UNIGEN CORPORATION 401(k) PROFIT SHARING PLAN

NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2013 AND 2012 (See Independent Auditors' Report)

NOTE 1 - DESCRIPTION OF PLAN

The following description of the Unigen Corporation 401(k) Profit Sharing Plan ("the Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General **-** The Plan is a defined contribution profit-sharing plan that was established on January 1, 1995 by Unigen Corporation ("the Company" or "Plan Administrator") covering all eligible employees who are age 21 or older. Employees who are members of a collective bargaining agreement and non-resident aliens who receive no earned income within the United States are excluded from plan participation. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"). A Plan Committee ("the Committee") manages the operation and administration of the Plan, including the appropriateness of the Plan's investment offerings and investment performance.

Effective February 3, 2013, the Company contracted with Great-West Life Trust Company LLC to act as custodian and with Great-West Life & Annuity Insurance Company (collectively referred to as "Great-West") to hold assets of the Key Guaranteed Portfolio Fund. Great-West invests Plan assets and acts as record-keeper to process and maintain the records of participant data. A third-party administrator provides certain plan services. Prior to February 2, 2013, State Street Bank and Trust Company ("State Street") acted as trustee and custodian, and ADP as record-keeper to process and maintain the records of participant data. In connection with the change from State Street to Great-West, the blackout period was from January 24, 2013 and ended on February 26, 2013. As of December 31, 2013, a Company officer serves as plan trustee. In 2014, the Plan opened an account at First Republic to hold profit sharing assets of the Plan.

Contributions **-** Each year, participants may contribute an amount of eligible pre-tax annual compensation as defined in the Plan agreement, not to exceed the maximum statutory amount. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions, not to exceed the maximum statutory amount. Participants may also contribute amounts representing distributions from other qualified eligible plans.

The Company may make discretionary matching contributions and/or discretionary profit sharing contributions under the Plan subject to certain eligibility requirements. In 2013, the Company's matched 50% of a participant's

deferral up to a 6% deferral rate, with an annual maximum of $3,000 per participant. For 2013, the Company's discretionary matching contribution was approximately $238,000. In addition, the Company made a discretionary profit sharing contribution in 2013 in the amount of approximately $164,000 of which approximately $158,000 was a receivable as of December 31, 2013 and was paid in July 2014.

Participant Accounts - Each participant's account is credited or charged with the participant's contribution, the Company's discretionary matching contribution, the Company's discretionary profit sharing contribution, plan earnings or losses, and charged with an allocation of plan expenses as applicable. Allocations of plan earnings and losses are based on investment selections.

Allocations of the Company's discretionary profit sharing contribution to eligible participants are computed as follows: 1. The two primary owners were allocated the maximum allowed by Internal Revenue Code ("IRC") section 415. 2. Each non-highly compensated employee constitutes his or her own allocation group. Each non-highly compensated employee who earned a benefit in the Unigen Corporation Defined Benefit Pension Plan ("DBPP") received an allocation sufficient to allow both plans to pass the IRC section 401(a)(4) nondiscrimination test on a combined plans basis. 3. Each employee who did not earn a benefit in the DBPP did not receive an allocation in this Plan.

The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. All contributions/investments to the Plan are participant directed except the discretionary profit-sharing contributions/investments which are trustee directed.

Participants may elect to have their accounts professionally managed by a managed accounts service firm for a fee as detailed in the Plan's enrollment form.

Certain investment and fund fees are charged to the funds and included in investment income and losses and charged to participant accounts. Participants should refer to the funds' prospectuses for further information on these fees.

Vesting - Participants are 100% vested in their elective and rollover contributions plus actual earnings thereon. Effective February 1, 2013, participants vest in the discretionary matching contributions and discretionary profit sharing contribution allocated to their accounts as follows: 0% for less than one year of credited service, 20% for one to two years of credited service, and then 20% vesting for each year of credited service thereafter with full vesting after five years. Prior to

February 1, 2013, participants vested in the discretionary matching contributions and discretionary profit sharing contribution allocated to their accounts as follows: 0% for the first three years and 100% after three years. Participants become fully vested in the event of death, disability, retirement, or plan termination.

Notes Receivable from Participants - Participants may borrow from their fund accounts a minimum of $500 up to a maximum of $50,000 or 50% of their vested account balance, whichever is less. A participant may have three notes outstanding at any time. The notes are secured by the balance in the participant's account. The interest rate is calculated at prime + 2%. Outstanding notes receivable from participants as of December 31, 2013 and 2012 carry an interest rate of 5.25%. Principal and interest is paid ratably through payroll deductions. Notes must be paid within five years, unless used for the financing of a principal residence in which case the periodic repayment period may be longer. The specific terms and conditions of such notes are established by the Plan Administrator.

Payment of Benefits - Upon the satisfaction of certain distributable events, participants or their beneficiaries may elect to receive their vested account balance and are paid in accordance with plan provisions. The Plan allows for automatic distribution of terminated participant balances between $1,000 and $5,000 to an IRA Rollover account.

.

Forfeitures - Forfeitures may be used to pay plan expenses and to reduce employer contributions. The forfeiture account balance was approximately $3,600 and $1,300 as of December 31, 2013 and 2012, respectively.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting - The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of Estimates - The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition - Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Committee determines the Plan's valuation

policies utilizing information provided by Great-West, State Street, and First Republic. See Note 6 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants - Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2013 and 2012. If a participant ceases to make note repayments and the Plan Administrator deems the participant note to be in default, the participant note balance is reduced and a benefit payment is recorded.

Excess Contributions Payable - Amounts payable to participants for contributions in excess of amounts allowed by the Internal Revenue Service ("IRS") are recorded as a liability. As of December 31, 2013 and 2012 there were no material excess contributions payable.

