLAN

Notes to Financial Statements

NOTE 1 SUMMARY OF ACCOUNTING POLICIES

Basis of Presentation

The financial statements of the Staffmark/EMS 401(k) Savings Plan (the "Plan") are prepared under the accrual basis of accounting using accounting principles generally accepted in the United States of America ("GAAP").

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Statements of Net Assets Available for Benefits present the fair value of the investment contract as well as the adjustment of the fully benefit responsive investment contract from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

Estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Investments Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 8 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

The Plan utilizes various investment instruments. Investment securities, in general, are exposed to various risks, such as interest rate, credit and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and those changes could materially affect the amounts reported in the statement of net assets available for benefits.

Payments of Benefits

Benefits are recorded when paid.

Excess Contributions Payable

Amounts payable to participants for contributions in excess of amounts allowed by the Internal Revenue Service ("IRS") are recorded as a liability with a corresponding reduction to contributions.

NOTE 1 SUMMARY OF ACCOUNTING POLICIES (CONTINUED)

Administrative Expenses

Certain Plan expenses are paid by Staffmark Holdings, Inc. (the "Plan Sponsor" and the "Company"), and accordingly, are not reflected in the Plan's financial statements. Investment related expenses are included in net appreciation of fair value investments.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent notes receivable from participants are reclassified as distributions based upon the terms of the Plan document.

Related Party Transactions

Certain administrative functions are performed by the officers or employees of the Plan Sponsor. The Plan is not charged by the Plan Sponsor for the services of such officers or employees.

Subsequent Event Evaluation

The Plan Sponsor has evaluated events subsequent to the balance sheet date through October 14, 2014, which is the date the financial statements were available to be issued.

NOTE 2 DESCRIPTION OF PLAN

The following description of the Plan is provided for general information only. Participants should refer to the plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering non-highly compensated employees, unless over age fifty for catch-up contributions only, of Staffmark Holdings, Inc., CBS Personnel Services, LLC ("CBS") (dba Venturi Staffing and Staffmark), Staffmark Investment, LLC, Robert Lee Brown, Inc., and Kilgore Group, Inc. (dba Columbia Staffing, Columbia Healthcare, and Venturi Staffing) who have reached age twenty-one and have completed 30 days of service.

The Company also provides human resources and payroll services through its Employee Management Services ("EMS") division, a professional employment organization. EMS establishes an employment relationship with client personnel assigned to perform client functions on an ongoing basis ("Leased Employee"). The Plan covers Leased Employees of EMS clients ("Client Organization") if the client adopts the Plan and the Leased Employee elects to participate in the Plan. As a result, the Plan constitutes a multiple employer plan subject to Section 413(c) of the Internal Revenue Code for participants of any participating employer. The eligibility requirements range from no service or age requirements to age twenty-one and 6 months of service with at least 500 hours. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

In 2012, a Department of Labor advisory letter addressed guidance on open multiple-employer plans, which is a collection of individual plans maintained by separate employers that are unrelated. The Plan and their legal counsel have determined that this advisory opinion does not apply.

STAFFMARK/EMS 401(K) SAVINGS PLAN

Notes to Financial Statements (Continued)

NOTE 2 DESCRIPTION OF PLAN (CONTINUED)

Contributions

Each year participants may contribute up to 100% of pretax annual compensation, as defined by the Plan document. However, contributions may not exceed limits established under Section 402(g) of the Internal Revenue Code ("IRC") of 1986 as amended (\$17,500 at December 31, 2013). The Plan permits catch-up elective deferrals for participants over 50 years of age subject to IRC limitations. Participants designate the percentage of their total contributions invested in each account and may make transfers between accounts anytime during the year.

The Plan Sponsor can make discretionary matching contributions to the accounts of its participating employees. The matching contribution is based on the participant's contribution and the Plan Sponsor's success at meeting earnings goals. During 2013, the Plan Sponsor elected to make matching contributions totaling \$535,160.

The Plan also allows for each Client Organization to contribute a matching contribution as determined by the respective Client Organization's adoption agreement. These contributions are credited to the corresponding participant accounts. During 2013, matching contributions made by Client Organizations totaled \$236,151.

Minimum coverage testing requirements are applied on an employer by employer basis.

Rollover Contributions

Participants can contribute amounts representing distributions from other qualified defined benefit or contribution plans.

