Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

EWA Pilots' Retirement Plan:

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of EWA Pilots' Retirement Plan (the "Plan") which comprise the statements of net assets available for benefits as of December 31, 2013 and 2012, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's ("DOL") Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 ("ERISA"), the Plan Administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 6 which was certified by Bank of New York Mellon, N.A., the trustee of the Plan, except for comparing such information with the related information included in the financial statements. We have been informed by the Plan Administrator that the trustee holds the Plan's investment assets and executes investment transactions. The Plan Administrator has obtained certifications from the trustee as of December 31, 2013 and 2012 and for the years then ended, that the information provided to the Plan Administrator by the trustee is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Emphasis of Matter

As further discussed in Notes 1, 2 and 5 to the financial statements, the Plan was terminated effective December 31, 2013. In accordance with accounting principles generally accepted in the United States of America, the Plan changed its basis of accounting from the ongoing plan basis used in presenting the 2012 financial statements to the liquidation basis used in presenting the 2013 financial statements. Our opinion is not modified with respect to this matter.

Report on Form and Content in Compliance with DOL Rules and Regulations

The form and content of the information included in the financial statements, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

EWA PILOTS' RETIREMENT PLAN

Notes to Financial Statements

December 31, 2013 and 2012

1. Description of Plan

The following description of the EWA Pilots' Retirement Plan (the "Plan") provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions. The term "Con-way" or "Company" refers to Con-way Inc. and subsidiaries.

General

The Plan is a defined benefit pension plan sponsored by Con-way and is subject to the applicable provisions of the Employee Retirement Income Security Act of 1974, as amended ("ERISA"). The Plan was created, effective September 19, 2000, as part of a collective bargaining agreement that brought all of the pilots formerly covered under the Con-way Pension Plan into one plan with its own requirements and benefits. In September 2001, Emery Worldwide Airlines ("EWA") suspended operations and laid off the majority of its employees resulting in a partial termination of the Plan. As a result, all active participants became 100% vested.

Overall responsibility for administering the Plan rests with the Con-way Inc. Administrative Committee (the "Committee"), which is appointed by the Chief Executive Officer of Con-way. The net assets of the Plan and certain other Con-way defined benefit pension plans are held in the Con-way Retirement Master Trust (the "Trust"). The Bank of New York Mellon, N.A. (the "Trustee") was appointed to hold, invest, and disburse plan benefits from the Trust.

Eligibility

Employees were eligible to participate in the Plan if they were covered by a collective bargaining agreement that provided for the accrual of benefits under the Plan, they were not a leased employee, independent contractor or nonresident alien and if they had completed one year of service.

Retirement Benefits

Annual normal retirement benefits, which are payable to members at age 65, are equal to the sum of (a) 1.1% of the participant's average final earnings (based on the average of the five highest consecutive annual rates of pay during the 10 years prior to retirement) up to the participant's average Social Security wage base multiplied by the participant's number of years of credited service under the Plan to a maximum of 35 years, (b) 1.4% of the participant's average final earnings in excess of the participant's average Social Security wage base multiplied by the participant's years of credited service under the Plan to a maximum of 35 years, and (c) 1.4% of the participant's final average earnings multiplied by the participant's years of credited service that are earned after completing 35 years of service.

Participants may elect an early retirement date on or after attaining age 55 and completing 10 years of service. Annual pension benefits for participants retiring early are subject to a reduction factor as defined by the Plan. Participants who retire after attaining age 55 whose age at retirement plus their years of service total at least 85 will receive a retirement benefit unreduced for early retirement. Mandatory retirement is required for some participants under rule of the Federal Aviation Administration ("FAA"), which prohibits participants from performing the responsibilities of an airline pilot after age 65. Upon attaining the age of 65 and the requirements of an early retirement date, participants subject to the FAA rule shall receive an unreduced benefit regardless of whether the participant moves to other employment within Con-way. Vested participants who terminate employment before their normal retirement date and before achieving eligibility for Early Retirement will also be able to commence benefits as early as age 55, but using a different set of Early Retirement Factors.

