Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

INDEPENDENT AUDITORS' REPORT

To the Trustees of and Participants in
the EDO Corporation Employees' Pension Plan:

We have audited the accompanying financial statements of the EDO Corporation Employees' Pension Plan (the "Plan"), which comprise the statements of net assets available for pension benefits as of December 31, 2013 and 2012, and the related statements of changes in net assets available for pension benefits for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Plan's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, information regarding the Plan's net assets available for pension benefits as of December 31, 2013, and the changes therein for the year then ended and its financial status as of December 31, 2012, and the changes therein for the year then ended in accordance with accounting principles generally accepted in the United States of America.

1. DESCRIPTION OF THE PLAN

The following description of the EDO Corporation Employees Pension Plan (the "Plan") is provided for general information purposes only. Participants should refer to the Plan document for more complete information.

On October 31, 2011, ITT Corporation (ITT) completed the previously announced spin-off (the "Spin-off") of Exelis Inc. (the "Company" or "Exelis" or the "Plan Sponsor") and Xylem Inc. ("Xylem"), formerly ITT's Defense & Information Solutions and Fluid Technology segments, respectively. Prior to October 31, 2011, ITT sponsored the Plan. The sponsorship of the Plan was transferred from ITT to the Company at Spin-off and the Company became the new sponsor of the Plan. All assets in the Investment Master Trust of ITT Corporation related to plans that continued to be sponsored by ITT and Xylem after the Spin-off were transferred to the master trusts of ITT and Xylem, respectively.

General — The Plan is a defined benefit plan covering substantially all employees of EDO Corporation, a subsidiary of Exelis. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA) as amended.

Master Trust — Effective October 31, 2011, the Investment Master Trust of ITT Corporation was transferred from ITT to Exelis and renamed as the Investment Master Trust of Exelis Inc. (the "Master Trust"). Under a trust agreement dated July 1, 1977, The Northern Trust Company (the "Trustee" or "Northern Trust") serves as trustee of the Plan and administers the Plan's investment assets. The Plan's assets consist of an undivided interest in an investment account of the Master Trust, EIN 36-6668234, a master trust established by the Company and administered by the Trustee. The Master Trust includes the combined assets of the Plan as well as several other employee benefit plans of the Company. Although assets of the Plan are commingled in the Master Trust, the Trustee maintains supporting records for the purpose of allocating the net gain (loss) of the investment account to the participating plans. The net investment income (loss) of the investment assets is allocated by the Trustee to each participating plan based on the relationship of the interest of each plan to the total of the interests of the participating plans. A schedule of the Master Trust assets has been filed with the U.S. Department of Labor and includes the Plan's proportionate share of such assets at December 31, 2013 and 2012.

Eligibility — For covered employees, the participation date is the first day of the month coincident with or immediately following the attainment of age 21 and the completion of 12 months of service. No new participants entered the Plan after December 31, 2002.

Pension Benefits — The Plan provides for regular, early retirement, death, and disability benefits. These pension benefits have different eligibility requirements as to age and/or vesting service as outlined in the Plan document. The amount of the pension benefit (service credits) accrued under the Plan as of December 31, 2002, is frozen as of that date.

Prior to January 1, 2008, participants in active employment with the Company became fully vested upon completion of five years of service. Effective January 1, 2008, participants shall be fully vested upon the

completion of three years of vesting service. The normal retirement date is age 65; however, participants may elect to retire at age 55 if they meet the vesting requirements.

Death and Disability Benefits — A married employee who is a vested participant is automatically covered by the preretirement death benefit option, which will provide a benefit for the surviving spouse upon death prior to retirement, unless coverage is waived. The benefit would be equal to the benefit the employee would have received had the employee retired on the date of death, computed under the normal form of payment, and subject to certain limitations.

An employee who has completed 10 years of continuous service and who becomes totally and permanently disabled is eligible to receive a disability retirement benefit. The amount of the benefit is computed as it would be for normal retirement based on the employee's years of credited service as of the date of disability.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting — The accompanying financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America (GAAP).