Plan Expenses - Some expenses incurred for administering the Plan are paid by the Company. Certain participant and annual administration fees are paid by participants and charged to their accounts as applicable.

Payment of Benefits - Benefits are recorded when paid.

Subsequent Events - The Plan has evaluated subsequent events through October 13, 2014, the date the financial statements were available to be issued.

NOTE 3 - RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

NOTE 4 - CERTIFIED INFORMATION

In accordance with 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA information certified by Great-West as of December 31, 2013, and for the period February 3, 2013 to December 31, 2013, and by State Street as of December 31, 2012, and for the period January 1, 2013 to February 2, 2013, regarding the current value of assets held and transactions entered into, was used in the preparation of the accompanying financial statements and supplemental schedule. Great-West – fixed annuity interest	2,916
Great-West – mutual fund dividends	201,907

Great-West	2,251
Total	$2,256

The Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value as follows for the year ended December 31, 2013:

State Street - mutual funds	$117,031
State Street - common/collective trusts	4,429
Great-West - mutual funds	170,395
Total	$291,855

NOTE 5 - NON-PARTICIPANT DIRECTED INVESTMENTS

Profit sharing contributions are trustee directed. The 2013 profit sharing contribution was approximately $164,000 of which approximately $158,000 was a receivable as of December 31, 2013 and was paid in July 2014. These assets are held at First Republic. As of December 31, 2013, there are no other trustee directed assets.

NOTE 6 - FAIR VALUE MEASUREMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2013 and 2012.

Mutual Funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value ("NAV") and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Fixed Annuity: The value for the fixed annuity option is reported daily, as calculated by Great-West and valued at fair value by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the credit-worthiness of the issuer.

Common/Collective Trusts:

1. Invesco Stable Asset Fund: Valued on a unitized share basis based on the value of the underlying investments. The net unit values are determined as of the

close of each business day. The trust invests in various underlying securities (primarily synthetic guaranteed investment contracts) which use different valuation techniques based on the type of investment. Generally, the trust's investment contracts are carried at contract value which is equal to principal balance plus accrued interest plus deposits less withdrawals. Participant units are issued and redeemed only at the end of each day and at the net unit value at contract value. For this trust there is no unfunded commitment, the units can be redeemed daily, and there is no redemption notice period at the participant level.

2. SSGA S&P 500 Index Fund: Valued on a unitized share basis based on the value of the underlying investments in the trust valued using a market approach. The net unit values are determined as of the close of each business day. The investment valuation policy of the trust is to value investments at fair value, which is generally determined as the amount that could reasonably be expected to be realized from an orderly disposition of securities and other financial instruments. For this trust there are no unfunded commitments, the units can be redeemed daily, and there is no redemption notice period at the participant level.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value:

	Assets at Fair Value as of December 31, 2013

NOTE 7 - FIXED ANNUITY FUND

As of December 31, 2013, the Great-West fixed annuity fund (Key Guaranteed Portfolio Fund) is reported at contract value which approximates fair value. Fixed annuity funds held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts. The Key Guaranteed Portfolio Fund is considered not fully benefit-responsive due to a provision in the Plan's investment contract that prevents the immediate and full payout of the contract value for plan-initiated transactions. However, the fund is considered fully-benefit responsive at the participant level.

The crediting interest rate is based on a formula agreed upon with the issuer, but it may not be less than 0% percent. Such interest rates are reviewed on a quarterly basis for resetting. he methodology for calculating the interest crediting rate is based on the earnings of the underlying assets in the entire medium-long term new portfolio compared to the minimum interest crediting rate, as stated in the contract, and prevailing market conditions. Interest crediting rate is reset quarterly.

Either party to the Group Annuity Contract may terminate the contract with at least 60 days advance written notice to the other party. The contract termination date shall be any business day on or after the expiration of the 60-day notification period. Events that limit the ability of the Plan to transact at contract value with the issuer are premature termination of the contract by the Plan, plant closings, layoffs, plan termination, bankruptcy, mergers, and early retirement incentives. There are no reserves against contract value as of December 31, 2013.

For 2013, the approximate average yield for the fund based on actual earnings credited to the Plan and the average yield credited to participants was 1.26%.

NOTE 8 - COMMON COLLECTIVE TRUST FUNDS

The State Street common/collective trust funds held by the plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts.

The Invesco Stable Asset Fund is fully benefit-responsive and fair value approximates contract value in 2013 and 2012. The average yield to the Plan and the average yield to participants were approximately 1.22% for 2013 and 0.90% for 2012. The average crediting rate for the fund was approximately 1.30% for 2013 and 1.62% for 2012. Crediting income to the fund is based on the Plan's contract with State Street.

For the SSGA S&P 500 Index Fund, fair value approximates contract value in 2013 and 2012. The annualized yield to the Plan and to the participants for the fund was approximately 28.5% for 2013 and 15% for 2012. There is no crediting rate for the fund.

NOTE 9 - RELATED PARTY TRANSACTIONS

Plan investments are managed by the custodians. Such transactions, while considered party-in-interest transactions under ERISA regulations, are permitted under the provisions of the Plan and are specifically exempt from the prohibition of party-in-interest transactions under ERISA.

NOTE 10 - PLAN TERMINATION AND/OR MODIFICATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA.

NOTE 11 - TAX STATUS

The Plan has adopted a prototype plan, which has received an opinion letter dated March 16, 2010 from the IRS. The Plan has been amended since, however, the Plan Administrator believes that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the

IRC and, therefore, believes the Plan is qualified, and the related trust is tax exempt.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by various taxing authorities and government agencies. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan Administrator believes the Plan is no longer subject to income tax examinations for years prior to 2010.
