LABS, Inc. Employees' Retirement Plan

Notes to Financial Statements

Note 1. Description of Plan

The following description of the LABS, Inc. Employees' Retirement Plan (the Plan) is provided for general information purposes only. Participants should refer to the Plan document and summary Plan description for more complete information.

General and eligibility: The Plan is a defined contribution plan established by LABS, Inc. (the Organization) effective December 1, 2007. Full-time employees of the Organization are eligible to make employee contributions upon hiring and may receive employer contributions on the first day of the month following completion of one year of service (1,000 hours). Employees are automatically enrolled as participants in the plan with no automatic deferral percentage. This allows the employer to make discretionary contributions to all employees as discussed below, provided they meet the years of service requirements. If not specified, contributions are deposited in the applicable Lifetime account based on the retirement age of 65. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA) and the applicable current Internal Revenue Code (IRC) provisions.

Contributions and investment options: Each year employees may contribute a percentage of their annual compensation but not more than the maximum allowable limits established by the IRC. For the year ended December 31, 2013, the Organization made safe harbor matching contributions equal to the sum of (1) 100% of participant's deferrals that do not exceed 3% of his or her compensation and (2) 50% of the participant's deferrals that exceed 3% of his or her compensation but do not exceed 5% of his or her compensation. In addition, the Organization contributes additional amounts as a percentage of eligible compensation as follows:

	<u>Contribution Percentage</u>
More than 1 year of service but less than 2	2%
More than 2 years of service but less than 3	3%
More than 3 years of service but less than 4	4%
More than 4 years of service but less than 5	5%
More than 5 years of service	6%

Participants in the Plan direct their contributions and Organization contributions into various investment options offered by the Plan. Participants may change their elections daily.

Participant accounts: Individual accounts are maintained for each Plan participant. Each participant's account is credited with the participant's contributions, the Organization's contributions, Plan earnings and is charged with an allocation of service charges. Allocations are based on participant earnings or account balances, as defined in the Plan document. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting: Elective deferral pre-tax contributions and earnings thereon are fully vested and nonforfeitable. Any employer contributions are also fully vested upon the contribution date.

Payment of benefits: On termination of service due to retirement, death or disability, a participant may elect to receive a lump sum amount equal to the value of the participant's vested interest in his or her account, or an annuity which provides for annual installments over a specified period. For termination of services due to other reasons, a participant may receive the value of the vested interest in his or her account as a lump sum distribution less applicable taxes, or the participant may elect to roll over his or her account balances into another qualified retirement savings account.

LABS, Inc. Employees' Retirement Plan

Notes to Financial Statements

Note 1. Description of Plan (Continued)

Notes receivable from participants: Participants may borrow from their fund accounts in amounts from \$1,000 to \$50,000 reduced by the excess, if any, of the highest outstanding balance during the prior 12 months over the outstanding balance on the date on which the new note is made and limited to a maximum of 50% of the present value of the participant's vested account balance. The notes bear interest at rates to be determined by the Plan Administrator based on a commercially reasonable rate and are collateralized by the participant's vested account balance. The repayment period is limited to five years, except that a note used for the purchase of a principal residence may exceed five years. The repayment period may not extend beyond the participant's normal retirement date. Principal and interest is paid ratably through payroll deductions. Notes receivable outstanding at December 31, 2013 bear interest at a rate of 5.25% and are due through March 2019.

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent notes are treated as distributions based upon the terms of the Plan document.

Note 2. Summary of Significant Accounting Policies

Basis of accounting and presentation: The accompanying financial statements are prepared on the accrual basis of accounting. The Plan follows accounting standards established by the Financial Accounting Standards Board (FASB) to ensure consistent reporting of net assets and changes in net assets. References to Generally Accepted Accounting Principles (GAAP) in these footnotes are to the FASB Accounting Standards Codification (ASC or the Codification).

Accounting estimates and assumptions: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires Plan management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein. Actual results could differ from those estimates.

Risks and uncertainties: The Plan utilizes various funds as investment instruments. Mutual funds are exposed to various risks, such as interest rate and credit risk and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the financial statements.

Investment valuation and income recognition: The Plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on an accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation or depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Management fees and operating expenses charged to the Plan for investments in the mutual funds are deducted from income earned on a daily basis and are not separately reflected. Consequently, management fees and operating expenses are reflected as a reduction of investment return for such investments.

