Licking Memorial Health Systems Tax Deferred 403(b) Plan
Notes to the Financial Statements
December 31, 2013 and 2012

Note A - Description of Plan

The following description of the Licking Memorial Health Systems Tax Deferred 403(b) Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

1. General: The Plan is a defined contribution plan under Section 403(b) of the Internal Revenue Code (the "IRC") covering substantially all employees of Licking Memorial Health Systems (the "Plan Sponsor"). The Plan was established to provide employees with a systematic means of saving and investing for the future. All permissible employees of the Plan Sponsor, as defined in accordance with the universal availability standards, are eligible to enroll in the Plan on their date of hire. Deferrals begin upon enrollment. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").
2. Plan Contributions: Each year, participants may elect to contribute up to 75% of their eligible compensation, subject to certain limitations prescribed by the IRC and other limitations specified in the Plan. Participants also are permitted to make rollover contributions to the Plan from a qualified plan, annuity contract, or individual retirement account or annuity in accordance with the Plan Document.
3. Participant Accounts: Individual accounts are maintained for each Plan participant. Each participant's account is credited with the participant's contributions and Plan gains or losses. The benefit to which a participant is entitled is the vested benefit that can be provided from the participant's account.
4. Investment Options: Upon enrollment in the Plan, participants may direct the investment of their contributions into various investment options offered by the Plan. They may change their investment options among those investments provided at any time during the Plan year.
5. Vesting: Participants are immediately vested in all contributions plus actual earnings thereon.
6. Notes Receivable from Participants: Participants may borrow from their account balances with interest charged at a rate equal to a reasonable interest rate commensurate with current interest rates charged for loans made under similar circumstances by persons in the business of lending money, which remains in effect for the duration of the loan. Loan terms range from 1 to 5 years or up to 15 years for the purchase of a primary residence. The minimum loan is \$1,000 and the maximum loan is the lesser of \$50,000 less the highest outstanding loan balance during the one-year period prior to the new loan application date, or 50% of the participant's account balance less any current outstanding loan balance. The loans are secured by the balance in the participants' account and bear interest at rates ranging from 4.25% to 10.25%. Principal and interest are paid ratably through payroll deductions. Participants may only take out one loan during any 12 month period and may only have one loan outstanding at any time.
7. Payment of Benefits: Upon retirement, disability or death, a participant or beneficiary receives the entire amount credited to the participant's account in either a lump sum or, at the participant's election, in annual installments or an annuity contract. Upon termination, other than by retirement, disability, or death, a participant becomes eligible to receive the current value of the participant's vested account in a lump sum. Hardship distributions are permitted under the Plan if certain conditions are satisfied.

Note B - Summary of Significant Accounting Policies

1. Basis of Accounting: The accompanying financial statements have been prepared on the accrual basis of accounting in accordance with principles generally accepted in the United States of America ("U.S. GAAP"). The Accounting Standards Codification ("ASC") as produced by the Financial Accounting Standards Board ("FASB") is the sole source of authoritative U.S. GAAP.
2. Use of Estimates: The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of certain assets, liabilities, and disclosures. Accordingly, the actual amounts could differ from those estimates.
3. Investment Valuation and Income Recognition: The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the Plan year.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The Plan offers a benefit-responsive investment contract, General Account, to participants. The Statements of Net Assets Available for Benefits at December 31, 2013 and 2012 present the contract value of the investments, which approximates fair value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract basis.

4. Notes Receivable from Participants: Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. No allowance for credit losses has been recorded as of December 31, 2013 and 2012. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan agreement.
5. Payment of Benefits: Benefit payments are recorded when paid.
6. Administrative Expenses: Administrative expenses of the Plan are paid by the Plan sponsor or Plan participants, as defined in the Plan agreement.
7. Investment Management Fees and Operating Expenses: Investment management fees and operating expenses charged to the Plan for investments in the various funds are deducted from income earned on a daily basis and are reflected as a component of net appreciation in fair values of investments.
8. Subsequent Events: Subsequent events for the Plan have been considered through the date of the Independent Auditor's Report, which represents the date the financial statements were available to be issued.

