CRESCENT CREDIT UNION 401(k) PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2013 AND 2012

NOTE A – DESCRIPTION OF PLAN

The following description of the Crescent Credit Union 401(k) Plan (the “plan”) provides only general information. Participants should refer to the plan agreement for a more complete description of the plan's provisions.

1. *General.* The plan is a defined contribution plan covering all employees of the Crescent Credit Union (the “Credit Union”) who are age 21 or older and have completed 3 months of service with the Credit Union. The plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).
2. *Plan Merger.* As a result of a vote of the plan sponsor, all assets of the Crescent Credit Union Money Purchase Pension Plan were merged into this plan effective December 31, 2013. As part of this merger, the plan had a \$68,837 employer contribution receivable that was due to the Crescent Credit Union Money Purchase Pension Plan as of December 31, 2013.
3. *Contributions.* Through December 31, 2013, participants were able to contribute up to 50% of pretax annual compensation, as defined in the plan. Participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans (rollover). The Credit Union may make a discretionary matching contribution. During the years ended December 31, 2013 and 2012 the Credit Union did not make a matching contribution. Participants direct the investment of their contributions into various investment options offered by the plan. Contributions are subject to certain IRS limitations.
4. *Participant Accounts.* Each participant's account is credited with the participant's contributions and Credit Union contributions, if any, as well as allocations of plan earnings. Participant accounts are charged with an allocation of administrative expenses that are paid by the plan. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.
5. *Vesting.* Participants are vested immediately in their contributions plus actual earnings thereon. Vesting in the Credit Union's matching contribution portion of their accounts is based on years of continuous service. A participant is 100% vested after six years of credited service.
6. *Notes receivable from participants.* Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. The loans are secured by the balance in the participant's account and bear interest at a reasonable rate as determined by the plan administrator. The interest rate on loans issued in 2013 and 2012 was 4%. Principal and interest is paid ratably through payroll deductions.
7. *Payment of Benefits.* On termination of service due to death, disability, or retirement, a participant may receive the vested interest of their account in the form of a single lump sum distribution.

NOTE B – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the plan are prepared on the accrual basis of accounting.

Investment contracts, which include Common Collective Trusts, held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The Statement of Net Assets Available for Benefits presents the fair value of the investment contracts, which approximates the contract value. The Statement of Changes in Net Assets Available for Benefits is prepared using the fair value basis for fully benefit-responsive investment contracts, which approximates contract value.

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The plan sponsor determines the plan's valuation policies utilizing information provided by the investment advisers and custodians. See Note D for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the plan's gains and losses on investments bought and sold, as well as held during the year.

Notes receivable from participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2013 or 2012. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Payments of Benefits

Benefits are recorded when paid.

Expenses

Certain expenses of maintaining the plan are paid directly by the Credit Union and are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation of fair value of investments.

NOTE B – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Subsequent Events

The Plan has evaluated subsequent events through the date of this report, the date the financial statements were available to be issued.

NOTE C – INVESTMENTS (UNAUDITED)

The following presents investments that represent 5% or more of the plan's net assets:

	<u>2013</u>	<u>2012</u>
Fidelity U.S. Gov't. Reserves Fund	\$ 1,448,423	\$ 505,764
Morley Stable Value 50 BP Fund	1,017,081	442,814

Mutual Series Global Discovery Class A	481,445	*
Spartan US Bond Index FD Investor	457,602	193,186
Blackrock Equity Dividend	440,546	*

* Investment balance did not exceed 5% of plan's net assets.

During the years ended December 31, 2013 and 2012, the plan's investments (including gains and losses on investments bought and sold, as well as held during the years then ended) appreciated in value by \$265,021 and \$160,279, respectively, as follows:

	<u>2013</u>	<u>2012</u>
Registered Investment Companies	\$ 261,660	\$ 155,799
Common/Collective Trusts	3,361	4,480
	<u>\$ 265,021</u>	<u>\$ 160,279</u>

NOTE D – FAIR VALUE MEASUREMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

CRESCENT CREDIT UNION 401(k) PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2013 AND 2012

NOTE D – FAIR VALUE MEASUREMENTS (Continued)

- Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.
- Level 2 Inputs to the valuation methodology include
- quoted prices for similar assets or liabilities in active markets;
 - quoted prices for identical or similar assets or liabilities in inactive markets;
 - inputs other than quoted prices that are observable for the asset or liability;
 - inputs that are derived principally from or corroborated by observable market data by correlation or other means.
- If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.
- Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2013 and 2012.

