NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2013

I. Description of Plan

The following description of the Sares•Regis Group 401(k) Retirement Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

A. *General*

The Plan is a defined contribution plan covering substantially all employees of the Company who have three months of service and are age eighteen or older. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). All Plan assets are held by John Hancock Retirement Plan Services, which also maintain the records of individual participant accounts including contributions, allocations of earnings, distributions, and valuations.

B. *Contributions*

Through June, 2002 participants were allowed to contribute 1% to 15% of pretax annual compensation, as defined by the Plan. In July of 2002 this provision was amended and now states that participants can contribute a much as they desire from each paycheck (with a maximum of 65% of gross pay) up to the Internal Revenue Service maximum each year. The Plan was also amended to allow for the "Catch Up" provisions instituted by the Internal Revenue Service allowing for participants age 50 or more to make contributions over the stated maximums. Participants may also contribute amounts representing distributions from other qualified defined benefit or contributions plans. The Company contributes an amount determined annually by the Board. For 2013 the Company matched 100% of the first $1,000 contributed by each employee plus 50% of the next $1,000.

C. *Participants Accounts*

Each participant's account is credited with the employee's salary deferral contribution and allocations of a) the Company's contribution and b) Plan earnings. The participants whose accounts are held at John Hancock Retirement Plan Services (and were formerly held at Massachusetts Mutual Life Insurance Company) are charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested accounts.

D. *Administrative Expenses*

Administrative expenses are paid by the Plan, either from forfeitures or the Participant Accounts.

401 (K) RETIREMENT PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2013

I. Description of Plan (continued)

E. *Vesting*

Participants are immediately vested in their salary deferral contributions and earnings thereon. Participants are vested in the employer's matching contribution based on years of credit service and vest at the rate of 20 percent per year.

F. *Forfeitures*

Forfeitures (participants' allocated interest in Plan assets which are not vested because employment is terminated before the vesting period is complete) are used to pay administrative expenses and then to reduce employer contributions.

G. *Distributions*

In cases of termination, including death, disability or retirement, benefits shall be paid in a lump-sum payment as soon as administratively feasible following the date on which a distribution is requested or is otherwise payable.

H. *Plan Investments*

Participants may direct the investment of their accounts into several different investment accounts offered by the Trustees. Participants may change their investment options up to twice per month.

I. *Participant Notes Receivable*

Participants may borrow a minimum of $500 up to a maximum equal to the lesser of $50,000 or 50% of their balance from their fund accounts. Loan transactions are treated as a transfer to (from) the investment fund from (to) the participant notes fund. Loans bear a reasonable rate of interest and are secured by the participant's account balance. Loans must be repaid by payroll deductions within five years, unless the loan is to purchase a residence, in which case it may be repaid over a longer, reasonable period of time.

J. *Payment of Benefits*

Upon retirement, death, disability, or termination of service, a participant or the participant's beneficiary may elect to receive either a lump-sum cash amount equal to the value of his or her account, an annuity contract, or installments. If the account balance is under $5,000 and they do not give specific instructions, their account balance is rolled over into an IRA. Terminated participants with an account balance of $5,000 or more have the option of continuing their account until age 70 ½ or rolling it over to a new plan or IRA.

II. Summary of Significant Accounting Policies

A. *Basis of Accounting*

The Accompanying financial statements have been prepared on the accrual basis. The Form 5500 was prepared using the cash basis of accounting; thus, there will be differences between the amounts reported in the Form 5500 and amounts in the accompanying financial statements. The differences relate to the method of recognizing the timing of receipt of employer and employee's contributions.

B. *Estimates*

The preparation of financial statements in conformity with generally accepted accounting principles requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

C. *Investment Valuation and Income Recognition*

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Investment Committee determines the Plan's valuation policies utilizing information provided by the investment advisers, custodians and insurance company. See note VIII for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2013. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

III. Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants become 100 percent vested in their accounts.

IV. Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements at December 31, 2013 to Form 5500:

Net Assets Available For Benefits Per The Financial Statements	$	28,781,152
Add Corrective Distributions		73,051
Net Assets Available For Benefits Per The Form 5500	**$**	**28,854,203**

V. Federal Income Taxes

The Plan is exempt from Federal and State income taxes. Accordingly, no provision for income taxes has been made. Participants in the Plan are not liable for income taxes on employer contributions, earnings, or forfeitures allocated to their accounts until withdrawals are made. Continued income tax exempt status requires compliance with the provisions of ERISA. The Plan has received a favorable letter of determination from the Internal Revenue Service.

VI. Investments

The following table presents the investments representing 5% or more of the net assets available for benefits at December 31, 2013:

Lifestyle Moderate	1,473,993

VIII. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

- Level 1 Inputs to the valuation methodology are updated quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
- Level 2 Inputs to the valuation methodology include: quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.
- Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2013:

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the SEC. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded. All assets other than cash and receivables held by the Plan are invested in Mutual Funds and the fair value of $28,239,523 was determined using Level 1 inputs as described above.