Con-way amended the Plan for factors used to determine the actuarial equivalent amounts payable to participants based on early retirement dates and optional forms of benefit. For benefit payments based on payment dates starting September 30, 2012, a participant's benefit, determined as of the benefit date, will be the greater of (i) the benefit using factors in effect for benefit starting dates on September 1, 2012, or (ii) the benefit using factors in effect for benefit starting dates on October 1, 2012.

Con-way amended the Plan to eliminate the reductions of basic benefits that had been charged for the cost of providing surviving spouse death benefits coverage. Effective for benefit starting dates on or after September 21, 2012, this charge is no longer deducted from the participant's basic benefit.

Participants eligible for and receiving disability benefits under Con-way's Long-Term Disability policy continue to accrue benefits until the later of the following: attaining age 65, receiving long-term disability benefits for the maximum period allowed by the disability policy, receiving a lump-sum settlement, or termination of the disability.

Con-way amended the Plan for pre-retirement spouse death benefits, effective for death benefits payable for participants who die on or after October 1, 2012 but before beginning their pension payments. If the participant had attained the age of 55 and completed 10 years of service the benefit to the surviving spouse shall be the greater of (i) an amount equal to 100% of the benefit the participant would have received had the participant commenced receiving the benefit as a 100% contingent annuity with the spouse on the day before the death or (ii) a monthly annuity for the life of the surviving spouse equal to 50% of the participants basic benefit on the date of death. For surviving spouses where the participant's death is before October 1, 2012, the surviving spouse's annuity shall be the greater of (i) an amount equal to 50% of the benefit the participant would have received had the participant commenced receiving the benefit as a 50% contingent annuity with the spouse on the date before the death, or (ii) a monthly annuity for the life of the surviving spouse equal to 50% of the participant's basic benefit on the date of death, adjusted by various factors. Benefits for the surviving spouse would be reduced for those participants that had not yet attained the age of 55.

Employees may elect to receive their pension benefits in the form of single life annuities or various forms of joint life annuities, or a level income option. If the actuarial equivalent of the employee's pension benefit is not over \$5,000 on the benefit starting date, the only form of benefit is a lump-sum. If the actuarial equivalent of the employee's pension benefit is over \$5,000 but not over \$10,000 on the benefit starting date, the only forms of benefit available is a lump-sum, three forms of joint annuity (50%, 75% and 100%), or a single life annuity with 60 months certain. Con-way amended the Plan in 2012 to add the 100% option for benefit starting dates on or after October 1, 2012.

Con-way amended the Plan for the approved termination on December 31, 2013. At this time, the Plan ceased accruing benefits. Refer to discussion of the Plan termination at Note 5, "Plan Termination."

2. Summary of Accounting Policies

Basis of Accounting

The accompanying financial statements have been prepared using the accrual method of accounting. Effective December 31, 2013, the Plan was terminated. As a result, the basis of accounting has been changed from the ongoing basis of accounting presented in the 2012 financial statements to the liquidation basis of accounting used in the presentation of the accompanying 2013 financial statements.

Income Recognition and Valuation of Investments

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

The fair value of the Plan's interest in the Trust is based on the beginning-of-year value of the Plan's interest in the Trust plus actual contributions and allocated investment gain or loss less actual benefit payments to participants and administrative expenses. Investments in the Trust are reported at fair value, as more fully discussed in Note 9, "Con-way Retirement Master Trust."

Investment Risk

The Plan assets are invested in a variety of investments in securities that are generally exposed to various risks, such as interest rate, credit and overall market volatility risks. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

The Plan may invest in asset-backed securities, collateralized mortgage obligations, commercial mortgage-backed securities and various derivative instruments. The fair value, liquidity and related income of these securities are sensitive to changes in economic conditions, including real estate values, delinquencies or defaults, or both, and may be adversely affected by shifts in investors' perceptions of the issuers and changes in interest rates.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to asset returns, interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term could be material to the financial statements.