Note 2. Summary of Significant Accounting Policies (Continued)

Investment in insurance contract: Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Plan invests in investment contracts through an insurance contract. The statement of net assets available for benefits presents the fair value of the investment in the insurance contract as well as the adjustment of the investment in the insurance contract from fair value to contract value. The statement of changes in net assets available for benefits is prepared on a contract value basis.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (a) amendments to the Plan documents (including complete or partial plan termination or merger with another plan), (b) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (c) bankruptcy of the Plan Sponsor or other Plan Sponsor events (for example, divestitures or spin-offs of a subsidiary), or (d) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The Plan Administrator does not believe that any events which would limit the Plan's ability to transact at contract value with participants are probable to occur.

Payment of benefits: Benefit payments to participants are recorded upon distribution.

Recent accounting pronouncements: In October 2012, the FASB issued Accounting Standards Update (ASU) 2012-04, *Technical Corrections and Improvements* (ASU 2012-04). The amendments in this update cover a wide range of topics in the ASC, including plan accounting. These amendments include technical corrections and improvements to the ASC and conforming amendments related to fair value measurements. The amendments in this update will generally be effective for fiscal periods beginning after December 15, 2013, for non public entities, except for amendments in this update where there was no transition guidance which were immediately effective upon issuance. The impact of adopting ASU 2012-04 on subsequent periods has not yet been determined.

Subsequent events: The Plan Administrator evaluated subsequent events through August 18, 2014, the date the financial statements were available to be issued. Through that date, there were no events requiring recognition or disclosure.

Note 3. Administrative Expenses

Certain administrative functions are performed by employees of the Organization. No such employee receives compensation from the Plan. All administrative fees, other than loan fees, are paid by the Organization.

Note 4. Information Certified and Provided by the Custodian

The following is a summary of the Plan's asset information as of December 31, 2013 and 2012, and for the year ended December 31, 2013, included throughout the Plan's financial statements and supplemental schedules, that was prepared by or derived from information provided by Delaware Charter Guarantee and Trust Company (d/b/a Principal Trust Company) (the Custodian) and furnished to the Plan Administrator. The Plan Administrator has obtained certifications from the Custodian that information provided to the Plan Administrator by the Custodian related to the following assets is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to information which appears throughout the financial statements and supplemental schedule related to the following assets:

	December 31,	
	2013	2012
Investments, at fair value:		
Mutual funds	\$ 5,394,900	\$ 4,456,949
Investment in insurance contract:

Adjustment from contract value to fair value	(2,544)	(2,457)
Principal Fixed Income Guaranteed Option, at fair value	48,336	46,674
	<u>\$ 5,443,236</u>	<u>\$ 4,503,623</u>
Notes receivable from participants	<u>\$ 168,861</u>	<u>\$ 122,260</u>

The Custodian also certified to the completeness and accuracy of the following investment income information (including investments bought, sold and held during the year) for the year ended December 31, 2013:

	Interest and Dividends	Net Appreciation in Fair Value of Investments
Mutual funds	\$ 198,744	\$ 702,037
Insurance contract	740	-
Investment income	<u>\$ 199,484</u>	<u>\$ 702,037</u>

The Custodian also certified to the completeness and accuracy of interest income on notes receivable from participants of \$8,323 for the year ended December 31, 2013.

Note 4. Information Certified and Provided by the Custodian (Continued)

The following table presents Plan investments that represent 5% or more of the Plan's net assets at December 31, 2013 and 2012:

	December 31,	
	2013	2012
Mutual funds:		
Principal Lifetime 2030 R3 Fund	\$ 1,550,455	\$ 1,102,191
Principal Lifetime 2040 R3 Fund	1,253,500	1,024,689
Principal Lifetime 2050 R3 Fund	1,143,297	858,613
Principal Lifetime 2020 R3 Fund	*	252,530
Well Far Adtg Lgcpgr A Fund	291,885	*

* Balance is less than 5% of Plan's net assets

The Plan offers an investment in the Principal Fixed Income Guaranteed Option (the PFIGO), a fully benefit-responsive investment contract with the Custodian. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The PFIGO issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan. As of December 31, 2013 and 2012, the interest rate and average yield credited to the PFIGO was 2.00% and 2.10%, respectively.

