NOTES TO FINANCIAL STATEMENTS
December 31, 2013 and 2012

Note 1 – Description of Plan

The following description of the Uniparts Olsen, Inc. (Company) 401(k)/Profit Sharing Plan and Trust (Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

a. General – The Plan is a defined contribution plan that covers substantially all full-time employees of the Company who have one year of service and are age eighteen or older. Entry into the Plan occurs on the first day of the calendar quarter coinciding with or following the date an employee satisfies the eligibility requirements. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Investment Committee is responsible for oversight of the Plan, determines the appropriateness of the Plan's offerings, and monitors investment performance.

b. Contributions – Participants may contribute up to 100 percent of pretax annual compensation, as defined in the Plan. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified plans (rollover contributions). Rollover contributions amounted to approximately \$1,400 for the plan year ended December 31, 2013. There were no rollover contributions for the plan year ended December 31, 2012. The Company has the option to make discretionary matching contributions each year. For 2013 and 2012, the Company contributed 50 percent of the participant's elected deferral up to six percent of employees' compensation. Contributions are subject to certain limitations.

c. Participant accounts – Each participant's account is credited with the participant's contributions and allocations of (1) the Company's contribution and (2) Plan earnings. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

d. Vesting – Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's matching and discretionary profit sharing contribution portions of their accounts, plus actual earnings thereon, occurs at the rate of 20 percent for each year of service after the first year. A participant is 100 percent vested after six years of credited service. Vesting of 100 percent of a participant's employer contributions and earnings thereon also occurs upon death or disability of the participant or attainment of age 65 (normal retirement).

Note 1 – Description of Plan (continued)

e. Investment options – A participant may direct the investment of his or her account balance in any of twenty-four available investment options with John Hancock. Participants may change their investment options at any time throughout the year. The Plan is intended to be an ERISA Section 404(c) plan.

f. Notes receivable from participants – Participants may borrow from their accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50 percent of their account balance, whichever is less. Only one loan may be outstanding at a time. Loan transactions are classified as notes receivable from participants, segregated from plan investments. The loans are secured by the balance in the participant's account and bear interest at 3.25 to 6 percent. Principal and interest are paid ratably through payroll deductions.

g. Payment of benefits – On termination of service due to retirement, death, disability, or separation from service, participants may elect to receive benefits in a single lump-sum or periodic installment payments over a fixed period of time. Also, upon retirement, disability, or separation from service, participants may elect to continue their account until the participant attains age 70 1/2. Participants are also allowed to make hardship withdrawals in certain circumstances.

h. Forfeited accounts – At December 31, 2013 there were forfeited nonvested accounts of approximately \$3,300. At December 31, 2012, there were no forfeited nonvested accounts. These accounts are used to reduce administrative expenses or future employer contributions. For the year ended December 31, 2013, approximately \$1,200 of forfeitures were used to reduce administrative expenses. For the year ended December 31, 2012, approximately \$3,000 and \$2,000 of forfeitures were used to reduce administrative expenses and employer contributions, respectively.

Note 2 – Summary of Significant Accounting Policies

The following are the significant accounting policies followed by the Plan:

a. Basis of accounting – The accompanying financial statements are prepared on the accrual basis of accounting.

b. Use of estimates – The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires the plan administrator to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results may differ from those estimates.

NOTES TO FINANCIAL STATEMENTS
December 31, 2013 and 2012

Note 2 – Summary of Significant Accounting Policies (continued)

c. Investment valuation and income recognition – The Plan’s investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value of units in pooled separate accounts are valued at the net asset value of such shares held by the Plan at year end. See Note 3 for discussion of fair value measurements.

d. Net appreciation (depreciation) in fair value of investments – The earnings, expenses, realized gains or losses, and unrealized appreciation (depreciation) in pooled separate accounts are recorded in the accompanying financial statements as net appreciation in fair value of investments.

e. Notes receivable from participants – Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2013 or 2012. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

f. Administrative expenses – Except for certain fees related to the administration of notes receivable and recordkeeping, the direct costs of administering the Plan are paid by the Company and are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant’s account and are included in administrative expenses.

Management fees and operating expenses charged to the Plan for investments in pooled separate accounts are deducted from income earned on a daily basis and are not separately reflected. Consequently, management fees and operating expenses are reflected as a reduction of investment return for such investments.

g. Payment of benefits – Benefit payments to participants are recorded when paid.

h. Subsequent events – Subsequent events have been evaluated through the report date, which represents the date the financial statements were available to be issued. Subsequent events after that date have not been evaluated.

Note 3 – Fair Value Measurements

The Plan's investments are reported at fair value in the accompanying statement of net assets available for benefits.

FASB Accounting Standards Codification (ASC) 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels giving the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements).

Level 1 inputs consist of unadjusted quoted prices for identical assets or liabilities in active markets, that the plan has the ability to access, and have the highest priority. Level 2 inputs include quoted prices for similar assets or liabilities in active markets, quoted prices for identical or similar assets or liabilities in inactive markets, inputs other than quoted prices that are observable for the asset or liability, and inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability. Level 3 inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2013 and 2012.

Pooled separate accounts: Valued at the net asset value (NAV) of units of a group annuity contract. The NAV, as provided by the trustee, is used to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. Participant transactions (purchases and sales) may occur daily. There were no unfunded commitments as of December 31, 2013 and 2012. The redemption frequency is daily with no redemption period notice.

Note 6 – Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants will become 100 percent vested in their accounts.

Note 7 – Related Party Transactions

Certain Plan investments are units in pooled separate accounts managed by John Hancock. John Hancock is the trustee as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions.

Note 9 – Tax Status

The Plan adopted the Pension Inc. of Iowa Prototype Non-standardized Profit Sharing Plan. Pension Inc. received acknowledgement from the Internal Revenue Service in March 2008, indicating the prototype document, as designed, is in accordance with the applicable requirements of the Internal Revenue Code. The Internal Revenue Service permits the Plan to rely on their approval of the Pension Inc. prototype plan. The Plan has since been amended. The plan administrator believes the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code and, therefore, believe that the Plan is qualified, and the related trust is tax-exempt.

NOTES TO FINANCIAL STATEMENTS
December 31, 2013 and 2012

Note 9 – Tax Status (continued)

U.S. GAAP requires Plan management to evaluate tax positions taken by the Plan, and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. Plan management has analyzed tax positions taken by the Plan, and has concluded that as of December 31, 2013, there were no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statement. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2010.

Note 10 – Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such change could materially affect the amounts reported in the statement of net assets available for benefits.
