General

The plan is a defined contribution plan established by Ciena Healthcare Management, Inc. (the "company") and is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). All employees who have completed at least 3 months of service with the company, as defined in the plan, and are age 21 or older, are eligible to participate. Upon enrollment in the plan, a participant may direct employee contributions to any combination of available investment options.

Contributions

Each year, participants may contribute up to the maximum percentages allowed under the Internal Revenue Code (IRC) regulations, subject to specified annual limitations. Participants may also contribute amounts representing distributions from other qualified plans (rollover contributions).

The company has the option to make a discretionary employer contribution to the plan. During 2013 and 2012, the company elected to match 50% of a participant's contribution up to the first 5% of compensation.

Participant Accounts

Each participant's account is credited with the participant's contributions and an allocation of the company's contributions and plan earnings (net of administrative expenses). Allocations of plan earnings are based on a participant's account balances. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Mid-Cap/Small Cap Equity Funds - These asset classes are generally comprised of investments which seek capital growth over time by primarily investing in stocks of small to medium sized U.S. companies, although investment strategies may periodically be modified to include foreign issuers. Assets held may include "growth" and/or "value" stocks depending on evaluation of available investment opportunities.

International Equity Funds - These investments generally represent stocks held in companies located outside the U.S. The investment strategy for this asset class includes a regular evaluation of foreign markets around the world and resulting identification of those companies deemed to have above-average growth potential.

The accompanying financial statements have been prepared on the accrual basis of accounting. Actual results could differ from these estimates.

Investment Valuation and Income Recognition

The plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Refer to Note 5 Fair Value of Financial Instruments for details on inputs, valuation techniques and fair value measurement level within the fair value hierarchy.

Net appreciation or depreciation of investments included in the accompanying statement of changes in net assets available for benefits includes realized gains or losses from the sale of investments and unrealized appreciation or depreciation in fair value of investments. Net unrealized appreciation or depreciation in the fair value of investments represents the net change in the fair value of the investments held during the period. The net realized gains or losses on the sale of investments represents the difference between the sale proceeds and the fair value of the investment as of the beginning of the period or the cost of the investment if purchased during the year.

NOTES TO FINANCIAL STATEMENTS

As of December 31, 2013 and 2012 and for the Year Ended December 31, 2013

NOTE 2 - Summary of Significant Accounting Policies (cont.)

Investment Valuation and Income Recognition (cont.)

The plan invests in pooled separate accounts that determine their fair value using the net asset value (NAV) of the funds. The NAV is determined by each fund's trustee using the fair value of the underlying securities within the fund at year end.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis and dividends are recorded on the ex-dividend date.

Payment of Benefits

Benefits are recorded when paid.

CIENA HEALTHCARE MANAGEMENT, INC. 401(K) PLAN

NOTES TO FINANCIAL STATEMENTS

As of December 31, 2013 and 2012 and for the Year Ended December 31, 2013

NOTE 3 - Information Prepared and Certified by Custodian - Unaudited (cont.)

The plan's independent auditors did not perform auditing procedures with respect to the above information, except for comparing such information to the related information included in the financial statements and supplementary schedule.

Investments, in general, are subject to various risks, including credit, interest, and overall market volatility risks. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in values of investment securities will occur in the near term, and such changes could materially affect the amounts reported in the statements of net assets available for benefits.

NOTE 4 - Parties In Interest

Certain plan investments are pooled separate accounts managed by the custodian and, therefore, these transactions qualify as party-in-interest transactions. Fees paid by the plan related to investment management services provided by custodian are party-in-interest transactions. These funds are netted against interest income.

NOTE 5 - Fair Value of Financial Instruments

The plan follows accounting principles generally accepted in the United States of America for measuring, reporting, and disclosing fair value. These standards apply to all assets and liabilities that are measured, reported, and/or disclosed on a fair value basis.

As defined in the accounting standards, fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value hierarchy ranks the quality and reliability of the information used to determine fair values. Assets and liabilities measured, reported and/or disclosed at fair value will be classified and disclosed in one of the following three categories:

- Level 1 - Quoted market prices in active markets for identical investments.
- Level 2 - Observable market based inputs or unobservable inputs that are corroborated by market data. Level 2 inputs include (a) quoted prices for similar investments in active markets; (b) quoted prices for identical or similar investments in markets that are not active; and (c) inputs other than quoted prices that are observable for the investment.
- Level 3 - Unobservable inputs that are not corroborated by market data. Unobservable inputs are inputs that reflect the plan's own assumptions used in pricing an investment based on the best information available.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The plan sponsor is responsible for the determination of fair value. Accordingly, they perform periodic analysis on the prices received from the pricing services used to determine whether the prices are reasonable estimates of fair value. As a result of these reviews, the plan sponsor has not historically adjusted the prices obtained from the pricing services.

NOTES TO FINANCIAL STATEMENTS

As of December 31, 2013 and 2012 and for the Year Ended December 31, 2013

NOTE 5 - Fair Value of Financial Instruments (cont.)

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used for the years ended December 31, 2013 and 2012.

- > Pooled separate accounts: The majority of underlying securities have observable Level 1 quoted pricing inputs. While the underlying asset values are quoted prices, the NAV of a separate account is not publicly quoted and therefore these are considered Level 2 investments.
- > General account: The underlying securities in this account have both Level 1 and Level 2 pricing inputs, since the account is not actively traded, it is considered Level 2 in nature.

The table below presents the balances of assets measured at fair value on a recurring basis by level within the hierarchy.

NOTES TO FINANCIAL STATEMENTS

As of December 31, 2013 and 2012 and for the Year Ended December 31, 2013

NOTE 6 - Tax Status

The plan obtained its latest determination letter on March 29, 2012, in which the Internal Revenue Service (IRS) stated that the plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code (IRC). The plan is required to operate in conformity with the IRC to maintain its qualification. The plan administrator is not aware of any events that have occurred that might adversely affect the plan's qualified status.

U.S. generally accepted accounting principles require plan management to evaluate tax positions taken by the plan. The financial statements effects of a tax position are recognized when the position is more likely than not, based on the technical merits, to be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the plan, and has concluded that as of December 31, 2013 and 2012, there are no uncertain positions taken or expected to be taken. The plan has recognized no interest or penalties related to uncertain tax positions. The plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes the plan is no longer subject to income tax examinations for years prior to 2011.