- *Mutual funds:* Valued at the daily closing price as reported by the fund. Mutual funds held by the plan are open-end mutual funds that are registered with the SEC. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the plan are deemed to be actively traded.
- *Common/ Collective Trust:* Valued at the NAV of units of a bank collective trust. The NAV, as provided by the trustee, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV.
- *Certificate of deposit:* Valued at fair value by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the credit-worthiness of the issuer.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the plan's assets at fair value as of December 31, 2013 and 2012.

CRESCENT CREDIT UNION 401(k) PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2013 AND 2012

NOTE E – FULLY BENEFIT RESPONSIVE INVESTMENT CONTRACTS

The plan invests in investment contracts through a common collective trust, the Morley Capital Stable Value 50 BP Fund, (the “Fund”). Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The Statement of Net Assets Available for Benefits presents the fair value of the investment contracts. The Fund’s contract value is estimated to reasonably approximate its fair value so no adjustment from fair value to contract value has been recorded.

The objective of the Fund is to provide preservation of capital, relatively stable returns consistent with its comparatively low risk profile, and liquidity for benefit-responsive payments. The Fund seeks to achieve this objective by investing primarily in a variety of high quality stable value investment contracts as well as cash and cash equivalents.

The Fund includes guaranteed investment contracts (GICs) issued by insurance companies, wherein the contract holder does not participate in any gains and losses incurred due to the performance of the underlying portfolio relative to the book value at times of withdrawals. It also includes synthetic investment contracts, issued by insurance companies or banks, wherein the contract holder participates in gains and losses incurred due to the performance of the underlying portfolio relative to book value at times of withdrawals. Gains and losses are amortized through future crediting rate resets. The synthetic investment contracts are the most common structure utilized in the Fund. They are comprised of both investment and contractual components. The investment component consists of securities, or shares or units of a pooled portfolio of fixed income securities, referred to as the underlying investments. This investment component is “wrapped” by contracts issued by third party financial institutions. This wrap becomes the contractual component and provides for benefit withdrawals and investment exchanges at the full contract value notwithstanding the actual fair value of the underlying investments. In this manner, wrap contracts are designed to smooth out the impact of normal market fluctuations associated with the performance of the underlying investments.

The GICs are typically issued with a fixed crediting rate and a fixed maturity date that does not change over the life of the contract. Wrap contracts typically reset on a monthly or quarterly basis as negotiated with the wrap issuer and do not have a final stated maturity date. The wrap contracts in this fund are predominately reset on a monthly basis with a one month look back for the portfolio statistics. The wrap contract issuer guarantees a minimum 0% crediting rate, although a wrap does not absorb any loss for credit defaults in an underlying portfolio.

Average yields:	2013	2012
Based on actual earnings	0.69%	1.00%
Based on interest rate credited to participants	0.69%	1.00%

Market value events may limit the ability of the Fund to transact at contract value with the issuer. Market value events are events or conditions, the occurrence of which, are outside of the normal operation of the Fund and lead to any Fund disbursements which have or will have a material adverse effect on the operations of the Fund and a financial effect on the investment contract or wrap issuer’s interest hereunder. In the normal course of business, such events or conditions would not limit the ability of the Fund to transact at contract value with the participants in the Fund. The Fund is managed to maintain a

certain amount of liquidity to provide for the day to day liquidity needs of participants as well as the occasional market value event.

An issuer can terminate an investment contract upon the event of default by the contract holder, Advisor or Trustee if the issuer determines in its reasonable discretion, such event has had, or is likely to have a material adverse effect on the issuer's interest with respect to the contract.

