CLARCOR 401(k) Plan

Notes to Financial Statements

- 1. Description of Plan**

The following brief description of the CLARCOR 401(k) Plan (the "Plan") is provided for general information purposes only. Participants should refer to the Summary Plan description for a more complete description of the Plan's provisions.

General The Plan is a defined contribution plan established January 1, 2004, which covers eligible domestic employees of CLARCOR Inc. (the "Company") who are 21 years or older, and who, effective January 1, 2004, are not continuing participation in the Company Pension Plan. Employees are automatically enrolled at 3% pre-tax contribution rate following a 60 day opt-out period. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Contributions Each year participants may contribute up to 50% of pre-tax or after-tax (Roth) compensation, as defined by the Plan, subject to Internal Revenue Code ("IRC") limitations. Participants may also rollover amounts representing distributions from other qualified defined benefit or defined contribution plans. The Company matches annually on a discretionary basis to participants who have completed 1,000 hours of service and were employed on the last day of the Plan year. For 2013 and 2012, the Company contributed 100% of the first 3% and 50% of the next 2% (combined employee pre-tax and/or after-tax (Roth) contributions) for eligible participants.

Participant Accounts Each participant's account is credited with the participant's contributions and allocations of (a) the Company's contributions and (b) Plan earnings and losses. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participants' account balances, as defined. Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan currently offers a common collective trust and 21 mutual funds as investment options for participants. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account balance.

Investment Options Participants direct contributions, including Company contributions, into any of the investment options offered by Vanguard Fiduciary Trust Company ("Vanguard"), the Plan custodian. Participants may change their investment options at any time.

Vesting Participants are immediately vested in their contributions and the Company's discretionary contributions, plus actual earnings or losses thereon.

CLARCOR 401(k) Plan

Notes to Financial Statements

Notes Receivable From Participants

Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50 percent of their account balance. The participant may have only one note outstanding. The notes are secured by the balance in the participant's account. The loan interest rate is the interest at the prime Wall Street rate plus 2% at the time the note begins. Interest rates on outstanding notes receivable range from 5.25% to 10.5% in 2013 and 2012. Notes are repaid through payroll deductions with principal and interest being credited to the participants' account balances. Notes are to be repaid over a period of time not to exceed five years, unless used for the purchase of principal residence, in which case the payback period may not exceed 15 years.

Payment of Benefits

Upon termination of service, death, disability or retirement, participants or their beneficiaries receive a lump-sum benefit payment.

Subject to certain provisions specified in the Plan agreement, employed participants may withdraw their after-tax (Roth) contributions and related earnings or losses thereon. Withdrawals from the Plan may also be made upon circumstances of financial hardship in accordance with provisions specified in the Plan.

Forfeitures

In the event participants contribute more than is allowed by the IRC limitations and the Company matches on these contributions, the excess participant contributions are refunded to the participant and the Company contributions are moved into a forfeiture account. These forfeitures may be used by the Company to reduce future employer contributions. At December 31, 2013 and 2012 forfeited non-vested accounts totaled \$3,895 and \$-0-, respectively. These accounts will be used to reduce future employer contributions. Also employer contributions were reduced by \$-0- and \$10 from forfeited non-vested accounts in 2013 and 2012, respectively.

2. Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared under the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires Plan management to make estimates and assumptions that affect the

CLARCOR 401(k) Plan

Notes to Financial Statements

reported amounts of assets and liabilities and changes therein, and disclosures of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

The Plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 7 for discussion of fair value measurements.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The statements of net assets available for benefits presents the fair value of the investment contract as well as the adjustment of the fully benefit-responsive investment contract from fair value to contract value. The statements of changes in net assets available for benefits are prepared on a contract value basis.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits

Benefits are recorded when paid.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2013 or 2012. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be in default, the amounts are recorded as distributions based upon the terms of the Plan document.

Expenses

Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation of fair value of investments.

3. Significant Investments

The fair value of individual investments that represent 5 percent or more of the Plan's net assets are as follows:

<i>December 31,</i>	2013	2012
Vanguard 500 Index Fund	\$20,617,287	\$15,609,807
Vanguard Wellington Fund	12,589,838	10,014,614
Vanguard Windsor II Fund	7,628,065	5,998,487
Vanguard Retirement Savings Trust*	12,245,881	13,315,283

*Fully benefit-responsive investment contract with contract values totaling \$11,913,865 and \$12,644,965 at December 31, 2013 and 2012, respectively.

