Plan Administrator
The Retirement Plan for Employees
of Ohio Gas Company

Report on the financial statements

We were engaged to audit the accompanying financial statements of Retirement Plan for Employees of Ohio Gas Company (the “Plan”), which comprise the statements of net assets available for benefits – modified cash basis as of December 31, 2013 and 2012, and the related statements of changes in net assets available for benefits – modified cash basis for the years ended December 31, 2013 and 2012, and the related notes to the financial statements.

Management's responsibility for the financial statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with the modified cash basis of accounting described in Note 2; this includes determining that the modified cash basis of accounting is an acceptable basis for the preparation of the financial statements in the circumstances. Management is also responsible for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for disclaimer of opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the certified information described in Note 5, except for comparing such information with the related information included in the financial statements. We have been informed by the Plan administrator that the certifying entity meets the requirements of 29 CFR 2520.103-8. The Plan administrator obtained a certification from this entity as of December 31, 2013 and 2012, and for the years ended December 31, 2013 and 2012, stating that the certified information provided to the Plan administrator is complete and accurate.

Disclaimer of opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Basis of accounting

We draw attention to Note 2 of the financial statements, which describes the basis of accounting. The financial statements are prepared on the modified cash basis of accounting, which is a basis of accounting other than accounting principles generally accepted in the United States of America. Our opinion is not modified with respect to this matter.

Supplementary information

The supplemental schedules – modified cash basis of assets (held at end of year) as of December 31, 2013 and reportable transactions for the year ended December 31, 2013 are presented for purposes of additional analysis and are not a required part of the financial statements, but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we do not express an opinion on the supplemental schedules.

Report on form and content in compliance with DOL rules and regulations

The form and content of the information included in the financial statements and supplemental schedules, other than that derived from the certified information described in Note 5, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

NOTES TO FINANCIAL STATEMENTS

December 31, 2013 and 2012

(Modified Cash Basis)

NOTE 1 – DESCRIPTION OF PLAN

General

The Retirement Plan for Employees of Ohio Gas Company (the “Plan”) is a defined benefit pension plan established to provide pension benefits to Ohio Gas Company (the “Company”) employees identified in the Plan document. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (“ERISA”). Effective December 31, 2010, the Plan was frozen which suspended the accrual of future service benefits and no employees shall be eligible to enter the Plan after December 31, 2010. The following is a brief description of the Plan and its respective provisions. Participants should refer to the Plan document for more complete information.

Plan Administration

The Plan is administered by the Ohio Gas Company Benefits Committee (the “Benefits Committee”). Principal Trust Company (“Principal”) serves as the Plan’s custodian which administers the investments. The Plan’s assets are held by Principal and Principal is the administrator of the Plan’s contributions and disbursements.

Participation

Employees were generally eligible to participate in the Plan upon completion of one year of service and attainment of age 21. One year of service is defined as a twelve-month period in which an employee completes at least 1,000 hours of service.

Funding Policy

Contributions to the Plan are based upon a valuation performed by an independent actuary. The amounts are calculated to provide for whatever benefits are not covered by the Plan’s current assets and the estimated future earnings thereon. Contributions are at least equal to the minimum funding required under ERISA.

Vesting

Participants are 100% vested after completing five years of service, with no vesting before the end of the five year period.

Pension Benefits

In accordance with the Plan provisions, employees are entitled to monthly pension benefits beginning at the normal retirement age (65), which are equal to the greater of the average of the last five year’s salary multiplied by specified rates or specified rates multiplied by “salary earned,” as defined in the Plan. The normal form of benefit is a life annuity; however, married participants will receive a 50% joint and survivor annuity unless elected otherwise. Early retirement benefits are based upon service accrued and “salary earned” up to age 55 and are reduced by an early retirement factor. Subject to the provisions set forth in the Plan, spouses are entitled to a lifetime benefit of up to 100% of the accrued benefit upon the death of an active member.

NOTE 1 – DESCRIPTION OF PLAN – CONTINUED

Plan Termination Priorities

Although it has not expressed any intention to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth by ERISA. In the event the Plan is terminated, the assets of the Plan will be allocated as prescribed by the Plan document and by ERISA and its related regulations, generally to provide accrued benefits to the date of such termination to the extent that such benefits have been funded under the Plan, or to the extent that such benefits are insured by the Pension Benefit Guaranty Corporation (the “PBGC”).