Benefit Payments

Benefit payments to participants are recorded upon distribution.

Administrative Expenses

During 2013 and 2012, trustee fees, investment management fees, and actuarial fees were paid through the Trust and are included in the Plan's share of Trust investment gain. During 2013 and 2012, expenses of \$104,000 were included in the Plan's share of Trust investment gain.

The Plan pays certain other administrative expenses, primarily premiums to the Pension Benefit Guaranty Corporation ("PBGC"), which are reported on the statements of changes in net assets available for benefits as administrative expenses of the Plan. Other expenses, including computer services, professional fees, office supplies and payroll expenses of administrative and clerical personnel are provided by the Company without charge to the Plan.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles ("GAAP") in the U.S. requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities and changes in those amounts, disclosure of contingent assets and liabilities, and the actuarial present value of accumulated plan benefits at the date of the financial statements. Actual results could differ from those estimates.

New Accounting Standards

In April 2013, the Financial Accounting Standards Board issued Accounting Standards Update ("ASU") 2013-07, "Presentation of Financial Statements (Topic 205): Liquidation Basis of Accounting." The new standard requires the use of liquidation basis of accounting when liquidation is imminent and the return from liquidation is remote. Financial statements prepared under liquidation basis of accounting are required to present assets at the expected cash proceeds from liquidation and liabilities are presented using GAAP. The amendment also requires disclosures stating the plan for liquidation and the methods and significant assumptions used to measure assets and liabilities. This guidance is effective for fiscal years, and interim periods within those years, beginning after December 15, 2013. Con-way does not believe the standard will have a material effect on the Plan's financial statements. Refer to Note 5, "Plan Termination" for additional discussion.

Reclassifications

Certain prior year amounts have been reclassified to conform with the current year presentation.

3. Funding Policy

Contributions to the Plan, if necessary, are made to meet or exceed the minimum funding standards of ERISA and the Internal Revenue Code (the "Code"). In determining the amount and timing of its pension contributions, Con-way considers both the ERISA- and GAAP-based measures of funded status as well as the tax deductibility of contributions.

4. Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits are those future periodic payments that are attributable under the Plan's provisions to the service rendered by retired and non-retired participants. Accumulated plan benefits include benefits expected to be paid to employees or their beneficiaries upon retirement, termination, or death. The actuarial present value of accumulated plan benefits at December 31, 2012 (beginning-of-the-year presentation) was as follows:

Vested benefits:	
Terminated participants currently receiving payments	\$ 12,886,393
Active participants and terminated participants entitled to deferred benefits	10,068,012
Total vested benefits	22,954,405
Nonvested benefits	158,806
Total actuarial present value of accumulated plan benefits as of December 31, 2012	<u>\$ 23,113,211</u>

The following table presents the change in the actuarial present value of accumulated plan benefits:

Actuarial present value of accumulated plan benefits, December 31, 2011	\$ 20,868,599
Increase (decrease) during the year attributable to:	
Increase in interest due to the decrease in the discount period	1,542,583
Other actuarial losses	179,340
Benefit payments to participants	(1,299,902)
Change in actuarial assumptions	1,358,131
Change in plan provisions	464,460
Net increase	2,244,612
Actuarial present value of accumulated plan benefits, December 31, 2012	\$ 23,113,211

The actuarial present value of accumulated plan benefits is determined by Mercer, the Plan's actuary, and is that amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as death, withdrawal, or retirement) between the valuation date and the expected date of payment.

The following significant assumption was changed since the year ended December 31, 2011:

- *Interest rate* - changed from 7.65% to 7.10%

Other significant actuarial assumptions used in determining the actuarial present value of accumulated plan benefits as of December 31, 2012 were as follows:

- *Actuarial cost method* - Unit credit method
- *Return on investments* - 7.10% compounded annually
- *Mortality* - RP-2000 Mortality Table, projected to 2017, 100% white collar

The return on investments of 7.10% includes a reduction of 0.27% to reflect anticipated administrative expenses associated with providing benefits.

