Note 1—Description of the Plan

The following brief description of the D&W Fine Pack LLC (the "Company") 401(k) Plan (the "Plan") is provided for general information purposes only. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General – The Plan is a defined contribution plan covering all full-time employees of D&W Fine Pack LLC. Employees are eligible to participate in the Plan three months after the first date of employment and attaining the age of 18, as defined by the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Contributions – Participants may elect to contribute up to 99% of pre-tax compensation to the Plan, subject to the Internal Revenue Code ("IRC") limitations for 401(k) plans. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan. The Company may make matching contributions equal to a discretionary percentage determined by the Company. For the year ended December 31, 2013, the Company contributed 50% of the first 6% of base compensation that a participant contributed to the Plan. The Company may also make profit-sharing contributions to the Plan at the discretion of the Company's Board of Directors. Profit-sharing contributions are allocated to participants in the same ratio as the participant's compensation bears to the total compensation of all participants. There were no discretionary profit-sharing contributions for the year ended December 31, 2013.

Participant Accounts – Each participant's account is credited with (a) the participant's contributions, (b) the Company's contributions, and (c) an allocation of the Plan's earnings (losses). Each participant's account is charged with an allocation of the Plan's expenses. Allocations are based on the participant's earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting – Participants are vested immediately in their voluntary contributions to the Plan, plus investment earnings thereon. Vesting in the Company matching and discretionary contributions are based on years of continuous service. A participant is 20% vested after one year of service and an additional 20% vested each year of service thereafter. A participant is fully vested after five years of service.

Investment Options – Participants direct the investment of their contributions into various investment options offered by the Plan. Participants may change their investment allocation at any time.

Notes Receivable from Participants – Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their account balance. Loan terms range from one to five years, or longer for the purchase of a primary residence, which can be repaid over a period of up to 30 years. The loans are secured by the balance in the participant's account. The interest rate applied to participant loans is based upon the Prime Rate plus one percent (as defined in the agreement) and range from 3.25% to 8.00% as of December 31, 2013.

Payment of Benefits – On termination of service due to retirement, disability, or death, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account or in installments as defined by the Plan. For termination of service for other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution.

Forfeitures – At December 31, 2013 and 2012, the Plan had $22,528 and $186,789 in forfeited non-vested amounts, respectively. Any such amounts are used to reduce employer matching contributions. Forfeitures in the amount of $243,080 were used to reduce Company contributions for the year ended December 31, 2013.

Note 2—Summary of accounting policies

Basis of Accounting – The accompanying financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP").

Investment Income Recognition – Purchases and sales of securities are recorded on a trade-date basis. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year. Dividends are recorded on the ex-dividend date. Interest income is recorded on the accrual basis.

Investment contracts held by defined-contribution plans are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts since contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Statement of Net Assets Available for Benefits presents the fair value of the investment contacts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

Use of Estimates – The preparation of financial statements in conformity with U.S. GAAP requires the Plan administrator and the Company to make estimates that affect certain reported amounts of net assets available for benefits and changes therein and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Benefits Paid to Participants – Benefits are recorded when paid.

Excess Contributions Payable – The Plan is required to return contributions to certain active participants in order to satisfy the relevant nondiscrimination provisions of the IRC. There were excess contributions payable of $22,487 and $28,596 at December 31, 2013 and 2012, respectively. Excess contributions are paid in the following Plan year.

Risks and Uncertainties – The Plan utilizes various investment securities including common/collective trusts and mutual funds. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term, and that such changes could materially affect participant's account balances and the amounts reported in the statement of net assets available for benefits.

Administrative Expenses – Certain legal and accounting fees and administrative expenses relating to the Plan are paid by the Company and will not be reimbursed by the Plan. Other allowable expenses for the administration of the Trust, such as investment advisory fees and check charges, are paid by the Plan.

Notes Receivable from Participants – Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan document.

Fair Value Measurements – The Plan follows the Fair Value Measurements topic of the Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") which defines fair value as the exchange price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction value hierarchy which requires an entity to maximize the use of observable inputs when measuring fair value.

Note 2—Summary of accounting policies (continued)

The standard describes three levels of inputs that may be used to measure fair value:

Level 1: Inputs to the valuation methodology are quoted prices available in active markets for identical investments as of the reporting date;

Level 2: Inputs to the valuation methodology are other than quoted prices in active markets, which are either directly or indirectly observable as of the reporting date, and fair value can be determined through the use of models or other valuation methodologies; and

Level 3: Inputs to the valuation methodology are unobservable inputs in situations where there is little or no market activity for the asset or liability and the reporting entity makes estimates and assumptions related to the pricing of the asset or liability including assumptions regarding risk.

A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. The following is a description of the valuation methodologies used for instruments measured at fair value, including the general classification of such instruments pursuant to the valuation hierarchy.

