Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America. This includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the *Basis for Disclaimer of Opinion* paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's ("DOL") Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 ("ERISA"), the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 5, which was certified by MG Trust Company, LLC, the custodian of the Plan, except for comparing such information with the related information included in the financial statements. We have been informed by the plan administrator that the custodian holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the custodian as of December 31, 2013 and 2012 and for the year ended December 31, 2013, that the information provided to the plan administrator by the custodian is complete and accurate.

Notes to Financial Statements

December 31, 2013 and 2012

1. **Description of Plan**

The following description of the Hospice Care of South Carolina, LLC (the "Company") Employee Savings Trust (the "Plan") provides only general information. Participants should refer to the plan document for a more complete description of the Plan's provisions.

General - The Plan is a defined contribution 401(k) plan covering all full time employees of the Company who have three months of service and are age twenty-one or older. The Governing Body of the Plan control and manage the operation and administration of the Plan. MG Trust Company, LLC serves as the custodian of the Plan ("Custodian"). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Contributions - Each year, participants may contribute up to 85% of their compensation, as defined in the plan document, subject to certain Internal Revenue Code ("IRC") limitations. Participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified plans and certain individual retirement accounts. The Company, at its discretion, may make matching contributions to the Plan equal to the percentage of gross compensation or the elective contributions, made by participants with at least one year of service. In 2013, the Company contributed 50% of the first 6% of base compensation that a participant contributed to the Plan. Additional discretionary amounts may be contributed at the option of the Company. No additional contributions were made for the year ended December 31, 2013. Contributions are subject to certain limitations.

Investment Options - Participants direct the investment of their accounts into various investment options offered by the Plan. The Plan currently offers a money market fund, mutual funds and a common collective trust fund as investment options for participants.

Participant Accounts - Each participant's account is credited with the participant's contribution and allocations of the Company's contributions, plan earnings (losses), and charged with benefit payments, transaction fees related to notes receivable from participants and distributions, and allocations of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The

benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting - Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's contribution portion of their accounts plus actual earnings thereon is based on years of continuous service. A participant is 100% vested after six years of credited service or upon death or disability.

Notes Receivable from Participants – Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. The loans are secured by the balance in the participant's account and bear interest at rates which are commensurate with local prevailing rates as determined by the plan administrator. At December 31, 2013, outstanding loans bore interest at 5.25%. Principal and interest are paid ratably through payroll deductions.

Payment of Benefits - On termination of service or retirement, a participant may elect to receive an amount equal to the value of the participant's vested interest in his or her account in either a lump-sum amount or various installment and annuity options as provided by the Plan. Hardship distributions are permitted upon demonstration of financial hardship. All balances are available for distribution after the participant reaches the age of 65.

Forfeitures - At December 31, 2013 and 2012 forfeited non-vested accounts totaled $15,524 and $8,426, respectively. Forfeitures are used to reduce employer contributions. During 2013, forfeitures of $8,426 were used to offset employer contributions.

2. Summary of Significant Accounting Policies

Basis of Accounting - The financial statements of the Plan are prepared on the accrual basis of accounting in conformity with accounting principles generally accepted in the United States of America ("GAAP").

Estimates - The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect certain reported amounts, changes therein and disclosures. Accordingly, actual results may differ from those estimates.

Investment Valuation and Income Recognition - Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

In accordance with GAAP, investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant

measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Statements of Net Assets Available for Benefits present the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

Purchases and sales of securities are recorded on a trade-date basis. Interest income from notes receivable from participants is recorded when received. Other interest income is recorded on an accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits - Benefits are recorded upon distribution.

Administrative Expenses - The Plan's administrative expenses are paid by either the Plan or the Company, as provided by the plan document. Certain administrative functions are performed by employees of the Company. No such employee receives compensation from the Plan. Expenses relating to specific participant transactions (participant loans and distributions) are charged directly to the participant's account.

Subsequent Events - The plan administrator has evaluated subsequent events through October 9, 2014, which is the date the financial statements were available to be issued.

3. Investments

The following table presents investments that represent 5% or more of the Plan's net assets at fair value at December 31:

	2013	2012
Investments at fair value:		
Reliance Stable Value Return Fund	$ 412,339	$ 371,429
American Funds Growth Fund	140,911	129,481
American Funds 2015 Target Date	*	102,720
American Funds 2020 Target Date	121,478	*
American Funds 2040 Target Date	113,207	*
Franklin Strategic Income	*	93,925
Pimco Total Return	*	85,745

* Amount represents less than 5% of net assets

During the year ended December 31, 2013, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value as follows:

Common collective trust	$ 6,552
Mutual funds	215,497
	$ 222,049

4. Fair Value Measurements

Fair value as defined under GAAP is an exit price, representing the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. GAAP establishes a three-tier fair value hierarchy, which prioritizes the inputs used in measuring fair value. These tiers include:

- Level 1: Observable inputs such as quoted prices in active markets.
- Level 2: Inputs other than quoted prices in active markets that are either directly or indirectly observable.
- Level 3: Unobservable inputs about which little or no market data exists, therefore requiring an entity to develop its own assumptions.