The foregoing actuarial assumptions are based upon the presumption that the Plan will continue. Different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits upon termination. The actuarial valuation was prepared as of January 1, 2013. Had the valuation been prepared as of December 31, 2012, there would be no material differences.

5. Plan Termination

Upon Plan termination, the net assets of the Plan will be allocated, as prescribed by ERISA and its related regulations, generally to provide the following benefits in the order indicated:

- a. Annuity benefits that former employees or their beneficiaries have been receiving for at least three years, or that employees eligible to retire for that three-year period would have been receiving if they had retired with benefits in the normal form of annuity under the Plan. The priority amount is limited to the lowest benefit that was payable (or would have been payable) during those three years. The amount is further limited to the lowest benefit that would be payable under Plan provisions in effect at any time during the five years preceding Plan termination.
- b. Other vested benefits insured by the Pension Benefit Guaranty Corporation, a U.S. government agency, up to the applicable limitations discussed below.
- c. All other vested benefits not insured by the PBGC.
- d. All nonvested benefits.

Certain benefits under the Plan are insured by the PBGC upon Plan termination. Generally, the PBGC guarantees most vested normal-age retirement benefits, early retirement benefits, and certain disability and survivors' pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination. However, there is a statutory ceiling, which is adjusted periodically, on the amount of an individual's monthly benefit that the PBGC guarantees.

Whether all participants receive their benefits under a Plan termination would depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations and may also depend on the financial condition of the Plan sponsor and the level of benefits guaranteed by the PBGC.

The Board of Directors delegated their authority to terminate the EWA Pilots' Retirement Plan to the Employee Benefits Review Committee (the "EBRC"). The EBRC approved the termination of the Plan as of December 31, 2013. The Plan expects

to settle the entire pension benefit obligation with lump-sum distributions or non-participatory annuities for participants by the end of 2014. Assets are presented at fair value which is the expected cash proceeds from liquidation and liabilities are recorded in accordance with GAAP. As of January 1, 2014, the Plan no longer has a participating interest in the Con-way Retirement Master Trust.

6. Summary of Information Certified by the Trustee

The plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. The following information included in the financial statements as of December 31, 2013 and 2012 and for the years then ended was provided and certified by the Trustee as complete and accurate:

- Investment in the Trust
- Plan's share of the Trust investment gain
- The Trust information in Note 9, "Con-way Retirement Master Trust" (excluding "Fair Value Measurements" hierarchy)

7. Related-Party Transactions

Certain Plan investments are managed by the Trustee. Therefore, these managed investments and investment transactions qualify as party-in-interest transactions. Additionally, the Plan sponsor, Con-way, is a party-in-interest to the Plan; however, there are no transactions with the Plan sponsor other than the funding of contributions to the Plan and payment of certain administrative expenses of the Plan.

8. Income Tax Status

The Internal Revenue Service has determined and informed Con-way by a letter dated February 25, 2014, that the Plan and related Trust are designed in accordance with applicable sections of the Code.

9. Con-way Retirement Master Trust

The Trust holds the assets associated with two other Con-way defined benefit pension plans. Each participating retirement plan has an undivided interest in the Trust. In the administration of the Plan, the Trustee holds the assets of the Trust and manages investment of funds under the direction of several investment managers and the Plan administrator. All gains and losses of the Trust are prorated monthly based on the ratio of investment in the Trust, at market value, which each plan holds, to the total market value of the Trust.

Interests

The following is a summary of the participating plan interests in the Trust:

	December 31, 2013		December 31, 2012	
	Market Value	Share	Market Value	Share
Con-way Pension Plan	\$ 1,373,359,694	95.4%	\$ 1,219,778,006	95.2%

Assets of the Trust are managed pursuant to a long-term allocation strategy that seeks to mitigate funded status volatility by increasing the Trust's investment in fixed-income investments over time. This strategy was developed by analyzing a variety of diversified asset-class combinations in conjunction with the projected liabilities of the Plan. In 2013, the Trust lowered its percentage of investments in equity securities and increased its percentage of investments in fixed-income securities.