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal retirement age benefits, early retirement benefits and certain disability and survivor pensions. However, the PBGC does not guarantee all types of benefits under covered plans and the amount of the benefit protection is subject to certain limitations.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The accompanying financial statements have been prepared using the modified cash basis of accounting which is a comprehensive basis of accounting other than accounting principles generally accepted in the United States of America. Under the modified cash basis of accounting certain income and the related assets are recognized when received rather than when earned and certain expenses and the related liabilities are recognized when paid rather than when the obligation is incurred.

Use of Estimates

The preparation of financial statements requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities and changes therein, disclosure of contingent assets and liabilities, and the actuarial present value of accumulated plan benefits at the date of the financial statements. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for a discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest and dividend income is recognized when received. Net appreciation includes the Plan’s gains and losses on investments bought and sold as well as held during the year.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – CONTINUED

Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits (See Note 9) are those future periodic payments that are attributable under Plan provisions for service that participants have rendered. Such benefits include those expected to be paid to retired or terminated employees, beneficiaries of employees who have died, and present employees. The accumulated plan benefits for active employees are calculated according to a formula based upon the employees' compensation and years of service rendered to the valuation date. Benefits to be provided via annuity contracts excluded from plan assets have also been excluded from accumulated plan benefits.

Payment of Benefits

Benefit payments to participants are recorded upon distribution.

Expenses

The Plan pays all costs to the custodian for investment management services. The Company pays substantially all other costs of Plan administration.

Contributions

Annually, an independent actuary is utilized to determine the Plan's funding requirements. The minimum funding requirement for 2013 was \$461,013 of which \$210,126 was funded in 2013. The minimum funding requirement for 2012 was \$280,166 all of which was funded in 2012. In addition, the Plan made \$626,372 of contributions during 2012 which related to 2011.

NOTE 3 – INVESTMENTS

Investments that represent 5% or more of the Plan's net assets at either December 31, 2013 or 2012 are as follows:

	<u>2013</u>	<u>2012</u>
Ivy Asset Strategy A Fund	\$ 868,778	\$ 734,849

NOTE 3 – INVESTMENTS – CONTINUED

During 2013 and 2012, the Plan's investments (including gains and losses on investments bought and sold as well as held during the year) appreciated in value by \$1,560,429 and \$1,380,268, respectively, as follows:

	<u>2013</u>	<u>2012</u>
Mutual funds	\$ 899,594	\$ 679,652
Pooled separate accounts	660,835	700,616
	<u>\$1,560,429</u>	<u>\$1,380,268</u>

NOTE 4 – FAIR VALUE MEASUREMENTS

In accordance with the FASB guidance regarding fair value, a hierarchy is established that requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. The hierarchy defines three levels of inputs that may be used to measure fair value.

Level 1 – Unadjusted quoted prices in active markets for identical unrestricted assets and liabilities that the reporting entity has the ability to access at the measurement date.

Level 2 – Inputs other than quoted prices included within Level 1 that are observable for the asset and liability or can be corroborated with observable market data for substantially the entire contractual term of the asset or liability.

Level 3 – Unobservable inputs that reflect the entity's own assumptions about the assumption market participants would use in the pricing of the asset or liability and are consequently not based on market activity but rather through particular valuation techniques.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value as of December 31, 2013 and 2012:

Mutual funds – Valued at the quoted net asset value ("NAV") of shares held by the Plan at year end.

Pooled separate accounts – The fair value of the pooled separate accounts is measured using the NAV per unit based on the quoted redemption value as determined by the custodians based on the value of the underlying investments. The underlying investments are valued at quoted prices in active markets for identical assets when available. When a quoted market price for identical assets in an active market is either not available or not observable, the custodians estimate fair value using valuation methodologies based on available and observable market information or by using a matrix pricing model.