Use of Estimates — The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein; disclosure of contingent assets and liabilities; and the actuarial present value of accumulated plan benefits and changes therein at the date of the financial statements. Actual results could differ from those estimates.

Risks and Uncertainties — The Plan, through the Master Trust, utilizes various investment instruments, including common stock, U.S. government securities, corporate debt instruments, limited partnerships, collective trust funds, and registered investment companies. Investment securities, in general, are exposed to various risks, such as interest rate risk, credit risk, and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such change could materially affect the amounts reported in the financial statements.

Investment Valuation and Income Recognition — The Plan's interest in the Master Trust is presented at fair value, which has been determined based on the fair value of the underlying investments of the Master Trust. Fair value of a financial instrument is the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for description of valuation methods.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciations) includes the Master Trust's gains and losses on investments bought and sold, as well as held during the year.

Payment of Benefits — Benefit payments to participants are recorded upon distribution.

Administrative Expenses — Administrative expenses of the Plan are paid by the Master Trust on behalf of the Plan, as provided in the Plan document and the Master Trust agreement. Administrative expenses generally consist of consulting fees, auditing fees, recordkeeping fees, and investment management fees. The Plan Sponsor provides accounting and other administrative services to the Plan and the Master Trust at no charge.

3. FAIR VALUE MEASUREMENTS

Accounting Standards Codification (ASC) 820, *Fair Value Measurements and Disclosures*, provides a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value, as follows: Level 1, which refers to securities valued using unadjusted quoted prices from active markets for identical assets; Level 2, which refers to securities not traded on an active market, but for which observable market inputs are readily available; and Level 3, which refers to securities valued based on significant unobservable inputs. The Plan's financial statements as of December 31, 2013 and December 31, 2012 were prepared with actual reported values for all level 3 assets. Assets and liabilities are classified in their entirety based on the lowest level of input that is significant to the fair value measurement.

Transfers Between Levels — The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in economic conditions or model-based valuation techniques may require the transfer of financial instruments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period.

We evaluate the significance of transfers between levels based upon the nature of the financial instrument and size of the transfer relative to total net assets available for benefits.

Asset Valuation Techniques — Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs. The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2013 and 2012.

- *Domestic and international equity* - which include common and preferred stocks, domestic listed and foreign listed equity securities, open-ended and closed-ended mutual funds, exchange traded funds (registered investment companies), are generally valued at the closing price reported on the major market on which the individual securities are traded at the measurement date. Also included within this asset category are common collective trusts (CCTs) comprised of common and preferred shares. CCTs are arrangements in which the funds of individual trusts are pooled to avail themselves of professional investment management and achieve greater diversification of investment, stability of income, or other investment objectives. CCTs are reported at net asset value (NAV) as of the measurement date. NAV is used as a practical expedient to estimate fair value. CCTs investing in common and preferred shares are classified as Level 2.

- *Private equity funds* - which include buy-out, mezzanine, venture capital, distressed asset, commodities, real estate and venture capital, are typically limited partnership investment structures and/or joint ventures.. Private equity valuations are based on the valuation of the underlying investments, which include inputs such as cost, operating results, discounted future cash flows and market-based comparable data. NAV is used as a practical expedient to estimate fair value and is obtained from the audited financial statements provided by the fund manager.

- *Fixed income investments* - which include U.S. Government securities is generally valued using pricing models that use verifiable, observable market data such as interest rates, benchmark yield, bids provided by brokers or dealers, or quoted prices of securities with similar characteristics. Also included within this asset category are (CCTs) comprised of corporate bonds. CCTs are arrangements in which the funds of individual trusts are pooled to avail themselves of professional investment management and achieve greater diversification of investment, stability

of income, or other investment objectives. CCTs are reported at NAV as of the measurement date. NAV is used as a practical expedient to estimate fair value. CCTs investing in debt are classified as Level 2.