The Trust's investment strategy as of December 31, 2013 is to achieve a mix of approximately 69% in fixed-income securities and 31% of investments in equity securities. Investments in fixed-income securities consist primarily of high-quality U.S. corporate debt instruments in a variety of industries. The target allocations for equity securities include 16% in U.S. large companies, 3% in U.S. small companies and 12% in international companies. Investments in equity securities are allocated between growth-and value-style investment strategies and are diversified across industries and investment managers. The Trust's investments in fixed-income securities and equity consist of individual securities held in managed separate accounts as well as commingled investment funds.

The Trust's investment strategy does not include a meaningful long-term investment allocation to cash and cash equivalents; however, the Trust's cash allocation may fluctuate periodically in response to timing considerations regarding contributions,

investments, and the payment of benefits and eligible Trust expenses. Additionally, the level of cash and cash equivalents may reflect the un-invested balance of each manager's allocated portfolio balance. This “un-invested cash” is typically held in a short-term fund that invests in money-market instruments, including commercial paper and other liquid short-term interest-bearing instruments.

The Trust's investment policy does not allow investment managers to use market-timing strategies or financial derivative instruments for speculative purposes. However, financial derivative instruments are used to manage risk and achieve stated investment objectives regarding duration, yield curve, credit and equity exposure. Generally, the investment managers are prohibited from short selling, trading on margin, and trading commodities, warrants or other options, except when acquired as a result of the purchase of another security, or in the case of options, when sold as part of a covered position. Con-way's investment policies also restrict the investment managers from accumulating concentrations by issuer, country or industry segment.

The Trust invests in foreign-denominated investment securities. In order to mitigate the risk associated with foreign currency fluctuations on these investments, the Trust purchases and sells forward currency contracts with various maturity dates. In connection with these forward contracts, at December 31, 2013 and December 31, 2012, the Trust had a notional-value counterparty payable and receivable of \$61,119,239 and \$43,363,831, respectively.

Fair-Value Measurements

Assets and liabilities reported at fair value are classified in one of the following three levels within the fair-value hierarchy:

Level 1 - Quoted market prices in active markets for identical assets or liabilities

Level 2 - Observable market-based inputs or unobservable inputs that are corroborated by market data

Level 3 - Unobservable inputs that are not corroborated by market data

The following tables summarize the valuation of investments within the fair-value hierarchy:

Following is a description of the valuation methodologies used for investments measured at fair value. There have been no changes in the methodologies used at December 31, 2013 and 2012.

Due to the short maturity of interest-bearing cash, its carrying amount approximates fair value. Common and collective trusts are not publicly traded and do not have readily determinable fair values. Accordingly, common and collective trusts are valued at their net asset value per unit based on the value of the underlying investments. Investments in common and collective trusts can generally be redeemed without restriction. U.S. Government securities, mutual funds, corporate stocks and exchange traded futures are valued at the closing price reported in the active markets on which the individual securities are traded. Corporate debt instruments, international government securities and municipal bonds are generally valued using observable bid-ask spreads or broker-provided pricing. Investments in corporate debt instruments consist primarily of high-quality U.S. corporate debt instruments in a variety of industries. The fair value of the private real estate fund is based on the underlying assets, which consist of commercial and residential properties valued using periodic appraisal. The private real estate fund maintains a redemption plan whereby redemption requests must be received in writing 45 days prior to the end of the quarter. Redemptions are paid in accordance with the terms of the private real estate fund's articles of incorporation and upon approval by its board of directors. If the private real estate fund is unable to fully satisfy all redemption requests, partial redemptions may be made on a pro-rata basis, in proportion to the total number of shares held by each shareholder that has formally submitted a redemption request, regardless of when the requests were received. Any shares that are not redeemed in a given quarter are carried forward into a redemption queue for payment in future quarters. The shares are redeemed for each shareholder on a first-in, first-out basis (i.e. the first shares purchased by the shareholder are the first ones to be redeemed). The hedge fund is a limited partnership and the fair value is based on the fair value of the underlying assets, which consists of individual equities, convertible securities, futures, forward contracts, currency forwards, swaps, high-yield debt portfolios, options, other derivative instruments, and cash which are valued monthly by an administrator engaged by the fund. Other assets consist of investments with market based prices and observable market-based inputs.