4. Related Party Transactions

The Plan invests in shares of mutual funds and a common collective trust managed by an affiliate of Vanguard. Vanguard acts as custodian for only those investments as defined by the Plan. Transactions in such investments qualify as exempt party-in-interest transactions. Fees paid by the Plan for annual note and redemption fees amounted to \$23,445 and \$21,805 for the years ended December 31, 2013 and 2012, respectively.

5. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA.

6. Tax Status

The Internal Revenue Service has determined and informed the Company by a letter dated October 22, 2011 that the Plan and related trust are designed in accordance with applicable sections of the IRC. Although the Plan has been amended since receiving the determination letter, the Plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

The Plan administrator evaluated the Plan's tax positions and concluded that the Plan had taken no uncertain tax positions that require adjustment to the financial statements as of December 31, 2013 or 2012. If interest and penalties are incurred related to uncertain tax positions, such amounts are recognized in income tax expense. Tax periods for all fiscal years after 2010 remain open to examination by taxing jurisdictions to which the Plan is subject.

7. Fair Value Measurements

Financial Accounting Standards Board ("FASB") Auditing Standards Codification ("ASC") Topic 820, *Fair Value Measurements* ("ASC 820")

CLARCOR 401(k) Plan

Notes to Financial Statements

establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under ASC 820 are described as follows:

- Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
- Level 2 Inputs to the valuation methodology include: quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.
- Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value on a recurring basis. There have been no changes in the methodologies used at December 31, 2013 and 2012.

Common collective trust fund (Level 2): Valued based on information reported by the investment advisor using audited financial statements of the collective trust at year-end which outlines how the fund is valued within the fair value hierarchy.

Mutual funds (Level 1): Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value ("NAV") and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

CLARCOR 401(k) Plan

Notes to Financial Statements

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2013:

Notes to Financial Statements

- 8. Information Certified and Provided by Vanguard Fiduciary Trust Company** The Plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the United States Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Vanguard has certified that the following data included in the accompanying financial statements and supplemental schedule are complete and accurate.

	As of December 31,	
	2013	2012
Common collective trust*	\$ 12,245,881	\$ 13,315,283
Mutual funds	114,875,525	91,473,273
Notes receivable from participants	4,618,097	4,059,867

*Contract value totals \$11,913,865 and \$12,644,965 at December 31, 2013 and 2012, respectively.

	For the Year Ended December 31,	
	2013	2012
Interest and dividends	\$ 3,270,070	\$ 2,399,090
Net appreciation in fair value of mutual funds	16,683,608	7,670,382
Net gain on sale of investments of mutual funds	1,251,537	813,252
Interest income on notes receivable from participants	225,902	205,389

- 9. Common Collective Trust Fund** The Plan invests in the Vanguard Retirement Savings Trust, a fully benefit-responsive common collective trust fund with Vanguard, which invests in guaranteed investment contracts comprised of both underlying investment and contractual components. The fund is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

Because the common collective trust fund is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. The common collective trust fund is presented on the face of the statements of net assets available for benefits at fair value with an adjustment to contract value in arriving at net assets available for

CLARCOR 401(k) Plan

Notes to Financial Statements

benefits. Contract value, as reported to the Plan by Vanguard represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against the contract value for credit risk of the contract issuer or otherwise. The fair value of the common collective trust fund at December 31, 2013 and 2012 was \$12,245,881 and \$13,315,283, respectively. The crediting interest rate is based on an agreed-upon formula with the issuer. Such interest rates are reviewed on a quarterly basis for resetting.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the Plan documents (including complete or partial Plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Plan sponsor or other Plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan or (4) failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The Plan administrator does not believe that any events which would limit the Plan's ability to transact at contract value with participants are probable of occurring.

Average yields of the fund for the years ended December 31, 2013 and 2012, are as follows:

	2013	2012
Based on actual earnings	1.98%	2.22%
Based on interest rate credited to participants	1.56%	1.82%

10. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market valuation and credit risks. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits and the statement of changes in net assets available for benefits. Individual participants' accounts bear the risk of loss resulting from fluctuations in fund values.

11. Subsequent Events

The Plan has evaluated subsequent events through October 13, 2014, the date these financial statements were available to be issued. No subsequent events have occurred that require recognition or disclosure.