Common/Collective Trusts – The fair value of the Plan's interest in the Invesco Stable Asset Fund (Note 7) is based upon the Net Asset Value ("NAV") of such fund reflecting all investments at fair value, including direct and indirect interests in fully benefit-responsive contracts, as reported by the fund manager. Accordingly, Plan management has concluded the valuation measurement inputs of this fund reflect, at the lowest level, quoted market prices for identical or similar assets in markets where there are few transactions for the assets and categorized such investments within Level 2 of the valuation hierarchy. The fair values of the Plan's interests in common/collective investments trusts, other than the Invesco Stable Asset Fund, are valued using NAV provided by the administrator of the fund. The NAV is based on the value of the underlying assets owned by the fund, minus its liabilities, and then divided by the number of shares outstanding. These investments are classified within Level 2 of the valuation hierarchy because the NAV unit price is quoted on a private market that is not active; however, the unit price is based on underlying investments which are traded on an active market.

Mutual Funds – These investments are public investment vehicles valued using the NAV of shares held by the Plan at year end. The NAV is a quoted price in an active market and these funds are classified within Level 1 of the valuation hierarchy.

Note 3—Information prepared and certified by the trustee (unaudited)

The Plan administrator has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the United States Department of Labor's ("DOL") Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 ("ERISA").

Accordingly, as permitted under such election, the following information including all information in Note 4 and the supplemental schedule of assets (held at end of year) was certified by Reliance Trust Company (the "Trustee"), and was not subjected to any auditing procedures performed by the independent public accountants as of December 31, 2013 and 2012 and for the year ended December 31, 2013.

Note 6—Tax status

The Plan uses a prototype non-standardized profit-sharing plan document sponsored by ADP Retirement Services ("ADP"). ADP received an opinion letter from the Internal Revenue Service ("IRS"), dated March 31, 2008, which states that the prototype document satisfies the applicable provisions of the Internal Revenue Code ("IRC"). The prototype plan has been amended since receiving the determination letter. However, the Plan's management believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC and has no income subject to unrelated business income tax and therefore, the Plan and related trust continue to be tax-exempt. Therefore, no provision for income tax has been included in the Plan's financial statements.

Note 6—Tax status (continued)

U.S. GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. Plan management has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2013 and 2012, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to audit by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. Plan management believes it is no longer subject to income tax examinations for years prior to 2010.

Note 7—Invesco Stable Asset Fund

The Plan, through the Invesco Stable Asset Fund (the "Fund"), holds investments in common/collective trust funds. Investments in the Fund were originated with the purchase of individual units; with each individual unit having a net asset value of $1. To mitigate the risk of market losses on the unit investments, the Fund entered into synthetic guaranteed investment contracts ("Synthetic GIC's"). Synthetic GIC's are portfolios of securities (debt securities and units of collective trusts) owned by the Fund and associates. The assets underlying the investment contracts are owned by the Fund with the Plan owning units of the Fund. These investment contracts are fully benefit-responsive and any adjustment of these investments' contract value is captured in the Statement of Net Assets Available for Benefits. Contract value represents the original cost of the contract, plus interest (based upon the underlying contract crediting rates of the underlying contracts) and deposits, reduced by administrative fees, transfers out, and withdrawals.

The Plan's investments in the Synthetic GIC's earn interest at interest crediting rates that typically reset on a monthly or quarterly basis in accordance with the terms of each contract. These interest crediting rates are based on the characteristics of the underlying fixed income portfolio. The average yield and crediting interest rates of this Fund were approximately 1.2% and 1.3%, respectively, for the year ended December 31, 2013.

Under certain circumstances, amounts withdrawn from investments could be payable at fair value rather than contract value. These events include (i) termination of the Fund, (ii) a material adverse change to the provisions of the Fund, (iii) if the investment participants elect to withdraw from an investment contract in order to switch to a different provider, or (iv) if terms of a successor fund do not meet the contract issuer's criteria for the issuance of a similar contract. In some cases, an investment issuer may terminate a contract with the Fund and settle at an amount different than the contract value.

Note 8—Plan termination

Although it has not expressed any intention to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA. In the event that the Plan is terminated, participants would become 100% vested in their account balances.

Note 9—Reconciliation of financial statements to the Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements to the Form 5500 at December 31, 2013 and 2012, respectively.

	2013	2012
Net assets available for benefits per the financial statements	$ 23,482,144	$ 20,022,801
Add: Excess contributions payable	22,487	28,596
Add: Adjustment from contract value to fair value of fully benefit responsive investments	41,785	-
Net assets available for benefits – Form 5500	$ 23,546,416	$ 20,051,397

The following is a reconciliation of changes in net assets available for benefits per the financial statements to net gain per the Form 5500 for the year ended December 31, 2013.

Changes in net assets available for benefits per the financial statements	$ 3,459,343
Less: Prior year excess contributions	(28,596)
Add: Current year excess contributions payable	22,487
Add: Current year adjustment from contract value to fair value	41,785
Net gain per the Form 5500	$ 3,495,019

Fully benefit responsive investments are reported in the Form 5500 at fair value at December 31, 2013, but these investments were reported at contract value at December 31, 2012.

Note 10—Subsequent events

The Company evaluated subsequent events through October 8, 2014, which is the date the financial statements were available for issuance. Plan management did not identify any events requiring recording or additional disclosure in the financial statements.
