FRUIT OF THE LOOM 401(K) RETIREMENT SAVINGS PLAN

Notes to the Financial Statements

December 31, 2013 and 2012

(1) Description of plan

The following description of the Fruit of the Loom 401(K) Retirement Savings Plan (the "Plan") provides only general information. Participants should refer to the plan document for a more complete description of the Plan's provisions.

(a) General

The Plan is a defined contribution plan which was established to provide retirement benefits for employees of Russell Corporation and Subsidiaries and Fruit of the Loom, Inc. and Subsidiaries (the "Plan Sponsors"). The Plan covers substantially all full-time and part-time employees ("participants"). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"). The Plan is a Safe Harbor 401(k) Plan.

On December 31, 2013, the Plan Sponsor transferred participant accounts and plan assets of Brooks Sports, Inc., a subsidiary of the Plan Sponsor until March 1, 2012, employees totaling \$16,658,061, which included participant notes receivable, to the Brooks Sports, Inc., Brooks Save Happy 401(K) Plan.

(b) Contributions

After meeting the eligibility requirements, participants can immediately make voluntarily qualified retirement contributions to the Plan which are deductible by the participants for federal income tax purposes under Section 401(k) of the Internal Revenue Code ("IRC"). Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. In order to participate, employees must make a minimum contribution of 1% of compensation, as defined in the plan document. Participant contributions are permitted up to 75% of eligible compensation, as defined by the plan document, up to a maximum allowable under the IRC.

Effective October 7, 2013, all newly eligible non-participating employees are automatically enrolled in the Plan at a deferral rate of 3% of their compensation. Prior to this date, all newly eligible non-participating employees were automatically enrolled in the Plan at a deferral rate of 2% of their compensation. The employees can opt out of the automatic enrollment at any time.

Upon each participant's completion of six months of service, the Plan Sponsors match an amount equal to 100% of the participant's contributions up to 3% of compensation plus 50% of the participant's contributions for the next 2% of compensation.

Plan Sponsor and participant contributions may not exceed the maximum amount allowable for federal income tax purposes.

Notes to the Financial Statements

December 31, 2013 and 2012

(c) Participant accounts

Each participant's account is credited or charged with the participant's contributions and Plan Sponsors' contributions, and allocations of investment earnings or losses and administrative expenses. Allocations are based on participant compensation or account balances as defined in the plan document. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

(d) Vesting

Participants are immediately vested in both their elective salary deferral contributions and in the Plan Sponsors' contributions, plus actual earnings or losses thereon.

(e) Notes receivable from participants

Each participant may borrow from his or her account a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of his or her account balance. The notes are secured by the balances in the respective participant's accounts and bear interest at fixed rates ranging from 4.25% to 10.25%, which are commensurate with local prevailing rates as determined quarterly by the plan administrator at the time the notes were taken. Principal and interest are collected ratably through payroll deductions.

(f) Payment of benefits

On termination of service, a participant may elect to receive a lump-sum payment equal to his or her entire account balance.

(g) Hardship withdrawals

The Plan permits distributions in the event of a hardship, as defined in the plan document. These distributions are taxable and subject to a tax penalty equal to 10% of the hardship distribution amount if the participant is younger than age 59½. Hardship withdrawals are limited to the participant's elective account balance.

(h) Administrative expenses

Certain administrative expenses of maintaining the Plan are paid directly by the Plan Sponsors and are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the applicable participant accounts and are included in administrative expenses. Fees incurred by the Plan for investment management services or recordkeeping services are included in net appreciation in fair value of investments, because they are paid through revenue sharing, rather than as direct payments from the Plan. A flat fee to all participants to pay for recordkeeping not paid through revenue sharing and for custom target date fund management expense was charged beginning October 1, 2013.

Notes to the Financial Statements

December 31, 2013 and 2012

(i) Plan termination

Although it has not expressed any intent to do so, the Plan Sponsors have the right under the plan document to discontinue contributions at any time and to terminate the Plan subject to the provisions of ERISA.

(2) Summary of significant accounting policies

(a) Basis of accounting

The financial statements of the Plan are prepared using the accrual basis of accounting.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The statements of net assets available for benefits present the fair value of the investment contract as well as the adjustment of the fully benefit-responsive investment contract from fair value to contract value. The statements of changes in net assets available for benefits are prepared on a contract value basis.

(b) Investment valuation and income recognition

Investments are reported at fair value or contract value as reported by the trustee. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividend income is recorded on the ex-dividend date.

(c) Notes receivable from participants

Notes receivable from participants are measured at their unpaid principal balances plus any accrued but unpaid interest. Delinquent participant notes are reclassified as distributions based upon the terms of the plan document.

(d) Payment of benefits

Amounts distributed to participants are recorded when paid.

(e) Use of estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

(f) Events occurring after reporting date

The Plan's management has evaluated events and transactions that occurred between December 31, 2013 and October 9, 2014, which is the date that the financial statements were available to be issued, for possible recognition or disclosure in the financial statements.

(3) Summary of information certified by trustee

The following information was certified as complete and accurate by Mercer Trust Company, trustee, as of and for the years ended December 31, 2013 and 2012:

	<u>2013</u>	<u>2012</u>
Mutual funds, at fair value	\$ <u>141,442,454</u>	\$ <u>129,231,957</u>

(4) Fair value measurements

The Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described below:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

FRUIT OF THE LOOM 401(K) RETIREMENT SAVINGS PLAN

Notes to the Financial Statements

December 31, 2013 and 2012

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2013 and 2012.

- (i) *Mutual funds:* Valued at the net asset value of shares held by the Plan at year end based on a quoted price in an active market.
- (ii) *Collective trust funds:* The value of the Plan's interest in the collective trust funds is based upon the current value of and net investment gain or loss relating to the units of participation held by the Plan. Each collective trust fund provides for daily redemptions by the Plan at reported net asset values per share with no advance notice requirement.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan's management believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2013 and 2012:

Notes to the Financial Statements

(6) Income tax status

The Plan obtained a favorable determination letter on July 26, 2011, in which the Internal Revenue Service ("IRS") stated that the Plan was in compliance with the applicable requirements of the IRC. The Plan is required to operate in conformity with the IRC to maintain its qualification. The plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable provisions of the IRC.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability or asset if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2013, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or asset or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes the Plan is no longer subject to income tax examinations for years prior to 2010.

(7) Related party transactions

Fees of \$70,394 and \$62,961 in 2013 and 2012, respectively, were paid to Mercer Trust Company, the trustee. The Plan also holds notes receivable from participants which qualify as party-in-interest transactions.

(8) Reconciliation of financial statements to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements to the Form 5500 as of December 31, 2013 and 2012:

(9) Risks and uncertainties

The Plan utilizes various investment instruments. Investment securities, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.