NOTE 4 – FAIR VALUE MEASUREMENTS – CONTINUED

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement result at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2013 and 2012:

- (a) The investment seeks long-term growth of capital. It invests in growth equity securities; growth orientation emphasizes buying equity securities of companies whose potential for growth of capital and earnings is expected to be above average.
- (b) The investment seeks maximum total return, consistent with preservation of capital and prudent investment management. Under normal circumstances, the fund invests at least 80% of its net assets, plus any borrowings for investment purposes, in a diversified portfolio of fixed-income instruments of varying maturities, represented by forwards or derivatives such as options, futures contracts, or swap agreements, at the time of each purchase. It invests in securities denominated in foreign currencies and in securities of foreign issuers, including securities tied to emerging market countries.

NOTE 4 – FAIR VALUE MEASUREMENTS – CONTINUED

- c) The investment seeks to provide current income and real (after-inflation) total returns. The fund normally invests primarily in inflation-indexed bonds of varying maturities issued by the U.S. and non-U.S. governments, their agencies or instrumentalities, and U.S. and non-U.S. corporations.
- (d) The investment seeks long-term growth of capital. The fund invests heavily in securities held by MSCI EAFE Index at the time of purchase. The index is a weighted equity index designed to measure the equity performance of developed markets (Europe, Australasia, Far East), excluding the United States and Canada.
- (e) The investment option normally invests the majority of assets in common stocks of companies that compose the S&P 500 Index. Management attempts to mirror the investment performance of the index by allocating assets in approximately the same weightings as the S&P 500 Index.

NOTE 5 – INFORMATION CERTIFIED BY THE PLAN'S CUSTODIAN

Information certified by Principal includes investments held and their fair values as reported in the Statements of Net Assets Available for Benefits; investment income as reported in the Statements of Changes in Net Assets Available for Benefits; and all investment related information included in Note 3 and the supplemental schedules. No auditing procedures were performed by the independent certified public accountants with respect to the information which was certified as complete and accurate by Principal.

NOTE 6 – RELATED PARTY TRANSACTIONS

The Plan's investments include pooled separate accounts which were invested with or managed by the custodian or a related entity to the custodian and, therefore, qualify as party-in-interest transactions. Fees to the custodian for investment management services were paid by the Plan and amounted to \$43,385 and \$42,177 for the years ended December 31, 2013 and 2012, respectively.

NOTE 7 – TAX STATUS

The Internal Revenue Service ("IRS") has determined and informed the Company by a letter dated February 9, 2012, that the Plan and related trust were designed in accordance with applicable sections of the Internal Revenue Code ("IRC"). The Plan has not been amended since receiving the determination letter. The plan administrator believes that the Plan is currently being operated in compliance with the applicable requirements for the IRC and, therefore, believe that the Plan is qualified, and the related trust is tax exempt.

Plan management must evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2013 and 2012, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2010.

NOTE 8 – RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and such changes could materially affect the amounts reported in the Statements of Net Assets Available for Benefits.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

NOTE 9 – ACCUMULATED PLAN BENEFITS

The Company utilizes an independent actuary to determine the actuarial present value of accumulated plan benefits. The actuarial present value of accumulated benefits is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money and the probability of payment between the valuation date and the estimated date of payment.

The actuarial present value of accumulated plan benefits as of December 31, 2012 is as follows:

Vested benefits:	
Participants currently receiving benefits	\$ 9,494,217
Other participants	5,087,242
	14,581,459
Non-vested benefits	141,808
Total actuarial present value of accumulated plan benefits	<u><u>\$ 14,723,267</u></u>

The following factors affected changes in the actuarial present value of accumulated plan benefits from December 31, 2011 to December 31, 2012:

Actuarial present value of accumulated plan benefits as of December 31, 2011	\$ 14,721,933
Actuarial gains	(53,271)
Increase for interest due to decrease in the discount period	1,032,511
Benefits paid	(977,906)
Net increase	1,334
Actuarial present value of accumulated plan benefits as of December 31, 2012	<u><u>\$ 14,723,267</u></u>

NOTE 9 – ACCUMULATED PLAN BENEFITS – CONTINUED

The following is a summary of significant actuarial assumptions used in the calculation of the accumulated Plan benefit information:

Rates of Mortality	IRS Prescribed Mortality-Optional Combined Table for Small Plans
Discount Rate	7.25%
Retirement Age	Based upon normal retirement age.

These actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

NOTE 10– RECONCILIATION OF FINANCIAL STATEMENTS TO THE FORM 5500

The following is a reconciliation of net assets available for benefits reflected in the financial statements to the Form 5500 at December 31, 2013 and 2012:

	<u>2013</u>	<u>2012</u>

The following is a reconciliation of Company contributions per the financial statements to the Form 5500 at December 31, 2013 and 2012:

	<u>2013</u>
Total Company contributions per the financial statements	\$ 210,126
Add: current year Company contributions receivable	167,061
Total Company contributions per the Form 5500	<u>\$ 377,187</u>

NOTE 11– SUBSEQUENT EVENTS

The Plan evaluated its December 31, 2013, financial statements for subsequent events through October 14, 2014, the date the financial statements were available to be issued.

The Plan is not aware of any additional subsequent events that would require recognition or disclosure in the financial statements.

Expected Expense	\$42,177 included in Target Normal Cost.								
Retirement Age	Normal Retirement Age as defined in Plan Provisions								
Disability	None.								
Marriage	80% married; husbands are 3 years older than wives.								
Withdrawal	The T-3 table found in The Actuary's Pension Handbook. Selected rates of withdrawal are shown below: <table border="1"> <thead> <tr> <th>Age</th><th>Rate of withdrawal</th></tr> </thead> <tbody> <tr> <td>25</td><td>5.27%</td></tr> <tr> <td>40</td><td>3.84%</td></tr> <tr> <td>55</td><td>0.33%</td></tr> </tbody> </table>	Age	Rate of withdrawal	25	5.27%	40	3.84%	55	0.33%
Age	Rate of withdrawal								
25	5.27%								
40	3.84%								
55	0.33%								
Form of Benefit	Participants are assumed to receive their benefits on the normal form at the assumed retirement age.								
Methods Prescribed by Law									
Liability Measure	Funding target is the present value of the benefits accrued on the valuation date. Target Normal Cost is based on benefits expected to accrue during the current plan year and includes an estimate of plan expenses for the year.								

Methods Selected by Plan Sponsor	
Asset Method	The asset valuation method is prescribed by law for plans that elect to use a value other than market value. For each of the preceding two years, an expected value of assets at the end of the year is compared to the end of year market value. The resulting gain or loss is recognized evenly over three plan years. The expected value includes contributions, distributions, any deducted administrative expenses, and expected earnings (based on the lesser of the assumed interest rate or the Maximum Allowable Rate). The deferred gains and losses are added to the current market value and then restricted to no more than 110% and no less than 90% of that market value. When actual returns exceed the assumed return, the actuarial value of assets will lag below market value. The lag and the smoothing effect are limited since the value must be within 10% of market value.
Segment Rates	24 month average with no weighting to prior law basis. Use rates where August is the last month included in the average.
PBGC Premium Basis	Premiums are calculated using the funding segment rates used for the plan year without the MAP-21 interest rate corridor defined in IRC §430(h)(2)(C)(iv). This method was elected with the 01/01/2009 plan year and must continue for five years before a change can be made.
Methods Elected by Actuary	
Retirees	Assets and liabilities for current and future retirees are included.
HCE Benefit Payment Restrictions	A ratio of the market value of assets and funding target is used to determine if restrictions apply. Assets and Funding Target are as of the valuation date and are reduced by: • any retiree benefit index or floor • amounts for HCEs who were previously restricted • an amount for the retiring HCE The Funding Target is not based on the MAP-21 interest rate corridor defined in IRC §430(h)(2)(C)(iv). Other assumptions or methods may be used.
Vested Benefits	A benefit is included in vested benefits when the participant will meet age and service eligibility requirements at the valuation date. The benefit is multiplied by the participant's vesting percentage applicable to each benefit on the valuation date. The following ancillary benefits are always treated as nonvested: disability benefits payable to retirement age unless in pay status, and pre-retirement death benefits in excess of the Survivor Annuity Death Benefit except as noted in the Plan Provisions.

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.