- *Hedge funds* - which include equity long/short, event driven, fixed income arbitrage and global macro, are typically limited partnership investment structures. Limited partnership interests in hedge funds are primarily valued using a market approach based on net asset value (NAV) calculated by the funds and are not publicly available. NAV is used as a practical expedient to estimate fair value and is obtained from audited financial statements provided by substantially all of the fund managers. Hedge funds that permit redemption on a quarterly or more frequent basis with 90 or fewer days notice are generally classified within Level 2 of the fair value hierarchy; all other hedge funds are classified as Level 3.

- *Other* - is primarily comprised of guaranteed insurance contracts valued at book value, which approximates fair value, and is calculated using the prior year balance adjusted for investment returns and changes in cash flows.

- *Cash and cash equivalents* - are primarily comprised of short-term money market funds valued at cost, which approximates fair value, or valued at quoted market prices of identical instruments.

The following tables sets forth by level within the fair value hierarchy a summary of the Master Trust's investments measured at fair value on a recurring basis at December 31, 2013 and 2012 (in thousands):

(a) Redemption restrictions vary by investment management agreement but are based on the initial investment date and take into account liquidity terms, notice periods, redemption schedules, withdrawal with or without penalties and lock-ups, if any.

(b) Limited partnership interests in private equity funds are not redeemable from the general partner. Private equity interests can be sold through a secondary sale to a third party.

The following table presents information regarding the unfunded commitments and redemption restrictions for partnerships and joint ventures held by the Plan as of December 31, 2013 and 2012(in thousands):

	Unfunded Commitments		Redemption Frequency (If Eligible)	Redemption Notice Period
	2013	2012		
Private Equity (a)				
Buyout funds (b)	$ 185,183	$ 221,734	N/A	N/A

Real estate (g)	4,932	2,313	N/A	N/A
Total	$ 268,215	$ 323,276		

(a) Limited partnership interests in private equity funds are not redeemable from the general partner. Private equity interests can be sold through a secondary sale to a third party.

(b) Buyout funds are partnership investment vehicles that take a controlling interest primarily in private companies with the intent of developing them for future sale at a higher price to a strategic or financial buyer or through an initial public offering. The nature of the investments in this category is that distributions are received through the liquidation of the underlying assets of the fund. These partnership vehicles are expected to be liquidated over the next three to 10 years.

(c) Distressed asset investments are partnership investment vehicles that purchase debt or preferred equity instruments of companies that are distressed, near bankrupt, or bankrupt. The nature of the investments in this category is that distributions are received through the liquidation of the underlying assets of the fund. These partnership vehicles are expected to be liquidated over the next seven to nine years.

(d) Venture capital funds are partnership investment vehicles that provide seed or growth capital to start-ups and early stage companies, usually in high growth industries, such as information and clean technology, health care and biotechnology. The nature of the investments in this category is that distributions are received through the liquidation of the underlying assets of the fund. These partnership vehicles are expected to be liquidated over the next six to nine years.

(e) Mezzanine private equity funds provide mezzanine loans to companies that need capital but do not want to sell or dilute their equity interests. Mezzanine loans are subordinated debt or preferred equity securities that represent a claim on the borrower’s assets, which is senior to the common equity but subordinate to senior secured and unsecured debt. The nature of the investments in this category is that distributions are received through coupon payments and the liquidation of the underlying assets of the fund. These partnership vehicles are expected to be liquidated over the next eight to 10 years.

(f) Commodities are partnership investment vehicles that invest in businesses engaged in commodity related sectors, including as energy, natural resources, and agriculture. Investments are realized through the sale of the underlying assets to a strategic or financial buyer, or through an initial public offering.

(g) Real estate investments are partnership investment vehicles that invest in commercial, industrial, and residential real estate. Investments are realized through the sale of the underlying assets to a strategic or financial buyer.