Because the PFIGO is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the PFIGO. Contract value, as reported to the Plan by the Custodian, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

Note 5. Fair Value Measurements

Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants. The Fair Value Measurements Topic of the FASB ASC requires the use of valuation techniques that are consistent with the market approach, the income approach and/or the cost approach. Inputs to valuation techniques refer to the assumptions that market participants would use in pricing the asset or liability. Inputs may be observable, meaning those that reflect the assumptions market participants would use in pricing the asset or liability developed based on market data obtained from independent sources, or unobservable, meaning those that reflect the Plan's own assumptions about the assumptions market participants would use in pricing the asset or liability developed based on the best information available in the circumstances. In that regard, the guidance establishes a fair value hierarchy for valuation inputs that give the highest priority to quoted prices in active markets for identical assets or liabilities and the lowest priority to unobservable inputs. The fair value hierarchy is as follows:

Level 1: Quoted prices (unadjusted) for identical assets or liabilities in active markets that the Plan has the ability to access as of the measurement date.

Level 2: Significant other observable inputs other than Level 1 prices such as quoted prices for similar assets or liabilities, quoted prices in markets that are not active, or other inputs that are observable or can be corroborated by observable market data.

Level 3: Significant unobservable inputs that reflect the Plan's own assumptions about the assumptions that market participants would use in pricing an asset or liability.

LABS, Inc. Employees' Retirement Plan

Notes to Financial Statements

Note 5. Fair Value Measurements (Continued)

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs. The Plan's mutual funds are valued using Level 1 inputs while the PFIGO is valued using Level 3 inputs.

Following is a description of the valuation methodologies used for assets measured at fair value:

Fixed fund, PFIGO: Valued based on guaranteed benefits under the terms of the contract.

Mutual funds: Valued based on quoted market price of the fund.

There have been no changes in the methodologies used at December 31, 2013 and 2012.

The methods above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level within the fair value hierarchy the Plan's investments at fair value as of December 31, 2013 and 2012:

Investments at Fair Value				
	Level 1	Level 2	Level 3	Total

LABS, Inc. Employees' Retirement Plan**Notes to Financial Statements****Note 5. Fair Value Measurements (Continued)**

A reconciliation of all Level 3 inputs as of and for the year ended December 31, 2013 is as follows:

	Fixed Fund, PFIGO
Fair value, December 31, 2012	\$ 46,674
Interest	740
Unrealized gains (losses) relating to investments still held at the reporting date	(87)
Purchases	44,580
Sales	(43,571)
Fair value, December 31, 2013	\$ 48,336

During the year ended December 31, 2013, the Plan did not make any significant transfers between levels.

The following table represents the Plan's level 3 financial instruments, the valuation techniques used to measure the fair value of those financial instruments, and the significant unobservable inputs and the ranges of values for those inputs:

Instrument	Fair Value	2013			
		Principal Valuation Technique	Unobservable Inputs	Range of Significant Input Values	Weighted Average
Fixed fund: PFIGO	\$ 48,336	Theoretical transfer (exit value)	Credited interest rate	2.00 - 2.40%	2.03%

In estimating fair value of the investments in Level 3, the Plan's Retirement Plan Committee (the Committee) may use third-party pricing sources or appraisers. In substantiating the reasonableness of the pricing data provided by third parties, the Committee evaluates a variety of factors including the review of methods and assumptions used by external sources, recently executed transactions, existing contracts, economic conditions, industry and market developments, and overall credit ratings.

Note 6. Plan Termination

Although it has not expressed any intent to do so, the Organization has the right to terminate the Plan at its discretion. In the event of termination, the net assets of the Plan, after payment of any expenses properly charged, will be distributed to each participant according to the amount then credited to his or her account.

Note 7. Tax Status

The Plan has received an opinion letter from the Internal Revenue Service dated March 16, 2010 as to the Plan's qualified status. The Plan Administrator believes the Plan is designed and is being operated in compliance with the applicable provisions of the IRC. With few exceptions, the Plan is no longer subject to income tax examinations by the U.S. federal, state, or local tax authorities for the years before 2010.

LABS, Inc. Employees' Retirement Plan

Notes to Financial Statements

Note 7. Tax Status (Continued)

The Plan applies the standards on accounting for uncertainty in income taxes. The Plan Administrator evaluated the Plan's tax positions and concluded that the Plan has maintained its tax exempt status and has taken no uncertain tax positions that require adjustments to the financial statements; therefore, no provision of liability for income taxes has been included in the financial statements.

Note 8. Related Party Transactions

Certain Plan investments are shares of mutual funds managed by the Custodian and therefore qualify as party-in-interest transactions. Fees paid by the Plan for service charges amounted to \$7,843 for the year ended December 31, 2013.

Note 9. Prohibited Transactions

During 2013, the Organization failed to deposit \$226,446 of contributions within the timeframe as stated by the United States Department of Labor (DOL). The DOL considers late deposits to be prohibited transactions. The Organization is in the process of correcting these late deposits through the VFCP.