Assets and liabilities are classified in their entirety based on the lowest level of input that is significant to the fair value measurement. The Plan's assessment of the significance of a particular input to the fair value measurement requires judgment, and may affect the valuation of fair value assets and liabilities and their placement within the fair value hierarchy levels.

When quoted prices are available in active markets for identical instruments, investment securities are classified within Level 1 of the fair value hierarchy. Level 1 investments include mutual funds.

Level 2 investment securities include a common collective trust fund for which quoted prices are not available in active markets for identical instruments. The Plan utilizes a third party pricing service to determine the fair value of each of these investment securities. Because quoted prices in active markets for identical assets are not available, these prices are determined using observable market information such as quotes from less active markets and/or quoted prices of securities with similar characteristics.

The following tables set forth by level within the fair value hierarchy, the Plan's assets accounted for at fair value on a recurring basis as of December 31, 2013 and 2012.

	Fair Value as of December 31, 2013			
	Level 1	**Level 2**	**Level 3**	**Fair Value**

Total	$ 1,249,826	$ 371,429	$ -	$ 1,621,255

The Plan recognizes transfers between the levels as of the beginning of the reporting period. There were no transfers between the levels for the years ended December 31, 2013 and 2012.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

5. Unaudited Information Certified by Custodian

The accompanying financial statements include the following unaudited information as of December 31, 2013 and 2012 and for the year ended December 31, 2013 that was obtained from data prepared and certified to be complete and accurate by the Plan's custodian:

	2013	2012
Investments*	$ 2,039,114	$ 1,601,925
Net appreciation in fair value of investments	$ 222,049	
Interest and dividends	$ 53,034	

* All investments are certified at fair value with the exception of the common collective trust, which is certified at contract value.

The certification mentioned above includes all investment information discussed in Notes 3 and 4.

6. Stable Value Fund

The Plan has a fully benefit-responsive investment contract with the Reliance Financial Corporation (the "Fund"). The Reliance Financial Corporation maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

The contract is included in the financial statements at fair value and then adjusted to contract value. As described in Note 2, because the contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the contract. Contract value, as reported to the Plan by the Reliance Financial Corporation, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

If a withdrawal is made from the contract as a result of an employer or plan sponsor-initiated event or if a withdrawal is requested due to a complete or partial termination of a participating plan in the Fund before the contract ends, and the contract's fair value equals or exceeds the guaranteed value, payment is made in an amount equal to the amount of the guaranteed value which is attributable to the participating plan. If the contract's fair value is less than its guaranteed value, the amount paid is equal to the guaranteed value reduced by the amount of fair value

deficit allocable to the participating plan. The plan administrator does not believe that the occurrence of any such value event, which would limit the Plan's ability to transact at contract value with participants, is probable.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The crediting interest rate is based on a formula agreed upon with the issuer, but it may not be less than three percent. Such interest rates are reviewed on a quarterly basis for resetting. The crediting rate of the contract will track current market yields on a trailing basis.

	2013	**2012**
Average yields:		
Based on actual earnings	(1.36)%	5.37%
Based on interest rate credited to participants	2.45%	2.93%

Circumstances that Impact the Fund - The Fund invests all of its assets in the MetLife Group Annuity Contract which typically invests in investment contracts and security-backed contracts. An investment contract is a contract issued by a financial institution to provide a stated rate of return to the buyer of the contract for a specified period of time. A security-backed contract has similar characteristics as a traditional investment contract and is comprised of two parts: the first part is a fixed-income security or portfolio of fixed-income securities; the second part is a contract value guarantee ("wrapper") provided by a third party. Wrappers provide contract value payments for certain participant-initiated withdrawals and transfers, a floor crediting rate, and return of fully accrued contract value at maturity.

There are several risks specific to investment contracts. One of the primary risks involved is credit risk of the contract issuer. Credit risk for security-backed contracts includes risks arising from the potential inability of the issuer to meet the terms of the contract wrapper and the potential default of the underlying fixed-income securities. Secondly, liquidity is limited because of the unique characteristics of investment contracts and the absence of an actively traded secondary market. Interest risk is also present because rates may be fixed with the products.

7. Exempt Party-In-Interest Transactions

Certain plan investments are shares of mutual funds managed by MG Trust Company LLC ("MG Trust"). MG Trust is the custodian as defined by the Plan and, therefore, these transactions qualify as exempt party-in-interest transactions as defined by ERISA. Fees paid by the Plan for investment management services were included as a reduction of the return earned on each fund.

8. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan, subject to the provisions of ERISA. In the event of plan termination, participants would become 100% vested in their accounts.

9. Tax Status

The Plan has not obtained a determination letter from the Internal Revenue Service (the "IRS") stating that the Plan was in compliance with the applicable sections of the IRC. The plan is relying on the IRS approval of the volume submitter plan that it is utilizing. The IRS has determined and informed the document sponsor by a letter dated March 31, 2008 that the volume submitter plan document was designed in accordance with applicable sections of the IRC. The plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable provisions of the IRC. Therefore, the plan administrator believes that the Plan was qualified and the related trust was tax-exempt as of the financial statement date.

GAAP requires plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2013, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2010.

10. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statements of Net Assets Available for Benefits.