4. FUNDING POLICY

Contributions to provide benefits under the Plan are made solely by the Company. The Company's funding policy is to make cash contributions to the Plan in amounts as determined by the Plan's independent actuary. The Company met the minimum funding requirements of ERISA for the years ended December 31, 2013 and 2012.

5. ACCUMULATED PLAN BENEFITS

Accumulated plan benefits are those future periodic payments, including lump-sum distributions that are attributable under the Plan's provisions to service rendered by employees as of the valuation date. Accumulated plan benefits include benefits expected to be paid to: (1) retired or terminated employees, (2) beneficiaries of employees who have died, and (3) present employees or their beneficiaries. The actuarial present value of accumulated plan benefits is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment.

The following amounts were calculated as of the latest actuarial valuation date, which was January 1, 2013.

The actuarial present value of accumulated plan benefits as of January 1, 2013 is as follows:

Vested accumulated plan benefits:	
Retired participants and/or beneficiaries currently receiving benefits	$ 89,741,489
Other participants	69,019,834
Total vested accumulated plan benefits	158,761,323
Nonvested accumulated plan benefits	1,278,721
Total actuarial present value of accumulated plan benefits	$160,040,044

The changes in the actuarial present value of the Plan's accumulated plan benefits for the year ended January 1, 2013, are as follows:

Actuarial present value of accumulated plan benefits at January 1, 2012	$154,789,446
Increase (decrease) during the year attributable to:	
Benefits accumulated	1,037,958
Assumption changes	6,645,820
Benefits paid	(15,674,090)
Interest	13,240,910
Actuarial present value of accumulated plan benefits at January 1, 2013	$160,040,044

The actuarial cost method used to measure the present value of accumulated plan benefits is the accrued benefit method. The significant actuarial assumptions used in the January 1, 2013 valuation were:

- Mortality: For 2013, the mortality assumption was updated according to the projection specified in IRS Regulation 1.430(h)(3)-1, applied on a static basis, projected 7 years from the valuation date for annuitants and 15 years for non-annuitants.

- Retirement age: Age 65.

- Investment return was 8.5% per annum for 2013.

- Discount rate was 8.5% per annum for 2013.

Actuarial assumptions for the period before normal retirement include factors for mortality, termination of employment, early retirement, and disability.

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. If the Plan were to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits. The actuarial present value and the actuarial value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics, all of which are subject to change which may have an impact on the Plan contributions. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that certain changes in these estimates and assumptions could be material to the financial statements.

6. INTEREST IN MASTER TRUST

The net assets of the Master Trust at December 31, 2013 and 2012 are summarized as follows (in thousands):

	2013	2012

Investment income of the Master Trust	$505,545	$436,505
Plan's interest in the Master Trust investment income	$ 22,989	$ 20,079

7. EXEMPT PARTY-IN-INTEREST TRANSACTIONS

Certain Master Trust investments are shares of registered investment companies managed by the Trustee. These assets and related transactions qualify as exempt party-in-interest transactions.

Certain administrative functions are performed by officers and employees of the Company (who may also be a participant in the Plan) at no cost to the Plan or Master Trust. These transactions are not deemed prohibited party-in-interest transactions because they are covered by the statutory administrative exemptions from the IRC and ERISA's rules on prohibited transactions.

8. FEDERAL INCOME TAX STATUS

The Internal Revenue Service (IRS) has determined and informed the Company by a letter dated September 27, 2011, that the Plan and related trust are designed in accordance with the applicable sections of the IRC. The Plan has been amended since receiving the determination letter; however, the plan administrator believes that the Plan is currently designed and is currently being operated in compliance with the applicable requirements of the IRC and the Plan and related trust continue to be tax exempt. Therefore, no provisions for income taxes have been included in the Plan's financial statements.

GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2011 because of the Spin-off. The Company became the Plan's sponsor effective October 31, 2011. ITT Corporation, the prior sponsor of the plan, may be subject to income tax examinations for years prior to 2011. The Company and ITT entered into a Tax Matters Agreement, which generally provides that ITT shall indemnify Exelis for consolidated income taxes relating to any pre Spin-off period up to a certain amount.