The following is a summary of the significant accounting policies associated with the Trust's use of derivatives:

- a. Upon entering into a futures contract, the Trust is required to pledge to the broker an amount of cash and/or liquid securities equal to the minimum "initial margin" requirements of the exchange. Pursuant to the futures contract, the Trust agrees to receive from, or pay to, the broker an amount of cash equal to the daily fluctuation in the value of the futures contract. Such receipts or payments are known as "variation margin," which is settled daily. The change in value related to the daily fluctuations in the value of the futures contract is included as unrealized gains (losses) in the changes in Trust net assets. When the futures contract expires the Trust transfers the unrealized appreciation (depreciation) to a realized gain (loss) equal to the change in the value of the futures contract when it was opened and the value at the time it expired.
- b. The Trust may buy or write put and call options through listed exchanges and in the over-the-counter market. When the fund buys or writes an option, an amount equal to the premium paid or received by the fund is recorded as an asset or liability and is subsequently adjusted to the current market value of the option purchased or written. The premiums paid or received from buying or writing options are recorded as realized gains or losses upon the expiration of the options. The difference between the premium and the amount paid or received on affecting a closing purchase or sale transaction is also treated as a realized gain or loss. If an option is exercised, the premium paid or received is recorded as a realized gain or loss if sold or an adjustment to cost if acquired. The Trust, as a writer of an option, may have no control over whether the underlying securities may be sold (call) or purchased (put) and, as a result, bears the market risk of an unfavorable change in the price of the security underlying the written option.
- c. The Trust may enter into swap contracts. Swaps are marked-to-market daily based upon quotations from market makers and the change, if any, is recorded as an unrealized gain or loss in the changes in Trust net assets. Certain investment contracts may require collateral. Cash is either received from, or provided to the investment contract counterparty depending on the terms of the contract and the market value of the security. Cash received from counterparties can be held or reinvested in other securities and is recorded as a liability of the Trust. Cash provided to counterparties is an asset of the Trust.

For those investments that are valued at net asset value per unit there were no unfunded commitments at December 31, 2013 and 2012.

The following table summarizes the changes in fair values of financial instruments measured using Level 3 inputs:

Type of plan	Final average earnings
Definitions	
• Eligibility	<u>Regular Employees</u> : 1 year of service (elapsed time) following date of hire. <u>Supplemental Employees</u> : 1 year of service (at least 1,000 Hours of Service) following date of hire. Employees are eligible to participate in the plan if they are covered by a collective bargaining agreement that provided for accrual of benefit under the plan and satisfy the above service requirement. The date of participation is retroactive to date of hire. Currently, there are no new employees eligible to participate in the plan.
• Service considered	<u>Vesting service</u> : Years of Service measured from date of hire. <u>Credited service</u> : Years of Service measured from date of participation. Supplemental Employees must complete at least 2,000 Hours of Service as a Participant to get credited a full Year of Service starting from 1988. Supplemental Employees working less than 2,000 Hours of Service will receive fractional years of service credit by dividing actual hours by 2,000.
• Vesting	100% vested after 5 Years of Service.
• Compensation considered	Basic Compensation is regular salary or wages, overtime, voluntary deferrals under Code Sections 125, 132(f)(4), and 401(k), and cash bonuses other than long term incentive bonuses and incentive bonuses for opting out of health coverage, paid during any calendar year. For Supplemental Employees, Basic Compensation is the amount determined as above, divided by the Participant's Hours of Service, and multiplied by 2,000. Plan compensation is limited to the extent required by Code Section 401(a)(17). Basic Compensation for years prior to 2002 is limited to \$200,000.