Participant's Account

Each participant's account is credited with allocations of (a) the participant's contribution, (b) the Plan Sponsor or Client Organization's contribution and (c) Plan earnings. Allocations are based on participant earnings or account balances, as defined in the Plan document. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately 100% vested in their elective contributions and rollover contributions, and the actual earnings thereon. Vesting in the discretionary matching contributions as well as the actual earnings thereon is based on years of continuous service. A participant is 100% vested after five years of continuous service, as illustrated below:

<u>Years of Service</u>	<u>Vested Percentage</u>
1	20%
2	40%
3	60%
4	80%
5 or more	100%

STAFFMARK/EMS 401(K) SAVINGS PLAN

Notes to Financial Statements (Continued)

NOTE 2 DESCRIPTION OF PLAN (CONTINUED)

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50 percent of their account balance. The notes receivable from participants are secured by the balance in the participant's account and bear interest at rates that range from 4.25 percent to 10.25 percent, which are commensurate with local prevailing rates as determined quarterly by the Plan administrator. Principal and interest is paid ratably through monthly payroll deductions. Client Organizations may also permit their participants to borrow from their fund accounts if the Client Organization has elected this option in their respective adoption agreement.

Payment of Benefits

On termination of service due to death, disability, or retirement, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account or annual installments.

In-service distributions are permissible for participants that have obtained the age of 59 1/2. Participants electing in-service distributions may elect to receive all or a portion of their vested benefits in a lump sum payment or annual installments.

In conditions of "financial hardship", a participant may apply to the Plan administrator for approval to withdraw that portion of their elective deferrals necessary to meet the financial hardship, subject to the limitations of the Plan and the IRC.

Forfeited Accounts

For the years ended December 31, 2013 and 2012, forfeited non-vested accounts totaled \$33,004 and \$25,744, respectively. Forfeitures are to be used to reduce employer contributions or pay plan expenses. In 2013 and 2012, Plan expenses of \$7,955 and \$19,525, respectively, were paid from forfeited non-vested accounts. In 2013 and 2012, employer contributions were reduced by \$15,000 and \$23,006, respectively, from forfeited non-vested accounts.

Uncertain Tax Positions

U.S. GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain tax position that more likely than not would not be sustained upon examination by the IRS. There are no uncertain tax positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is not currently under audit by any taxing jurisdictions.

The Plan's income tax returns are subject to review and examination by federal authorities. The tax returns for the years 2010 to 2012 are open to examination.

NOTE 3 PLAN TERMINATION

Although it has not expressed any intent to do so, the Plan Sponsor has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become fully vested in their accounts.

NOTE 4 INFORMATION CERTIFIED BY ASSET CUSTODIAN

The following information provided by Massachusetts Mutual Life Insurance Company for the years ended December 31, 2013 and 2012 was certified by them to be complete and accurate with respect to the following:

- (a) The assets held by Massachusetts Mutual Life Insurance Company at December 31, 2013 and 2012, as well as the transactions involving these assets for the year ended December 31, 2013.
- (b) The amount of investment income for the year ended December 31, 2013.
- (c) The supplemental Schedule H, Line 4i – Schedule of Assets (Held at End of Year) for the year ended December 31, 2013.

NOTE 5 TAX STATUS

The Plan Sponsor has adopted a prototype plan which has received an opinion letter from the IRS dated May 11, 2009, which states that the provider's prototype, as then designed, was in compliance with the applicable requirements of the IRC. Furthermore, the Plan has been amended since receiving the opinion letter. However, the Plan administrator and the Plan's tax counsel believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC, therefore, no provision for income taxes has been included in the Plan's financial statements.

NOTE 6 INVESTMENTS

Investments representing five percent or more of the Plan's net assets available for benefits at December 31, 2013 and 2012 are as follows:

STAFFMARK/EMS 401(K) SAVINGS PLAN

Notes to Financial Statements (Continued)

NOTE 7 INVESTMENT CONTRACTS

The Plan entered into a benefit-responsive investment contract with Wells Fargo Stable Value Fund S ("Fund S"). Fund S invests 100% in Wells Fargo Stable Return Fund G ("Fund G"). Fund G invests in guaranteed investment contracts ("GIC") and security-backed contracts. GICs issued at fixed rates are carried at contract value. Security-backed contracts are carried at contract value in the aggregate, which consists of the fair value of the underlying portfolio, accrued interest on the underlying portfolio assets, the fair value of the contract, and the adjustments to contract value. These adjustments generally represent the contract value less fair value of the contract, fair value of the underlying portfolio, and accrued interest on the underlying portfolio assets.