9. PLAN TERMINATION

Although it has not expressed any intention to do so, the Company has the right under the Plan, in certain circumstances, to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA. In the event that the Plan is terminated, the net assets of the Plan will be allocated for payment of Plan benefits to the participants in an order of priority determined in accordance with ERISA, applicable regulations there under and the Plan document.

Certain benefits under the Plan are insured by the Pension Benefit Guaranty Corporation ("PBGC") if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination, subject to a statutory ceiling on the amount of an individual's monthly benefit.

Whether all participants receive their benefits should the Plan be terminated at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide those benefits, the priority of those benefits to be paid and the level and type of benefits guaranteed by the PBGC at that time. Some benefits may be fully or partially provided for by the existing assets and the PBGC guaranty while other benefits may not be provided for at all.

10. SUBSEQUENT EVENTS

For the year ended December 31, 2013, subsequent events were evaluated through October 13, 2014, the date the financial statements were available to be issued.

Statement by Enrolled Actuary

To the best of my knowledge the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Funding interest rates

For 2013 Plan Year: Segment Rates with four-month lookback, constrained in accordance with MAP-21 and HATFA as follows:

	Unconstrained Rates*	Rates Reflecting MAP-21 Corridor	Rates Reflecting HATFA Corridor
First Segment Rate	1.75%	4.94%	5.23%
Second Segment Rate	4.62%	6.15%	6.51%
Third Segment Rate	5.72%	6.76%	7.16%

*Used for maximum tax-deduction purposes

Effective Interest Rate Based on HATFA rates	6.61%

Prior Year: Segment Rates with four month lookback:

First Segment Rate	2.06%
Second Segment Rate	5.25%
Third Segment Rate	6.32%

In accordance with MAP-21, the first, second and third Segment Rates are constrained to a 90%-110% Corridor around the average Segment Rates for the 25-year period ending September 30, 2011, or **5.54%, 6.85%** and **7.52%,** respectively for minimum funding and benefit restrictions but not for maximum tax-deductible purposes.

Effective Interest Rate (Based on MAP-21 rates)	6.95%

Mortality

Mortality tables mandated by PPA as specified in IRS Regulation 1.430(h)(3)-1, applied on a static basis, projected 7 years from the valuation date for annuitants and 15 years for non-annuitants.

Actuarial cost method

The Funding Target is the present value of accrued benefits and based on compensation and service to date. The Target Normal Cost is the present value of benefits expected to be accrued during the current plan year, reflecting the effect of expected compensation increases during the year and including expected plan related expenses to be paid from plan assets during the year.

Asset valuation method

The Actuarial Value of Assets is Market Value as of the valuation date, including discounted receivable contributions, reduced by 2/3 and 1/3 of the of the gain/(loss) in the prior 2 years, respectively. The gain/(loss) for each period is determined as the actual return on Market Value during the period less the expected return on Market Value based on an assumed earnings rate chosen by the actuary but required by PPA to be not greater than the applicable third segment rate. The resulting value is constrained to be within a corridor of 90% to 110% of Market Value, including discounted receivable contributions.

The expected return on plan assets is 9.00% per annum for 2011 and 2012, and 8.50% per annum for 2013 and later years limited by PPA to the applicable Third Segment Rate as follows:

2012 measurement period:	7.52%

EDO CORPORATION EMPLOYEES PENSION PLAN

EIN/PN: 11-0707740 / 001

Schedule SB, Part V – Summary of Plan Provisions

Effective Date

December 31, 1952.

Covered Employees

An employee of EDO or any other Employer which has adopted the Plan. No leased employee.

Eligibility for Participation

All active Participants as of December 31, 2000 are Participants as of January 1, 2001. For employees hired on or after January 1, 2002, the participation date is the first day of the month coincident with or immediately following the attainment of age 21 and the completion of twelve months of service. No new Participants enter the plan after December 31, 2002.