Such events may include but are not limited to: management of the portfolio is not in accordance with investment guidelines, a breach of any material obligation under the wrap agreement, any representation or warranty made by the contract holder becomes untrue in any material way, a replacement of the Advisor without prior consent of the issuer, the Fund is terminated or ceases to qualify as a group trust or plans cease to meet the appropriate tax qualifications, or the wrap becomes a prohibited transaction within the meaning of Section 406 of ERISA.

NOTE F – INFORMATION CERTIFIED BY TRUSTEE (UNAUDITED)

The plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Accordingly, Reliance Trust Company, the trustee of the plan, has certified to the completeness and accuracy of all investments and activity (with the exception of the Crescent Credit Union certificates of deposit) reflected on the accompanying statements of net assets available for benefits as of December 31, 2013 and 2012 and the related investment activity reflected in the statements of changes in net assets available for benefits for the years ended December 31, 2013 and 2012, and supplemental Schedule H, line 4i – Schedule of Assets (Held at Year End) as of December 31, 2013.

NOTE G – RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500

The following is a reconciliation of benefits paid to participants per the financial statements at December 31, 2013 and 2012 to Form 5500:

	<u>2013</u>	<u>2012</u>
Benefits paid to participants per the financial statements	\$ 344,339	\$ 273,831
Add: Amounts allocated to withdrawing participants for current year	18	---
Less: Amounts allocated to withdrawing participants for prior year	---	(625)
Benefits paid to participants per the Form 5500	<u>\$ 344,357</u>	<u>\$ 273,206</u>

Amounts allocated to withdrawing participants are recorded on the Form 5500 for benefit claims that have been processed and approved for payment prior to the plan year end, but not yet paid as of that date.

NOTE H – TAX STATUS

As of December 31, 2013 the plan was an adoption of a volume submitter profit-sharing plan with CODA sponsored by Benefit Management, Inc. That plan obtained its latest opinion letter dated October 29, 2008, in which the Internal Revenue Service stated that the plan and the related trust, as then designed, are in compliance with the applicable requirements of the Internal Revenue Code (IRC).

**CRESCENT CREDIT UNION 401(k) PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2013 AND 2012**

NOTE H – TAX STATUS (Continued)

The plan has been amended since receiving that opinion letter. The plan administrator believes the plan is currently designed and being operated in compliance with applicable requirements of the IRC.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service and/or Department of Labor. The plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2010.

NOTE I – PARTY-IN-INTEREST TRANSACTIONS

Benefit Management, Inc. provides certain record-keeping services to the plan. Fidelity Investments provides investment transaction services to the plan. Therefore, transactions between the plan and Benefit Management, Inc. and Fidelity Investments qualify as party-in-interest transactions. Fees paid by the plan for record-keeping and investment transaction services amounted to approximately \$8,000 and \$7,900 for the years ended December 31, 2013 and 2012 plus additional amounts included as a reduction of the returns earned on the investments.

The plan offers participants the option of directing the investment of their account into certificates of deposit issued by the Credit Union. As of December 31, 2013 and 2012, investments in the plan include \$265,716 and \$264,337, respectively of certificates of deposit issued by the plan sponsor.

NOTE J - PLAN TERMINATION

Although it has not expressed any intent to do so, the Credit Union has the right under the plan to discontinue its contributions at any time and to terminate the plan subject to the provisions of ERISA. In the event of plan termination, participants would become 100% vested in their employer contributions.

NOTE K - RISKS AND UNCERTAINTIES

The plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

NOTE L – SUBSEQUENT EVENTS

Effective January 1, 2014 the plan was amended to become a profit sharing and safe harbor 401(k) plan. Participants are allowed to defer up to 100% of pretax annual compensation, subject to IRS limitations. Plan participants who have completed one year of service are eligible to receive a 3% safe harbor employer contribution upon completion of 500 hours of service during the plan year.

Effective August 1, 2014 the plan adopted the Fidelity Management Trust Company Volume Submitter Defined Contribution Plan and Fidelity Management Trust Company became the trustee of the plan. In addition, as of August 1, 2014 CBIZ Tofias became the third party administrator of the plan.