As described in Note 1, the guaranteed investment contract is fully benefit-responsive, which means withdrawals from these investment contracts may be made at contract value for qualifying benefit payments, including participant-directed transfers. The contract value, as reported to the Plan by Wells Fargo, represents contributions made under the contract less any participant-directed withdrawals plus accrued interest which has not been received from the issuer.

The security-backed contracts are designed to reset their respective crediting rates on a quarterly basis. Security-backed contracts cannot credit an interest rate that is less than zero percent.

The crediting rate of security-backed contracts will track current market yields on a trailing basis. The rate reset allows the contract value to converge with the fair value of the underlying portfolio over time, assuming the portfolio continues to earn the current yield for a period of time equal to the current portfolio duration.

To the extent that the underlying portfolio of a security-backed contract has unrealized and/or realized losses, a positive adjustment is made to the adjustment from fair value to contract value under contract value accounting. As a result, the future crediting rate may be lower over time than the then-current market rates. Similarly, if the underlying portfolio generates unrealized and/or realized gains, a negative adjustment is made to the adjustment from fair value to contract value, and the future crediting rate may be higher than the then-current market rates.

GICs generally do not permit issuers to terminate the agreement prior to the scheduled maturity date except to allow for benefit responsive withdrawals. Security-backed contracts generally are evergreen contracts that contain termination provisions, allowing Fund G or the contract issuer to terminate with notice, at any time at fair value, and providing for automatic termination of the contract if the contract value or the fair value of the underlying portfolio equals zero. The issuer is obligated to pay the excess contract value when the fair value of the underlying portfolio equals zero.

STAFFMARK/EMS 401(K) SAVINGS PLAN

Notes to Financial Statements (Continued)

NOTE 7 INVESTMENT CONTRACT (CONTINUED)

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) material amendments to the Fund's structure or administration; (2) changes to the Fund's competing investment options including the elimination of equity wash provisions; (3) complete or partial termination of the Fund, including merger with another plan; (4) the failure of the Fund to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA; (5) the redemption of all or a portion of the interest in the Fund at the direction of the participating Plan Sponsor, including withdraws due to removal of a specifically identifiable group of employees from coverage under the Plan (such as a group layoff or early retirement incentive program), the closing or sale of a subsidiary, employing unit, or affiliate, the bankruptcy or insolvency of a Plan Sponsor, the merger of the Plan with another plan, or the sponsor's establishment of another tax qualified defined contribution plan; (6) any changes in law, regulation, ruling, administrative or judicial position, or accounting requirement; (7) the delivery of any communication to Plan participants designed to influence a participant not to invest in the Fund. The Plan administrator does not believe that the occurrence of any such value event, which would limit the Plan's ability to transact at contract value with participants, is probable.

NOTE 8 FAIR VALUE MEASUREMENTS

GAAP provisions for Fair Value Measurements, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under GAAP provisions for Fair Value Measurements are described below:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets.
- Quoted prices for identical or similar assets or liabilities in inactive markets.
- Inputs other than quoted prices that are observable for the asset or liability.
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

NOTE 8 FAIR VALUE MEASUREMENTS (CONTINUED)

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation approaches used for assets measured at fair value.

Mutual Funds: Value at the daily closing prices as reported by the fund. Mutual funds held by the Plan are open-ended mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value ("NAV") and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Money Market Fund: Value at the daily closing prices as reported by the fund. The money market fund held by the Plan is an open-ended mutual fund that is registered with the Securities and Exchange Commission. This fund is required to publish its daily NAV and to transact at that price. The money market fund held by the Plan is deemed to be actively traded.

Common/Collective Trust Fund: Valued at the present value of future cash flows using the current discount rate. Wells Fargo Bank, N.A. produces individual audited financial statements for their collective trust funds, which invest in both investment contracts and security-backed contracts. To determine the fair value, a fair-to-contract value ratio is applied. At December 31, 2013 and 2012, this ratio was 100.8% and 102.9%, respectively. The contract value at December 31, 2013 and 2012 was \$4,199,421 and \$4,528,597, respectively.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different approaches or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.