Vesting Service

Each calendar month during employment. The aggregate calendar months shall be reduced by one calendar month for each calendar month no employment relationship exists as a result of quitting, discharge, retirement or death.

Credited Service

Each calendar month following the date of at least 12 months of service. The aggregate calendar months shall be reduced by one calendar month for each calendar month no employment relationship exists as a result of quitting, discharge, retirement or death. A maximum of 44 years. Frozen as of December 31, 2002.

Actuarial Equivalent

The determination of actuarially equivalent annuity benefits is based on the mortality table UP-1984 and interest at 8% per annum.

Compensation

Base salary.

Final Average Compensation

Highest consecutive 60 months of compensation out of the preceding 120 months of employment.

Normal Retirement Pension

Eligibility

Age 65 and 5 years of service.

Basic Monthly Benefit

For all employees:

A Cash Accumulation Allocation of 1% of compensation will be credited for each plan year from January 1, 2001 through December 31, 2002. On the last day of each plan year, interest will be credited on the Cash Accumulation Balance in effect as of the first day of the plan year. The interest crediting rate is based on the annual 30-year Treasury rate in effect for the November prior to the start of the plan year.

Additional Prior Plan Benefit for employees hired on or before December 31, 2000:

For service from January 1, 2001 through December 31, 2002:

The product of (A) 1.0% of the Final Average Compensation of such Participant that is equal to or less than one-half of the Taxable Wage Base, multiplied by (B) such Participant's Credited Service from January 1, 2001 through December 31, 2002; and

The product of (A) 1.5% of the Final Average Compensation of such Participant that is greater than one-half of the Taxable Wage Base, multiplied by (B) such Participant's Credited Service from January 1, 2001 through December 31, 2002.

Note that Final Average Compensation only considers compensation through December 31, 2002.

For service prior to January 1, 2001:

The benefit accrued as of December 31, 2000 based on the relevant Appendices to the Plan is converted to an Accrued Benefit Percentage by dividing by Annual Compensation for the plan year ending December 31, 2000. The benefit payable at retirement is the Accrued Benefit Percentage times the Compensation for the 2002 plan year.

Certain individual employees have specified minimum benefit formulas as specified in the appendices.

Early Retirement Pension

Eligibility

Age 55 and 5 years of service.

Benefit

Cash Accumulation Benefit – Annuity that can be purchased by the Cash Accumulation Balance as of the date of retirement.

Prior Plan Benefit earned prior to January 1, 2001 – subject to the AIL or EDO reduction factors that were in effect prior to January 1, 2001.

Prior Plan Benefit earned on or after January 1, 2001 – Unreduced upon attainment of age 62 and 30 years of service. Otherwise, benefits are reduced 4% for each year (i.e., 1/3% for each month) by which benefit commencement precedes normal retirement age.

Disability Retirement Pension

Eligibility

10 years of vesting service.

Benefit

Benefits are determined as if the participant continued to be employed for ten years (or until age 65, if earlier), based on the compensation level in the year in which the participant became disabled. Benefits are payable at normal retirement age.

EDO CORPORATION EMPLOYEES PENSION PLAN

Deferred Vested Pension

Eligibility

5 years of vesting service.

Benefit

A vested Participant may elect to receive his Prior Plan Benefit at any time on or after age 55. Benefits are reduced 6% for each year by which benefit commencement precedes normal retirement age.

Spouse's Benefit

(1) Eligibility

Death in active service upon completion of 5 years of service but prior to age 55.

Benefit

50% of benefit which would have been payable to deceased participant under the 50% joint and survivorship annuity option. Benefits begin when participant would have been age 65 or any time after participant would have been age 55 with reduction for early commencement, at spouse's election.

(2) Eligibility

Death after termination of employment with vested benefits (5 years of service) but before benefits commence or death in active service after becoming eligible for normal or early retirement. Automatic unless waived with spousal consent.

Benefit

Amount determined as in (1) above.

Normal Form of Payment