Note C - Information Certified by the Plan's Trustee, Custodian, and Administrative Service Provider for the Plan Custodian

The Plan Administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Hartford Life Insurance Company ("Hartford"), custodian of the Plan, has certified to the completeness and accuracy of all investments and notes receivable from participants information reflected on the accompanying Statement of Net Assets Available for Benefits as of December 31, 2012. Massachusetts Mutual Life Insurance Company ("MassMutual"), the administrative service provider for Hartford, and Vanguard Fiduciary Trust Company ("Vanguard"), trustee of the Plan, have certified to the completeness and accuracy of investments and notes receivable from participants information reflected on the accompanying Statement of Net Assets Available for Benefits as of December 31, 2013, the Schedule of Assets (Held at End of Year) as of December 31, 2013, and the related investment and interest income on notes receivable from participants information reflected in the Statement of Changes in Net Assets Available for Benefits for the year ended December 31, 2013.

Note E - Fair Value Measurements

FASB ASC 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

- Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
- Level 2: Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.
- Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for the investments measured at fair value. There have been no changes in the methodologies used at December 31, 2013 and 2012.

Money market fund and mutual funds: Valued at the net asset value ("NAV") of shares held by the Plan at year end. The NAV is based on the value of the underlying investment assets owned by the fund, minus liabilities, and then divided by the number of shares outstanding.

Pooled separate accounts: Valued at accumulation unit value ("AUV") of units held by the Plan at year end. Accumulation units are assigned a unit value on a daily basis at the end of each day the New York Stock Exchange ("NYSE") is open for trading (as of the close of the NYSE on that day). While some pooled separate accounts may have publicly quoted pricing inputs (Level 1), the account values of separate accounts are not publicly quoted and therefore, classified as Level 2 investments.

Guaranteed investment contract: Valued at contract value, which approximates fair value.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Notes to the Financial Statements (Continued)
December 31, 2013 and 2012

Note F - Investment Contracts with Insurance Company

The Plan holds fully benefit-responsive investment contracts with Hartford Life Insurance Company (the "Issuer") who maintains the contributions in general accounts. The accounts are credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

As described in Note B, because the insurance investment contracts are fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the insurance investment contract. Contract value, as reported to the Plan by the issuer, represents contributions made under the contracts, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

The fair value of the insurance investment contracts at December 31, 2013 and 2012 was \$1,011,688 and \$8,222,892, respectively. The average yield and crediting interest rate for the years ending December 31, 2013 and 2012 was 3% for contracts 750057 and 750072 and 4% for contracts 080110, 082015, and 082519. The crediting interest rate is based on a formula agreed upon with the issuer, but may not be less than 3% for contracts 750057 and 750072 over the life of the respective contracts. Such interest rates are reviewed on a quarterly basis for resetting. Contracts 080110, 082015, and 082519 were terminated during the year ending December 31, 2013 as a result of the change in service providers effective July 2013. All assets previously held in contracts 080110, 082015, and 082519 at Hartford were transferred to Vanguard.

Certain events, such as the premature termination of the contract by the Plan or the termination of the Plan, would limit the Plan's ability to transact at contract value with the issuer. The Plan administrator believes the occurrence of such events that would also limit the Plan's ability to transact at contract value with Plan participants is not probable.

The termination of contracts 080110, 082015, and 082519 during the year ending December 31, 2013 did not affect the Plan's ability to transact at contract value with the issuer.

Note G - Related Party Transactions

Certain administrative services are provided by the Plan Sponsor at no cost to the Plan and certain administrative costs incurred by the Plan are paid by the Plan Sponsor.

Certain Plan investments are shares of a money market fund and mutual funds managed by Vanguard, and certain Plan investments are shares of pooled separate accounts managed by the Hartford. Vanguard is the trustee of the Plan and Hartford is the custodian of the Plan, therefore, these transactions qualify as party-in-interest.

Notes to the Financial Statements (Continued)
December 31, 2013 and 2012

Note H - Income Tax Status

The Plan has been designed to qualify under Section 403(b) of the IRC. The terms of the Plan have been prepared to conform to the sample language provided by the Internal Revenue Service ("IRS") in Revenue Procedure 2007-71. The Plan administrator intends to apply for a determination letter on the Plan once the IRS opens such a program. The Plan is required to operate in conformity with the IRC to maintain the tax-exempt status for Plan participants under Section 403(b).

U.S. GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the organization has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2010.

Note I - Plan Termination

Although it has not expressed any intent to do so, the Plan Sponsor has the right under the Plan to discontinue its contribution at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

Note J - Risk and Uncertainties

The Plan invests in various investment securities. Investment securities in general are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and such changes could materially affect participants' account balances and the amounts reported in the financial statements.
