NOTES TO FINANCIAL STATEMENTS

Note 1. Plan Description

The following description of the Northwest Framing 401(k) Plan ("the Plan") provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a voluntary defined contribution plan qualifying under Section 401(k) of the Internal Revenue Code ("IRC") to provide benefits for eligible employees of New NWF LLC and Northwest Framing, Inc. (collectively "the Company"). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"), as amended.

Eligibility

Employees are eligible to participate in the Plan after reaching 21 years of age and completion of six months of service. Employees may begin participating on the first day of the month coinciding with or next following the date of eligibility. Employees must also be employed on the last day of the Plan year to participate in non-elective employer contributions for the Plan year.

Contributions

Participant – A participant may elect to defer up to 30% of their annual compensation (as defined in the Plan document), subject to the applicable limits of the IRC. A participant may also contribute amounts representing distributions from other qualified plans ("rollovers from other qualified plans").

Matching – The Company may make a discretionary matching contribution computed based on eligible compensation contributed to the Plan each payroll period. There were no discretionary matching contributions for the year ended December 31, 2012.

Non-Elective – Each Plan year, the Company may make a non-elective discretionary contribution to the Plan. Non-elective discretionary contributions are allocated to participants' accounts in the ratio that eligible compensation bears to the total eligible compensation paid to all eligible participants. There were no non-elective discretionary contributions for the year ended December 31, 2012.

Contributions are subject to certain other limitations in accordance with the IRC.

Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contribution and (b) Plan earnings and losses, and charged with an allocation of administrative expenses. Allocations are based on participant compensation, participant contributions, or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Participants direct their proportionate share of Plan assets into various investment options offered by the Plan.

Vesting

Participants are 100% vested in their account balance at all times.

Notes Receivable from Participants

Participants may borrow from their accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. The loans are secured by the participants' account balance and bear interest at a reasonable rate to be determined at the time the loan is taken (all loans outstanding at December 31, 2012 and 2011, had an interest rate of 5.75%). The notes are due at various dates from June 2013 to August 2016. Loan terms cannot exceed five years unless the loan is used for the purchase of a principal residence. Principal and interest is paid ratably through payroll deductions. A participant cannot have more than one loan outstanding at any one time. As of December 31, 2012 and 2011, approximately 83% and 74%, respectively, of notes receivable from participants are due from three participants.

Payment of Benefits

Upon termination of service due to death, disability, retirement, or other reasons, a participant or the participant's beneficiary is eligible to receive a lump-sum amount equal to the value of the participant's vested interest in his or her account at the participant's request, if the vested account balance exceeds \$5,000. If the vested account balance at termination of service does not exceed \$1,000, a distribution can be made to the participant in a lump-sum amount at the Company's discretion. If the vested account balance at termination of service is \$1,000 or more but does not exceed \$5,000, a lump-sum amount may be rolled over into an individual retirement plan at the Company's discretion. Distributions can also be made to participants during their employment with the Company if they meet certain requirements (including under certain hardship provisions) as defined within the Plan document.

Administrative Expenses

Administrative expenses relate to Plan administration and custodianship of investments. The Company pays the majority of Plan expenses.

Plan Changes

The Company reserves the right to amend or terminate the Plan at any time. However, no such amendment or termination shall deprive any participant of any vested interest in the Plan. In the event of Plan termination, participants will become fully vested in their accounts.

Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Note 2. Summary of Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared using the accrual method of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires the Plan's management to make estimates and assumptions that affect certain reported amounts and disclosures. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments in mutual funds are valued at fair value based on quoted market prices on the last business day of the year (Level 1 inputs in the below fair value hierarchy). The money market account is stated at cost plus accrued interest. Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Interest is recorded on the accrual method.

Fair Value Measurements

Fair value is defined as an exit price, representing the amount that would be received to sell an asset or be paid to transfer a liability in an orderly transaction between market participants. As such, fair value is a market-based measurement determined based on assumptions that market participants would use in pricing an asset or liability. There are three levels which prioritize the inputs used in measuring fair value as follows:

- Level 1: Observable market inputs such as quoted prices (unadjusted) in active markets for identical assets or liabilities;
- Level 2: Observable market inputs, other than quoted prices in active markets, that are observable either directly or indirectly; and
- Level 3: Unobservable inputs where there is little or no market data, which require the reporting entity to develop its own assumptions.

An asset's or liability's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement.

The following tables present information about the Plan's assets (investments in mutual funds) that have been measured at fair value on a recurring basis as of December 31, 2012 and 2011, and indicates the classification by level of input within the fair value hierarchy described above.

Notes Receivable from Participants

Notes receivable from participants are stated at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan document.

Contributions

Contributions from participants are recorded in the period in which they are withheld from the participant's compensation. Matching contributions from the Company are recorded in the period in which the related participant contributions are recorded. Non-elective discretionary contributions from the Company are recorded in the Plan year to which they relate.

Payment of Benefits

Benefit payments to participants are recorded when paid.

Subsequent Events

Subsequent events have been evaluated through the date these financial statements were available to be issued, which was the same date as the independent auditors' report.

Note 3. Investments

Investments representing 5% or more of the Plan's net assets available for benefits at December 31, 2012 and 2011, are as follows:

	 2012 2		2011
Mutual Funds			
Fidelity Freedom 2030	\$ 266,235	\$	245,524

Fidelity Retirement Money Market Fund	160,205		162,422

^{*} Investment represented less than 5% of the Plan's net assets available for benefits.

Note 4. Information Prepared and Certified by Custodian

The following information as of and for the year ended December 31, 2012, included in the accompanying financial statements and supplementary schedule was obtained from data that has been prepared and certified as complete and accurate by the custodian of the Plan, Fidelity Management Trust Company ("Fidelity").

Statement of net assets available for benefits: Investments in mutual funds, at fair value Investment in money market account	\$ 1,325,415 160,205
Statement of changes in net assets available for benefits: Net appreciation in fair value of mutual funds Dividends and interest	133,193 29,754

Note 5. Tax Status

The Plan has adopted a volume submitter prototype plan sponsored by its third-party administrator. The prototype has received a favorable determination letter from the Internal Revenue Service dated March 31, 2008. The Company has not received a determination letter as to the qualified status of the Plan's adoption agreement. However, the Plan Administrator believes the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code.

The Plan's Form 5500 returns are subject to examination by the U.S. Department of Labor and other federal authorities for the last two Plan years.

Note 6. Party-in-Interest Transactions

Plan investments at December 31, 2012 and 2011, consist of mutual funds and a money market account managed by Fidelity or its affiliates. Fidelity is the custodian of the Plan assets, and, therefore, transactions with Fidelity qualify as exempt party-in-interest transactions.