Schedule SB, Part V — Summary of Plan Provisions

• Average final compensation	<p>Basic Compensation averaged over the five consecutive calendar years producing the highest such average out of the ten calendar years ending on the date as of which the Average Final Compensation is determined.</p> <p>Basic Compensation in a final partial calendar year is counted if it exceeds the Basic Compensation in the calendar year that is five years earlier.</p>
• Integration level	<p>Participant's Covered Compensation for the Plan Year. Covered Compensation means the average of the contribution and benefit bases in effect under Section 230 of the Social Security Act for each of the 35 calendar years ending with the year the Participant attains Social Security Retirement Age.</p>
• Accrued benefit	<p>1. <u>Non-Grandfathered Participants</u>: Annuity benefit payable for the life of the Participant with five years certain is (A) minus (B), but no less than (C):</p> <p>A. Sum of the following:</p> <ul style="list-style-type: none"> i. 1.1% of Average Final Compensation multiplied by the Participant's years of Credited Service ii. 0.3% of Average Final Compensation in excess of the Integration Level multiplied by the Participant's years of Credited Service iii. 0.3% of Average Final Compensation up to the Integration Level multiplied by the Participant's years of Credited Service performed after completing 35 years of Service <p>B. 2. Grandfathered Participants: (Participants of the prior pension plan before the acquisition of Emery prior to 1991): Annuity benefit payable for the life of the Participant with five years certain is amount determined in (1)(A) above plus (2)(A), but no less than (2)(B) plus (2)(C) minus (2)(D):
 - A. 0.5% of Average Final Compensation multiplied by the Participant's years of Credited Service before 1988
 - B. 2.0% of Average Final Compensation multiplied by the Participant's years of Credited Service before 1988
 - C. 1.5% of Average Final Compensation multiplied by the Participant's years of Credited Service after 1987
 - D. Social Security Offset. Social Security Offset is lesser of:
 - i. 1 2/3% of Participant's age 65 Social Security Amount multiplied by the Participant's years of Credited Service up to a maximum of 30 years, and
 - ii. 50% of the Participant's age 65 Social Security Amount multiplied by a fraction (not to exceed 1), the numerator of which is the Participant's years of Credited Service accumulated to the date the Social Security Offset is determined and the denominator of which is the years of Credited Service the Participant would have at age 65 if Credited Service had continued accumulating to that age.

The total Accrued Benefits determined under 1. or 2. above will be offset by the following (if applicable):

- 1987 Annuity Benefit attributable to Credited Service through October 31, 1987 under the Emery Pension Plan
- Certain collectively bargained pension benefits as specified in the plan
- Actuarial Equivalent of pre-1984 employee contributions with interest if withdrawn by Participant's election

Accrued Benefits are limited to the extent required by Code Section 415.

Miscellaneous	
• Maximum compensation	Compensation for any 12-month period used to determine accrued benefits may not exceed the limits in IRC Section 401(a)(17) for the calendar year in which the 12-month period begins. This limit is indexed annually. For 2013, the limit is \$255,000.
• Maximum benefits	Annual benefits may not exceed the limits in IRC Section 415. This limit is indexed annually. For 2013, the limit is \$205,000.
• Forfeiture of benefits for missing persons	If the company is unable to locate a participant or beneficiary to whom benefit is payable, the benefit shall be forfeited. The benefit shall be reinstated if a claim for it is made by the participant or the beneficiary.

Benefits Included or Excluded

Unless noted below, all benefits provided by the plan, as restated and amended through Amendment #7, are included in this valuation.

- **Most recent plan amendments included:** Amendment #7.
- **Plan amendments excluded:** None.
- **Late retirement increases:**
 - *Active participants:* The plan provides benefit suspension notices to participants who work beyond normal retirement; therefore, late retirement actuarial increases only apply to participants who defer retirement beyond age 70½. This valuation includes actuarial increases for current participants over age 70, if applicable.
 - *Deferred vested participants:* To approximate benefit payments retroactive to age 65, current deferred vested participants over normal retirement age are valued including the late retirement actuarial increase.
- **Internal Revenue Code limitations:** The limitations of Internal Revenue Code Section 415(b) and 401(a)(17) have been incorporated into our calculations.
- **IRC Section 416 rules for top-heavy plans:** We did not test whether this plan is top-heavy (when the present value of benefits for key employees equals or exceeds 60% of the present value for all participants). However, we expect that the plan is not top-heavy

Schedule SB, Part V — Summary of Plan Provisions

due to the large number of rank-and-file participants; therefore, the funding target and target normal cost do not reflect any liability for top-heavy benefit accruals.

Additional Benefits Included or Excluded

- **IRC Section 436 benefit restrictions:**
 - *Unpredictable contingent event benefits:* This valuation excludes restricted contingent event benefits that occurred before the valuation date but includes contingent event benefits which are expected to occur on or after the valuation date regardless of anticipated funding-based limitations.
 - *Plan amendments:* See above.
 - *Prohibited payments:* Limitations on prohibited benefits (if any) are reflected for annuity starting dates before the valuation date but are ignored for annuity starting dates on or after the valuation date.
 - *Benefit accruals:* The target normal cost does not reflect any limitation on benefit accruals.
- **Unpredictable contingent event benefits:** The plan does not have any unpredictable contingent event benefits.

Plan Provision Changes Since Prior Valuation

- Maximum compensation amounts and maximum benefit amounts under IRS rules were updated from 2012 to 2013.
- Amendments #5 and #7 were adopted to reflect changes to the actuarial equivalence. In addition, the automatic form of payment and the pre-retirement death benefit for married participants were changed from 50% Joint and Survivor Annuity to 100% Joint and Survivor Annuity. Finally, Amendment #6 was adopted to prospectively eliminate the reduction in benefits related to the cost of providing a spousal death benefit; this change had no effect on liability amounts.

Actuarial Methods for Funding
Asset Methods

The asset valuation method is an average of the adjusted market value for each quarter during the last 24 months preceding the valuation date. The adjusted market value is the market value at each determination date adjusted to the valuation date based on actual cash flows and expected interest at the lesser of the expected rate of return and the third segment rate. This amount is adjusted to be no greater than 110 percent and no less than 90 percent of the fair market value, as defined in IRC Section 430.

A characteristic of this asset method is that, over time, it is slightly more likely to produce an actuarial value of assets that is less than the market value of assets than an actuarial value that is greater than the market value.

Participant Methods

Participants or former participants are included or excluded from the valuation as described below:

- **Participants included:** The plan sponsor provides us with data on all employees as of the valuation date, but only those employees who have completed the plan's eligibility requirements are included in the valuation of liabilities.
- **Participants excluded:** No actuarial liability is included for nonvested participants who terminated prior to the valuation date. For this purpose, participants with a break in service on the valuation date are treated as terminated participants.
- **Insurance contracts:** The plan does not have any insurance contracts.

Minimum Funding Methods

The funding target for minimum funding calculations is computed using the traditional unit credit method of funding. The objective under this method is to fund each participant's benefits under the plan as they accrue. Thus, the total pension to which each participant is expected to become entitled at retirement is broken down into units, each associated with a year of past or future credited service.

A detailed description of the calculation follows:

- The plan's valuation date is the beginning of the plan year.

Schedule SB, Part V — Statement of Actuarial Assumptions/Methods

- An individual's **funding target** is the present value of future benefits based on credited service and average pay as of the beginning of the plan year, and an individual's **target normal cost** is the present value of the benefit expected to accrue in the plan year. If multiple decrements are used, the funding target and the target normal cost for an individual is the sum of the component funding targets and target normal costs associated with the various anticipated separation dates.
- For currently disabled participants, the **funding target** is the present value of future benefits based on credited service projected to retirement age. All benefits are considered "accrued", including those based on service not yet earned, therefore **target normal cost** for currently disabled participants is zero.
- The plan's **target normal cost** is the sum of the individual target normal costs, and the plan's **funding target** is the sum of the individual funding targets for all participants under the plan.
